# Redistricting Principles

1. Congressional districts must be as nearly equal as practicable with a deviation not greater than  $\pm .5$  %.
2. State legislative districts and state school board districts must have substantial equality of population among the various districts with a deviation not greater than  $\pm 4$ %.
3. Districts will be single member districts.
4. Plans will be drawn to create three Congressional Districts, four Congressional Districts, 29 State Senate Districts, 75 State House Districts, and 15 State School Board Districts.
5. In drawing districts, the official population enumeration of the 2000 decennial census will be used.
6. Districts will be contiguous and reasonably compact.

The above redistricting principles were adopted by the Legislative Redistricting Committee at their April 26th and May 10th meetings.

## **Redistricting Procedural Guidelines**

1. All requests to use staff time and redistricting resources must first be cleared by a member of the committee and by one of the committee chairman. A committee chairman will not unreasonably deny a legitimate request.
2. To ensure the security of information and to protect licensing agreements with software manufacturers, access to computer information and the computer system used in the redistricting process will be restricted to redistricting committee staff. With permission from a chairman, individual legislators may be present and direct staff in drawing plans.
3. Redistricting Committee meetings will be open to the public.
4. Members of the public may obtain any copies of written information provided at Redistricting Committee meetings.
5. Political data will not be included in the redistricting computer system. Political data should not be shown to or discussed with redistricting committee staff nor at Redistricting Committee meetings.
6. Every change to a proposed plan by any committee member must also resolve the ripple effect on the entire plan caused by that change.

The above redistricting procedural guidelines were adopted by the Legislative Redistricting Committee at their May 10th meeting.

**A REQUEST FOR INPUT**  
*by the*  
**REDISTRICTING COMMITTEE**  
*of the Utah Legislature*

The Utah Legislature has begun the decennial task of redrawing the boundaries of congressional, Utah Senate, Utah House of Representatives, and State School Board districts. Last year's Census made it clear that as a result of differing rates of growth across the state, existing districts will have to be modified – in some cases significantly – to ensure uniformly proportionate representation of the state's citizens.

If you wish to have input in this process, please review the accompanying information prepared by the Legislature's Redistricting Committee and indicate on the back of this page any suggestions you may have to alter the boundaries of any district or groups of districts. Specify which counties, municipalities, voting precincts, or city blocks (each are basic building blocks of redistricting plans) should be added to or removed, or not added to or removed, from a district or group of districts. Alternatively, you may propose boundary changes in terms of roads, water bodies, and municipal boundaries. You may also use our website to stay informed on the progress of the Redistricting Committee, meeting times and places, and other issues and information relating to redistricting. Our website is [www.le.state.ut.us/interim/2001/interim.html](http://www.le.state.ut.us/interim/2001/interim.html).

Please prioritize your suggestions and submit your response to:

**Mail:** Redistricting Committee  
Room 436 State Capitol  
Salt Lake City, UT 84114

**Fax:** 801-538-1712

**E-mail:** [Redistricting@le.state.ut.us](mailto:Redistricting@le.state.ut.us)

Thank you for your assistance and participation in this important process.
