RULES OF THE SENATE

TENTH LEGISLATURE OF THE STATE OF UTAH.

As adopted January 15, 1913.

1. A majority of the Senate shall constitute a quorum, but a smaller number may adjourn from day to day, or for less time than one day, and may compel the attendance of absent members.

2. The Senate shall keep a Journal of its proceedings, which shall be published at the close of the session. At the request of three members the ayes and nays shall be taken on any question and entered on the Journal.

3. The Senate may punish its members for disorderly behavior, and with the concurrence of two-thirds of all the members elected expel a member for cause; and the reason for such expulsion shall be entered upon the Journal, with the aye and nay vote of the members.

4. The Senate, during its session, may punish by imprisonment any person, not a member, who shall be guilty of disrespect to the same, by any disorderly or contemptuous behavior in its presence; but such imprisonment shall not at any time exceed twenty-four hours, unless the person shall persist in such disorderly or contemptuous behavior.

5. The sessions of the Senate, except those while it is sitting in executive session, shall be public; and it shall not without the consent of the House of Representatives adjourn for more than three days, nor to any other place than that in which it may be holding session.

6. The enacting clause of every law shall be: "Be it enacted by the Legislature of the State of Utah," and no bill or joint resolution shall be passed, except with the consent of a majority of all the Senators elected. On the final passage of all bills the vote shall be by ayes and nays, upon each bill separately, and shall be entered upon the Journal; and no law shall be revised or amended by reference to its title only; but the act as revised, or section as amended, shall be re-enacted and published at length.

7. Except general appropriation bills, and bills for the codification and general revision of laws, no bill shall be passed containing more than one subject, which shall be clearly expressed in its title.

8. The president, in the presence of the Senate, shall sign all bills and joint resolutions passed by the Legislature, after their titles have been publicly read immediately before signing, and the fact of such signing shall be entered upon the Journal.

9. Every bill shall be read three times, but the first and second reading may be on the same day. On the final passage of a bill the President shall immediately put the question, "Shall the title of the bill be the title of the act?"

10. The President, or in his absence, the President pro tempore, or, in the absence of both, any Senator called to the chair by the Senate, shall take the chair every day precisely at the hour to which the Senate shall have adjourned; shall immediately call the members to order,

and on the appearance of a quorum shall cause the Journal of the preceding day to be read.

11. The presiding officer shall preserve decorum and order, and may speak to points of order, in preference to other members, rising from his seat for that purpose, and shall decide questions of order, subject to an appeal to the Senate by any member; on which appeal no member shall speak more than once, unless by leave of the Senate.

12. The presiding officer shall rise to put a question, but may state it sitting.

13. Questions shall be put in the following form, viz: "As many as are in favor of ((as the case may be) say aye," and after the affirmative vote is expressed, "as many as are opposed say no." If the President doubts the result of a vote, or a division be called for, the Senate shall divide; those in the affirmative shall first arise from their seats, and afterwards those in the negative.

14. The President shall have the general direction of the Senate Chamber; he shall have the right to name any member to perform the duties of the chair, and such substitute shall be vested with all the powers of the President during the time he shall act as such.

15. In case of any disturbance or disorderly conduct in the lobby or gallery, the President shall have the power to order the same to be cleared.

16. The President shall assign to the officers and employees of the Senate their respective duties, stations, and shall have general supervision over them.

16a. The Sergeant-at-Arms shall have supervision over the Assistant Sergeant-at-arms, doorkeepers, mes-

sengers, watchmen and janitor, and he shall preserve order in the lobby, guard the floor from intruders; and he shall report each day to the President the absence or late arrival of any employees of the Senate.

16b. The Secretary shall have supervision over all employees not under the supervision of the Sergeant-at-arms, except the engrossing clerk or clerks. There shall be a record kept of the attendance of all employees, by an employee or employees designated by the President. Any employee absenting himself or herself without the consent of the President shall not be paid for the day or days of such absence; and there shall be a record kept of all leave of absence granted.

17. When any member is about to speak or deliver any matter to the Senate, he shall rise from his seat and address himself to "Mr. President," and shall confine himself to the question under debate and avoid personalities.

18. When any member, in speaking (or otherwise) transgresses the rules of the Senate, the President shall, or any member may call him to order, in which case the member so called to order shall sit down, unless permitted to explain; and the Senate, if appealed to, shall decide on the case without debate. If the decision be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, and the case requires it, he shall be liable to the censure of the Senate.

19. If two or more members rise at once, the President shall name the member who is first to speak.

19a. If any member be called to order for words spoken in debate, the person calling him to order shall repeat the words excepted to, and they shall be taken down by the Secretary; but no member shall be held to answer or be subject to the censure of the Senate for

words spoken in debate, if any member has spoken in debate, or other business has intervened after the words spoken and before exceptions to them shall have been taken.

20. No member shall speak more than twice to the same question, nor more than once until every member choosing to speak shall have spoken, without the consent of the Senate.

21. While the President is putting the question, or addressing the Senate, no member shall walk out of or across the room; nor in such case, or when a member is speaking, shall enter into private discourse, nor when a member is speaking shall pass between him and the chair.

22. Every member who shall be in the Senate when a question is put shall give his vote, unless the Senate shall excuse him.

23. No member shall be permitted to vote on any question, unless within the bar before the vote is announced.

24. When a motion is made and seconded, it shall be stated by the President, or, being in writing, shall be handed to the Secretary, and read aloud before debate.

25. Every motion shall be reduced to writing, if the President or any members desire it.

26. When the ayes and nays shall be taken on any question, no member shall be permitted to vote or to change his vote after the decision is announced from the chair, unless by the two-thirds vote of Senators present and voting.

27. After a motion is stated by the President, or read by the Secretary, it shall be deemed in the possession

of the Senate, but may be withdrawn at any time by the unanimous consent of the Senate, before decision.

28. When a question is under debate, no motion shall be received, but:

To fix the time to which to adjourn.
To adjourn.
To call the Senate.
To lay on the table.
To postpone indefinitely.
To postpone to a day certain.
To commit or to amend.

Which several motions shall have precedence in the order in which they stand arranged.

29. A motion for adjournment shall always be in order, except when the roll is being called, and be decided, as well as the motion to lay on the table, without debate.

30. No motion to postpone to a day certain or indefinitely, or to commit, being decided in the negative, shall again be allowed on the same day.

31. A motion to strike out the enacting clause of a bill shall have precedence of a motion to amend, and if carried, shall be deemed equivalent to the rejection of the bill.

32. When a blank is to be filled and different sums or times are proposed, the questions shall first be put on the largest sum and the longest time.

33. No person shall be permitted to smoke in the Senate Chamber, or to give any sign of approbation or disapprobation while the Senate is in session.

OFFICERS' DUTIES.

34. It shall be the duty of the Secretary to keep a journal, in which he shall seasonably record the motions, resolutions, rules, and decisions of the Senate, and to do and perform all such other acts appertaining to his office as may be required of him by the Senate or its presiding officer.

35. It shall be the duty of the Sergeant-at-arms to attend the Senate during its sittings, to execute the command of the Senate from time to time, together with all such process, issued by order of the Senate, or any committee thereof, which shall be signed by the President.

STANDING COMMITTEES.

36. The following standing committees shall be appointed by the President:

Agriculture and Irrigation, seven members.
Appropriations and Claims, seven members.
Banks and Banking, seven members.
Contingent Expenses and Printing, three members.
County and Municipal Corporations, seven members.
Education, seven members.
Engrossing and Enrolling Bills, three members.
Fish, Game and Forestry, seven members.
Highways and Public Lands, seven members.
Judiciary, seven members.
Live Stock, five members.
Manufactures and Commerce, seven members.
Mines and Mining, five members.
Private Corporations and Insurance, five members.
Public Health and Labor, seven members.
Public Institutions, seven members.
Railroads, seven members.
Rules, three members.
State Affairs and Federal Relations, seven members.

37. The following named committees shall have leave to report at any time on the matters stated, viz: Business; Committee on Engrossed and Enrolled Bills, on Enrolled Bills.

38. It shall always be in order to call up for consideration the report of the Committee on Rules.

39. No committee except the Committee on Rules shall sit during the sitting of the Senate, without special leave.

PRACTICE.

40. All resolutions presented to the Senate shall lie one day on the table.

41. Six typewritten copies of every bill, resolution or memorial shall be furnished the Secretary by the members introducing the same.

42. If the question in debate contains several points, any member may have the same divided; but on motion to strike out and insert, it shall not be in order to move for a division of the question; but the rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition.

43. When a question has been once made and carried in the affirmative or negative, it shall be in order for a member of the majority to move for a reconsideration thereof; or give notice that he will make such motion within the time prescribed by the rules, for which time he shall control the motion. No motion for reconsideration shall be in order, unless made within the next day of actual session of the Senate; provided, that should the member giving notice of a motion to reconsider not make such a motion within the time prescribed by the

rules, any other member voting with the majority may make such motion within the next succeeding legislative day. Such motion shall take precedence of all other questions except a motion to adjourn.

44. A bill may be referred to a committee without reading, but shall be read before being amended, and may be amended in every particular on second reading. A bill read once and referred shall be read a second time before being amended.

45. Amendments shall be in order at the third reading of a bill, resolution or motion requiring three readings, and it shall be at all times in order, before the final passage of such bill, resolution, or motion, to move its commitment or recommitment.

46. Two hundred copies of every bill, joint resolution, and memorial shall be printed when ordered by the committee to whom referred, and all bills shall be printed before second reading.

47. When motions are made for reference of the same subject to a select committee, and to a standing committee, the question of reference to a standing committee shall be put first.

48. Any five Senators may make a call of the Senate and require absent Senators to be sent for, but a call of the Senate cannot be made after the voting has commenced; and a call of the Senate being ordered, the doors shall be closed and the absentees noted, and no Senator permitted to leave the room without the consent of the President, until the report of the Sergeant-at-arms be received and acted upon, or further proceedings in the call be suspended, or the Senate adjourn. Previous to the reception of such report, further proceedings in the call shall not be suspended, except by the vote of two-thirds of the Senators present.

49. No amendment, by way of rider, shall be received to any bill on its third reading.

50. The rules of parliamentary practice, comprised in Roberts' Rules of Order, shall govern the Senate in all cases to which they are applicable and in which they are not inconsistent with the standing rules and orders of the Senate.

51. A motion to commit, until it is decided, shall preclude all amendments and debate on the main question, and a motion to postpone indefinitely or to a day certain until it is decided, shall preclude all amendments on the main question.

52. Upon the motion to reconsider the vote on the final passage of any bill, a majority of all the members elected shall be required to reconsider the same.

53. If a bill shall fail to pass on account of not having received the constitutional majority, any Senator having voted in the negative shall have a right to move a reconsideration.

54. No motion or proposition on a subject different from that under consideration shall be admitted under color of amendment.

55. No rule of the Senate shall be altered, suspended or reconsidered, without the vote of two-thirds of the members present.

56. No person, except members of the House of Representatives and their officers, members and ex-members of Congress, heads of Executive Departments of this State, Chaplains, Judges of the United States Courts, and Supreme and District Judges of this State, former Governors and ex-members of the Legislature,

members of the Constitutional Convention, and the Mayor and City Commissioners and general field and staff officers of the National Guard of Utah, and officers of the United States Army, and reporters of the press, shall be admitted to the floor of the Senate unless by leave of the President, or on special invitation of a member.

57. The daily Order of Business shall be as follows:

1. Roll Call.
2. Prayer by the Chaplain.
3. Reading of the Journal.
4. Presentation of Petitions.
5. Reports of Standing Committees.
6. Reports of Select Committees.
7. Presentation of Resolutions.
8. Introduction of Bills.

After the daily order of business shall have passed the following general order of business shall be observed:

1. Reading bills of the Senate the third time.
2. Reading bills of the Senate the second time.
3. Reading bills of the Senate the first time.
4. Reading bills from the House of Representatives the third time.
5. Reading bills from the House of Representatives the second time.
6. Reading bills from the House of Representatives the first time.
7. Consideration of resolutions.
8. Miscellaneous business.

The item of unfinished business in which the Senate was engaged at the last preceding adjournment shall have the preference in the general order of business, and when the Senate shall have passed from one order to another no action shall be had upon the orders passed

except by leave of the Senate, and to give this leave two-thirds of the Senators present must concur.

Messages from the House of Representatives may be received at any time except when the President is putting the question, or the ayes and nays are being called, and upon motion, may be considered at any time.

58. The previous question shall not be entertained or be a rule of practice in the Senate.

EXECUTIVE COMMUNICATIONS AND NOMINATIONS.

59. Messages from the Governor and communications from State officers may be received at any time, except when the President is putting the question and the yeas and nays are being called, and upon motion, may be considered at any time. The other executive business shall take place with closed doors.

60. Nominations may be referred to a standing or select committee. On considering nominations the President shall put the following question: "Does the Senate advise and consent to the nomination just made?" While any nomination remains with the Senate, it shall be in order to reconsider any vote taken thereon.

61. Action on all appointees made by the Governor for confirmation by the Senate shall be deferred one day from the time any designated appointment or appointments are received by the Senate.

HOURS OF MEETING.

62. Until otherwise ordered, the regular hour of meeting of the Senate shall be at 2 o'clock p. m. daily, Sundays excepted.

STATE OF UTAH.
EXECUTIVE OFFICE.

Salt Lake City, January 14, 1913.

To the Legislature—The law imposes upon the Executive the duty of advising the Legislature, by message, of the condition of the State. It is in compliance with the direction of the statute, therefore, that I present this, the Tenth Executive Message to the Legislature of Utah:

FINANCIAL.

During the year 1911 the revenue of the State from taxation was $1,490,906.70, derived through an eight mill levy on an assessed valuation of $194,364,660.00. For the year 1912, on an assessed valuation of $200,299,207.00, the State will receive $1,442,154.32, based on the levy of seven and one-half mills, allowing 4 per cent for uncollectable taxes, etc. The State revenue from tax sale redemptions on sales made prior to 1912, during the years 1911 and 1912, was $47,532.90, making a total revenue from taxation for the years 1911 and 1912 of $2,980,593.92. Of this amount the State receives for state purposes $1,183,009.74, the balance, $1,797,584.18, being apportioned to the district schools, the high schools and the higher educational institutions. For the years 1911 and 1912 up to November 30, 1912, the State received as general revenue from sources other than taxation (and exclusive of the public lands funds and income to certain special funds) the following:

Fees State officers	$ 406,361.54
Inheritance taxes	1,290,370.27
Other sources	42,227.18

Making a total of $1,738,958.99, which, added to its share of the receipts from taxation, ($1,183,009.74) makes a total of $2,921,968.73, for the State for general State purposes. The actual expenditure to November 30, 1912, was $2,337,584.12, leaving a difference of $584,384.61. Under direction of law and pursuant to Legislative appropriation there is yet to be expended during the calendar year 1912, $425,000.00, and the balance of the capitol appropriation of $740,000.00 must be regarded as an expenditure yet to be met from the general funds of the State. During the month of December, after the close of the fiscal year, and within the calendar year, certain moneys were credited to the general revenue of the State, received from sources other than taxation, so that, at the end of the calendar year 1912 it will doubtless develop,

with the settlement of all accounts, that the expenditures for the calendar years 1911 and 1912 will exceed the revenues.

From estimates furnished on request of the State Auditor from the heads of departments, state institutions, etc., the estimated expenditures for calendar years 1913 and 1914 will exceed the estimated revenue $1,156,278.16, the estimated expenditures being $3,257,435.28 while the estimated revenue is $2,101,157.12.

The total expenditures from the general fund for the fiscal years 1911-12 aggregate $2,337,584.12; the estimated expenditures for the calendar years 1911-12, as per auditor's report for 1909-10 were $2,991,541.25, but taking account of unexpended balances December 1, 1912, which will be expended during December, 1912, and later, the estimated expenditures for the years 1911-1912 will fall short of the actual expenditures.

From the foregoing statement you will observe that of the entire tax revenue of the State for the years 1911-12, ($2,980,593.92), $1,797,584.18 was devoted to the district schools, and high schools, and to the higher educational institutions as a maintenance fund. The Legislature of 1911 appropriated certain sums for educational purposes, in addition to the above, for the University, the College, including the power plant, Farmers and Domestic Science Institutes, agricultural demonstration, etc., the Branch Normal, the School for the Deaf and Blind, Industrial School, School for Feeble Minded, and State aid to certain school districts, all of which, together with deficits and purchase of land for certain of the educational institutions, approximate $485,000.00, making a total of $2,282.584.18, devoted to education from a total tax revenue of $2,980,593.92, and this calculation is exclusive of the proceeds of a $300,000.00 bond issue appropriated to the University for a Central building.

That I may present this matter to you concretely, permit me to summarize. The following statement segregates income and expenditures on the calendar year

basis, except as to expenditures for schools, which are made during school year periods:

General taxation income, 1911	$1,490,906.70	
General taxation income, 1912	1,442,154.32	
Income from tax sale redemptions on sales made prior to year 1912	47,532.90	
Total from General Taxes		$2,980,593.92
Credited to district school fund (3 mills); High School fund (½ mill) and University of Utah, Agricultural College and Branch Normal School (28 per cent of balance remaining)		1,797,584.18
Balance for General State purposes		$1,183,009.74

Appropriations by Legislature of 1911 for educational purposes; 1911-12:

Power plant, Agricultural College with deficit	$ 60,000.00
Gymnasium	50,000.00
Farmers' and Domestic Science Institutes	20,000.00
Agricultural demonstrations	30,000.00
Panguitch Experiment station	2,500.00
State Board of Education	1,200.00
State School for Deaf and Blind	91,750.00
University of Utah	6,500.00
Branch Normal School	1,350,00
State Industrial School	145,000.00
School for the Feeble Minded	20,000.00
Aid to certain school districts	10,000.00
Expended by Board of Examiners from fund appropriated for purchase of land for State institutions:	

State School, Deaf and Blind....	7,425.80	
University of Utah	1,575.00	
Industrial School	13,175,00	
(Deficit for land)	7,000.00	
U. of U. deficit	6,250.00	
Interest on University bonds 1912	12,000.00	$485,725.80
Balance remaining for all other State purposes...		$697,283.94

With the less than 25 per cent of the general tax revenue remaining and with revenue from sources other than taxation, the State has maintained all State institutions, other than educational, all State departments and met the incidental expenses of government, including the setting aside of redemption funds and the interest on State bonds, as well as provided the funds for road work.

Since the 1911 session bond issues of $260,000 for road purposes and $300,000 for construction of University Central building have been negotiated, bringing the total bonded indebtedness of the State to $1,210,000.00, as follows:

1896 Series No. 4, dated July 2, 1896, 4 per cent.	$200,000.00
1898 Series No. 5, dated September 1, 1898, 3½ per cent.	150,000.00
1900 Series No. 6, dated July 1, 1900, 3¼ per cent.	300,000.00
1911 Series No. 7, dated July 1, 1911, 4 per cent.	260,000.00
1911 Series No. 8, dated July 1, 1911, 4 per cent	300,000.00

These bonds necessitate annual interest of $45,400.00 and toward their respective redemption funds there must be set aside at this session $130,000.00.

The Legislature of 1911 authorized the refunding of the Territorial bond issue of 1892 in the sum of $250,-

000.00, falling due July 1, 1912, the proceeds to be set aside for capitol building purposes. The board of loan commissioners paid and retired this issue at maturity, saving to the State the $6,250.00 appropriated to cover interest on the re-issue July 1, to December 31, 1912. This action was taken for the reason that there was no immediate necessity for the funds for capitol building purposes. None of the bonds authorized for the capitol building have been issued by the board of loan commissioners and none will be issued until the actual necessity arises therefor. I have every reason to believe that by careful management the necessity will never arise. In addition to the savings enumerated, the Board has maintained the investment of the public buildings fund, so that instead of converting the securities, as authorized and directed, these funds are still earning interest for our public buildings.

In connection with the handling of the capitol funds, I am pleased to state that the $750,000.00 appropriated for capitol building purposes has been left in the general fund account and checked against by the capitol commission only to meet the preliminary expenses of the capitol building. The presence of this large amount in the general fund has enabled the State to conduct its business on a cash basis and obviated the necessity of meeting the expense of temporary overdrafts—a necessity which arose during a portion of every calendar year since statehood, prior to 1911. By reason of this arrangement the $10,000 appropriated in 1911 to cover interest on overdrafts remains intact.

The road and University bonds were not issued until November 18th and December 17th, 1911, four and one-half and five and one-half months, respectively, after their authorization; and then only because the absolute necessity had arisen for the proceeds in meeting obligations already contracted in promoting the objects for which the bond issues were authorized. The bonds were sold at par and accrued interest, so that $9.500.00 of the $33,600.00 appropriated to meet interest July 1, 1911, to December 31, 1912, remains in the treasury.

REVENUE AND TAXATION.

It is apparent from the foregoing statement that the most important matter that will engage your attention during the present session is the question of revenue. For this subject I bespeak your most thoughtful consideration.

Under our system, the State depends primarily for its revenue upon a plan of taxation that contemplates a uniform and equal rate of assessment and taxation on all property in the State, with certain exemptions, according to its value in money so that every person and corporation shall pay a tax in proportion to the value of his, her or its property.

In every Executive message to the Legislature since statehood attention has been called to the inadequacy of our laws and the laxity in their application in effecting throughout the State a uniform and equal taxation in proportion to the value of individual and corporate holdings. Special stress was laid upon this subject two years ago by the board of equalization in its biennial report and the matter was strongly urged upon the Legislature as an object worthy its careful consideration. The Legislature investigated the subject thoroughly and concurring in the recommendations made as affording the necessary means for equalizing the tax burden, passed the required resolutions for submitting the proposed amendments to the vote of the people, providing in the meantime for the creation of a commission on revenue and taxation to be appointed by the Governor, which commission was charged with the duty of investigating the revenue and taxation system in this State and in the various states of the Union, including the reports of expert tax commissioners, and reporting to the Legislature of 1913 with its recommendations for adoption in this State.

Through a campaign of perversion, misrepresentation and self-interest on the part of certain individuals and corporate interests who saw in the adoption of the amendments a certainty that they would be brought to bear an equal burden of the taxation of the State, the proposals were lost, and, aside from the advantage of pos-

sessing the comprehensive report of the State board of revenue and taxation which is seriously limited because of the defeat of the amendments—upon the adoption of which was based very largely their research and planning —you find yourselves very much in the same position in which previous legislators have found themselves, viz., perfectly cognizant of the fact that inequality, if not rank injustice, permeates our taxation system; without the power to do what is universally recognized should be done, besieged for relief by those who are over-taxed and face to face with the problem of making a $1.00 bill meet a $1.30 necessity without placing an additional burden on the individual who provided the dollar.

Here is one of the iniquities of our taxation system in a nutshell: Jones has $1,500, purchases a lot for $1,000, borrows $1,500 and erects a $2,000 home. Comes then the assessor and fixes the value of house and lot for assessment purposes at 50 per cent its actual value, or $1,500. The assessor steps inside and assesses the household furniture (that is perchance being purchased on the installment plan) at say $200 and Jones pays at a levy rate varying from twenty-five to fifty-six mills, according to his location in the State. The man who owns the mortgage has a first lien on Jones' property for one-half its total value. Under the constitution the mortgagee's equity is nontaxable. But Jones is assessed at the actual cash value of his equity and bears the entire burden of taxation because he fulfills one of the highest civic obligations and lives up to a decent standard of American citizenship by improving his holdings. Brown has $1,500; invests it in five shares of corporate stock of the par value of $100 per share but selling at $300. For every dollar he pays for that stock the corporation has at least a dollar in gilt edge security. If the corporation happens to be capitalized for $100,000 it has $300,000 in assets to bring the market price. There are certain financial corporations in which he could invest which hold among their assets real estate, let us say for comparative purposes, valued at $90,000, and stocks and bonds valued at $110,000. Chances are you will find the real estate listed in the statement of the in-

stitutions at a ridiculously low figure and the $110,000 in stocks and bonds carried at par and not market value. When the statements of such corporations are filed for assessment purposes, however, you will find claimed as an offset to the capital of $100,000 about $50,000 deducted for real estate after which a further reduction of about 25 per cent is made by the assessor, presumably to make the assessment uniform with other property, the reduction being made on an erroneous assumption that a correct return of values has been made, so that but $25,000 is left for assessment purposes, or one-twelfth the actual value of the stock. And in the meantime Brown draws dividends and the company pays his taxes. Of course, if the institution has surplus and undivided profit accounts (for I refer to banking concerns), the proportion of tax is greater. But such accounts being subject to taxation are rarely allowed to accumulate by some institutions, being wiped out by special and extra dividends, and in such emergencies as arise about assessment time, they are cleared from the books by cross entries that result in the obliteration of the profit and loss account and the corresponding reduction of the real estate and stocks and bonds accounts. So that we have institutions carrying on their books listed as resources "real estate" and "stocks and bonds" accounts that represent but a fraction of the value fixed thereon for assessment purposes, and, I may add, we have mercantile institutions carrying stock inventories for assessment purposes that represent but a fraction of the actual value of the merchandise on hand. While all this is going on we have other banking institutions that are fair in carrying capital, surplus, and undivided profit accounts, with very little real estate to offset, and such institutions are assessed in proportion to value very close to real estate.

From the following figures you will gain an idea, also, of the manner in which individuals escape taxation on money and solvent credits. According to National and State consolidated bank statements published near the close of the year 1911, and just prior to the time for levying 1912 assessments, there were commercial and savings

deposits in the National and State banks amounting to $55,821,419.31, yet $7,500,695.00 only of money and solvent credits were returned in the entire State for assessment purposes in 1912.

What applies to banks and individuals who have bank deposits, in dodging taxation, applies equally to other corporate interests in the State that follow the practice with the assistance of expert tax agents, with the result that while visible property, including real estate and improvements and visible personal property, fall under a heavy burden of taxation, the invisible, or so-called intangible revenue producing investments, escape bearing their just proportion. The express object of one of the constitutional amendments (in line with the most advanced ideas on taxation of intangible property) was to secure exemptions for the overburdened taxpayer whose property, including personal property, is wholly visible; and to so classify intangible, low interest bearing securities that this property, which now wholly escapes taxation, (although the law provides for its taxation) could be assessed at a lower rate and thereby become a factor in bearing the burdens of taxation for the State. The fact is that the only property of this nature which cannot escape taxation is property in probate where the entire property including money and interest bearing securities is assessed at a uniform rate. In states where the system has been adopted practical experience has demonstrated that evasion has been minimized and even at a low tax rate the revenues have been increased while the moral phase of the matter has undergone a decided change for the better, it being no longer necessary for business ethics to differ from ethics governing taxation.

It is mere bosh for people to inform you that the State board of equalization can remedy this condition. While the board has power and does fix the value for assessment on our public utility corporations and the net proceeds of mines, what can the board do when it finds a county assessment on real estate varying from 10 to 70 per cent of actual value? It has power only to equalize between counties and has no power to equalize individual

assessments within the county. It is obvious, therefore, that an arbitrary increase in a particular class of property within the county will but emphasize the unfairness of the assessment since the property assessed at 70 per cent its actual value must be raised along with the property in the same class assessed at 10 per cent its actual value, and, taking the two figures as sample percentages, if the high one were raised 30 per cent it would be paying on a 91 per cent basis of value while the low one would be paying on the basis of 13 per cent and thus the iniquitous condition would be exaggerated.

The unfairness of the system falls particularly on the State in its interest in taxation. The local assessors are practically the sole arbiters of individual obligations of citizenship in so far as those obligations involve responsbility in producing revenue—a condition that should never be permitted to prevail.

Unreasonable participation in the proceeds of the public utilities tax, places some counties in such financial circumstances that local assessments and levies are ridiculously low, while total lack of participation by certain other counties, necessitates a high percentage of value for assessment purposes and a high rate of levy. In the first instance low assessments reduce the income to the State, even though expenses for local government may be easily met with the revenues under reduced assessment and levies. In the second instance the people are bearing an unjust tax in proportion to the value of their property. Yet the county that gets the large income from the public utility tax and pays proportionately small tax to the State participates fully in the distribution of the three mill district school fund and the one-half mill high school fund set aside from the seven and one-half mill state levy.

I have already stated that much of the study and research of the commission on revenue and taxation was done with the expectation that the proposed amendments would be accepted and its preliminary report was based largely on this expectation. The amendments failed, however. and the commission cannot at this time place before you for your consideration the bills originally intended to

reconstruct our taxation system. Its report with suggested legislation will be presented to you. The report is comprehensive and goes into this matter of taxation more fully than any other State document on this subject. It is proper that I should call your attention to the fact that it is for this commission, pursuant to the provisions of the law by which it was created, to report to you its findings and recommendations relating to this important matter. The comment which I make is made from the standpoint of one who has had opportunity to observe the practical operation of our taxation and revenue laws. My interest in this matter is not selfish—neither from the standpoint of a public official, nor a tax paying resident. my sole desire is to secure a readjustment of the tax system so that the burden will be equalized. And whatever laws can be passed should be adopted without regard to persons or interests.

EDUCATION.

What Utah is doing along educational lines is fully set forth in the reports of the State Superintendent of Public Instruction, the University of Utah, the Agricultural College, and the State School for the Deaf and the Blind.

In so far as the State is concerned the district schools, the high schools, the University of Utah, the Branch Normal School and the Agricultural College are now established on a fixed and permanent income basis, the district schools receiving three mills, the high schools one-half mill and the higher institutions 28 per cent of the balance of the State tax levy, for a fixed maintenance income.

The report of the State Superintendent discloses a remarkable interest in education in the State, as reflected in the expenditures for the elementary and high schools. For the biennial period ending June 30, 1912, the total expenditure was $7,697,304.62. The per capita expenditure for the last school year, based on a school population of 111,331, was $35.88.

In his report the State Superintendent advances excellent reasons for the consolidation of school districts,

pointing out the advantages that have come to those sections of the State where consolidation has been effected. He calls attention to the fact that at the close of the last school year, $41,906.50 of the State and county school funds remained on hand—largely in unconsolidated districts. Two years ago the attention of the Legislature was called to a similar condition where certain school districts, after meeting all expenses, were hoarding school funds. At the same time certain other sections of the State were calling upon the Legislature for special appropriations to insure the operation of their district schools during the entire school year. In this connection, I urge that no appropriations be made from the general fund of the State to meet strictly school district expenditures.

Many school buildings have been erected and remodeled during the past two years, at a cost of $1,370,375.39. In connection with the erection of school buildings, the commission created to pass upon plans and specifications has taken an active part, revising plans to the end that lighting, heating and ventilation be carefully safeguarded in all buildings. The suggestion that provision be made whereby the commission may extend the scope of its activities to include careful inspection of all buildings in course of construction, to see to it that its recommendations are carried out, is an excellent one. Every possible precaution should be taken to insure the best possible school buildings.

During the past two years thirty-two high schools have met the required standard and are participating in the State high school fund provided by the last Legislature. Through the extension of State aid the high school work of the State has had a decided growth.

The establishment of public libraries has been carried on with excellent results and today the State has twenty public libraries built and established at comparatively slight cost to the taxpayers. Much headway has been made in the movement looking toward the health of the child. Aside from compliance with the requirements of law relating to the construction of school buildings, the provisions of the bill requiring examination of school

children for defective sight have been carried out and lessons in sanitation, cleanliness and health preservation have been given.

Altogether the report of the State Superintendent shows a most satisfactory condition of our educational affairs and his recommendations for the continued improvement of our already excellent system are worthy your careful consideration.

UNIVERSITY OF UTAH.

At the 1911 session of the Legislature, the University was placed on a so-called permanent income basis through the adoption of a measure giving to the higher educational institutions 28 per cent of the net revenue to the State through taxation as a maintenance fund.

By Legislative provision, three and one-half mills of the general levy are set aside for district and high school purposes and in the balance of the State levy as a higher educational maintenance fund, the University, the Agricultural College and the Branch Normal School participate to the extent of 28 per cent., distributed to the institutions on the following basis: University, 64.43 per cent.; Agricultural College, 28.34 per cent.; Branch Normal School, 7.23 per cent. At the time the maintenance bill was before the Legislature it was urged that even thought the percentage allowed would mean, in the beginning, a sacrifice to the institutions in their respective maintenance funds, it would have the merit of establishing a fixed and dependable revenue and permit the institutions to grow with the State through a given percentage of its income.

In 1912 the tax levy for State purposes was reduced one-half mill, which resulted in the higher institutions falling short of the income estimated. For the school years 1911-12 and 1912-13, based on its total participation in tax revenue, the University is compelled to operate on a maintenance fund but slightly in excess of the maintenance fund provided for the previous biennial period. On the other hand, the Agricultural College, through its per-

centage of participation in the tax revenue for higher institutions, makes a substantial gain in maintenance revenue during the school years 1911-1912 and 1912-1913 over the previous biennial period. The Branch Normal School, under the plan of distribution and the contingencies which have arisen, finds itself with a maintenance fund for the present biennial period about equal to the appropriation for the previous biennial period.

The regents of the University urge in their report the substitution of the existing income law by a bill providing for a fixed and permanent income of nine-tenths of one mill for the University and one-tenth of a mill for the Brach Normal School, for maintenance purposes. In this suggestion I cannot concur. It is obvious that as the total assessed valuation of the State rises, the levy must be correspondingly reduced and if a definite portion of the State's revenue, specified in mills, is set aside as a maintenance fund for the higher institutions these institutions will continue to participate at the specified figure, regardless of the fact that the State's participation will be reduced, and instead of growing with the State they will shortly be growing in revenue far beyond the State.

Should the present maintenance law continue in force there are two means by which additional funds could be given these institutions, both reached by slight amendments. One, an amendment extending to them participation in all tax sales redemptions. The other making the participation in yearly state revenue available for expenditure, during fiscal instead of school years. Through such arrangement, the 1912 revenues would apply to 1912 expenditures, and so on. While such arrangement would necessitate a readjustment in the periods for expenditure, it would result in an increase for annual expenditures equal to the amount of unexpended balances as of January 1, 1911. To explain: Such balances were intended to maintain the institutions to June 30, 1911, after which they were to be conducted under the fixed income basis, operating July 1, 1911 to June 30, 1912, on the tax revenues of 1911, and so on. The amendment would result in

reducing the period under which they are to operate on the present fixed income by six months. It is an arrangement, however, against which strong objections can be urged—especially that it upsets the present plan of school income and expenditure during school years, and would doubtless cause inconvenience since the tax revenues for a calendar year are often remitted to the State during the following year.

It has been my observation in the past that the Legislators of Utah have been liberal in their provisions for the educational institutions, and should the law be repealed I have no fear that the University, the College and the Normal School will enjoy the support of this and future Legislatures just as far as the income of the State will permit.

The President and the Board of Regents of the University report excellent progress during the past two years. An increased number of students has been in attendance while the standards have been raised. The President's report reviews the work of the various departments in detail.

In July, 1912, ground was broken for the main building for the University campus, authorized by the Legislature of 1911 and the building is now well under way of construction. It will be fire-proof and substantial and will be ready for occupancy next September.

For buildings the University is asking an appropriation at your hands of $274,600.00 as follows:

Normal building with equipment....	$55,000.00
Auditorium as part of main building	75,000.00
Gymnasium for young women.....	30,000.00
Completion of young men's gymnasium	22,100.00
Heating plant	30,000.00
Custodian's house	3,500.00
Dormitory for women students.....	50,000.00
Electric plant	9,000.00

The following appropriations are requested for improvements at the State Normal School:

For making small lake	$4,000.00
Roof repairs	500.00
Smoke stack extension	350.00
Extra boiler for heating plant	500.00
Barn	1,000.00
Total	$6,350.00

AGRICULTURAL COLLEGE.

Increased attendance and the extension of courses of study at the Agricultural College during the past two years, are taxing accommodations of this institution to the limit. The registration at the college at the present time is 1380, representing an increased registration of 663 over that of five years ago. The number of students of college grade has increased in five years more than three fold, there now being 446 student of this grade.

In his report the president states that they are working toward a gradual elimination of high school work at the college, it being planned to dispense with the first year's work during the coming school year. With the increased number of high schools in the State the elimination of high school work should be effected promptly.

Faculty scholarships have been advanced during the past two years, and special courses have been provided to accommodate those desirous of spending one or two years in preparation for their chosen life work. The agricultural engineering course has been established pursuant to the act of 1911 and the extension division of the college reorganized with headquarters at Logan. Thousands of persons are annually availing themselves of the advantages afforded by this department. The gymnasium has been completed and the power plant is practically installed.

For the ensuing biennial period the Board of Trustees submits the following estimates:

Chemistry building	$65,000.00
Dairy building and equipment	20,000.00
Roof Mechanical Arts building	9,000.00
Shed for farm machinery	2,500.00
Heating plant	23,000.00
Total	$119,500.00

STATE SCHOOL FOR THE DEAF AND THE BLIND.

One hundred thirty-nine pupils are now enjoying the advantages afforded by the State in its school for the Deaf and the Blind. The educational work at the school has been maintained on a high standard and marked advancement is evidenced in speech and lip-reading, in reading and general culture, in music and physical education, in language and the use of English.

During the past two years two fire escapes have been installed, rooms in the annex building finished, a greenhouse constructed and the acreage of the institution increased by the purchase of 135 acres of pasture land.

Increased attendance necessitates additional accommodations for students at this institution and the board urges the erection of a school building and chapel.

Following is their estimate of requirements for the biennial period July 1, 1913, to June 30, 1915:

General maintenance	$ 90,000.00
Renewals and improvements	6,000.00
Libraries	600.00
Barn and live stock	6,000.00
Cottage hospital and furnishings	7,000.00
School building and chapel	75,000.00
Total	$184,600.00

STATE INDUSTRIAL SCHOOL.

Your State Industrial School at Ogden has been under the supervision of a splendid board of control, and the direct management of competent officials, all of whom have taken a deep interest in the welfare of the wayward boys and girls who have found their way into the institution. In exercising restraint and subjecting the inmates of this institution to strict discipline it has been the aim to remove as far as possible every suggestion of enforced confinement and make of the institution a home and a school. A systematic, thorough investigation of the home conditions surrounding those committed has been carried on by the Superintendent through his parole officers and the information thus acquired is incorporated in a very splendid paper by the Superintendent in the biennial report of the institution.

The girls' building has been completed, so that almost complete separation of boys and girls has been accomplished at the institution. The Board of Examiners expended a portion of the funds set aside for the acquisition of land for State institutions for lands and water rights to be used in connection with this institution. Aside from acquiring, through this purchase an excellent water supply, valuable farming and fruit lands have been secured which will be utilized in supplying products for the school and furnishing employment to the boys.

It is gratifying to report a decrease in the per capita cost of maintenance at this institution during the past two years.

I invite your attention to the report of the State parole agent setting forth in detail the results accomplished by the industrial school as reflected in the behavior of those who have left the institution.

The needs of the Industrial School for the next two academic years are set forth by the Board of Trustees as follows:

General maintenance	$ 80,000.00
Instruction	30,000.00
State parole agent and assistant	5,000.00

Equipment, improvements and repairs	20,000.00
Library	500.00
Building	50,000.00
Sewer improvements, etc	5,000.00
Total	$190,500.00

SECRETARY OF STATE.

In his biennial report for the years 1911-12, the Secretary of State renews his recommendation that the present maximum corporation license tax be fixed at $250, and urges that provision be made for a more severe penalty for failure of foreign corporations to comply with the laws of the State relating to such corporations.

Two years ago, as ex-officio bank commissioner, the Secretary of State secured the enactment of a new banking act. The bill passed incorporated all his recommendations except three. The Secretary of State strongly urges the repeal of the present Loan, Trust and Guaranty Act and the enactment of a special law for the organization and regulation of trust companies; a suggestion that I heartily approve.

The duties of the Secretary of State are many and exacting. In the interests of economy the Legislature has from time to time seen fit to impose upon his department much work that ultimately would be conducted under independent departments. By virtue of his office, he is ex-officio a member of some of the most active and important State boards, among them the Board of Examiners, the Board of Loan Commissioners, the Armory Board, the Board of Regents of the University of Utah, the Board of Trustees of the Agricultural College, the State Library Board, and the Capitol Commission. Until four years ago the insurance business of the State was under his supervision. An insurance department was created by statute in 1909 and the work, connected therewith, involving as it did much detail, was established under a distinct department.

Today the Secretary of State is ex-officio bank commissioner, and in addition to the manifold and growing duties of his office he is supervising an ever increasing number of banks within the state. Under the law provision is made for but one bank examiner and the one private and seventy-eight corporate state banks receive the supervision of the commissioner through the examinations and reports made by this examiner. One examination per year is all that is possible under present arrangements. Such a condition should no longer exist. Other states have established banking bureaus long since and in my opinion the people of Utah are entitled to that protection which would be thrown about their deposits by the creation of a bureau of sufficient extent to guarantee at least semi-annual bank examinations. Under the present arrangement a bank could easily be wrecked and the funds of depositors lost, through bad loans and poor management, during the long interval between state examinations. I, therefore, urge most strongly the creation of a state banking bureau with provision for a state bank commissioner and at least two examiners. I concur in the recommendation of the Secretary of State that the Board of Examiners be made a board of appeal on decisions of the bank commissioner in refusing to grant charters to state banks.

The total receipts of the Secretary's office for the past two years was $234,479.99. Ten hundred forty-six corporations were organized under the laws of the State during that period.

ATTORNEY GENERAL.

While the report of the Attorney General will give you an idea as to the volume of legal business transacted for the state by his department, it will afford but meager information regarding the board duties which by law are imposed upon the Attorney General, and which, with the growth of the State, are demanding more and more of his time from year to year. These board duties easily con-

sume one-half of his time and they are of such a nature that they cannot be delegated.

The State's legal department requires and fully deserves consideration at your hands and I urge favorable action on the Attorney General's request for an appropriation of at least $11,000 for deputies for the ensuing biennium, which amount will enable him to secure an additional assistant whose services can be devoted almost entirely to the handling of cases that arise under the administration of our various State boards.

The record established by your present Attorney General in the matter of the collection of inheritance taxes is a phenominal one. His collection of large inheritance taxes on several foreign estates, without involving the State in litigation evidences rare tact. By his accomplishments in the matter of these collections he has established the State in such position that these taxes are met by foreign estates without question of the right of the State to collect under the law. The comment of the Attorney General on our present inheritance tax law and various suggested changes therein is worthy your serious consideration. I believe that no one in the State is better informed on the various inheritance tax laws in vogue in the United States than the present attorney general and no one is better informed as to the practical operation of our law.

I invite your attention to the recommendation of the Attorney General, that subdivision 4 of Section 4168, Compiled Laws of Utah, be repealed and his further suggestion for a change in the present minimum penalty of one year for the commission of grand larceny.

Through his official connection with the Board of Pardons and the Board of Trustees of the State Industrial School, the Attorney General has become thoroughly convinced of the necessity for the establishment of an intermediate reformatory or penal institution between the Industrial School and the State Prison, and presents, somewhat fully, reasons why the State should provide such an institution. You will note that a similar recommendation is made by the Superintendent of the State Industrial School.

STATE TREASURER.

The report of the State Treasurer shows the following receipts and disbursements by the State, December 1, 1910, to November 30, 1912.

Balance on hand November 30, 1910		$ 902,739.43
Receipts for 1911	$3,771,231.31	
Receipts for 1912	3,668,004.42	7,439,235.73
Grand Total		$8,341,975.16
Disbrusements for 1911	$2,802,375.64	
Disbursements for 1912	3,877,898.36	$6,680,274.00
Balance on hand November 30, 1912		$1,661,701.16

STATE AUDITOR.

A very comprehensive report of the handling of the State funds is submitted by the State Auditor. Much of the information incorporated in his report has been used by me in the discussion of the financial condition of the State. He calls attention to the decrease in estimated revenues from general taxation during the year 1912, occasioned by the reduction of the tax levy one-half mill, but points to the fact that the reduction has been greatly appreciated by the taxpayers of the State. That you may understand the real benefit that came to the people through this reduction I beg to call your attention to the fact that during the past ten years the average annual increase in total assessed valuation has exceeded eight million dollars, while the increase of assessment for 1912 over 1911, was less than six millions of dollars. So that even though the State did not enjoy the returns from the normal increased assessed valuation, it was able to reduce the tax levy one-half mill.

I invite your special attention to the auditor's statement regarding the operation of the present bounty law. It is apparent that new legislation is required to properly handle this matter. In another part of my message, I have referred to this subject.

The Legislation of 1911 providing for the rerecording of marks and brands has entailed a vast amount of work in the Auditor's office and in connection with this matter the Auditor recommends certain amendments which should be adopted.

The following deficits have been authorized during the years 1911 and 1912, by the State Board of Examiners, and will be properly certified to the Legislature:

State Live Stock Inspector	$10,000.00
State Board of Education	600.00
State Auditor	2,850.00
University of Utah—Toilet Building.	5,250.00
Capitol Grounds—Maintenance	600.00
State Engineer—Irrigation Contingent	10,000.00
Agricultural College—Power Plant	20,000.00
State Board of Land Commissioners.	7,500.00
Attorney General	750.00
Mileage and per diem—District Court Stenographers	2,500.00
Bureau of Immigration, Labor and Statistics	480.00
State Coal Mine Inspector	425.00
Total	$60,955.00

The increased volume of business transacted in the Auditor's office makes it imperative that additional appropriations be made for the employment of a larger clerical force.

STATE PRISON.

Complete information regarding the management of the State Prison during the past two years may be found in the report of the State Board of Corrections.

The employment of convicts on State roads has been carried on without interference with discipline or routine at the prison, and it is the opinion of prison officials that

the general moral and physical condition of the convicts has been greatly improved through work on the highways.

During the past two years many improvements have been made about the prison reservation, including the construction and equipment of a modern dairy barn and the planting of fruit trees—the labor incident to the improvements being performed almost wholly by the prisoners. The Board of Corrections has acquired additional water for the institution but a supply sufficient to take care of the entire acreage is not yet owned by the State. In view of the fact that additional water will permit of more extended cultivation of the prison farm, affording employment for inmates and an increased farm production for prison use, I strongly urge an appropriation for the purchase of water.

That the death penalty be administered by electrocution is a recommendation of the Board of Corrections in which I concur, and I urge upon you the adoption of an amendment to the present law to accomplish capital punishment by electrocution.

The daily per capita maintenance cost of prisoners during the years 1911-1912 was fifty-five and one-half cents.

Estimated needs for the years 1913-1914 are:

Maintenance	$121,545.00
Gratuities	4,500.00
Armory, improvements and repairs	5,000.00
Ice plant	1,500.00
Women's ward	12,000.00
Milk house	1,500.00
Fruit trees	500.00
Extending water pipe line	15,000.00
Convict labor on State roads (included in estimate of road commision)	40,000.00
Additional water supply	16,000.00
Total	$217,545.00

STATE MENTAL HOSPITAL.

Our institution at Provo, where are housed the unfortunates of the State, has been conducted during the past two years with increased efficiency. Alterations and additions have been made within and without the buildings of the State Mental Hospital (largely by the labor of patients), calculated to add to the health, comfort and safety of the inmates, while the institution grounds have been extended by the acquisition of additional land that will add materially to the fruit and farm products, affording healthful outdoor employment for many patients. An 80,000 gallon cement reservoir has been constructed and is ready for the impounding of waters so soon as the water supply of the institution may be established. A new dairy barn is in course of construction.

There has been at this institution an earnest effort on the part of the Superintendent to bring the medical supervision to the very highest standard of efficiency possible under the means at command. By close study of all admitted cases, and classification of patients the necessity for restraint has been minimized and today the institution is conducted with practically no physical or drug restraint.

I invite your attention to the Superintendent's comment on the so-called "nine hour law for women" enacted at the last session of the Legislature and the effect of that law in its application to this institution. I favor an amendment to the law making special exception in its application to the State Mental Hospital for the reasons set forth by the Superintendent in his report.

The hospital has been conducted during the past two years at a daily per capita expense of 38½ cents.

The department for care of the feeble minded and non-insane epileptics has been maintained at the hospital with results that are encouraging and warrant the continuation of the same.

Your attention is directed to that portion of the report of the Superintendent of the State Mental Hospital, dealing with State segregation and sterilization of those unfit

for parenthood. The recommendations are timely. Our State has taken advanced ground in legislation on subjects of this nature. In other states the system urged in this report has been adopted and the results are proving entirely satisfactory. There is no good reason why the system should not be adopted here.

Following is an itemized list of the appropriations needed by this institution for the coming biennial period:

Maintenance	$162,607.50
Improvements, renewals, and repairs	5,000.00
Additional farming land	10,000.00
Furnishings and furniture	2,000.00
Equipment for operating room, treatment room and laboratory	1,500.00
Amusement and library	750.00
New floors for wards and rooms	2,750.00
Three electric dumb waiters, for food and supplies	2,000.00
Motor for laundry	250.00
Re-building of two furnaces and new tubes for two boilers	750.00
New sash and repairing windows	1,800.00
Painting roofs and woodwork, cottages, one, two, and four	500.00
Farm implements and equipment	500.00
Drainage for portion of farm land	500.00
New fencing	1,500.00
Piggery	$ 1,500.00
Insurance on hospital buildings and contents	3,000.00
Total	$196,907.50

STATE FAIR.

From the standpoint of diversity and excellence, the exhibits of Utah products at the State fairs of 1911 and 1912, were the best ever made in the State, though un-

favorable weather conditions resulted in a patronage far below expectations.

The grandstand and race track authorized by the last Legislature have been completed, the grandstand being of steel and wood construction. The half-mile race course is conceded to be one of the best in the country. A deficit of approximately $1,600 was incurred by the Board of Trustees in completing this work and it has been necessary for the board to borrow $17,000 to cover this and other expenses incurred in conducting the two last fairs. In approving the appropriation bill passed at the last session, the Executive struck out $5,000 allowed for maintenance of grounds and building upkeep and the income from concessions fell short of previous receipts from this source about $5,000. About $1,125.00 unexpended balances in funds appropriated by the Legislature will revert to the general fund and an extra expense of about $1,000.00 for flowing well has been incurred, so that the actual expenditures over estimates submitted by the board are not so great when these facts are taken into consideration.

I am in favor of an appropriation for the construction of a live stock coliseum. This great industry of the State, which is always so well represented at the fair, deserves respectable exhibition facilities—something it does not now have.

One hundred and twenty-five thousand dollars, it is estimated, will be required by the fair association, 1913-14, for various items, as follows:

Maintenance and premiums	$ 50,000.00
Insurance premiums	1,000.00
Maintenance grounds and race track	2,000.00
Repair and upkeep of buildings	2,000.00
Sewer and toilets	12,500.00
Live stock coliseum	50,000.00
Restaurant and appurtenances	7,500.00
Total	$125,000.00

STATE BOARD OF LAND COMMISSIONERS.

During the past two years the State Board of Land Commissioners has continued to refuse applications to select and purchase government lands, except to municipalities and to applicants whose pending applications have been cancelled by the General Land Office, so that the State has due from the government for selection about 75,00 acres of lieu lands that are being held for selection for irrigation projects to be put in by the State, and for other state and municipal purposes.

About 5,000 acres under the Hatchtown State reservoir have been sold at prices, with water, ranging from $30.00 to $35.00 per acre. The reservoir and canal, costing about $178,000.00, are practically completed. The Piute reservoir project is being prosecuted by the board, the dam being now about two-thirds completed and impounding approximately 25,000 acre feet of water. The Sevier Valley canal, which carries water for the State and the Sevier Valley Company, has been enlarged for twenty miles. The State has extended its canal 28 miles from the terminus of the Sevier Valley canal to a point near Centerfield in Sanpete county. A further extension of two miles is projected for construction the coming year.

To date $499,000.00 has been expended on this project, and several thousand acres of land and water have been sold thereunder.

Charged with the duty of investing the various land grant funds of the State, (approximating at this time $3,415,000.00) the Land Board has heretofore been quite busily occupied in investigating securities when the securities upon which the funds might be loaned were limited. With the change in the law authorizing the purchase of irrigation district and drainage bonds, and the change relating to farm loans, a vast amount of additional work has fallen upon the board. The drainage bond law was held unconstitutional and, pending a court determination of the validity of the irrigation district law, the board was unjustly criticised for its delay in passing upon

applications for sale of such bonds, and since the decision of the court in the matter the board has experienced difficulty in securing prompt compliance with regulations regarding the issuance and sale of such bonds prescribed by the board as reasonable requirements in safe-guarding the investment of these funds. Three applications for sale of such bonds to the State have been acted upon favorably by the board, as follows:

Greenriver Irrigation District $50,000.00
New Hope Irrigation District $19,000.00
Cache Valley Irrigation District $40,000.00

The amendment to the law relating to the investment of land funds in farm loans has almost swamped the office force in the land board. The volume of business transacted by the board in this department was eight times as great per annum during the past two years as it was prior to the 1911 amendment. From May, 1911, to November, 1912, the board received 650 farm loan applications. All this additional work has thrown the Land Board behind in much of the routine business. The board is in imperative need of additional facilities and clerical assistance in order that the public may have that prompt service to which it is entitled in its transactions with the State.

I invite your attention especially to those portions of the report of this department dealing with State lands within the national forests and the question which has arisen regarding title to school sections containing coal. They are questions involving points of vital interest to Utah. Their discussion here, however, would engage more time than can be devoted to them in this message. The Legislature should afford all assistance possible to safeguard the interests of the State in these matters.

It is important that the recommendations of the board relating to legislation be acted upon favorably. The board should have power to reconvey to the United States tracts of land erroneously listed to the State; and authority should be granted the board to extend time of payments by settlers under State projects when settlers

under such projects have lost their crops by reason of the failure of the State to deliver water as provided in its contract with the settlers.

For the ensuing two years the board estimates that it will be necessary to provide the sum of $74,000 to meet the following requirements:

Clerical assistance, etc.	$ 50,000.00
Carey Act	5,000.00
Defending State's title to School sections	5,000.00
Experimental wells	12,000.00
Hydrographic and Hydrometric surveys	2,000.00
Total	$74,000.00

This latter item, however, should be increased materially in order to meet the appropriations of the United States Government for co-operation in hydrographic surveys.

STATE ROAD COMMISSION.

In no phase of State constructive work has a deeper interest been taken than in the good roads movement as promoted under the provisions of the road laws passed at the last two Legislative sessions. The people have recognized in the recently enacted road Legislation something they never had before—system and permanency in highway construction. The various counties have responded with ever increasing enthusiasm to the efforts of the State to systematize road building and have, in practically all instances, met their portion of the expense of construction in a spirit of willingness that evidences a splendid sentiment for State road improvement.

You will find the report of the State Road Commission one of the most interesting and encouraging State documents submitted for your consideration. It is comprehensive and goes into the detail of this new and important work in such completness as to leave no question regarding the wisdom of the adoption of the plan.

I invite your special attention to that portion of the report dealing with the employment of convict labor on the public roads. The experiment has been so successful as to thoroughly warrant the request for an increased appropriation sufficient to work additional prisoners who can readily be placed in the field. From the report you will observe that during the years 1911 and 1912, 501 miles of State road were constructed at a cost of $570,000.

I earnestly commend the recommendations of the commission to your favorable consideration. These recommendations embrace:

The granting of authority to the commission to determine conditions under which roadway space on State roads may be occupied.

The making of a five mill road tax in precincts where State road work is to be done.

The remodeling of the special road district law.

The passing of a vehicle tax law.

The adoption of a wide tire law.

Creation of a State road equipment fund, to be expended under prescribed conditions, subject to the approval of the Board of Examiners.

The appropriation of $40,000 for convict labor on State roads.

The appropriation of $196,400 for the State road fund 1913 and 1914.

The creation of a fund of $100,000 for special State road construction.

I am opposed to the disbursement of road funds by the commission, without provision that all such disbursements be subject to the approval of the Board of Examiners. I feel that it was the intent of those who framed the legislation creating this board that the board should have intimate acquaintance with every financial transaction of the State, and I do not want to see any laws passed that will tend to place the expenditure of funds in the hands of boards where they cannot have the scrutiny and approval of the Board of Examiners.

STATE DAIRY AND FOOD DEPARTMENT.

In looking after the production, handling and sale of dairy and food stuffs in the State, the Dairy and Food Department is brought into close touch with practically every person in the state. In promoting improvement in the quality of food stuffs the bureau, the commissioner and his deputies have waged a campaign of education throughout the State which has unquestionably resulted in much good. An effort has been made to inculcate lessons of cleanliness in handling milk, cream and butter products and the bureau has insisted on the proper labeling of all containers of food stuffs. Thousands of inspections have been made together with the scoring of numerous dairies and many thousands of samples of food stuffs have been collected by the commissioner and tested by the State chemist.

Special efforts have been exerted in improving sanitary conditions in restaurants, hotels, canning factories, and all places where food and drink are prepared or stored for the consuming public. Detailed reports of the accomplishments in these various inspections are contained in the report of the commissioner.

The activities of the Dairy and Food Bureau have been characterized by aggressive, intelligent work calculated to bring to the very highest possible standard of excellence the dairy and food products of the State, and at the same time protect producer, manufacturer and consumer against imposters and impositions.

As ex-officio sealer of weights and measures, the Dairy and Food commissioner has installed a limited testing apparatus and has prosecuted the work of inspection through duly appointed deputies and assistants. Practically all of the weights and measures standards in the possession of the State at the time the commissioner assumed charge of the work were found to be unfit for use, being out of date and badly damaged. Additional standards are required for the proper handling of the work.

The estimates of the Dairy and Food department, the Weights and Measures department and the Dairy and Food Bureau follow:

DAIRY AND FOOD COMMISSIONER.

Salary of three deputy inspectors and occasional extra help	$ 7,000.00
Traveling expenses of commissioner and deputies	5,500.00
Office rent	960.00
Clerical assistance	1,200.00
Printing, stationery, etc.	600.00
Office fixtures	300.00
Postage	200.00
Food samples	200.00
Salary, commissioner	4,800.00
Total	$ 20,760.00

DAIRY AND FOOD BUREAU.

Expense of Bureau, two years	$ 5,000.00

WEIGHTS AND MEASURES DEPARTMENT.

Salary of deputy in charge	$ 3,000.00
Salary of assistant deputy	2,160.00
Traveling expenses of deputies	4,000.00
Additional standards, office fixtures, sundries, etc.	1,000,00
Total	$ 10,160.00

STATE CHEMIST.

Twenty-one hundred various food products have been analyzed by the state chemist during the past two years and detailed reports filed with the dairy and food depart-

ment. One hundred sanitary water and ice analyses were made by him for the state board of health. In addition to this the chemist has made toxicological investigations for the department of live stock and special analyses and investigations have been made for state institutions. It is greatly to the credit of the chemist that his analyses and reports have been so accurate and uniformally dependable that the state's legal cases have never been subjected to failure or criticism so far as his findings are concerned. Much of the chemist's time is occupied in serving the state as an expert witness in prosecutions arising for the violation of our food laws. As a member of the dairy and food bureau the chemist has rendered valuable expert assistance in improving the character of the food supply of the state.

Aside from furnishing a synopsis of the analytical findings, conclusions and results, the report of the chemist contains articles dealing more in general on the particular subject in question. These essays are given as a matter of education and treat on such subjects as, milk, cream, butter, and oleomargarine, baking powder, bread, flour, candy, canned food products, soft drinks, flavoring extracts, and many others of interest to the people of the state. The articles, read in connection with the reports of scientific investigations constitute an interesting and valuable contribution on the extremely important food question.

The appropriations required for the state chemist during the ensuing biennium are:

Salary of chemist	$4,000.00
Contingent expenses	2,400.00
Total	$6,400.00

STATE INSURANCE COMMISSIONER.

The total receipts in the insurance department of the state during the year 1911 and 1912 was $125,074.00 which shows a material increase over the preceding bien-

nial period and a revenue considerably in excess of the estimated income of the department. The appropriation for the department for the biennium was $11,800.00.

There appears to be general satisfaction in the operation of our insurance code, and the wisdom of creating the insurance department has been amply attested in the growth of the same under the plan adopted. It will be found necessary from time to time to provide amendments to the code to meet conditions which arise in the detail of this rapidly growing business and the commissioner will present to your various committees, facts regarding proposed legislation.

Under the law enacted by the last Legislature compelling fire insurance companies to pay 1 per cent. of the premiums collected in certain cities as a fund for the relief of disabled firemen, and dependants of firemen meeting death in the line of duty, contests have been filed by certain companies effected. Companies which did not join in the suit paid the tax and the total amount, $1,767.25, is now held awaiting the outcome of the suit.

To meet the needs of the insurance department during the ensuing biennium the commissioner estimates the following appropriations will be required:

Salaries of deputy and clerk	$ 4,000.00
Contingent expenses	8,000.00
Total	$12,000.00

STATE ENGINEER.

In his eighth biennial report the state engineer calls attention to the apparent failure of the Legislative enactment of 1903, directing the state engineer to make surveys and gather facts for the guidance of the court, and intended to facilitate the adjudication of water rights. After the expenditure of a large amount of money during a period covering about nine years, the data gathered by the engineer regarding the Weber river has not been utilized in pushing a determination of water rights through

the courts, although the data has long been in the hands of the court. This is a serious condition and unless some prompt and effective measures are adopted whereby use may be made of this valuable data, the state stands to lose a large sum of money expended in gathering the information, and the people are apparently no nearer an adjudication of their water rights than they were before the law was adopted. The data gathered will soon be too old to be useful.

In the meantime, the hydrographic survey of the Logan river has been completed and placed in the hands of the First District Court, while the field work and practically all office work for the hydrographic survey of the Virgin river is completed and the information gathered under this survey can be submitted to the Fifth Judicial District Court within a few months. The state engineer strongly urges the creation of a board of control empowered with authority to adjudicate water rights, the findings of the board being subject to appeal to the courts. He is now making a thorough investigation of the operation of the adjudication feature of the Oregon board of control and will submit his findings to your committees at the opportune time.

The state engineer calls attention to a serious condition which has developed and continues to develop in the water situation in the Duchesne Basin. Each year additional lands brought under irrigation through completed canals are drawing on the flow of the various streams with the result that early water appropriators, in the low periods of water flow, are practically deprived of water sufficient to irrigate their growing crops.

It is incumbent that some steps be taken whereby irrigation companies which are bringing large tracts of land under cultivation take the necessary means to provide storage so that the early settlers, among whom are those who have secured Indian allotments, may be assured of their just proportion of the water.

I concur in the recommendation of the state engineer that hereafter the construction of bridges authorized by

the Legislature be placed under the direction of the State Road commission with provision that plans and contracts for the construction of state bridges be passed upon by the commission and that the work be prosecuted under general supervision of the State Road commission.

In the engineer's recommendation that an appropriation be made by the Legislature to secure the co-operation of the United States Geological survey in obtaining complete information on the water resources of the state, I heartily concur and trust that the Legislature will see fit to make a sufficiently large appropriation to secure the continued and more extended co-operation of the Government during the ensuing two years. As pointed out by the engineer, it is sound business policy for the State to avail itself of the opportunity afforded to secure this data at an expense practically of 50 cents on the dollar—the Government under the plan agreeing to duplicate appropriations made by the State. The co-operation afforded during the past two years has been of great benefit to the State, especially in the investigations conducted on the Sevier river.

In connection with the state engineering department I desire to invite the attention of the Legislature to the economic advantage of building the Piute reservoir to its maximum capacity and extending the canal system as far as may be required to obtain the lands upon which to use all of the water so made available by storage, and suggest an investigation of this matter by proper committee.

During the past biennial period three bridges have been constructed by the State, one over the Sevier river at Marysvale, one over the San Juan river at the Narrows, in San Juan county, and one over the Grand river near Moab.

In 1911 and 1912, 1289 applications for water have been filed with the engineering department producing a revenue of approximately $27.000.00.

The cost to the State, exclusive of the salary of the state engineer, has been $20,069.00.

Estimated appropriations required for the years 1913 and 1914:

Salary of Engineer	$ 6,000.00
Contingent expenses	3,400.00
Irrigation contingent expenses	35,000.00
Surveys for public institutions	500.00
Co-operation with U. S. Geological survey	20,000.00
Total	$64,900.00

FISH AND GAME DEPARTMENT.

Receipts of the Fish and Game department from the sale of licenses during the past two years amount to $70,000.00, exceeding the receipts of any previous biennial period since the adoption of the license law. In connection with the sale of licenses the commissioner recommends that all persons appointed to handle fish and game licenses for the department be required to furnish bond. That the fish and game fund should enjoy the entire proceeds of the sale of licenses has appealed to me as not only quite proper, but reasonably possible. In the larger cities of the State, especially, those firms which are permitted to sell licenses are really greatly benefited through handling them—to such an extent, indeed, that the privilege is quite deserving a bonus. In the smaller and scattered districts, however, the advantages to the person who handles them are minimized. But a plan might easily be worked out whereby deputy game wardens and members of the Fish and Game Protective Association could handle such sales.

The suggestion has recently been made that the supervision of the bounty law be placed under the Fish and Game department. While I have not had the time to investigate this matter thoroughly, the suggestion appeals strongly and I believe it is worthy careful consideration. I direct your attention to the comment of the State Auditor regarding the operation of our bounty law. You will note that certificates already on file for bounty on

animals killed during 1912 will practically exhaust the appropriation which you will make at the present session.

The State Hatcheries at Murray, Springville, and Panguitch have been operated with success during the past two years. The National Bureau of Fisheries has co-operated with the department in furnishing fish, and many successful plants have been made. It is generally conceded that fish are becoming more abundant while big game is unquestionably increasing.

One hundred twenty Hungarian partridges were imported into the State, and distributed in the year of 1912 to Cache, Salt Lake, Sevier, Tooele, Washington, and Weber counties. The commissioner's recommendation that there be a large game reserve for big game is an excellent one.

Ten head of elk, secured from Wyoming through the co-operation of the Biological survey, have been doing well in the southern part of the State and the prospects are that an additional shipment will shortly be received by the State.

Under authority of the Legislature a handsome fish and game building has been erected at the State fair, and substantial improvements have been made at the various State hatcheries.

I am strongly in favor of the protection of the insectivorous and song birds of the State and am pleased to note that the Fish and Game department plans co-operation with the recently organized Audubon society. I respectfully suggest an amendment to our present Arbor day law, providing for the annual celebration of a day to be known as Arbor and Bird day, associating with the beautiful ceremonies of tree planting lessons in preservation and protection of the birds of the State.

STATE COAL MINE INSPECTOR.

During the fiscal year ended November 30th, 1912, there was a larger coal output and coke production than in any other one year in the history of the State. The

coal production for 1912 was three million, eighty-eight thousand three hundred and fifty-six tons, while one hundred and thirty-five thousand tons of coke were produced, representing increases of 23.46 and 63.56 per cent respectively. The hydro-carbon output decreased thirty-four hundred tons. The great demand for Utah coke is given as the chief reason for the large increase in coal production. Six hundred and three thousand four hundred forty-six tons of coal were used during the past year in the manufacture of coke. Three new coal properties have been added to the list of shippers during the last year and another property will be shipping coal by February 1st. The report of the State coal mine inspector is complete in detailed information regarding the operation of coal and hydro-carbon mines and coke plants in the State and contains full data and comparative statistics on these industries.

Several valuable papers on the hydro-carbon and coal deposits of the State are incorporated in the report of the inspector.

The increased number of producing coal mines in the State has made it imperative to aid the inspector in his work by the employment of a deputy, and even with this additional assistance some of the mines in Iron and Uintah counties have not been visited.

HORTICULTURAL COMMISSION.

Those of you who are interested in the fruit growing industry will find pleasure and profit in perusing the report of the State Horticultural Inspector. This report, with its fund of information on the horticultural activities of the State, its interesting data and its valuable hints to those engaged in growing, canning and marketing fruit, is a most valuable document.

The commission, organized pursuant to an act of the last Legislature, has labored among the fruit growers of the State more with the desire of educating them to the advantages of compliance with the laws and regulations

governing the industry than of enforcing by arbitrary or legal action a strict compliance with the law.

With 43,660 acres of land in the State devoted to horticulture and but 39 per cent. of the acreage thus planted bearing fruit, the suggestions of the commission regarding the necessity of organization for marketing the enormous fruit crops that will shortly be harvested in the State is pertinent. It is pleasing to note that the laws prohibiting the marketing of worm and scale infested fruit is automatically enforcing the regulations regarding the spraying and pruning of trees.

During the past two years the state horticultural inspector has supervised the successful exhibit of Utah fruits at two Omaha, two Los Angeles and one New York land show, as well as at the National Irrigation Congress held at Salt Lake City.

Aside from the vigorous campaign of education which has been conducted, the state horticultural commission has been vigilent in rigid inspection of nursery stocks, both domestic and imported.

NATIONAL GUARD.

You will be pleased with Utah's National Guard organization after reading the report of the Adjutant General, giving detailed account of its activities and development during the past two years, together with the comment of army officers who have been detailed to inspect the organization. The action of the last Legislature in providing for a small payment to officers and members of the guard has had the desired effect of stimulating interest in drills with the result that a remarkable efficiency has been manifested by the guard in its participation with the regular army in maneuvers—an efficiency that has attracted the favorable comment of the war department.

Under the provisions of the Dix Bill, in order that the Utah Guard may continue to participate in the government appropriations for the aid of the organized

militia it will be necessary at an early date to increase the minimum strength of the local organization about one-third of its present membership. This increase comes under the requirements of membership, based on the State's congressional representation.

There has been an earnest effort on the part of the Adjutant General to popularize guard duty by maintaining a high standard of enlistments. The instruction in military matters has been thorough and the encampments, rifle competitions, and maneuvers participated in by the men have in great measure compensated them for their labors with the guard.

In view of the fact that the membership of the guard will be increased in the near future an appropriation slightly in excess of that provided in 1911 will be required for the ensuing biennium. No curtailment of the small allowance for officers and men should be made. The Adjutant General says that under the allowance the membership has become substantial and dependable to a gratifying extent.

Authority was granted the Armory Board to borrow the sum of $85,000 for the purpose of erecting an armory on the capitol grounds. Pending the final arrangements for the capitol building the erection of an armory has not been undertaken by the board.

The following is an estimate of maintenance funds required by the National Guard for the years 1913 and 1914:

Salary, Adjutant General and assistant	$ 4,200.00
Rental of armories	20,000.00
Maintaining armories	8,960.00
Holding two encampments	15,000.00
Insurance, etc.	3,700.00
Quartermaster's department	1,500.00
Participation in public functions	1,500.00
Maintenance of organizations	5,520.00
Pay of officers and men	32,700.00
Total	$95,580.00

STATE LIVE STOCK INSPECTOR.

Provision should be made for continued cooperation with the government in conducting tuberculin tests. It is imperative, also, that so long as the State is making efforts to stamp out this disease, laws should be passed to absolutely prevent shipment of tuberculosis cattle into the State. There have been tested by the State in conjunction with the United States Bureau of Animal Industry from December, 1909, to July 1, 1912, 82,927 head of stock.

From all indications tuberculosis among the dairy cattle of the State is on the decrease, the percentage of the disease among the principal dairy herds tested in 1909 being 9.4 and in 1912, 2.4.

General conditions throughout the State in the live-stock industry have been good except in the increase of hog cholera. If possible the State should make some arrangements whereby hog vaccine materials can be supplied at a nominal cost to breeders.

COMMISSION OF IMMIGRATION, LABOR AND STATISTICS.

Excellent results have been attained by the Bureau of Immigration, Labor and Statistics, both in gathering and disseminating information and data regarding Utah. It has been a department upon which all the people of the state could call for accurate information and has proven one of the potent factors in attracting the attention of people in all parts of the United States to the State of Utah. The report of the commissioner will be submitted during the session. As you will appreciate it is impossible to secure and tabulate the statistical data required in this report until after the close of the year.

No curtailment should be made in the allowances to this bureau; if any change is made it should be in the way of increased appropriations so that the activities of the bureau may be extended.

STATE BOARD OF HEALTH.

The statistics furnished by the State Board of Health in connection with its operations, are extremely interesting.

From these figures, which are absolutely reliable, it will be observed that Utah has the lowest death rate of any state in the Union, while the birth rate exceeds that of any other state by 25 per cent, and Garfield County is the banner county of Utah. The statistics also disclose that Utah has the highest death rate from old age.

Special efforts have been put forth by the Board of Health during the past two years in the matter of sanitary inspection and the results of the vigorous campaign waged are noticeable in the substantial decrease of typhoid fever cases. This campaign has been conducted through circulars, bulletins and public lectures and the secretary of the board has visited many localities and delivered lectures illustrated with stereopticam slides. At the State fairs of 1911 and 1912, public health exhibits including moving pictures, charts, models, etc., were provided by the board and in 1911, a public health exhibit was made in connection with the demonstration car of the extension department of the Agricultural College.

MISCELLANEOUS STATE BOARDS AND COMMISSIONS.

There are various state boards and commissions whose activities cannot be outlined without materially extending this message. All of these boards have filed their reports pursuant to law. With brief mention of these boards I will proceed to the discussion of the general subjects to which I desire to call your attention.

Several of the boards represent that there has been difficulty in securing prosecutions under the law. If additional assistants are given to the Attorney General considerably more attention can be given the boards in their efforts to secure convictions of violators.

The Dental board offers the suggestion that extended powers be granted the board for the purpose of conducting sanitary examinations of all dental offices. This board has, during the past year, inaugurated the plan of conducting the practical work in connection with examinations at the State prison.

The State Board of Pharmacy recommends an amendment to the narcotic law so that prosecution may be had against all persons having in their possession cocaine or morphine and a further amendment providing that itinerant vendors shall be required to secure a license. This board has divided the State into districts, the various members conducting regular inspections of all drug stores.

The commission on uniformity of laws will submit to the Legislature certain proposed measures which have secured the approval of the national organization.

From the report of the State Library Commission it will be observed that the law library has been increased by 478 volumes during the last two years, making a total of approximately 15,000 volumes now in the library.

I recommend a continuation of the appropriation for the State Conservation Commission, feeling sure that the work which this commission is accomplishing will be of inestimable value to the State.

From the report of the Juvenile Court Commission it will be observed that during the years 1911 and 1912, 8816 cases were handled. The operation of our Juvenile Court system has been successful to a marked degree and evidences of the good which it is accomplishing are to be found on every hand. The Juvenile Court Commission, of which I am a member, estimates that an appropriation of $50,000 should be made to conduct the juvenile courts during the ensuing biennial period.

The report of the State Board of Sheep Commissioners indicates that the inspection work which is being done by the State in conjunction with the Federal government is resulting in a vast amount of good. General conditions in the sheep industry are reported satisfactory. The recommendations of this board may be found in its report.

Ten thousand dollars was appropriated by the Legislature of 1911, for the purpose of procuring a silver service for the battleship Utah.

For the purpose of securing this silver service, the Governor appointed a committee, which committee decided to permit school children of the State to contribute toward the purchase of the service. Handsomely engraved certificates of contribution were issued and distributed to thirty thousand school children who contributed toward the service the sum of $2,227.42. The silver service was presented to the battleship November 6, 1911.

EXPOSITIONS AND CELEBRATIONS.

There will be held at San Francisco, California, in 1915, an international exposition in celebration of the completion of the Panama canal and at the same time there will be held at San Diego, the Panama-California Exposition.

It has been my pleasure to accept, on behalf of the State of Utah, a deed to a site for the Utah building at the San Francisco Exposition, and while no selection has been made of a site at the San Diego exposition, representatives of the same have been in direct communication with various organizations of this State.

Utah, of course, must participate in these great expositions and in view of the fact that they will be held in 1915, it will be necessary for the present Legislature to make provision for such participation as the State may take in them, in the way of erection of buildings, at the present session. I believe that in planning for these expositions, due consideration should be given to the fact that many of those who will cross the continent to attend these fairs will pass through the State of Utah and for that reason it has appealed to me that plans should be made whereby the State fair facilities could be utilized during the year 1915 with the particular object in view of affording the visitors opportunity to inspect, under the most favorable conditions the products of our State.

The fiftieth anniversary of the Battle of Gettysburg will be celebrated in 1913. The national government has made an appropriation to assist in the proper celebration of this event and the State of Pennsylvania has made a large appropriation for the entertainment of war veterans. On invitation of the officials of this celebration I appointed a representative of this State who has, without expense to the State, visited the headquarters of the committee in charge of the celebration. Utah war veterans will doubtless make request of the Legislature for an appropriation for some participation in this celebration and I urge that insofar as the funds of the State will permit, an appropriation be made for this purpose.

INVESTMENT OF REDEMPTION FUNDS.

I respectfully suggest legislative provision for the investment of the redemption funds of the State so that they may be earning interest while held for the object for which they were set aside.

INDIAN WAR VETERANS.

It is my understanding that there will be presented during the present session a bill providing for further recognition by the State of those who served Utah during the early Indian expeditions. I say further recognize those veterans because the State has already taken the steps necessary to establish a record of the services rendered by them, in the hope that such record would pave the way for the granting of pensions by the National Government. It appears, however, that the Indian war veterans have thus far failed to get their claims before Congress in such shape as to secure the pensions. It is my opinion that recognition of the services of these men, by the State of Utah, through the granting of pensions,

will add strength to their claims with the National Government, and, in the meantime, State pensions will prove a fitting tribute from Utah to those men who rendered such valiant service to Utah in the early period of its settlement.

CAPITOL COMMISSION.

In view of the fact that the Capitol Commission will report directly to you regarding its activities in the work of providing a capitol building, I will merely state that the commission has made excellent headway in this great task—that the contract for the building has been awarded, and that there appears to be no good reason why the Eleventh Legislature of the State of Utah, convening in January, 1915, should not meet in the Utah State Capitol building.

INVENTORY.

Thinking you will be interested in an inventory and appraisement of the institutional property of the State, I have appended to this message a table from which you will learn that Utah has much to show for the institutional appropriations that are made from session to session.

CONCLUSION.

The work in all departments of State has increased to a marked degree in the past four years, in some departments the volume of business transacted during that period equals the total transactions of the preceding thirteen years. The increased business is directly traceable to the constructive work that has been undertaken,

particularly in road building; to the activities of the State Board of Land Commissioners in the development of State reservoir and irrigation projects; to policies recently adopted in extending the scope of the field for investment of the public land funds; to the rapid growth of private and corporate interests, coming under the supervision of the State; and to the general development that has been characteristic of the State during that time. All of these activities have been reflected in an increased volume of business in the various departments with increased demands for clerical assistance and office equipment to meet the requirements. It is incumbent, therefore, that your departmental, institutional and other committees be at work early in their investigations of the needs of all state departments and state institutions. Especially do I urge the early organization of your appropriation committee to the end that a most thorough inquiry into the revenue possibilities of the next two years be made, and that when the pruning process comes, as it surely must, the curtailment of appropriations will be made where it can be best accomplished without seriously handicapping the efficient discharge of the duties imposed by statute.

I have purposely refrained in practically all instances making specific recommendations regarding appropriations, preferring to submit in brief the chief facts concerning the State as these facts are shown in the respective reports, submitting with the review of each department and institution a summary of the estimated needs.

In the performance of the tasks that lie before you, you have my sincere best wishes, and I am glad to pledge my loyal support and hearty co-operation to the end that this, the Tenth session of the Legislature of the State of Utah, may be the best the State has ever had.

William Spry

Senator Rideout moved that a vote of thanks be given the Governor, his message spread on the minutes of the Joint Assembly, and one thousand copies of the message and accompanying documents, in pamphlet form, be printed for the use of the members for distribution. Carried.

Upon motion of Senator Kelly the Joint Assembly dissolved at 4:35.

THIRD DAY.

SENATE CHAMBER,
Joint City and County Building,
Salt Lake City, Utah, January 15, 1913.

The Senate met at 2 p. m., pursuant to adjournment, President Gardner presiding.

Roll called; quorum present.

Prayer by the Chaplain.

Mr. Smith moved that Senate Journal be not read, and that the minutes of each day be referred to the care of Secretary, Minute Clerk and Docket Clerk for correction and approval. Carried.

That part of the report of the Committee on Rules which was not acted upon yesterday, was taken up by consent of the members.

Mr. Smith moved that the reading of the rules be dispensed with except when the reading of a rule is called for. Carried.

Rule 56 as reported by the committee was read by consent of the Senate.

Mr. Booth moved to amend Rule 56 as reported by the committee, by substituting Rule 56 of the last session of the Senate. Motion lost.

Mr. Smith moved to amend Rule 56 as reported by the committee by adding to said rule, after the words "former governors" the following words: "and general field and staff officers of the National Guard of Utah, and officers of the United States Army, and reporters of the press, shall be admitted to the floor of the Senate unless by leave of the President, or on special invitation of a member." Motion lost.

A vote was then called on the adoption of Rule 56 as reported by the committee. Rule 56 was not adopted.

Mr. Funk moved a reconsideration of Mr. Smith's amendment to Rule 56 as reported by the committee.

The roll being called there were: Ayes, 9; Nays, 9. Those voting in the affirmative were: Craig, Cottrell, Edgheill, Hansen, Ferry, Iverson, Kelly, Smith, Williams. Those voting in the negative were: Booth, Eckersley, Funk, Lunt, Olson, Rideout, Thornley, Wight, Mr. President.

Mr. Smith moved to reconsider the vote on Rule 56 as reported by the committee. Carried.

Mr. Smith then moved to adopt Rule 56 of the last session of the Senate, by striking out the words, "members of the city council" of Salt Lake City, and inserting in place thereof the words, "members of the City Commission." Carried.

Mr. Booth moved to reconsider the vote of yesterday on the adoption of the report of the Committee on Rules. Carried.

Mr. Booth then moved that Rule 24 of the committee's report be stricken out, and that the remaining rules be renumbered to correspond. Carried.

REPORT OF STANDING COMMITTEES.

SENATE COMMITTEE ROOM,
Salt Lake City, Utah, January 15, 1913.

Mr. President:

Your Committee on Rules, to whom was referred the matter of rules for the guidance of the deliberations

of this body, beg leave to report that we have given the matter due consideration and recommend that the following rules be adopted.

Respectfully,
W. N. WILLIAMS,
Chairman.

RULES OF THE SENATE.

TENTH SESSION OF THE LEGISLATURE OF THE STATE OF UTAH

1. A majority of the Senate shall constitute a quorum, but a smaller number may adjourn from day to day, or for less time than one day, and may compel the attendance of absent members.

2. The Senate shall keep a Journal of its proceedings, which shall be published at the close of the session. At the request of three members the ayes and nays shall be taken on any question and entered on the Journal.

3. The Senate may punish its members for disorderly behavior, and with the concurrence of two-thirds of all the members elected expel a member for cause; and the reason for such expulsion shall be entered upon the Journal, with the aye and nay vote of the members.

4. The Senate, during its session, may punish by imprisonment any person, not a member, who shall be guilty of disrespect to the same, by any disorderly or contemptuous behavior in its presence; but such imprisonment shall not at any time exceed twenty-four hours, unless the person shall persist in such disorderly or contemptuous behavior.

5. The sessions of the Senate, except those while it is sitting in executive session, shall be public; and it shall

not without the consent of the House of Representatives adjourn for more than three days, nor to any other place than that in which it may be holding session.

6. The enacting clause of every law shall be : "Be it enacted by the Legislature of the State of Utah," and no bill or joint resolution shall be passed, except with the consent of a majority of all the Senators elected. On the final passage of all bills the vote shall be by ayes and nays, upon each bill separately, and shall be entered upon the Journl; and no law shall be revised or amended by reference to its title only; but the act as revised, or section as amended, shall be re-enacted and published at length.

7. Except general appropriation bills, and bills for the codification and general revision of laws, no bill shall be passed containing more than one subject, which shall be clearly expressed in its title.

8. The President, in the presence of the Senate, shall sign all bills and joint resolutions passed by the Legislature, after their titles have been publicly read immediately before signing, and the fact of such signing shall be entered upon the Journal.

9. Every bill shall be read three times, but the first and second reading may be on the same day. On the final passage of a bill the President shall immediately put the question, "Shall the title of the bill be the title of the act?"

10. The President, or in his absence, the President pro tempore, or, in the absence of both, any Senator called to the chair by the Senate, shall take the chair every day precisely at the hour to which the Senate shall have adjourned; shall immediately call the members to order, and on the appearance of a quorum, shall cause the Journal of the preceding day to be read.

11. The presiding officer shall preserve decorum and order, and may speak to points of order, in preference to other members, rising from his seat for that purpose, and shall decide questions of order, subject to an appeal to the Senate by any member; on which appeal no member shall speak more than once, unless by leave of the Senate.

12. The presiding officer shall rise to put a question, but may state it sitting.

13. Questions shall be put in the following form, viz: "As many as are in favor of (as the case may be) say aye," and after the affirmative vote is expressed, "as many as are opposed say no." If the President doubt the result of a vote, or a division be called for, the Senate shall divide; those in the affirmative shall first rise from their seats, and afterwards those in the negative.

14. The President shall have the general direction of the Senate Chamber; shall have the right to name any member to perform the duties of the chair, and such substitute shall be vested with all the powers of the President during the time he shall act as such.

15. In case of any disturbance or disorderly conduct in the lobby or gallery, the President shall have the power to order the same to be cleared.

16. The President shall assign to the officers and employees of the Senate their respective duties, stations, and shall have general supervision over them.

16a. The Sergeant-at-Arms shall have supervision over the Assistant Sregeant-at-Arms, door keepers, messenger, watchman and janitor, and he shall preserve order in the lobby, guard the floor from intruders; and he shall report each day to the President the absence or late arrival of any employees of the Senate.

16b. The Secretary shall have supervision over all employees not under the supervision of the Sergeant-at-Arms, except the engrossing clerk or clerks. There shall be a record kept of the attendance of all employees, by an employee or employees designated by the President. Any employee absenting himself or herself without the consent of the President shall not be paid for the day or days of such absence; and there shall be a record kept of all leave of absence granted.

17. When any member is about to speak or deliver any matter to the Senate, he shall rise from his seat and address himself to "Mr. President," and shall confine himself to the question under debate and avoid personlities.

18. When any member, speaking (or otherwise) transgresses the rules of the Senate, the President shall, or any member may call him to order, in which case the member so called to order shall sit down, unless permitted to explain; and the Senate, if appealed to shall decide on the case without debate. If the decision be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, and the case requires it, he shall be liable to the censure of the Senate.

19. If two or more members rise at once, the President shall name the member who is first to speak.

19a. If any member be called to order for words spoken in debate, the person calling him to order shall repeat the words excepted to, and they shall be taken down by the Secretary; but no member shall be held to answer or be subject to the censure of the Senate for words spoken in debate, if any member has spoken in debate, or other business has intervened after the words spoken and before exception to them shall have been taken.

20. No member shall speak more than twice to the same question, nor more than once until every member

choosing to speak shall have spoken, without the consent of the Senate.

21. While the President is putting a question, or addressing the Senate, no member shall walk out of or across the room; nor in such case, or when a member is speaking shall pass between him and the chair.

22. Every member who shall be in the Senate when a question is put shall give his vote, unless the Senate shall excuse him.

23. No member shall be permitted to vote on any question, unless within the bar before the vote is announced.

24 When a motion is made and seconded, it shall be stated by the President, or, being in writing, shall be handed to the Secretary, and read aloud before debate.

25. Every motion shall be reduced to writing, if the President or any member desires it.

26. When the ayes and nays shall be taken on any question, no member shall be permitted to vote or to change his vote after the decision is announced from the chair, unless by the two-thirds vote of Senators present and voting.

27. After a motion is stated by the President, or read by the Secretary, it shall be deemed in the possession of the Senate, but may be withdrawn at any time by the unanimous consent of the Senate, before decision.

28. When a question is under debate, no motion shall be received, but:

To fix the time to which to adjourn.
To adjourn.
To call the Senate.

To lay on the table.
To postpone indefinitely.
To postpone to a day certain.
To commit or to amend.

Which several motions shall have precedence in the order in which they stand arranged.

29. A motion for adjournment shall always be in order, except when the roll is being called, and be decided, as well as the motion to lay on the table, without debate.

30. No motion to postpone to a day certain or indefinitely, or to commit, being decided in the negative, shall again be allowed on the same day.

31. A motion to strike out the enacting clause of a bill shall have precedence of a motion to amend, and if carried, shall be deemed equivalent to the rejection of the bill.

32. When a blank is to be filled and different sums or times are proposed, the questions shall first be put on the largest sum and the longest time.

33. No person shall be permitted to smoke in the Senate Chamber, or give any sign of approbation or disapprobation while the Senate is in session.

OFFICERS DUTIES.

34. It shall be the duty of the Secretary to keep a Journal, in which he shall seasonably record the motions, resolutions, rules, and decisions of the Senate, and to do and perform all such other acts appertaining to his office as may be required of him by the Senate or its presiding officer.

35. It shall be the duty of the Sergeant-at-Arms to attend the Senate during its sittings, to execute the command of the Senate from time to time, together with all such process, issued by order of the Senate, or any committee thereof, which shall be signed by the President.

STANDING COMMITTEES.

36. The following standing committees shall be appointed by the President:

Agriculture and Irrigation, seven members.
Appropriations and Claims, seven members.
Banks and Banking, seven members.
Contingent Expense and Printing, three members.
County and Municipal Corporation, seven members.
Education, seven members.
Engrossing and Enrolling Bills, three members.
Fish, Game and Forestry, seven members.
Highways and Public Lands, seven members.
Judiciary, seven members.
Live Stock, five members.
Manufacturers and Commerce, seven members.
Mines and Mining, five members.
Private Corporations and Insurance, five members.
Public Health and Labor, seven members.
Public Institutions, seven mebers.
Railroads, seven members.
Rules, three members.
State Affairs and Federal Relations, seven members.

37. The following named committee shall have leave to report at any time on the matters stated, viz: Business; Committee on Engrossed and Enrolled Bills.

38. It shall always be in order to call up for consideration the report of the Committee on Rules.

39. No committee except the Committee on Rules shall sit during the sitting of the Senate, without special leave.

PRACTICE.

40. All resolutions presented to the Senate shall lie one day on the table.

41. Six typewritten copies of every bill, resolution or memorial shall be furnished the Secretary by the members introducing the same.

42. If the question in debate contains several points, any member may have the same divided; but on motion to strike out and insert, it shall not be in order to move for a division of the question; but the rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition.

43. When a question has been once made and carried in the affirmative or negative, it shall be in order for member of the majority to move for a reconsideration thereof; or give notice that he will make such motion within the time prescribed by the rules, for which time he shall control the motion. No motion for reconsideration shall be in order, unless made within the next day of actual session of the Senate; provided, that should the member giving notice of a motion to reconsider not make such a motion within the time prescribed by the rules, any other member voting with the majority may make such motion within the next succeeding legislative day. Such motion shall take precedence of all other questions except a motion to adjourn.

44. A bill may be referred to a committee without reading, but shall be read before being amended, and may be amended in every particular on second reading. A bill read once and referred shall be read a second time before being amended.

45. Amendments shall be in order at the third reading of a bill, resolution or motion requiring three read-

ings, and it shall be at all times in order, before the final passage of such bill, resolution, or motion, to move its commitment or recommitment.

46. Two hundred copies of every bill, joint resolution, and memorial shall be printed when ordered by the committee to whom referred, and all bills shall be printed before second reading.

47. When motions are made for reference of the same subject to a select committee, and to a standing committee, the question of reference to a standing committee shall be put first.

48. Any five Senators may make a call of the Senate and require absent Senators to be sent for, but a call of the Senate cannot be made after the voting has commenced; and a call of the Senate being ordered, the doors shall be closed and the absentees noted, and no Senator permitted to leave the room without the consent of the President, until the report of the Sergeant-at-Arms be received and acted upon, or further proceedings in the call be suspended, or the Senate adjourn. Previous to the reception of such report, further proceedings in the call shall not be suspended, except by the vote of two-thirds of the Senators present.

49. No amendment, by way of rider, shall be received to any bill on its third reading.

50. The rules of parliamentary practice, comprised in Robert's Rules of Order, shall govern the Senate in all cases to which they are applicable and in which they are not inconsistent with the standing rules and orders of the Senate.

51. A motion to commit, until it is decided, shall preclude all amendments and debate on the main question, and a motion to postpone indefinitely or to a day certain until it is decided, shall preclude all amendments on the main question.

52. Upon a motion to reconsider the vote on the final pasage of any bill, a majority of all the members elected shall be required to reconsider the same.

53. If a bill shall fail to pass on account of not having received the constitutional majority, any Senator having voted in the negative shall have a right to move a reconsideration.

54. No motion or proposition on a subject different from that under consideration shall be admitted under color of amendment.

55. No rule of the Senate shall be altered, suspendeded or reconsidered, without the vote of two-thirds of the members present.

56. No person, except members of the House of Representatives and their officers, members and ex-members of Congress, heads of Executive Departments of this State, Chaplains, Judges of the United States Courts, and Supreme and District Judges of this state, former Governors and ex-members of the Legislature, members of the Constitutional Convention, and the Mayor and City Commissioners of Salt Lake City, and general field and staff officers of the National Guard of Utah, and officers of the United States Army, and reporters of the press, shall be admitted to the floor of the Senate unless by leave of the President, or on special invitation of a member.

57. The daily Order of Business shall be as follows:

1. Roll Call.
2. Prayer by the Chaplain.
3. Reading of the Journal.
4. Presentation of Petitions.
5. Reports of Standing Committees.

6. Reports of Select Committees.
7. Presentation of Resolutions.
8. Introduction of Bills.

After the daily order of business shall have passed the following general order of business shall be observed:

1. Reading bills of the Senate the third time.
2. Reading bills of the Senate the second time.
3. Reading bills of the Senate the first time.
4. Reading bills from the House of Representatives the third time.
5. Reading bills from the House of Representatives the second time.
6. Reading bills from the House of Representatives the first time.
7. Consideration of resolutions.
8. Miscellaneous business.

The item of unfinished business in which the Senate was engaged at the last preceding adjournment shall have preference in the general order of business, and when the Senate shall have passed from one order to another no action shall be had upon the orders passed except by leave of the Senate, and to give this leave two-thirds of the Senators present must concur

Messages from the House of Representatives may be received at any time except when the President is putting the question, or the ayes and nays are being called, and upon motion, may be considered at any time.

58. The previous question shall not be entertained or be a rule of practice in the Senate.

EXECUTIVE COMMUNICATIONS AND NOMINATIONS.

59. Messages from the Governor and communications from State officers may be received at any time,

except when the President is putting the question and the ayes and nays are being called, and upon motion, may be considered at any time. The consideration of nominations or other executive business shall take place with closed doors.

60. Nominations may be referred to a standing or select committee. On considering nominations the President shall put the following question: "Does the Senate advise and consent to the nomination just made?" While any nomination remains with the Senate, it shall be in order to reconsider any vote taken thereon.

61. Action on all appointees made by the Governor for confirmation by the Senate, shall be deferred one day from the time any designated appointment or appointments are received by the Senate.

HOURS OF MEETING.

62. Until otherwise ordered, the regular hour of meetings of the Senate shall be at 2 o'clock p. m. daily, Sundays excepted.

COMMUNICATIONS.

Salt Lake City, Utah, January 21, 1913.

To the Legislature of the State of Utah:

In obedience to the requirements of law, the Capitol Commission submits herewith a report of its operations during the biennial period ended December 31, 1912.

The Legislature of 1909 passed four capitol building bills which were approved by the Governor on the 11th day of March, 1909. One of said bills, designated Chapter 64, created a "Capitol Commission," to consist of, the Governor, the Secretary of State, the Atorney General and four members to be appointed by the Governor, and empowered and directed said Commission to cause to be prepared suitable designs, together with plans and specifications therefor, for the erection of a State Capitol upon the Capitol grounds, in Salt Lake City; the ultimatee cost of said building not to exceed $2,500,000.00. The other three bills, Chapters 65, 66, and 67, were intended to provide funds to meet the cost of said building.

Chapter 65 authorized the State Board of Loan Commissioners to refund the outstanding bond issue of the Territory of Utah, which would mature July 1, 1912, and provided that the moneys held in the redemption fund for the payment of said bonds should be covered into the State Treasury for credit of the Capitol Building Fund. Chapter 66 provided that a special election be held for the purpose of submitting to the electors of the State a proposition for a special tax levy of one mill for Capitol Building purposes. Chapter 67 authorized the State Board of Loan Commissioners to provide and negotiate a bond issue of $200,000.00, the proceeds of which were to be used exclusively for the erection of a State Capitol and expended under the direction of the Capitol Commission. The public buildings, land funds and interest were also made available for Capitol Building purposes. At the special election held in pursuance to the act of the Legislature, the people voted against the proposal for a special levy, and no action was taken until after the Legislative Session of 1911, at which session a bill was passed providing for a special bond issue of $1,000,000.00, the proceeds from the sale of which were to be used in defraying the cost of the Capitol Building and in addition thereto an appropriation of $750,000.00 was made for the same purpose.

On May 13, 1911, the Governor appointed the following members of the Capitol Commission: John Dern, of Salt Lake City; John Henry Smith, of Salt Lake City; C. E. Loose, of Provo, and M. S. Browning, of Ogden. These gentlemen together with the Governor, the Secretary of State and the Attorney General, ex-officio members of the Commission, met and organized on the 17th day of May, 1911. Owing to the death of Commissioner John Henry Smith, which occurred October 12, 1911, the Governor appointed Anthon H. Lund, of Salt Lake City, to fill the vacancy.

The first business of the Commission after organizing was the securing of a topographical survey of the Capitol site and the employment of Olmsted Brothers, landscape architects, to provide a landscape or parking design.

In June, of 1911, the members of the Commission, with the exception of the Governor and Commissioner Loose, made an inspection of the capitol buildings of a number of eastern states, and on August 29th, 1911, a program of competition for the selection of an architect was completed and published. Seven local architects or architectural firms and three non-resident firms submitted plans under the provisions of the competition, and on March 13, 1912, Mr. R. K. A. Kletting, of Salt Lake City, was declared to be the successful architect. Prizes amounting to $5,000.00 were awarded unsuccessful competitiors. Mr. Kletting was required to have complete working drawings and specifications by August 15, 1912. These were completed and the Commission, after checking same, began advertisement for proposals for the erection of the Capitol Building in whole or in part.

The bids were opened December 3, 1912. After a careful tabulation of all the bids the James Stewart & Company were found to be the lowest responsible bidders, and on January 2, 1913, the said James Stewart & Company were awarded the contract for furnishing material and labor required in the erection of the Capitol Building, according to the orignal plans, specifications and draw-

ings prepared by the architect, for the sum of $1,040,000.00, exclusive of the plumbing, heating and wiring, with the provision that the contract shall prescribe that the Commission, at its option, shall have authority to make certain agreed alterations and additions to the original plans and specifications at a stipulated maximum cost, which if exercised, will bring the total cost of the building, including architect's fees, to approximately $2,000,000.00.

The $1,000,000.00 bond issue authorized by the Legislature of 1911, has not been issued or negotiated, neither has the bond issue of $200,000.00 authorized by Chapter 67, Laws of 1909, and instead of refunding the bond issue which matured July 1, 1912, and placing the funds which had accumulated for the redemption of said bonds to the credit of the Capitol Building Fund, the State Board of Loan Commissioners applied said redemption funds to the payment and retirement of said bond issue, and the Capitol Commission has not called upon the Board of Loan Commissioners for the conversion of the Public Buildings Fund as authorized.

During the existence of the Commission the members have visited and inspected a number of stone and marble quarries throughout the State to ascertain the quality and quantity of the various deposits of granite, limestone, sandstone, marble and onyx, with a view of utilizing as much Utah material as possible in the construction of the building.

Examination of the Capitol site and surroundings by the Commission in connection with their preliminary activities desclosed the fact that the peculiar shape of the grounds constituting the site and the topography of the surrounding country presented perhaps one of the most serious problems in connection with the work undertaken. Pentagonal in shape the grounds are narrowest at the point nearest the city at the head of State Street. The Commission and expert landscape artists whose opinions were sought, were unanimous in their belief that the building should face directly south and that its axis should be on State Street. The abrupt grade

from North Temple and Second North Street made it imparative that the buliding be well to the south part of the grounds if the view of the same from the city were to remain unobstructed by the brow of the hill at Second North.

An inspection of Eastern capitols and an examination of designs submitted in competition further disclosed the fact that in public buildings of the capitol type the average length was four hundred feet, the buildings being long and narrow to avoid light wells and dark corridors.

In locating the building on the Capitol plot it was found that in order to maintain the axis on State Street it was necessary to place it approximately 750 feet from the south line and even at that distance the east wing of the building came practically to the east boundary of the State's land. Lying directly east of the Capitol plot and on the west brow of City Creek canyon is a tier of lots ranging from 150 to 200 feet in depth and having a considerably greater elevation than the Capitol grounds. The acquisition of these lots and the closing of east Capitol Avenue connecting the State's property with the city's property (which is set aside for parking purposes) and the grading thereof appears to be an absolute necessity, if the view to the east is to be maintained and a proper parking scheme for the grounds carried out. The Commission has secured three individual appraisments of the value of these lots, as well as figures at which the owners will sell to the State. Between the appraisments and the prices asked there is a wide difference. In any even, however, the State should acquire the ground and the Commission urges an appropriation for that purpose.

On December 18, 1912, pursuant to advertisement, the Commission received and opened bids for excavating, filling and grading the Capitol building site, and the P. J. Moran Company being the lowest responsible bidder, was awarded the contract.

At one o'clock p. m., December 26, 1912, ground was broken for the Capitol Building, in the presence of the

members of the Commission and several hundred citizens, and the work of excavation is now well under way.

The following is a statement of all claims approved by the Capitol Commission, vouchers for which will be found on file with the State Auditor:

COMMUNICATIONS FROM THE GOVERNOR.

EXECUTIVE OFFICE,
Salt Lake City, Utah, January 27, 1913.

To the Senate:

I return herewith Senate Bill No. 1, by Mr. Smith, entitled "An Act relating to the Journals of the Senate and House of Representatives, and relating to evidence of the proceedings of the Legislature," without my approval.

This bill has failed to receive my approval for the reason that unedr provisions of the same, if it shall become a law, the courts of this state will be authorized

to look into the Journals and certificates of the Senate and House of Respresentatives and decide that the entries therein are false; that is, the bill provides that all entries in the journals and certificates, as to the time of introduction or time of passage of any bill, as well as the time of the final adjournment of the Legislature, shall be prima facie evidence only.

It seems to me that under the provisions of this bill, the functions of the legislative departments may be encroached upon. It is opening the doors of the courts to say that the entries in the records are false. It appears that the Legislature in this Act is legislating against its own possible wrong doings. The Consitution already providing that no regular session of the legislature shall exceed sixty days; there appears to be no need of further legislation. It is certainly to be presumed that the legislative body will not violate the provisions of Constitution.

It appears to me also, that the bill attemps to delegate to the courts particular functions of the legislative body which seems to violate the provisions of Section 1, of Article 5, of the Constitution of this State.

Respectfully,
WILLIAM SPRY,
Governor.

Communication filed.

President Gardner put the question: "Shall S. B. No. 1 be passed over the Governor's veto?" The bill was defeated by the following vote: Ayes, 10; nays, 8. Those voting in the affirmative were: Booth, Craig, Ferry, Funk, Kelly, Lunt, Olson, Rideout, Smith, Wight. Those voting in the negative were: Cottrell, Eckersley, Edgheill, Hansen, Iverson, Thornley, Williams, Mr. President.

E. G. Kidder tendered his resignation as official stenographer to take effect as soon as his successor was appointed. Resignation accepted.

Senator Wight appointed Ross Reynolds as Stenographer, who subscribed to the Constitutional oath.

COMMUNICATION FROM THE GOVERNOR.

EXECUTIVE OFFICE,
Salt Lake City, Utah, February 26, 1913.

To the Honorable President ond Members of the Senate.

Gentlemen: The members of the Capitol Commission sense the importance of the undertaking which has been entrusted to them and are anxious that the members of the Legislature gain complete information regarding the plans which have been perfected for the erection of a capitol building, the progress which has thus far been made, and the problems which are yet to be met.

To the end that opportunity may be afforded the Legislature to secure this information, the Capitol Commission respectfully extends an invitation to the members of the Legislature to join them in a visit of inspection of the capitol grounds.

Subject to the convenience of the Legislature, Friday, February 28, has been tentatively fixed by the Commission as the day for making such inspection. Any hour after eleven o'clock on said day will be entirely agreeable to the Commission.

Means of transportation for members of the Legislature to and from the Capitol Grounds will be provided by the Commission.

Respectfully,
CAPITOL COMMISSION,
By WM. SPRY, President.
By C. S. TINGEY, Secretary.

COMMUNICATION FROM THE GOVERNOR.

EXECUTIVE OFFICE,
Salt Lake City, Utah, March 1, 1913.

To the Senate:

I herewith transmit letter from the Chairman of the Board of County Commissioners of White Pine County, Nevada, with attached petition signed by certain residents of the extreme western portion of Utah, in which the petitioners request that the entire western ten miles of Utah be annexed to the State of Nevada.

In transmitting this peittion I respectfully call your attention to the fact that this is the first indication of a spirit of secession that has developed in the State of Utah.

I respectully recommend that whatever action may be taken by the Legislature on this petition, may be taken with a view to convincing the signers thereof that geographically, socially, politically and educationally, conditions in Utah are of the very best, and further urge that an effort be made to induce the officials of White Pine County, Nevada, to exert their efforts towards the annexation of the whole of Nevada, to Utah.

Respectfully,
WM. SPRY,
Governor.

Communication filed and petition read and referred to the Committee on State Affairs and Federal Relations.

SENATE COMMITTEE ROOM,
Salt Lake City, Utah, March 4, 1913.

Mr. President:

Your Committee on Judiciary have had under consideration H. B. No. 183, by the Judiciary Committee, entitled: "An Act to amend Section 3090, Compiled Laws of Utah, 1907, as amended by Chapter 82, Laws of Utah, 1911, relating to garnishments," and recommend that the same be amended in accordance with the hereto attached bill:

"An Act to amend Section 3090, Compiled Laws of Utah, 1907, relating to garnishments, as amended by Chapter 82, Laws of Utah, 1911 relating to garnishments, amending said Act so as to provide for the garnishment of any person or corporation indebted to the defendant before judgment by filing an affidavit and bond.

Be it Enacted by the Legislature of the State of Utah:

Section 1. That Section 3090, Compiled Laws of Utah, 1907, as amended by Chapter 82, Laws of Utah, 1911, be and the same is hereby amended to read as follows:

3090. At the time of issuing a writ of attachment in an action or at any time therafter, the plaintiff may have a writ of garnishment issue, and thereupon attach the creditors, effects, debts, choses in action, and other personal property of the defendant in the possession or under the control of any third person, as garnishee, for the security of any judgment the plaintiff may recover in such action agaist the defendant; but any indebtedness owing to a defendant not personally served in this state with summons, when such indebtedness arises and is payable outside the state, shall not be subject to attachment, garnishment or execution except in cases where the plaintiff is a citizen of this state and sues in his own right, and not as assignee; but in such cases these facts must affirmatively appear by affidavit served with the writ of attachment or garnishment. If such facts do not appear, then the garnishee shall be under no liability on account of such writ of attachment or garnishment. Where the indebtedness arises outside of the state the presumption is that it is payable outside of the state.

It is further provided that upon the commencement of any personal action arising upon a contract express or implied or upon any judgment or decree already obtained the plaintiff may obtain a writ of garnishment by making and filing with the justice of the peace in the justice court or with the clerk of the court in which said action was brought an affidavit stating that he has good reason to

believe and does believe that any certain person, firm or corporation, private or public, has property, money, goods, chattels, credits or effects in his or its hands or under his or its control belonging to the defendant or defendants, or any or either of them, or that such person, or persons, firm or corporation is indebted to the defendant, that the defendant is indebted to him or it on such contract, judgment or decree, sued upon, and that he is justly aprehensive of the loss of the same unless a writ of garnishment issue. The garnishee thereupon is liable to the plaintiff from the time of the service of such writ to the amount of the aforesaid property or indebtedness belonging or due to the defendant and shall make answer to the writ as provided by law.

Before issuing said writ of garnishment, the justice or the clerk must require a written undertaking on the part of the plaintiff, with sufficient sureties, in a sum not less than double the amount claimed by the plaintiff, but in no case shall the undertaking required exceed $10,000.00 or be less than $50.00 in amount. The condition of said undertaking shall be to the effect that if the defendant recover judgment, or if a writ of garnishment be wrongfully issued, the plaintiff will pay the defendants all costs that may be awarded to the defendants, and all damages which he may sustain by reason of the issuance of the said writ of garnishment, not exceeding the sum specified in the undetaking.

If the defendant is a non-resident of the state, said fact must be set forth in the affidavit. Further and subsequent or supplemental proceedings may be had as herein elsewhere provided.

And as so amended we recommend its passage.

Respectfully,
BENNER X. SMITH,
Chairman.

Report adopted and H. B. No. 183, was read second time.

SENATE COMMITTEE ROOM,
Salt Lake City, Utah, March 4, 1913.

To the Honorable President of the Senate and the Speaker of the House:

Your Special Joint Committee, to whom was referred S. B. No. 61, by Mr. Benner X. Smith, at the request of the Commission on Taxation and Revnue, entitled: "An Act providing a general revenue measure for the State, and repealing Title 80, Compiled Laws of Utah, 1907, as amended by Chapter 94, Laws of Utah, 1909; Chapter 63, Laws of Utah, 1909; Chapter 117, Laws of Utah, 1909; Chapter 90, Laws of Utah, 1909; Chapter 85, Laws of Utah, 1911; Chapter 83, Laws of Utah, 1911; Chapter 116, Laws of Utah, 1911; Chapter 114, Laws of Utah, 1911; and repealing Chapter 66, Laws of Utah, 1911," beg leave to report that they have had the said bill under consideration, and recommend that the same be not passed.

Senate Bill No. 61, was prepared by the Commission on Revenue and Taxation appointed by the Governor,

under the authority of an Act passed by the Legislature of the State of Utah, in 1911, and is an exceedingly comprehensive measure, covering practically the whole subject of taxation in this State; it is to a large extent a rewriting of the laws affecting taxation and revenue as they now stand on the statutes of this State.

It proposes, however, some substantial changes with respect to the administration of the business of levying assessments and collecting taxes, and a broader classification of property by assessing boards, and shows evidences of much careful consideration and research by the members of the Commission.

We are of the opinion, however, that a subject of such magnitude and importance as the writing of a law covering the whole field of taxation and revenues should be considered with much deliberation and care by the Legislature, and that it should not be submitted to the Legislature when press of business and lack of time prevent its being given the attention and deliberation which such a measure merits. We therefore recommend that the subject as a whole be not considered further at the present session.

We are of the opinion that the success of the administration of assessing and collecting taxes and revenues depends largely, if not altogether, upon the devotion to duty and the desire to apply business methods and principles in the discharge thereof by ofifcers and boards whose duties are to enforce the laws of taxation and revenue in this State, and that the present laws, while in some respects defective, are in the main entirely adequate to meet the situation.

We, however, recommend the enactment of a law by this Legislature, prescribing the duties and powers of the State Board of Equalization, and making the duties of local boards sitting as members of the Board of Equalization more specific, to the end that better service may be obtained. We agree with the suggestion of the Commission that the office of assessor is one of the most important in the county; that the best man in the county is none too good for assessor, and that his compensation should

be such that he will be willing to accept the office; and in this connection we suggest that a law be enacted providing for the payment of all expenses of county assessors incident to a discharge of their official duties, in addition to the salaries now provided by the local boards of county commissioners under authority of law.

Respectfully,
G. A. IVERSON,
L. B. WIGHT,
C. COTTRELL, JR.,
ENOS BENNION,
A. M. DURHAM,
JOHN N. HENRIE.

SENATE COMMITTEE ROOM,
Salt Lake City, Utah, March 6, 1913.

To the Honorable President and Members of the Senat.

Your Joint Committee on Employers' Liability and Workmen's Compensation, beg leave to transmit herewith a bill perpared by it, and after thorough consideration recommends unanimously that the same be passed.

The Committee presents what it believes to be a fair and just law adapted to the actual industrial conditions of this State—one that reasonablly compensates workmen for injuries sustained in the course of their employment, and yet does not unduly burden our industries.

The Committee is further of the opinion that the law it recommends would be generally acceptable to both the employer and employe.

Respectfully,
W. MONT FERRY,
D. O. RIDEOUT,
JAMES W. FUNK,
SAMUEL L. PAGE,
L. R. ANDERSON,
J. BAMEBERGER.

Report adopted and S. B. No. 147, substitute for S. B. 147, was read second time and made special order for Saturday at 2:30 p. m.

REPORTS OF STANDING COMMITTEES.

SENATE COMMITTEE ROOM,
Salt Lake City, Utah, March 10, 1913.

To the Honorable President of the Senate and Speaker of the House of Representatives:

We your Joint Committee to whom was referred S. B. No. 99, by Mr. Edgheill, entitled: "An Act to amend

Sections 469 and 477, Compiled Laws of Utah, 1907, relating to boundary line between Juab and San Pete counties," and H. B. No. 94, by Mr. Jones, entitled: "An Act to amend Section 469 and 477, Compiled Laws of Utah, 1907, relating to the boundary line between Juab and San Pete counties," beg leave to report as follows:

That we have had the same under consideration, have examined numerous witnesses under oath and had placed before us many documents relating to the matter in question and now recommend that the bills be amended so as to read as follows:

"An Act to amend Section 469 and 477, Compiled Laws of Utah, 1907, relating to the boundary lines of Juab and San Pete Counties."

"Whereas, the description of the boundary line between Juab and San Pete counties as contained in Sections 469 and 477, Compiled Laws of Utah, 1907, is indefinite and ambiguous to the extent that it has heretofore been impossible definitely to determine the exact location of said boundary line, and

"Whereas there has been a controversy between the officials of said counties regarding the same, which controversy has appeared in the last three sessions of the Legislature of the State of Utah, and

"Whereas the settlement ofthe dispute entails the amending of the said Section as hereinafter set forth;

"Now, Therefore, Be it Enacted by the Legislature of the State of Utah:

Section 1. That Section 469 and 477, Compiled Laws of Utah, 1907, be and the same are hereby amended to read as follows:

469. COMMUNICATIONS FROM THE GOVERNOR.

EXECUTIVE OFFICE,
Salt Lake City, Utah, March 12, 1913.

To the Senate:

I have this day approved and filed with the Secretary of State, Senate Bill No. 111, by Mr. Smith, entitled: "An Act amending Section 4694, Compiled Laws of Utah, 1907, relating to the amendment of the information."

Very respectfully,
WILLIAM SPRY,
Governor.

Communication filed,

EXECUTIVE OFFICE,
Salt Lake City, Utah, March 12, 1913.

To the Senate:

I have this day approved and filed with the Secretary of State, Senate Bill No. 23, by Mr. Rideout, entitled: "An Act amending Section 4397x, Compiled Laws of Utah, 1907, relating to false statements and providing a punishment therefor."

Very respectfully,
WILLIAM SPRY,
Governor.

Communication filed.

EXECUTIVE OFFICE,
Salt Lake City, Utah, March 13, 1913.

To the Senate:

I have approved and filed with the Secretary of State the following bills:

Senate Bill No. 102, by Mr. Smith, entitled: "An Act to perpetuate the pioneer route into Salt Lake Valley, to declare a portion thereof a State highway to be known as 'The Utah Pioneer Route into Salt Lake Val-

ley,' authorizing the State Road Commission to locate and mark with stone pillars properly inscribed said route from the point where it enters the State of Utah to Salt Lake City, and appropriating $5,000.00, or so much thereof as may be necessary, for the marking of said route and for the construction and repair of a portion theerof designated as a State road; said work and expenditures to be under the direction of the State Road Commission."

Senate Bill No. 171, by Committe on Banks and Banking, entitled: "An Act to create a State Banking Department; providing for the appointment of a Bank Commissioner and one or more Bank Examiners; defining the qualifications and duties of the Commissioner and Examiners and fixing their salaries and fixing the fee for each examination and repealing Sections 1, 2, 3, 4, 5, and 6, Chapter 25, Laws of Utah, 1911.

Very respectfully,

WILLIAM SPRY,
Governor.

Communication filed.

EXECUTIVE OFFICE,
Salt Lake City, Utah, March 13, 1913.

To the Senate:

In returning herewith, without my approval, Senate Bill No. 39, by Mr. Williams, entitled: "An Act relating to the State Dairy and Food Commissioner," I beg to call your attention to the following defects in the bill:

This bill amends many sections of Chapter 1, of Title 18, Compiled Laws of Utah, 1907; repeals five sections of the same Chapter and enacts two new sections.

Among the sections amended is the penalty section of said Chapter 1, Title 18, being Section 746x23. Under a reasonable construction of this section, as amended, the penalties which it prescribes can only be imposed upon violators of the provisions contained in the particular act under consideration, since it provides that "ev-

ery person or corporation who shall violate any of the provisions of *this act or chapter* shall be guilty, etc." I assume it was the intent of the Legislature that persons or corporations violating any of the provisions of Chapter 1, of Title 18, unamended, were to be held liable to the penalties imposed by Section 746x23, as amended.

Said Section 746x23, should therefor be amended to read as follows:

"Section 746x23. Every person or corporation who shall violate any of the provisions of this Act, or of Chapter 1, of Title 18, Compiled Laws of Utah, 1907, shall be guilty of a misdemeanor, etc."

I assume also that the section prescribing rules of pelading and evidence was intended to cover unamended as well as amended sections, and I therefor suggest an amendment to Section 3 of the bill as follows:

"Section 3. That Sections 746x, 746x1, 746x13, 746x26, and 746x27, Compiled Laws of Utah, 1907, be and the same are hereby repealed, but this repeal shall not affect any act done, offense committe, or action pending, but the same shall be prosecuted to judgment and execution to the same effect as though this repeal had not been made."

In every action arising under any of the provisions of this act, *or of Chapter* 1, *of Title* 18, *Compiled Laws of Utah,* 1907, it shall be sufficient to charge the offense in the language of the statute without further particularity, and every exception or proviso, no matter where the same may occur, shall be deemed matter to be pleaded and proved in defense. The certificate of the State Chemist, over his signature, certifying his findings in any analysis or examination of any article mentioned or referred to in this act *or said chapter,* shall be admissible in any court as prima facie evidence of the facts set forth in such certificate."

Respectfully,
WILLIAM SPRY,
Governor.

Communication filed and S. B. No. 39, was amended pursuant to the suggestion of the Governor and placed

on its final passage, and passed on the following vote: Ayes, 16; absent and not voting, 2.

Those voting in the affirmative were: Booth, Cottrell, Craig, Eckersley, Edgheill, Ferry, Funk, Hansen, Iverson, Lunt, Olson, Rideout, Smith, Thornley, Wight, Mr. President. Absent and not voting: Kelly, Williams.

The title of the bill was made the title of the Act.

"I have been delegated by a number of Senators to perform a pleasant duty, and represent them in express-

ing a few parting thoughts at the closing hour of this session.

"We have sat here now for many weeks, under your able Presidency. You have been just, fair, prompt and courageous in meeting the issues which have come before you. As your colleagues we have learned to love and respect you, and in turn we have endeavored to perform our part, and I feel to say that every Senator here has been faithful, industrious and unselfish in discharging his sacred obligations to the people of this great State.

"Mr. President, I am reminded that this is the sixth consecutive session that you and I have been in this room laboring as servants of the people. During that long period of eleven years our associations with many of the leading citizens of the State have been pleasant and profitable, and this service has cemented the love, esteem and friendship I have always felt for you; and in saying this I feel sure that I echo the sentiment of every member here. You have our undivided support and respect.

"Now it is my great pleasure to present to you in behalf of the Senators of the Tenth Legislature of the State of Utah, this Loving Cup as a token of love and esteem. We wish you continued health and prosperity together with your good family.

"And now, my esteemed fellow workers, I feel to invoke the blessings of a kind Providence upon you all. May you return home in peace and safety, and may Heaven's blessings crown your every effort towards the building up of this great Commonwealth."
