**State Government**

UCA 36-12-13(2)(b)

Enactment of this legislation likely will not materially impact state revenue.

Revenues	FY 2017	FY 2018	FY 2019
Total Revenues	\$0	\$0	\$0

Enactment of this legislation could cost \$25,000 in excess damage claim awards per year at the Division of Risk Management by adjusting the inflationary adjustment formula. These costs could be passed through to the division's customer agencies through rate adjustments. Other cost changes resulting from this legislation depend on unpredictable factors.

**Performance Note**

JR4-2-404

No performance note required for this bill

**Notes on Notes**

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
