

Midvale CBC

Community Dental Clinic

Performance Measurements

Operating cost

The Midvale CBC Community Dental clinic is open to public twice a week for 45 weeks per year for a total of 90 clinics per year. The CBC serves clients under 175% of poverty level.

90 clinics per year = \$62,520/year

552 clients paid \$40 a visit

78 clients received free services (12%)

TOTAL = 630 CLIENTS SERVED

Access to Dental Care Funding

Midvale CBC Community Clinic will be able to add 36 additional clinics per year, for a total of 252 additional clients served.

The \$25,000.00 would help the clinic with administrative overhead costs and dental supplies

Savings

The average cost of a non-surgical extraction is \$175 (\$100 to \$250)

The average cost of cavity fillings is \$125 (\$90 to \$160)

The additional \$25,000 funding would result in savings of \$37,000.00 in average.

Clients served by the CBC would otherwise resort to seek services at Emergency Rooms and private dental office often resulting in higher tax payers or unpaid bills to private providers.
