24 possible;

25 (2) many state bodies are inadequately provided with necessary office space, related
26 facilities, [and] other governmental facilities, and property to serve the public welfare;

29 facilities by the state;

30 (4) in order to provide for a fully adequate supply of office space, related facilities, [and]
31 other governmental facilities, and property at the lowest possible cost, this Legislature should

1 establish a State Building Ownership Authority for the purpose of financing, owning, leasing,
2 operating or encumbering such facilities to meet the needs of the state government and to serve
3 the public welfare;

4 (5) the foregoing involve public purposes and uses for which public moneys may be
5 borrowed, expended, advanced, loaned, or granted, the activities specified would serve a public
6 purpose in improving or otherwise benefiting the people of this state and, therefore, this act is in
7 the public interest and is hereby so declared as a matter of express legislative determination; and

8 (6) the compelling need within this state for the creation of an adequate supply of office
9 space , related facilities, [and] other government facilities, and property for state bodies at a low
