Re: Crimes Against Citizenship **Date:** June 10, 2014

Attn: Todd Palmer/ Mary F. Rook special agent This is not lawful to be kept a secret. You know the public good and your oath.
Mr. President/VP Biden: within these 5 pages are proof beyond any reasonable doubt we are breaking our rules of conduct. Whatever it takes to act honorably and oppose what is not lawful, must be done now. Our government will not collapse. It will repair itself, not collapse by ending unlawful behaviors. With our help as citizens under oath to protect the weak citizen from being violated by another person or group. We can fix this and no one will go to jail for supporting a law they believed to be constitutional. Specific crimes must be investigated, and if money was extorted from the public, it should be returned. Making profit off of a public service office is not ethical or lawful and must be ended. your brother Jonathan L. Peterson
