This bill creates the Utah Data Commission with funding currently allocated to five entities providing support to the Utah Data Alliance. Presuming the activities of the Utah Data Commission are similar to current activities of the Utah Data Alliance, and that the Utah Data Commission reimburses the data providing entities for their costs, the bill shifts the costs of the program, and associated appropriations, from the five current entities to the newly created Commission.

**Notes on Notes**

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
