Local Government

UCA 36-12-13(2)(c)

Local education agencies may experience additional costs to ensure that on and off campus filtering systems are in place as outlined in the bill. The cost for each LEA will vary depending on current system configuration. The Utah State Office of Education estimates that to build a filtering appliance from scratch may cost around \$13,000 to \$15,000 a year depending on system requirements. Resources available through the Utah Education Network and authority to use School LAND Trust funding for these expenses may mitigate any additional costs.

Individuals & Businesses

UCA 36-12-13(2)(d)

Enactment of this legislation likely will not result in direct, measurable expenditures by Utah residents or businesses.

No performance note required for this bill

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
