

# SPECIAL GROUP LICENSE PLATE REVISIONS

*Draft legislation for the recodification of Section 41-1a-408*

- Recodifies and organizes the existing provisions relating to special group license plates
- Groups the 23 types of special group license plates into five categories
  - Provides uniform standards for the provisions relating to each of the five categories
  - Brings all provisions relating to disability license plates and placards into a single section
- Provides for a uniform administrative process for groups to apply for a new classification of special group license plate
- Corrects cross-references to special group license plates throughout the code
