

State Impact

Passage of this bill will not require additional State funds. However, since any costs would come out of existing budgets, potential impacts are estimated at \$950,000. Of that amount, \$516,300 would come from General Fund, \$57,200 from Uniform School Fund, \$69,100 from Transportation Funds, and the remaining \$307,400 from assorted non-state funds.

Individual and Business Impact

The total value of the fiscal note would flow to those State employees who would exercise their option to convert their unused annual leave.
