Enactment of this bill requires the Lieutenant Governor's Office to verify signatures for State School Board candidates. Based on the minimum number of signatures required and the number of candidates from the last election, it is estimated that \$15,000 in personnel costs for temporary employees will be needed each election cycle to verify signatures. An additional \$7,500 one-time is for laptops and supplies. This bill also requires candidates to collect the lesser of 300 signatures or two percent from registered voters who reside in their elective district. This would require approximately 120 hours to set up the signature verification module in a statewide database and verify that boundaries are correct for an estimated cost of \$9,000 one-time.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
