**State Impact**

The provisions of this bill may be implemented within existing allocations. A recent legislative audit suggests school districts may see a cost savings of approximately \$210,000 by not subsidizing local education association activities of teachers.

---

**Individual and Business Impact**

The cost associated with leave of employees for association or union activities may be shifted from the school district to the employee, requiring the employee to take an unpaid day or accrued vacation time to perform association duties.
