

State Impact

This bill would increase the construction cost of most State buildings by about 2 percent and some difficult to locate buildings by as much as 10 percent at a cost of about \$5,144,600 plus another \$1,500,000 in non-state funds. The State would need two FTE to handle the increased work.

This bill would increase the cost of building an elementary school by \$100,000 to \$300,000 and a middle school, junior high or high school by \$200,000 to \$1,500,000. Estimated total annual costs are \$1,400,000 to \$6,900,000.
