Enactment of this legislation could lead to additional costs for issuing bonds to the extent that bond proceeds are used to pay costs of issuance, to pay capitalized interest, or to fund any existing debt service reserve requirements. Assuming cost of issuance equals one percent of the bond amount, this could add about \$10.5 million in additional borrowing. Any additional borrowing would be paid back as specified in bond repayment schedules.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
