**Fiscal Note****Amendments to School Uniform Standards***04-Feb-00***Bill Number HB0155***3:11 PM*

---

---

There is no fiscal impact to the State. The bill is permissive. Therefore the costs to all local school districts to hold elections may range from \$1 million to \$2 million depending upon how many school districts choose to hold the elections.

---

**Individual and Business Impact**

Parents of children attending schools where school uniforms become mandatory would have to pay approximately between \$100 and \$300 for the uniforms. Parents could, however, specifically request an exemption in writing alleviating this cost.
