Prison Relocation Commission
Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

ARE There Any Under Lying Reasons For
NOT Building in The Existing Location.
What Do Mean Under Lying Reasons Would The
Fed's Federal System Like To ~~Build~~
Build In The Immediate Area of The
New Site in The Future AS To Make
A Super MAX IN For Structure of
Incarceration. I Feel Incarceration is
A Big Business. AS The War on Drugs Was
A Republican SHAM as Drug Addiction

I feel that the prison located out by the great Salt Lake, they could be on worse soil. The ones in prison could get out and to the airport and other businesses near the airport and do a lot of harm or try to escape by planes somewhere. Even though how many generations have grown & needed more areas to live they did not think about where the prison was and what may need done to it in the future. I would not like to see the prison in the Salt Lake City area

I truly think by the airport is wrong in every aspect. the first thing visitors don't want to see is a prison as they come off the plane, 2- the revenues needed is not out by the airport. a place that is gonna bring in revenue is a better place to put it. a new place for new hope for them people. Not the same ugly looking dry area. build where the help that is needed is close by. the airport area is gonna be needed for more freeways in the future. Do the right thing go where the revenue is not more burden on tax payers or inmates. a little closer to a new environment. And respect our visitors coming to Utah. they don't deserve to see a prison. no more dept in

If you have been given Charge to find the best site for the prison, you have an obligation to the citizens to select the ~~to~~ site that will make for the best prison. If you look for excuses to toss out Point of the Mountain, you look for excuse not to provide the best governance possible. Regardless how far down the road the legislature has gone in determining that it will not be at Point of the Mountain, ~~you~~ you, as public servants charged with finding ^{the best} a site, should feel an obligation to do exactly that - suggest the very best site, without tossing out ~~Point of the Mountain~~ the best site in order to ~~get~~ get to ~~the~~ other sites. ~~is the best~~. If you must, tell them which of the alternative sites ~~is the best~~ is the best if they insist on moving, but tell them you feel morally obligated to say staying put is in the best interest of the prison, if it is. ~~is~~ And it certainly seems it is becoming evident Point of the Mountain is the best site.

I do not understand why ~~this~~ the powers that be refuse to consider the Point of the Mountain site. I'm told it is because the law says they cannot consider the future use of the Point of the Mountain property. Clearly, when the legislature made that rule, they were ~~not~~ wanting to avoid the PRC considering whether it would be an NFL stadium, or such. The PRC, to me, does have the right to ~~consider~~ ~~site~~ to go back to the legislature and say, 'We know you want to move the prison, and, if you do, we ~~have~~ would suggest the Airport, or Fairfield, or wherever, but we do feel the ~~best~~ Point of the Mountain remains the best site. Providing the best prison site, period, should be the goal of the PRC. They should not feel they need to toss out the best site and then select the runner-up as the winner. Indeed, the PRC should feel a moral responsibility to say the Point of the Mountain is the best site, if it is, and if that is what is determined. Indeed the

I oppose the Salt Lake City site. The development potential of that site will in decades to come be just as great as Draper's current development potential. Salt Lake City's Northwest Quadrant is a growing hub of economic activity located in the core of the state, directly adjacent to the airport and I-80 freeway. The area, which includes the International Center is already home to a growing number of major businesses. Build there and we will be asking ourselves in the decades to come why we ever chose to do that with such development potential.

Its a shame The governor has ignored prison conditions until now. why were new facilities added all along, The prison should be rebuilt where it is now. All goals and projects can be accomplished in new facilities right there. Ikea, Microsoft, e-bay, etc Knew the prison was there and everyone thought it was okay to be there. But the prison was there first and has priority to stay and be renovated there. Economic benefits are being talked up, but with a new building it will fit in with all the rest of modern buildings. New buildings would be great for everyone, the inmates, the public and the location everyone wants to grab for political and money matters. In the past 50 years why has the need been so important that the matter was not addressed to help all those in prison with adequate facilities. The fact is 'money talks' and the Prison Relocating com. is not looking at enough options other than moving the prison. All goals and ideas to help inmates as outlined in the outlined info at this meeting can be well done without a new facility elsewhere in three years. In another 50 years the problem will be repeated. Keep up the facility constantly each year. Stop low enforcement and judges from giving such long sentences. Have some feelings for those jailed for years!

Rebuild at the present location. -OR-

ENSURE that the covetous developers PAY the entire cost of any move. All costs, including ROADS, OTHER INFRASTRUCTURE, UTILITY LINES (WATER, SEWER, POWER, COMMUNICATION) should be paid by the few people who WANT to Redevelop the DRAPER site, NOT BY the TAXPAYERS of UTAH. If these Redevelopers had to post-IN CASH the several Billion dollars needed for new site improvements and bear the COST PRIOR TO GETTING THE DRAPER SITE TURNED OVER TO THEM, THEY WOULD WALK AWAY.

Does our Governor only think of numbers, money etc?
Does he even care of the people, employes?

The prisoners are already being punished in prison!
Is there any consideration for families of prisoners?
New prison is making more room for more prisoners.
Size of inmates should be reduced. We need prison reform
Stop putting so many people in prison!

Moving prison is not solving the problems of
our justice system in keeping up the pace of police,
judges, etc system, sending more to load up
more prisons. What's the matter with
governor in allowing this to happen? too many
yes, yes, yes to interested parties!!!

Prison "Relocation" Commission: sounds like you've already made the decision to move. Why haven't we heard of any alternatives to moving? This discussion tonight is just a farce.

Even the best case scenario would leave Utah holding the bag for the \$400 million plus gap between monies from the sale of the land the prison is currently located on and the cost of new construction elsewhere.

Finally, doesn't the entire decision fall upon the church's shoulders? It makes all of the decisions in Utah.

A new state prison can be built in its present location in a year or less. A new high rise building could house all of the existing buildings now making up the prison. All of the security fences and guard towers are not necessary. Look at the present Federal Court House down town. Prisoners are transported to and from the courthouse with no problem. The current area has access to light rail, utilities, bus service and highway access.

Additional expansion for attorney offices, state and federal offices, court house, would all be housed in the same location.

The balance of state property can be leased to businesses long term for 20 years, 50 years, or longer. You could lease the property and after the lease is up, the state would still own the property. Income leasing to all new businesses would exceed the cost of the new prison and all operating costs. This would be a big benefit to the people of Utah. There are new schools, businesses, and housing tracts surrounding the location presently.

By doing this proposal Utah would be leading the nation with a new modern prison.

My preference is that the prison be rebuilt on a phased plan at its current site.

If the prison must be moved, I support the I-80/1200 West site (I am a local resident) for the following reasons: proximity to courts and medical facilities and accessibility of the site for prison employees, volunteers, attorneys, family members of prisoners, educators, and rehabilitation professionals and health professionals.

Unless

Building on the location has any negative impacts on the wetlands and the species for which they are habitat.

BY BUILDING ON THE EXISTING DRAPER SITE, THE UDC SHOULD BE ABLE TO CONTINUE TO ACCOMPLISH ITS MISSION, MEET THE NEEDS OF CURRENT & FUTURE INMATE POPULATIONS & PROVIDE FOR THE CONTINUED SECURITY OF INMATES, STAFF & NEARBY COMMUNITIES.

HYPOTHETICAL ECONOMIC GROWTH SHOULD NOT TAKE THE PLACE OF PRACTICAL, COMMON SENSE LAND USAGE. WHEN WE REBUILD A HIGH SCHOOL, WE BUILD IT ON THE FIELDS IT HAS & THEN TEAR IT DOWN. SEEMS TO MAKE SENSE TO ME.

LEAVE IT IN DRAPER.

LASTLY, IN REGARDS TO THE PROPOSED 3LC SITE, DO WE REALLY WANT ALL VISITORS FLYING IN & OUT OF OUR GREAT STATE SEEING A PRISON AS THEIR FIRST & LAST IMPRESSION??

Several Salt Lake City Schools have found need to rebuild a school and have chosen to build a new school on the playground and then tear down the old building making that area a playground. This approach is my first choice.

I am a resident of Salt Lake City but also a citizen of the State of Utah and am able to shed any bias of my residence for the benefit of the State thus I favor as a second choice the Salt Lake site - but with two conditions. (1) One of these days there is a possibility ~~of~~ of an earthquake that will breach the Kemmerott tailings containment thus a berm is needed to protect the site. (2) I favor the inclusion of both a culinary and a reclaimed water system

WE UNDERSTAND THE NEED FOR A NEW FACILITY. WE OBJECT TO MOVING ITS SITE. THERE IS ROOM ON THE CURRENT PROPERTY TO BUILD A NEW PRISON. I OBJECT TO MOVING IT AWAY FROM ITS PRISON SITE. MY SON WORKS AT THE POINT-OF-THE-MOUNTAIN FACILITY & HE WILL NOT BE ABLE TO EASILY MAINTAIN HIS EMPLOYMENT THERE IF THE PRISON IS LOCATED FAR AWAY. I HAVE THE FEELING THAT LAND DEVELOPERS ARE THE WINNERS OF A PRISON RELOCATION, NOT THE TAX-PAYERS. THE CURRENT SITE WITH A NEW FACILITY IS WHAT I AND ALL OF MY EXTENDED FAMILY WANT. WILL YOU LISTEN TO US OR THE LAND PROFITERS?

If you choose the site west of the airport, will there be an environmental impact study to see how it would affect the wetlands and the lake?

If the main reason to relocate is financial, to allow Draper City to improve the site, thereby collecting more tax revenue, why should the rest of the state have to pay more in their taxes, so Draper can increase their tax base? Has anyone considered having Draper pay more of their increased future taxes to offset the cost of relocating?

Please leave the prison where it is in Super. No updates & whatever is needed but keep it away from SHC. We have too many problems on the west side as it is. Prisoners don't need fancy gyms and luxuries as place to live, they have committed crimes and they don't deserve a nice place to live free of charge. Put them out in the desert with no air conditioning or nice accommodations.

Please DO NOT bring this facilities to Salt Lake City. Salt Lake City already has 5 correctional facilities to help prisoners. It's already so bad in SLU with drug dealers etc. I don't believe it is fair to put police officers who are already trying to protect the citizens who haven't done anything wrong. To bring prisoners out and mix them with the outside world is crazy!! These people don't care about rehab - all they want is to be a good person - prisoner so they can get out and get more drugs. Sex offenders the same thing - they have already hurt innocent people & yet we are trying to rehabilitate them - what a crock! I worry for the good people who try to make it in this world - take them far away from SLU. It will only get worse.

Prison Relocation Commission

Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

Prison Relocation Commission

Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

Relocation is bad because ① Residents do not want it in their community - to force them to take it is un-American ② At present location, no communities are against it. ③ Volunteers do their work for free. Do you want them to pay the expenses of traveling further and cost them money and time to get there? ④ At present site you can tear down a building and put up another more modern as we go along. ⑤ Relocation helps only the wealthy investors. ⑥ Can PRC give an accurate price comparison? I doubt it!

Put it on the ballot - People's choice!
No PRC needed. Just legislator, governor & people.

Please note that comments cannot be accepted by fax or email; comments can be submitted only by mail or online. Be aware that your entire comment—including your personal identifying information (address, phone number, email address, etc.) — may become publicly available at any time.

Prison Relocation Commission

Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

I attended the open house in Grantsville, Utah. After looking at all the information, my opinion of the prison relocation is even more firm than before: the prison needs to stay in its present location. The main argument against that seemed to be that there was not enough land to build on that site, but I would guess we have people smart enough to determine how to build in stages. Finish part of the facility, move part of the prisoners, demolish part of the old buildings and then do it again. My biggest concern about moving the prison is the increased difficulty that will arise by moving away from centers of population that provide volunteers. Any of the proposed relocation sites would not provide as many volunteers and community professionals as the current location. The committee discussed rehabilitation ~~that~~^{as} is the goal to move toward. More volunteers than ever will be needed to make that happen.

Tooele County is already in serious need of infrastructure help as it is. Our roads are completely overloaded with commuters going back and forth to work in SLC. We just simply don't have the employee pool, roads, water, sewer and the professionals to take a prison. What's going to happen when a truck crashes and closes down I-80? That's essentially the only way to Tooele County! The hospital out here isn't exactly the first place most of the residents go to start with for anything more than stitches. What are you going to do, haul them all to SLC for everything?

Keep the prison where it currently sits, build a new one on the adjacent property next to the prison. Then you can take down the old prison and use that property for your needs and what ever else may come up. This way you would end up with the same amount of property all the infrastructure would already be there i.e. water, power + land, 90% of the inmates are from that side of mountain, at least 90% or more, keep them over there, don't send your riffraff over here along with all the riffraff that will follow them.

Danny K. Linares
Grantsville, Utah

Back in 2007, Stephen Anderson was transporting an inmate to the U for "lower back pain" and was overtaken and shot and killed. Curtis Allgier commanded the van, driving through the streets of SLC, ~~at that~~ in a high speed chase, stopping at an Arby's, where he shot 2 customers, who lived. Still, in courts! What measures would be taken so this would never happen at a prison here?
Still, don't want it here!

There is NO way you can move the prison and
it NOT cost more than rebuilding in place
New place will need infrastructure of every thing
old prison has all in place. IF prison needs update
do it in place build new building then tear
down old one. Do this on building at a time
There is plenty of room to do this. NOT All buildings
need to be replaced.

Cannot the current site be upgraded to current needs? It seems that the main reason for relocation is to free up the "PRIME" Real estate on which the prison currently sits. Its more about \$\$\$ and politics than the need for a new site! But, in this current political forum where big \$\$\$ Rules, the little guy has no voice! Case in point, look at what the Koch Brothers are doing, buying Congress, trying to buy the country, to the demise of the middle class, for the further enrichment of the rich. GOLDEN RULE: HE WHO HAS THE GOLD MAKES THE RULES!

Name: Debra Spilman

City, town, or area of residence: Grantsville

Question or comment:

E. I keep hearing that the local community will be responsible for providing a significant amount of mental health related counselling and therapy for the prison inmate population and that Tooele County does not currently have the necessary facilities and professional staff available.

(1) How much of the mental health needs of the inmate population will the county be responsible for providing?

(2) What assistance will the state provide the county in meeting these needs? Or will the entire bill have to be covered by ___ county alone?

Name: Debra Spilman

City, town, or area of residence: Grantsville

Question or comment: _____

- H. With only 11% of Tooele County land being subject to property taxes, converting additional acreage to state property will reduce the amount of land the county can collect property taxes on. How will the state compensate Tooele County from that loss of income? While that land is currently undeveloped, someone has to be paying property taxes on the land now, plus converting the land to state prison property removes any potential future taxes that would result from commercial or residential development. Will the state appropriate a set percentage of the projected \$94 million annual increase to be paid to the county that ultimately ends up hosting the prison?

Name: Debra Spilman

City, town, or area of residence: Grantsville

Question or comment:

- J. Are the building and window rattling/jarring issues from the Depot's ammunition disposal blasting being considered in the site selection process? Will the noise and shockwaves be taken into consideration in the design of the buildings and fencing if either Tooele County location is selected? At times the shockwave from the blasts not only rattles walls and windows it has caused windows to actually crack. Some people feel that the shockwaves have damaged the stucco on homes, weakened their fences, etc. I have personally felt the shockwaves when I have been outside during the blasting. Just yesterday there were several that shook the entire back wall of my home. The blasting seems to have gotten stronger recently and would be heard and felt at the proposed prison site.

Name: DeAnna Linares

City, town, or area of residence: Grantsville

The only people that will gain from relocation are the land developers.
Question or comment: Relocation should be decided by the "people" on a ballot. Many new schools being built are being put on the same property as the old school -- using space that was for football/soccer fields, playgrounds, etc. Why isn't this being done for a new prison? There is a lot of open property at the current prison site: after the new prison is built, the old one could come down ~~and~~ I would like to receive updates and information from the PRC at the following email address: to give back open space for garden/dairy/etc. This would help lower costs and accommodate employees & volunteers

Name: Cindy Madsen

City, town, or area of residence: Grantsville

Question or comment: ^① I live 1/2 mile from the Grantsville location being considered. I own 2 1/2 acres directly south - just across West (Mack) Canyon Road, from the proposed site. I have a well and four water shares on my land. My son, his wife, and two year old daughter want to build a home there, they want, if the prison is built. I'm afraid I won't be able to sell the land for a good price once (if) it is built.

Questions for the "PRISON RELOCATION COMMISSION"

1. How can the extreme use of water be replaced??
2. How can you convince our community that 45% of all prisoners escape and would create a frightening situation for our town?
(45% was printed in the newspaper about 2 weeks ago).
3. How can you convince the workers at Walmart Distribution Center that they will be always be safe???
4. How will you explain our lack of growth and lack of new housing in our community???
5. If the Prison Relocation Commission is so adamant about getting a new prison, why don't some or any of you want the prison relocated next to your home????
6. How will you explain the extreme business loss, the downfall in our growth and the lack of safety for our families, our children and our grandchildren?
7. WHY can't the old prison site be upgraded???????????
8. NO ONE WANTS A PRISON CLOSE TO OR EVEN NEAR TO WHERE THEY HAVE LIVED THEIR WHOLE LIVES IN A SAFE ENVIRONMENT!
Can't you get that through your brains and come up with a better solution?
9. The amount of money to be spent on a new prison is absolutely ridiculous, outrageous and unacceptable.!

Lifelong Grantsville Resident!

QUESTIONS FOR THE PRC:

If the PRC cares enough to assign 35% of the weighted re-location criteria to proximity to prison staff, volunteers, medical and mental health providers, social programs, courts, legal services and visitors, then why propose moving the prison to a location that is approximately 60 driving away miles from the current prison site?

(SR-138 Industrial Park, Grantsville)

Unlike the Salt Lake Valley which draws upon multiple watersheds for its potable water, Tooele Valley obtains almost all of its potable water from an ever-decreasing underground aquifer, so how can the PRC justify proposing to pump at least 220 Million gallons/year from below the Tooele Valley?

(600,000 gallons of potable water per day x 365 days is 219,000,000)

Why won't the PRC save tens of millions of taxpayers' dollars by building a compact and space-utilizing, state-of-the-art, multiple storied prison campus on 100 acres of the state-owned prison land in Draper (which already has the infrastructure, staffing, volunteers, medical, mental, social and legal services close by), then sell and develop the remaining 600 acres? (For a size comparison, Liberty Park in Salt Lake City is approximately 80 acres)

Is the PRC prepared for a lengthy legal battle with Grantsville City, which has passed a resolution prohibiting any correctional facility exceeding 249 beds to be located within city boundaries? Is the PRC prepared for a lengthy legal battle with Grantsville City, which has passed a resolution prohibiting any water or sewer services to be provided to the prison?

Why does the PRC lie to the public saying that a prison is not detrimental to a small town?

(The PRC tells taxpayers that a prison in Draper has not affected growth and erroneously extrapolate that wherever the prison is relocated will not adversely affect the local economy. In reality, the growth in Draper is because it is located near I-15 and has access to a large population base. The seemingly benign circumstances of the prison in Draper would become aggravating circumstances in an economically-struggling small town which is not located near a bustling interstate or a swelling population base. Grantsville would suffer economically from depressed home resale values if it became known as "the prison town", and the increased tax rate to support the prison would also land squarely in the laps of the local population. Based on studies from other small towns, the promised construction jobs have not proven to be much help to a local community because large out-of-state construction conglomerates can under-bid the local construction companies. That same "underbidding" process happens for the construction materials and prison staffing contracts. Additionally, the low-paid, work-release prisoners will be in direct competition with the local town population for jobs).

Will the PRC members and others, who have a conflict of interest in proposing the prison move and subsequent development of the Draper site please step forward and recuse yourselves from the committee or from your conflicted influence?

Will Governor Herbert please stop this taxpayer abuse?

From: Stephen Warner

To: Prison relocation board

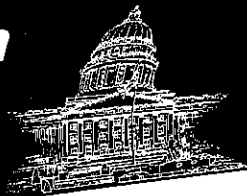

The whole idea of moving the prison is ill conceived. The present site's value has been over stated. There is enough room on site to build a new prison and then transfer operations when it is done. None of the considered sites provide better access to courts and rehabilitation/education than the Draper site.

If the present prison is inadequate/antiquated then the other 300 acres of the present property, which are already state owned, provide a good place that is well known as to hazards and infrastructure available. The state values the property at 40 million on its tax rolls. The other numbers being batted about are just guesses. The cost of a new prison must be paid. Deals and trades have not served us well in the past, why should we expect better this time. If Draper is so desperate to have this property then let them finance the new prison, build it there, and then sell the old one and unneeded portion of the property to pay the cost. The Draper area is close enough to courts and has the transportation links needed to move people as needed. No other site does. The workers at the prison are already settled in with routes to and from work. Moving the prison just uproots them. We are told that the new prison will be more efficient, and need fewer employees. Let attrition during the construction solve that problem.

If the state has removed this option then they need to reconsider. It looks like another case of someone who can hide behind their office and position to get a great deal of money from us the taxpayers. Please represent us, not the special interests and "Important people" that want the prison moved. The present site was chosen carefully and has enough room to build a new facility or 2 or 3 if needed.

- I. During a public meeting a couple months back held in Grantsville a rancher told us about historically free flowing wells that are starting to dry up or needing to be drilled deeper due to a drop in the level of the underground aquifer. This past winter, our snow pack was only 14% of normal prompting the Grantsville Irrigation Company to drop the number of gallons of water from the standard 250,000 per share to 200,000 per share due to our limited and apparently diminishing water resources in the area. If the prison is moved to the Grantsville area it will be dropping $\frac{1}{2}$ the current water needs of Grantsville City onto Grantsville in a very short time period. If the land is left alone to be developed over time, it will be easier to adjust water usage and needs over a much slower period of time. How will does the state plan to assist Grantsville in acquiring more water to be able to support an immediate population growth?

D. Public transportation into and out of Tooele County is limited and throughout Tooele Valley is even more limited if even available .

(1) In Answers Volume 1 posted on the PRC webpage, in response to a concern about inmate families relocating to the host community, the document states: "Inmates are frequently transferred between facilities, it is unlikely that families would find it worthwhile to relocate." With public transportation being so limited, how family members who are reliant upon Public Transportation commute out to a prison located in Tooele Valley?

(2) How will the state assist prison employees who now use public transportation to commute to work daily? Will the state provide buses, vans, shuttles to and from Salt Lake Valley and Tooele Valley?

A. There is only one real transportation artery between Tooele Valley and the Salt Lake Valley. If there is an accident or construction on I-80 between Tooele (Exit 99) and SR 201, traffic is often brought to a standstill and lately this seems to be happening more frequently. There have been instances over the years when this standstill has gone on for hours. When I-80 is shut down for extended periods of time

(1) How do you plan to get any prisoner transport vehicles off the interstate or do you plan to just leave the inmate and transport staff sitting out on the interstate?

(2) Knowing how irritated people get when they are stuck on the interstate for long periods of time, how long can the transport vehicle be stranded on the interstate before you consider it to be a problem?

G. In response to concerns over a prison adversely impacting businesses from building in a community, the PRC has pointed out all the companies that have recently located into the Draper area. However, part of the rationale for the need to move the prison is due to the fact that Draper is a major economic hub. I suspect the main reason businesses like CocaCola, IKEA, Harmons, Furniture Row, Camping World, EBay, etc have moved into the Draper area is because Draper IS a major economic hub and is located along a major transportation artery through the US between Mexico and Canada. The Grantsville sites do not have this economic and transportation hub characteristic to offset any negative impressions/perceptions a prison might create. When using the new businesses in Draper as an example of how the prison will help a community, aren't you in reality comparing apples to oranges?

Question or comment:

- L. In an article on ABCnews.go.com, dated February 1 (appears to be 2015) titled "Prison Escapes on the Decline" Camille G. Camp, co-president of the Criminal Justice Institute reportedly stated that one predictor of escapes in a prison system is the ratio of officers to prisoners. The average ratio in state and federal prisons is one officer per 5.6 prisoners. In that same article it is reported that Utah has 13 prisoners for every guard, the highest ratio in the country. While escapes from prisons are declining, with such a high prisoner to officer ratio, how will local residents especially those of Grantsville, Tooele, Rush Valley, Erda, Stansbury and Stockton be notified of any prisoner escapes and how quickly will that notification be issued?

- B. I keep hearing that the sale and development of the current prison property in Draper will produce millions, if not billions of dollars in revenue.
- (1) How much of the profit/revenue gained from the development of the current prison land will actually be seen by the state and not the private developers?
 - (2) How does this additional revenue match up against the risk/cost/tax impact to the state's taxpayers?
 - (3) How many members of the PRC decision makers are developers, on the board of development companies, or have stock in development companies and stand to profit personally from the development of the current prison property? Will the development companies and/or construction companies that PRC members are associated with be prohibited from participating in and profiting from all development projects associated with the sale and development of the current prison land?

Prison Relocation Commission

Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

I have a brother-in-law who works at the prison and is very concerned that many of the trusted and valued employees will have to seek other employment if the prison is relocated. He sees no benefit to either the prisoners or staff in a move. He is convinced this is the brainchild of land hungry developers who see ways to fatten their already bulging wallets!

I agree that there is a need for a new prison facility and I agree that it should be moved from its current location because that area has huge potential for revenue from business development however I think relocating the prison to an area like eagle Mountain that is a fast growing residential area is a bad idea. I do not agree that the cost of the infrastructure to put the prison out here is small enough to justify it. I think the location near I-80 is better because of the major road corridors located there the non potential for residential growth and the already existing infrastructure located there.

I am against the prison being relocated to Eagle Mt. I have evaluated various arguments and my biggest concern is: why is the law that states "The commission may not consider or evaluate future uses of the property on which the state prison is located," being ignored? Any reasoning made by the Prison Relocation Commission that refers to the development potential of the existing site should have to be disregarded based on current law. It is unlawful and it is wrong.

I also feel very strongly that any current problems Draper is currently facing will inevitably become problems as well in Eagle Mt. Many areas of Utah county do not have room for much more growth and a substantial amount of growth is unarguably in Eagle Mountain's future. This also cannot be ignored, and demands to be acknowledged.

Please note that comments cannot be accepted by fax or email; comments can be submitted only by mail or online.

The nearest hospital is almost an hour away and it isn't even your contracted hospital. If SR 73 gets shut down, which it does, due to accidents and such, if a prisoner dies, what would be the prisons liability? Are we going to see more problems w/ the medical care of prisoners like the recent digitalis death.

How would siting ~~the~~ it anywhere other than Draper serve the prison better, or make it a better prison?

When you consider the site, and how it impacts ~~the~~ whether it is a good prison, Draper is the best choice. It is close to the prisoners' families, allowing them to visit. It has the largest population base from which to select workers and volunteers. It is nearest the courts and social workers.

In what ways do any of the other sites exceed the Draper site?

Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

I AM AGAINST THE RELOCATION OF THE PRISON TO EITHER EAGLE MTN. OR FAIRFIELD. THE AMOUNT OF TAX DOLLARS THAT WILL BE NEEDED FOR SUCH A FACILITY IS STAGGERING AND ~~UNNECESSARY~~ NOT NECESSARY. EAGLE MOUNTAIN IS ONE OF THE FASTEST GROWING CITIES IN THE STATE, AND THE GROWTH WILL BE AT THE DOORSTEP OF THE PRISON IN A VERY SHORT PERIOD OF TIME, CREATING THE SAME PROBLEM THAT IS NOW IN DRAPER, AND WASTING THOSE TAX DOLLARS, ~~ON~~ THE SITE IT IS CURRENTLY AT IS PAID FOR, REMODEL/EXPAND IT, AND KEEP IT THERE.

In response to the panel's question and answer meeting on July 2, 2015 - the panel showed expertise in avoiding direct dialogue. Every answer was vague or misdirectional. I know their job is primarily to avoid confrontation from those who will be affected by their choices, but a simple, clear response to each question would at least acknowledge our common humanity. Instead, we were treated like obstacles. The Panel dodged and swerved to avoid giving a clear picture of the state of affairs - perhaps because the state of affairs is very different than the image they want us too imagine.

I am against the prison being moved at all. No one buys a home with the hope that one day a prison will be in our backyard. I think it should stay in its existing location. The prison location in Eagle Mountain is 2 1/2 miles outside of town. That's too close - that's within walking distance to homes. Eagle Mnt is one of the fastest growing towns in Utah. We all have small kids and we have bought our homes intending to stay. We do NOT want a prison!

Considering Eagle Mt. + Saratoga Springs combine to make 50,000 residents and in 5 years (by 2020) the state itself projects the population to double to 100,000, AND the state again projects Eagle Mountain to be the 3rd most populated city in the state of Utah by 2050 + 2060 at over 115,000 people (~~third~~ ^{third} only to St. George + SLC) why is it that we would cause the same issue in 5, 10, 20... years that we currently have in Draper? What of a plan to relocate once?

How will this affect our local economy for good and bad?

How will this affect our home + land values?

I really do appreciate the need to move the prison and agree that Draper location is valuable for the economy, I just don't know that Eagle Mountain is the right location.

Thank you! Respectfully,

Please don't move the prison from one high growth area to another. It doesn't make sense for the prison to be moved to high growth area - specifically a high growth area with families and neighborhoods.

There are areas of the state who have requested to have the prison - let them have it!

Don't diminish our neighborhood potential and growth!

How many acres do you need for a new prison?
How many acres do you have available at the
current site in Draper? 680 acres?
What is wrong with using those acres and
the existing infrastructure

There is not sufficient road access to support the prison in Eagle Mtn. nor in Fairfield. We don't want the expansion of a road structure to accomodate a prison - only our living spaces. It would be foolish to place a prison in areas that do not have access to a significant main road. (Freeway access)

These two communities are built upon a dryer desert area without significant water to accomodate a prison - the increase in water bills alone ^{for families} are enough to offset any fiscal increase that are being claimed to occur. Please don't burden us with the responsibilities that come with a prison in our city!!! By the way - we all know that money talks and that is really the root of where this is at -

Do not place the prison in Eagle Mt!!!

- ① We don't have the water.
- ② Mixing residential & prisons is bad.
- ③ don't spoil paradise with this proposed project.
- ④ Rest assured we will follow the money trail & see who gets their ~~palms~~ palms greeced in the After math.

Bed Bed Bed Idea! Families move out here
for quite life style. Not for a prison and all it
brings to a community! Growth is good but not
like this! Cost of building, Taxes, water issues
Roads to support traffic, constant lighting of
facility. Just a bed Idea. The all roll that
comes with or follows a prison. Lowering
House values many many many other
things that aren't what I signed up for
when I moved out here. But who
cares right just one voice

While listening to the debate on the Doug Wright show a member of the committee + Doug Wright both agreed that they didn't want the people at the airport who were flying into SLC to have a view of the prison as they flew in. They said it made the state look bad. But, in a meeting with the Fairfield people, ~~the~~ someone made the comment that they didn't want to look out their window + see the prison everyday. The Commission told the people of Fairfield that the prison would look just like a college campus + they wouldn't even know a prison was there. My question is why is that some building going to be an eyesore + look like a prison in SLC and yet in Fairfield it's going to look like a college campus?

① Why were there no Reps from Utah County on the PRC until recently? And why isn't our "Rep" here tonight?

② The new prison will cost over \$1 Billion to build. (if you believe the government numbers) IF we rebuild it where it is, it will cost half that much. Why pay twice as much for the same thing?

③ Will the state compensate home owners for the loss of home values that will come to our area because of a prison?

① Listening to your reps talk about cost for the prison at different locations I find it interesting to amount you say it will cost at EMC and Fairfield. I have done research and have seen that your ~~infrastructure~~ infrastructure amounts are way low for EMC & Fairfield. Also the yearly cost will be considerable more in either of these locations for transportation to Court and Medical cost

June 2nd, 2015

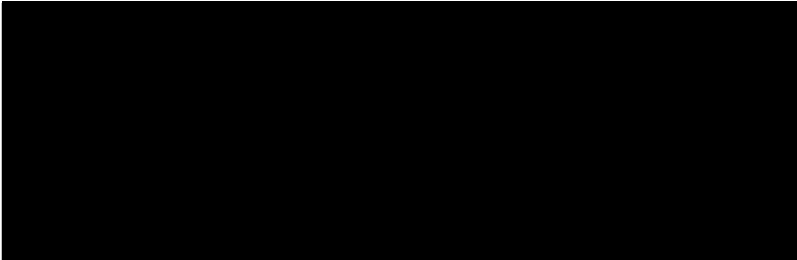

Statement to and Questions for the State Prison Relocation Commission and Utah Lawmakers

Brad Wilson has said, "We are committed to making this decision-making process as transparent as possible and encouraging meaningful public participation. We want this opportunity to both educate the public and get their feedback."

Based on opinion polls, the feedback from the public is that Utahns want the prison to remain at its current location in Draper. Why has a meaningful study not been performed and published that would calculate the comparative cost of moving the prison to a new location verses rebuilding it on the current 700-acre site? If the decision to move is so clear and obvious to lawmakers, why has the information needed to make an informed decision been withheld from the public? Has the research been performed, or has the legislature moved forward with a biased decision that was stacked by providing only half of the equation? Is this going to turn into yet another Utah scandal with public figures having private agendas to support personal interests, to the detriment of the public?

Why is the public only being brought into the decision-making process after the most important decision, whether to move or rebuild on site, has theoretically been made? The public rejects this so-called decision, and any lawmakers who brush off the public feedback will understand their mistake more clearly at the next election cycle, if not sooner.

Allen D. Martin
Eagle Mountain, Utah

The current site IS the best site. It has the necessary infrastructure already in place. The current site has geothermal heating & cooling which ^{saves} ~~saves~~ taxpayers over 100,000 per year. The current site has enough land to build in stages. Current site is situated perfectly between Utah County ~~and~~ a Courthouse & SLC courthouse, which reduces transportation costs. Also current site is close to hospitals, therapists, lawyers and other professionals who need to service the prison. Current site is also convenient to visitors & volunteers.

EM doesn't have infrastructure, to handle Prison, light pollution would hurt camp Williams training. EM ~~would~~ is farther away from courthouses, therapists, medical needs, lawyers etc... EM is projected to grow & those here didn't sign up for a Prison -

Those in Draper knew it was there when they chose to be there...
residents & business

You currently have a 700 acre facility, yet you are looking to move the prison to a 500 acre facility at great expense. There is plenty of room to expand at the current location. The cost to move is more than it would be to expand where it is currently located.

Eagle Mtn. is one of the fastest growing locations not only in Utah but in the country. By moving the prison to this area you will find that you have outgrown it's location again a few years from now. This is not a NIMBY argument but a common sense problem. Keep it in Draper - there is plenty of room to expand there.

We moved 15 years ago, and we have seen the growth in our city. The infrastructure in regards transportation has improved however we are still lacking of roads. If we have a prison out here the traffic will increase and we are not build yet for that, adding to it our city is a family oriented community, a community that is improving for the benefit of the residents, I am a Real Estate agent and many of the residents here have approach me asking to list their homes if the prison is to be build here. I see that if Eagle Mountain is to be chooven for the prison site, our growth will fause and will impact housing.

I have a couple of questions:

Why the current site of the prison, the "city" of Bluffdale does not seem like having had those economic benefits that Eagle Mountain is supposed to receive for having the prison here? That city looks to me just ~~way~~ off the freeway and basically dead for business or quality living growth.

Why our kids who have traveled with us to find their sports and arts opportunities even more than 30 mins commutes, cannot receive that kind of opportunities in their home city and they are instead having a prison. We need a Rec Center, sports art, etc., we have many young people

Prison Relocation Commission

Utah Correctional Facility

Selecting the best site for a new state correctional facility will ensure that Utah's criminal justice system and the Utah Department of Corrections (UDC) continues to function in a high quality manner while addressing the need for modern, efficient, and cost effective institutions for current and future inmate populations. Development of a new facility to replace the existing Utah State Prison will allow UDC to accomplish its mission, meet the needs of current and future inmate populations and provide for the continued security of inmates, staff and nearby communities.

Your input is important to the Prison Relocation Commission and comments are welcome at any time. We encourage comments on any aspect of the PRC's efforts including correctional facility siting, potential economic benefits and costs, modern correctional facility design and operation or other topics of interest to you. Feel free to attach additional pages if more space is needed.

I have listened to many people rebuke this commission for failing to listen to the public outcry against moving the prison. There have been many good points made, pertinent questions asked, & a few very rude comments made - I'm assuming from frustration.

W Salt Lake, doesn't want it - they want the land for economic development. Eagle mountain/fairfield doesn't want it. Tooele county wants their land for taxable entities - they have the smallest amt of taxable land in the county.

As a citizen of Utah, I would like my representatives & legislators to LISTEN to us. We have listened to you, please listen to us. I have heard mental health, minorities, mayors, & candidates, teachers, etc advocate for the Draper site. Please consider it.

As a resident of Tooele county, I ask you to look very carefully at the water issues (ground water), the transportation issues (I-80 is the only route), & the education issues, at each site, espec. Tooele County. I resent the attitude I keep hearing from you - the

There are substantial private profits to be made in Draper with development if the prison is moved. Taxpayers should not be burdened with the cost of moving the prison so that private profits can be made. This is nothing more than transferring tax dollars into private profits. Such corruption must not be allowed. Let those who stand to profit from the move pay for the move, and leave the tax payers alone. We tax payers are heavily burdened with taxes. Leave the prison in Draper. No Relocation is not a solution. Any site will also experience growth, and profiteers will seek another relocation, again funded by taxpayers, again sending tax dollars into the pockets of profiteers.

Take Salt Lake City off of the relocation list!

Please leave the prison in Draper! Please as public servants protect those you represent. Do not raise taxes or have bonds to pay for such a huge cost.

Anyone who makes personal gain or receives any money or political favors for the relocation at tax payers expense would be rotters and thieves. (criminals)

Please improve the prison where it is and take Salt Lake City off the list.

We do not want the prison moved! And we absolutely do not want it on the West Side of Salt Lake City or in any other of your proposed places.

I support keeping the prison in Draper. It's unfortunate the decision to move the prison was made without proper public involvement/understanding. Most of my volunteer work is around historic preservation, Yalecrest in particular. But the west-side of SLC has neighborhoods that are incredible gems, rich in character & rich in our city & state's history.

SMART economic development, businesses other than a prison, can help fuel re-investment in our historic west-side neighborhoods, creating jobs, keeping money local... building pride & strength in our communities. That is what we need.

We don't need the state cementing in an East-West Divide in SLC. Allow SLC to please continue working on its vision of what a great capital city for Utah can look like. It will benefit the whole state.

one bit for Road
Bill
Notes for the Prison Relocation meeting

My name is Lewis Wilson – I am a long time Salt Lake City, Avenues resident. I have no meaningful representation in government other than I know and like the County Mayor and I have no personal self-interest in the affairs of the prison.

I am an engineering consultant who has been involved in making studies, of large and small scale for 50 years.

I am embarrassed by the legislature acting as the owner regarding the prison oversight and am embarrassed for the consultants who come across as legislative lackeys, and seem relatively inept in the conduct and presentation of the prison relocation analysis.

It is highly unusual to eliminate working from the status quo as a base case when contemplating a set of alternatives to meet a studied need. Staying in Draper gives opportunity for a staged and sequenced undertaking, at minimized cost, with the work spread out and budgeted over a period of time. Such discussion deserves to be included in the analysis.

I am not adverse to Salt Lake City being considered for a site as it is the origin of much of the need that the prison meets and it is home to the legal system that conducts much of the affair of the legal system. As an aside, the old Sugarhouse prison was not poorly located in its time and to this day, infrastructure, proximity and transportation access exist at that site. Nor would it have much impact on development for the area is already long fully developed. But that is not the concern.

I believe that the relocation study is tainted and biased. The current 700 acres in Draper has much useful and useable construction, has freeway access, has complete infrastructure and could allow orderly redevelopment over a period of time at minimized cost. If new site development opportunity is as prosperous as pictured, there is enough land to redevelop the prison and still garner the bulk of the development value. There is also opportunity to create a regional public park of unmatched character on part of the current prison site.

Local redevelopment could be included in the study for cost, time and value. Traffic impacts at the narrow neck end of the valley are a big issue. Inclusion of the existing site in a matrix presenting study alternatives would remove the aura, the odor of a “skunk in the works” that has come to exist. If there is a truly better alternative, so be it. But please make the study one of integrity rather than of backroom politics.

Thank you.

Good evening Chairmen Wilson and Stevenson, and Commission members,

My name's Andrew Riggle. I'm the Public Policy Advocate for the Disability Law Center (DLC). We appreciate the opportunity to share our thoughts on the future of the Utah State Prison (USP), regardless of where it's located.

The DLC is the federally-mandated system of protection and advocacy for people with disabilities in Utah. The agency's mission is to enforce and strengthen laws that protect the opportunities, choices and legal rights of Utahns with disabilities. Our abuse and neglect team ensures individuals with disabilities who are confined in jails and prisons are treated humanely and that their constitutional rights are respected.

Ryan Allison, the USP inmate who died late last year after diving headfirst into the floor of his cell, was our client. Prison treatment notes, and Mr. Allison's conversations with us, reveal near constant auditory and visual hallucinations. Misbehavior related to his mental illness led to punishment in solitary confinement, which in turn led to further deterioration, further misbehavior and additional time in solitary. From 2011 to 2013, he spent over 586 days in solitary confinement.

USP inmates in intensive management are allowed out one at a time, three times a week, for a 15-minute shower and an hour in a recreation yard... They can't have visitors or make phone calls. They aren't offered life-skills or other programming. After visiting the maximum-security wing for the first time, one of our attorneys said, "It's horrifying to me that somebody spends 23 hours a day [in this cell]. I'm not very tall, but I couldn't have laid down across it."

A former inmate said, "I saw people going downhill each day, then I realized I was going downhill. They break people down fast in that situation. People who aren't mentally ill become so. Your perception of reality is within that cell."

Estimates are that somewhere between a quarter and a half of incarcerated individuals have a mental health diagnosis. Prison administrators report that about 25 clinicians and therapists serve around 2,000 inmates with serious mental illness between Draper and Gunnison.

With facilities and numbers like these, it's not surprising staff have had to focus on safety and security at the expense of physical/mental health and well-being. In fact, they are often hard-pressed to provide anything beyond "crisis management."

While Corrections leadership is dedicated to improving the treatment of inmates and reducing reliance on solitary confinement as a response to behaviors resulting from mental illness, they are clear it will be difficult to retrofit the current site to realize this vision. The redesigned facilities which come with a modern prison are a critical piece of the puzzle.

For these reasons and others, we can't afford to miss out on this once-in-a-lifetime opportunity to rethink the way we deliver treatment and supports to all offenders, especially those with serious mental health needs.

The Disability Law Center hopes to be a resource for you as the project moves into the design/build phase. In the meantime, please don't hesitate to contact us if you have questions or would like more information. Thank you for your time and consideration of our input.
