

State Impact

Since the number of non-U.S. citizens enrolling in USHE institutions who meet the criteria set forth in this Legislation cannot be determined, the fiscal impact is uncertain. The fiscal impact could be a decrease or an increase in tuition revenue depending on actual enrollments of qualified individuals.

Individual and Business Impact

Nonimmigrant aliens enrolling in USHE institutions who meet the criteria of this legislation would see a significant reduction in tuition. Nonresident tuition is 3.5 times the resident tuition.
