

UDOT 2012
**PROJECT MAP
BY COUNTY**

Executive Summary

This brief highlights the location, value and scope of work for transportation projects currently under construction. This marks the third year of construction for Utah's largest highway transportation project, I-15 CORE in Utah County, which is scheduled to finish on time by December 2012. Additionally, UDOT is making significant improvements to Utah's transportation infrastructure and contributing to its economic recovery with 169 projects currently under construction and more than 100 scheduled to begin before the end of the year.

Projects are broken down by county and identified on individual county maps. Each project addresses current and future transportation needs. Funding information on all UDOT projects can also be found on the Transparency website by visiting www.udot.utah.gov/transparency. This website is updated regularly as projects move into the construction phase and shows funding information in several different ways – from how it helps work towards one of the strategic goals, to project location and finally by legislative fund. In addition to this guide and the Transparency website, UDOT's Know Where Know Why campaign aims to proactively communicate with the traveling public to help them better plan ahead. Some of the communications tools include:

“UDOT Traffic” App — The free smartphone app incorporates the most up-to-date information from the UDOT Traffic Operations Center, including real-time traffic conditions, construction alerts and crash information and road weather conditions.

Interactive Website — www.udot.utah.gov features an interactive map identifying the locations of UDOT projects statewide. Detailed information is provided for each project, including the construction schedule, expected travel delays and the project benefits.

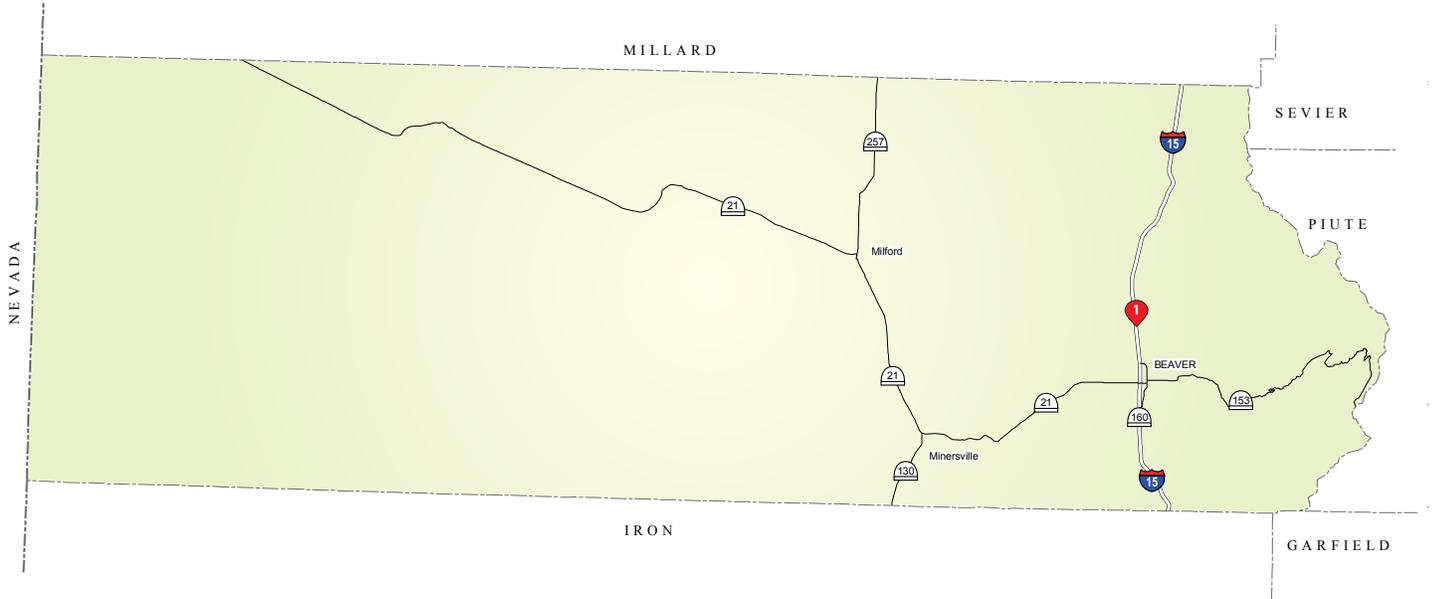

UDOT's 2012 Road Construction Guide — The guide features the 2012 top 20 projects and is delivered to many tire and car service shops statewide and 600 hotels, motels, rental car companies, travel and tourism bureaus and visitor centers.

UDOT's Twitter Account — The public can follow UDOT's Twitter feed at twitter.com/UtahDOT and receive regular updates on road construction and traffic conditions.

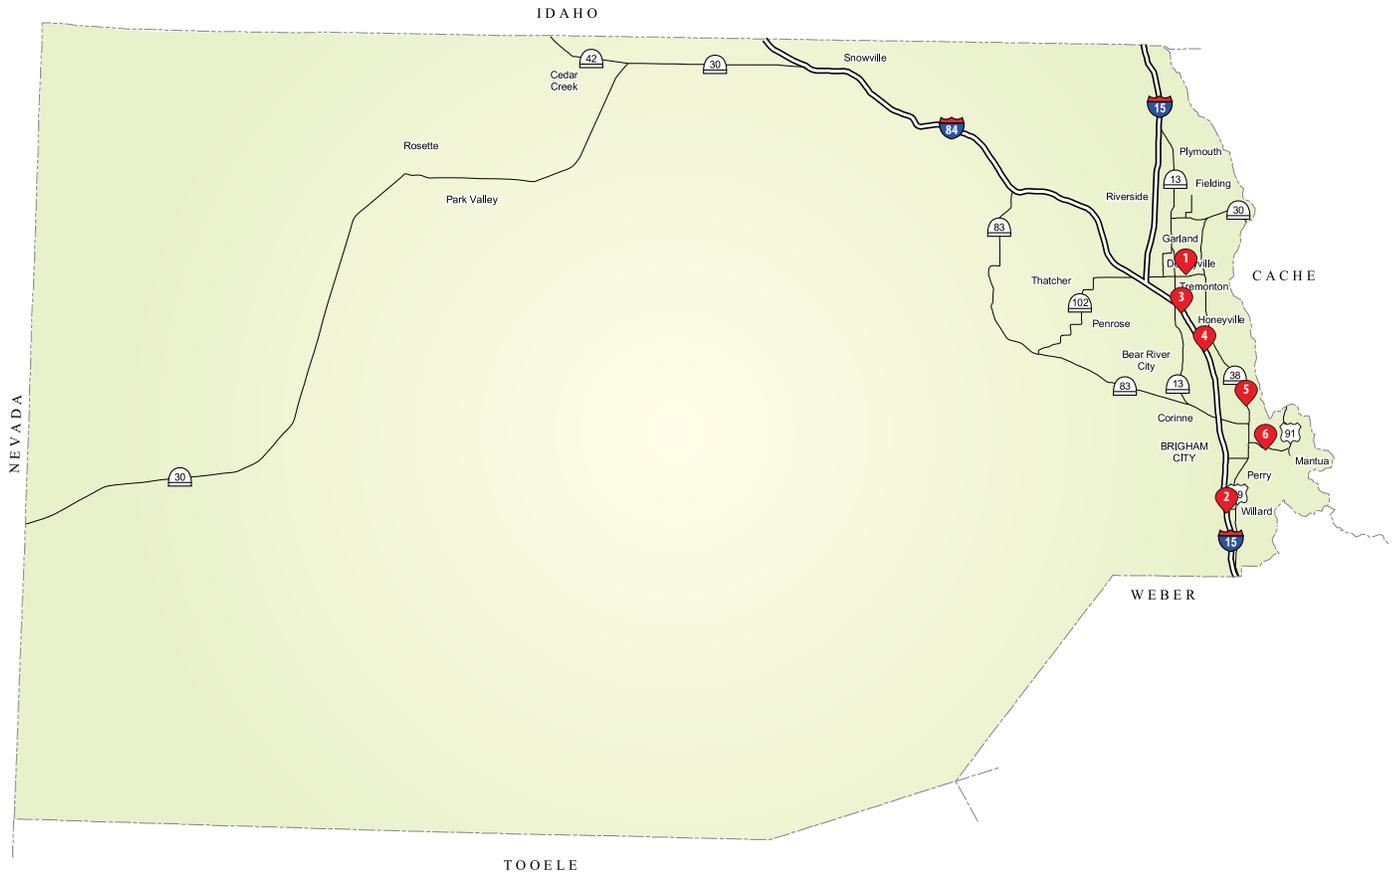

Text Updates — The public can text the word “UDOT” to 53535 to subscribe to weekly update texts. Subscribers can also text “UDOT” to 53535 at any time to receive the most current information.

Traffic Concierge Email — UDOT distributes a weekly email to statewide lodging properties, car rental desks and visitor centers. It helps staff provide guests with information and alternate routes when giving travel directions.

Radio & Broadcast Announcements — UDOT has partnered with several radio and TV stations to provide regular segments about significant construction projects affecting weekday commutes as well as weekend and holiday travel.

Number	Project Description	Type	Project Value
1	Various Locations, Seal Rumble Strips	Spot Improvement	\$300,000

Number	Project Description	Type	Project Value
1	SR-102, Main St. Railroad Crossing Improvement	Railroad Crossing Improvement	\$755,984
2	I-15, SR-126 to SR-91	Concrete Rehabilitation	\$15,803,455
3	I-15, MP 373 to MP 379 Median Cable Barrier	Barrier / Guardrail / Fence	\$750,000
4	I-15, SR-91 to SR-13	Pavement Preservation	\$1,650,000
5	SR-38 & US-89, Wildlife Warning Signs	Spot Improvement	\$73,310
6	SR-91, SR-90 to Sardine Summit	Maintenance Restoration & Rehabilitation	\$6,000,000

Number	Project Description	Type	Project Value
1	US-89, Twin Creek Rd. to Beaver Creek	Chip Seal	\$725,000
2	SR-89, MP 486.9 to MP 492.1	Bituminous Pavement, Chip Seal	\$600,000
3	US-91, Dry Lake Median Barrier	Barrier / Guardrail / Fence	\$402,044
4	US-91, SR-101 to SR-165	Bituminous Pavement, Chip Seal	\$1,275,000

Cache County Cont.

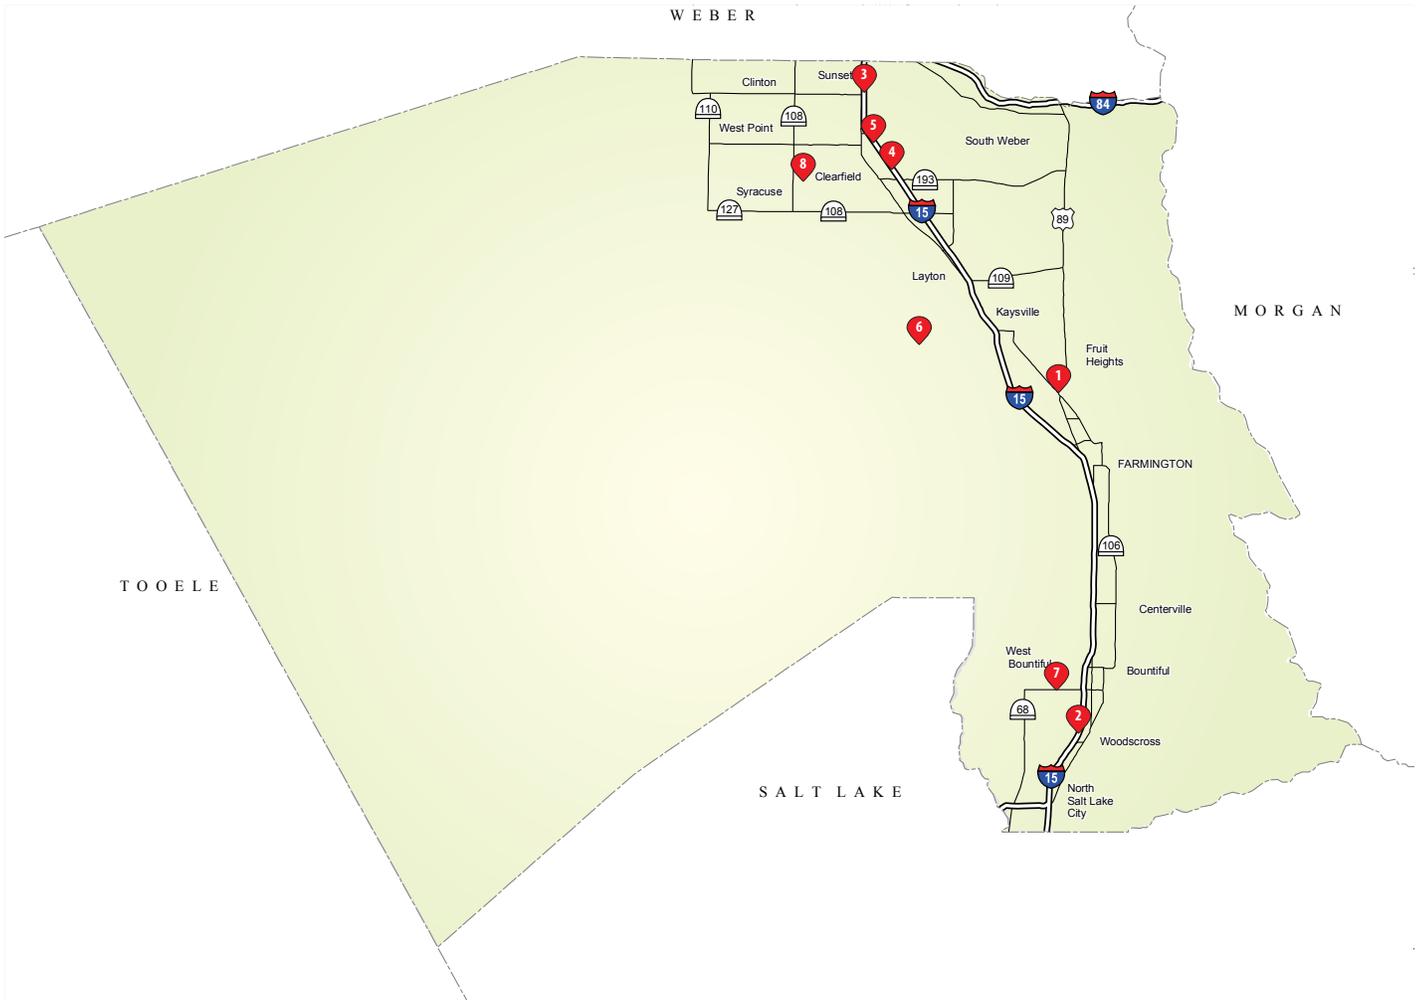

Number	Project Description	Type	Project Value
5	SR-165, SR-101 to Ballard Springs	Maintenance Resurfacing	\$687,000
