{ Paul's Story

My Family

Sophie Dawn Hill

- ↳ Born June 3rd 2011
- ↳ First seizure was in November of that same year.
 - ⌘ Emergency responders took 25 minutes to arrive
 - ⌘ EMTs could not get the seizure to stop!
 - ⌘ Emergency room staff administer emergency medicine, seizure stops after 5 minutes.
 - ⌘ Total time period elapsed in status epilepticus: 50 minutes

Sophie Dawn Hill

- ⌘ Sophie had seizures about every 4 weeks over the 2 and a half years.
- ⌘ We always hoped that she would grow out of them. However, always knew she was different.
- ⌘ Sophie was diagnosed with Dravet Syndrome in June 2014.
- ⌘ Been on CBD for last 2 months.

**Sophie's EEG
experience.
She was not
happy, at all!!!
Especially
after they
woke her up!!**

Kelson Paul Hill

- ⌘ In July of 2014 diagnosed with strep throat.
 - ⌘ Given antibiotics for several weeks for swollen gland.
- ⌘ In August ENT believed mass was not a infection or an abscessed gland
 - ⌘ Small Biopsy revealed mass was a tumor, but inconclusive.
- ⌘ In September Diagnosed with stage 3 Rhabdomyosarcoma
- ⌘ In October began chemotherapy – tumor had doubled in size.

Kelson Paul Hill

- ⌘ Kelson got down to 36 lbs, lost 18 lbs.
 - ⌘ He had no desire to eat, could not keep it down.
 - ⌘ Mouthsores clear through his GI track.
 - ⌘ NG tube for 2 and a half months.
- ⌘ Kelson just finished chemotherapy last week.
 - ⌘ Will have hearing loss.
 - ⌘ Has some brain damage due to radiation.
 - ⌘ Has lost 2 of the parotid glands.
- ⌘ With his treatment, Kelson is 6x more likely to develop Leukemia than all other people.

CERTIFICATE OF COMPLETION

This certificate is awarded to
KIDSON HILL

in recognition of completing his program on
MAY 21, 2014

Tumor

Hope

Patients and Families need Hope,
it may be the only thing they are
able to hang on to.
