
Fiscal Note**Amendments Prohibiting Health Insurance Discrimination***26-Jan-05***Bill Number: SB0111***2:26 PM*

State Impact

No fiscal impact.

Individual and Business Impact

Business and individual impacts depend on the various health insurance contracts and health maintenance organization contracts that are subject to the insurance code. Local governments would be impacted only if the employer group health plan would be subject to the insurance code and they are not already in compliance with the bill's provisions. ERISA plans would not be affected. PEHP would not be affected. Utah Domicile carriers all offer this benefit, as do most national carriers.
