
Fiscal Note**Adjustments in Funding for Concurrent Enrollment***30-Jan-06***Bill Number: HB0151***12:30 PM*

State Impact

Provisions of the bill authorize Higher Education institutions offering concurrent enrollment programs to charge a fee of up to \$30 for each credit hour taken by a Public Education student. During FY 2005, a total of 177,658 credit hours were earned by high school students. A \$30 fee would generate approximately \$5.3 million for Higher Education institutions less the current Higher Education funding of approximately \$1.8 million from the existing system.

Individual and Business Impact

High school students participating in Concurrent Enrollment may be required to pay a fee of up to \$30 for each credit hour taken through the Concurrent Enrollment program.
