House District 26

RE: Demographic Profile of House District 26

The Strategic Initiatives Group within the Office of Legislative Research and General Counsel has created a detailed demographic profile of the legislative district that you represent. This profile contains summaries of information from the American Community Survey, which is an ongoing nationwide survey that is conducted by the United States Census to produce information on social, economic, housing, and demographic characteristics. The information from the American Community Survey contained in this profile was obtained between January 1, 2014 and December 31, 2018, making it the most recent, accurate, complete information available.

The Strategic Initiatives Group was created to conduct long-term strategic planning to inform policy analysis on issues of statewide concern for decades to come. We hope the 2020 profiles prove helpful as you not only identify trends and issues but also as you evaluate proposals that are intended to benefit the constituencies within your district. This profile not only provides detailed demographic information about the constituents within your district, but it also provides a comparison of this information to other legislative districts and to the statewide average.

After redistricting, when legislative districts are redrawn, we will produce profiles of the new districts. This 2020 profile may be useful then, as a comparison to your new district. However this profile is used, we hope it adds value to your legislative service.

Additionally, the American Community Survey contains a great deal of information that cannot be included in a profile of this length. In truth, the American Community Survey contains more than a thousand tables, with dozens of fields each. Moreover, the United State Census Bureau conducts other surveys in addition to the American Community Survey. Please let us know if you have a question about your district that is not answered in this profile. Perhaps we can find the answer in Census data that is not used here.

Finally, if you have an idea about how the Strategic Initiatives Group may benefit the Legislature, please let us know.

Kind Regards,

Jerry Howe
Strategic Initiatives Manager

Figure 20.2 - POVERTY
Percentage of Total Households in Poverty

(This data is not included in Figure 20.1; same data presented in Figure 20.3; additional data in Table 20 of the appendix)

* For a family household, a household is classified as in poverty when the total income of the householder's family is below a poverty threshold. For nonfamily households, the householder's own income is compared with the appropriate threshold. The poverty threshold varies based on family size, number of children, and, for one- and two-person households, age of the householder.

Percentage of Households in Poverty That Do Not Receive Food Stamps

(Second category in Figure 21.1; same data presented in Figure 21.3; additional data in Table 21 of the appendix)

*Eligibility for the federal food stamp program now known as SNAP (Supplemental Nutrition Assistance Program) is both income and asset based. A household's gross income must be less than 130% of poverty and the household's net income must be less than 100% of poverty. In addition, the household must have less than \$2,000 in assets. For households with elderly or disabled members, the asset limit is \$3,250.

(First category in Figure 23.1; same data presented in Figure 23.3; additional data in Table 23 of the appendix)

* A house detached is a 1-unit structure detached from any other house, that is, with open space on all four sides. A house attached is a 1-unit structure that has one or more walls extending from ground to roof separating it from adjoining structures. A house attached includes a duplex, twin home, or townhouse. An apartment is a unit in a structure containing two or more units that are not a house attached.
