Subject: Water Development Commission

President ~ I have spent the last 3 days in St George at Water Law Meetings and a Utah Rural Water Conference meetings sponsored by USU, Farm Bureau, DWR etc.

There was much talk about the Legislative session - including SB 80 and SB251 which put in to code additional responsibilities for the Water Development Commission.

Lots of questions of me re how the WDC will address those new assignments.

As you are aware, the WDC meets at the will of Management Committee.

The last few years, we have met 4 times during Interim.

With the newly assigned responsibilities in 251, (including a report that needs to be generated by October) I am thinking that we will need to meet at least 5 or 6 times during interim.

I am not aware of the meeting schedule for Management Committee but when you meet and make a decision on WDC, will you please let me know that so that I can meet with my House coChair, Rep Grover, and our staff and make appropriate plans.

Thank you,
Margaret
