

***Effective 5/12/2015***

**41-6a-308 Lane use control signals -- Colors.**

- (1) The operator of a vehicle facing a traffic-control signal placed to control individual lane use shall obey the signal as follows:
  - (a) Green signal -- vehicular traffic may travel in any lane over which a green signal is shown.
  - (b) Steady yellow signal -- vehicular traffic is warned that a lane control change is being made.
  - (c) Steady red signal -- vehicular traffic may not enter or travel in any lane over which a red signal is shown.
  - (d) Flashing yellow signal -- vehicular traffic may use the lane only for the purpose of approaching and making a left turn.
- (2) A violation of this section is an infraction.
