2:00 p.m. **1. Committee Business**

(The committee will consider the minutes of the September 12, 2001 Transportation Interim Committee meeting.)

2:05 p.m. **2. Transportation Funding**

(Recent statewide transportation revenues have been flat. This affects the state pavement preservation program and requires funding shifts and adjustments to the projects on the STIP (Statewide Transportation Improvement Program). A ten-year financing plan for I-15 reconstruction in Salt Lake County from 600 North to 10800 South was begun by the Legislature during the 1997 General Session. Other highway needs continue to grow. How have transportation projects been funded? What adjustments are needed to the pavement preservation program and the STIP? What is the status of the original ten-year financing plan? What is the transportation revenue outlook? What adjustments should be considered by the Legislature?)
