Future UBATC Welding Facility

Current Facilities

Constructed in 1977

Well maintained

Capacity for 16 students

Oldest welding lab in UCAT System

Growth vs. capacity

Operating at 50% over design capacity

29% program growth in last 3 years

19% projected growth in 2017

Current Need

How many oil and gas
wells are in the
Uintah Basin?

Current Need

Oil and gas wells in Duchesne and Uintah Counties -gis.utah.gov

Current Need

Oil and gas wells in Duchesne and Uintah Counties -gis.utah.gov

11,166 Oil and gas wells in the Uintah Basin -DNR

3229 Oil and gas wells permitted in the Uintah Basin

54 Oil and gas wells in process

13,990 Oil and gas wells in Utah -DNR

500-600 Welding jobs in the Uintah Basin

20% projected growth in welding industry statewide over the next 10 years

New Site Plan

Centrally
Located

Cost Effective

Floor Plan

Simple and efficient design

Cost effective building materials

Site utilization

Construction Budget Estimate: \$4,475,097
