

**REQUEST FOR PROPOSALS to the Utah State Legislature for a
Phone System or Other Communications System, Service,
and Hardware, RFP No. 2012-02.**

ADDENDUM 2

Addendum Date: June 18, 2012

It has come to our attention that the answers to questions #10 and #40 in Addendum 1 are confusing with respect to whether the LEGISLATURE has POE switches. To clarify, the LEGISLATURE has some POE switches, but not near enough to support a VoIP system. We ask that responders assume that the LEGISLATURE does not have any POE switches when submitting a response. If some of the LEGISLATURE's POE switches are able to be used with a selected system, the responder will reduce the overall cost to the LEGISLATURE by an amount that reflects the difference between the number of POE switches proposed and the number of POE switches actually needed from the responder.

This addendum is issued with sufficient notice and does not constitute a significant change to the RFP. Based on this, and the need for the LEGISLATURE to take action with respect to its phone system as soon as possible, the procurement officer deems it necessary that the deadline for submitting a response to this RFP (nine days from the date of this addendum) will remain as set.
