

USHE HISTORICAL ENROLLMENT

HIGHER EDUCATION
STAFF: SPENCER PRATT

ISSUE BRIEF

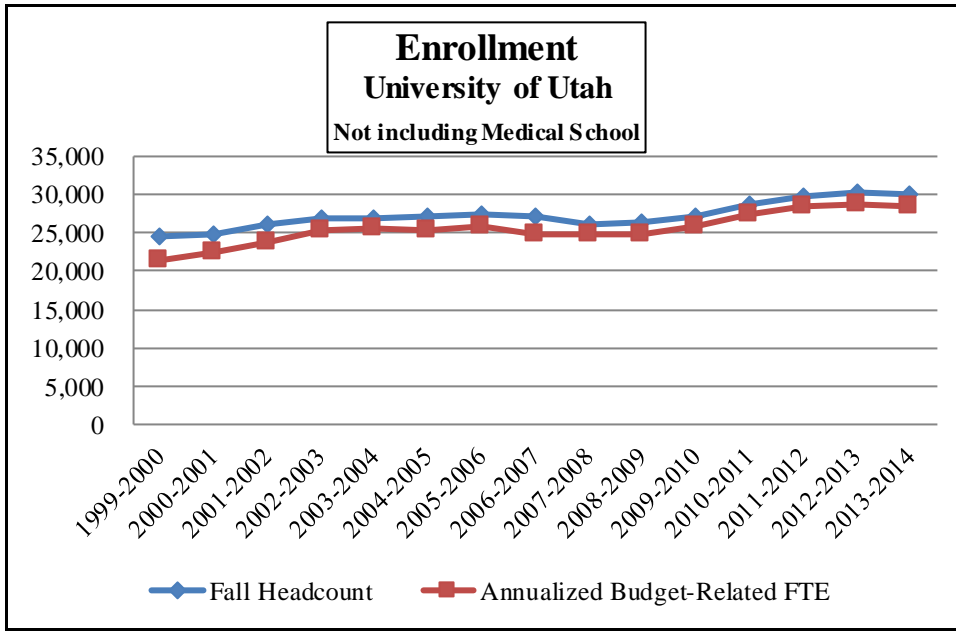

SUMMARY

An input measure of higher education is the number of students who enroll at an institution. This Issue Brief provides information showing enrollment growth by USHE institution over the past decade.

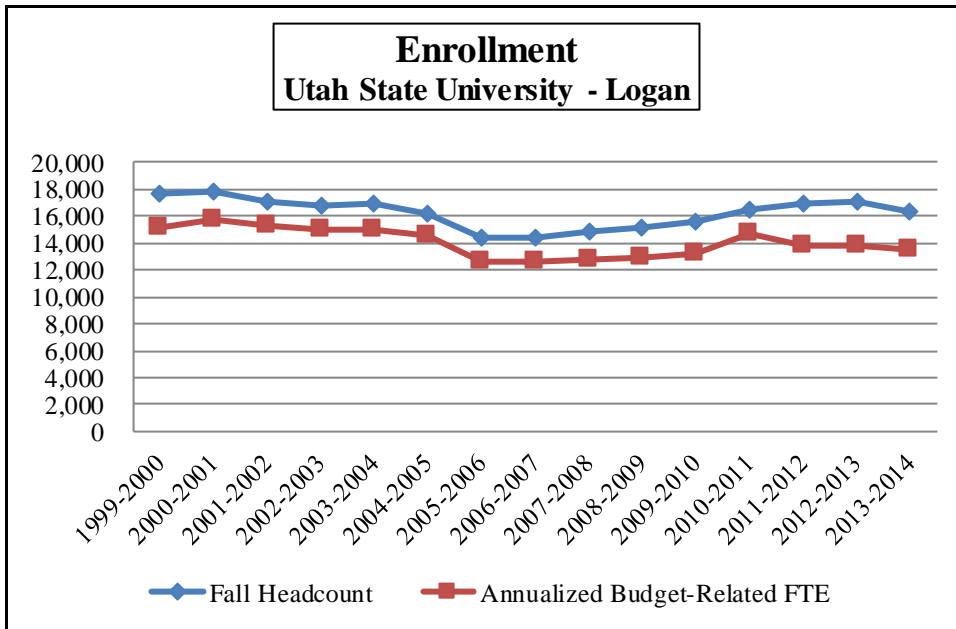

DISCUSSION AND ANALYSIS

The following tables provide a historical perspective of the two ways students are counted at USHE institutions. Up through the 2012-2013 year, the blue line in each figure measures the headcount of students on campus the third week of fall semester. Beginning with 2013-2014, however, this measure is being changed to “end of term.” The third week measurement was used as a predictor of the number of students who would continue through that semester. The new count is an actual measure of the number of students at the end of the semester. Both of these measurements count each student as one, whether that student is taking one credit hour or 15. The red line depicts the Annualized Budget-Related FTEs. The “annualized” accounts for variations between Fall and Spring semesters. The “budget-related” counts only those students who are funded using state tax resources. It does not count self-supported students, such as those in continuing education or those in remedial education at the universities. The FTE number is determined by dividing the total number of student credit hours by 30 for undergraduate and by 20 for graduate students.

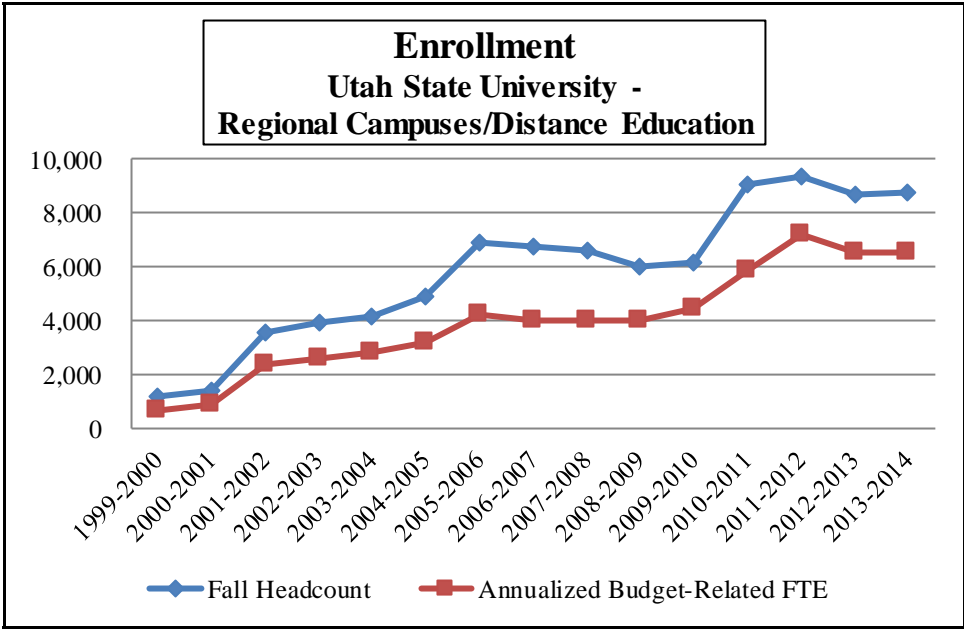

Enrollment in USHE has grown from 88,393 annualized budget-related FTEs in FY 2000 to 115,194 in FY 2014. From 2000 to 2004, enrollments grew fairly steady, but then dropped for three years. Enrollments grew by 1,645 FTEs in 2008, by 3,099 in 2009, by 10,475 in FY 2010, and by 6,910 in FY 2011. Enrollment increased, but at a slower rate in FY 2012, growing by 1,778, but then dropped by 2,454 in FY 2013, and an additional 4,016 in FY 2014. Part of the recent declines is due at least in part to the improving economy and the change the LDS Church made in missionary ages. No new funding has been provided during the past several legislative sessions to help with enrollment increases.
