Subject: Education Interim Committee request for additional meeting days

Dear Speaker Hughes and President Niederhauser,

To fulfill the expectations placed on our committee, we are requesting authorization to schedule up to two additional meetings in addition to our regularly scheduled interim meetings.

The two additional meetings will allow us to work closely with education stakeholders, including the State Board of Education, and to conduct in depth study on certain issues, such as assessment and accountability and the teacher shortage. We are also requesting authorization to hold these meetings outside of the State Capitol Complex, but along the Wasatch Front.

Thank you for your consideration of this request.

Sincerely,
