

State Impact

This bill increases the salaries for the five constitutional officers of the State and the salary ranges for the other state officers. The bill also places the salary of the executive director of the Department of Health on a range established by the Department of Human Resource Management if he is a physician. The cost of the increases for the constitutional officers is estimated at \$59,200. The proposed increases in the salary ranges does not require any increases as they are dependent upon action from the governor. The additional costs for the Department of Health will be absorbed within existing budgetary levels.
