Local Government

UCA 36-12-13(2)(c)

Enactment of this legislation likely will not result in direct, measurable costs for local governments.

Individuals & Businesses

UCA 36-12-13(2)(c)

Enactment of this legislation could increase costs to electric vehicle battery charging customers. These customers would pay an aggregated \$5 million annually in service charges as part of a transitional rate structure determined by the public utility to recoup the utility's full cost of service for utility-owned vehicle charging infrastructure and utility vehicle charging service.

Regulatory Impact

UCA 36-12-13(2)(d)

Enactment of this legislation could result in a small increase in the regulatory burden for Utah residents or businesses.

Performance Note

JR4-2-404

No performance note required for this bill

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
