

Any additional workload can be handled within existing budgets.

---

**Individual and Business Impact**

The provisions of this bill may require some bail bond surety companies to increase their net worth and financial assets to obtain or maintain a license. This could increase the cost of doing business up to \$50,000 per company depending on what is used to increase the net worth of the organization. Many companies are currently over the limits proposed in the bill. Organizations that cannot or choose not to increase their net worth can still do business but are capped as to the amount of business they can do.
