### HOW WILL THE PUBLIC BENEFIT?

**1a** What are the public benefits or goals of the new or expanded program?

This Bill creates a pilot program for increased infusion of technology in public schools. The program focuses on "whole-school" technology deployment. Benefit will be measured by student achievement.

The goal of the program is to improve student achievement through a comprehensive deployment of technology including mobile learning devices, desktop or lap top computers in all classrooms, wireless networking school-wide, operating software connecting teachers with students, profession development, online access, and ongoing technical support.

**1b** What products or services will the agency provide to achieve the public benefits?

Specific products and services will be identified by the Governor's Office of Economic Development through an RFP process.

Participating schools will be identified by the State Board of Education.

**1c** How do the proposed agency activities cause the public benefit outcomes listed in 1a.

Public benefit will occur as school have additional resources to meet the ever increasing demands of providing an education to assure that students leave the public education system college and career ready.

## 2. PERFORMANCE MEASURES:

How will managers and policymakers know if the new or expanded program is contributing to the public benefit?

Goal (public benefit): Increased Student Achievement

Measure Title:

Description:

Once schools are selected for participation in the pilot program, student achievement data in those schools will be used to establish baseline data. Data from pilot schools will be compared with data from comparable schools to determine if the pilot program is

Fiscal Year:	FY 2011	FY 2012	FY 2013	FY 2014	FY 2015
Target or Benchmark:					
Baseline:					

How will program managers collect this performance information and ensure its reliability?

Data will be collected from ongoing and continuing student achievement data collected by the USOE.

Goal (public benefit):
