

54-8a-7 Notice of damage -- Repairs.

- (1) If an excavator contacts or damages an underground facility, the excavator shall:
 - (a) immediately notify the appropriate operator and then proceed in a manner that is reasonably calculated to avoid further damage to the underground facility; and
 - (b) immediately call 911 if the excavation may result in an immediate risk to human life.
- (2) Upon receipt of notice, the operator shall immediately examine the underground facility, and, if necessary, make repairs.
