

State Impact

This bill would impact several federal public safety programs and programs within Office of Recovery Services and Division of Occupation and Professional Licensing. Utah would have to withdraw from "compact" agreements with other states that provide reciprocal licensure.

Federal law requires information sharing that is prohibited in this legislation. Failure to comply will result in automatic loss of funds by formula that double in the second year. The loss of funds in the Department of Transportation will be offset by a reduction in projects.

Department of Workforce Services programs would be effectively shut down with the change. The impact could be as high as \$184 million, although they think that federal law may preempt this change.

Individual and Business Impact

People who are licensed by "compact" will have to obtain licenses under Utah law.
