Bill Number HB0260S029:25 AM

State Impact

This bill appropriates \$250,000 in one-time General Fund resources for FY 2006. In addition, the Attorney General anticipates an annual cost of \$70,000 per year to operate and maintain a database mandated by the bill, and the Department of Commerce will require \$50,000 annually to test the effectiveness of filtering technology.

Local governments may see cost increased costs associated with jailing individuals convicted of a felony as opposed to what, absent this bill, is usually Class A probation.

Individual and Business Impact

Private businesses may incur incremental costs associated with limiting access to material harmful to a minor. Internet users may face higher access charges to subsidize these costs.
