

**State Impact**

Under this bill a current \$100 fee would not be collected. The fund that this fee provides for impecunious offenders (too poor to pay) interlock devices. To date only two offenders (for a total of four years probation) have availed themselves of such assistance. With \$3,400 currently in the fund, one offender per year would draw down the fund in 4 years, after which Public Safety would require some additional funds to provide this service.

---

**Individual and Business Impact**

Future offenders would not have to pay the additional \$100 to the interlock devices fund.
