It is the intent of the Legislature that any salary increases be distributed to faculty, professional and classified employees in an equitable manner.

It is the intent of the Legislature that all State Agencies and institutions use facility operation and maintenance (O&M) funding only for O&M purposes.

It is the intent of the Legislature that the USHE fully utilize the Division of Fleet Operations Computerized Automobile Reservation System (CARS) to obtain at least six calendar months of fleet cost data by May of 2000.

It is the intent of the Legislature that the Council of Presidents and a representative of the Board of Regents working in conjunction with the Legislative Fiscal Analyst and a representative of the Governor's Office, shall recommend during the 2000 Interim Session key performance indicators with appropriate baseline and comparison information that will be used to determine the criteria for allocating productivity funds to the nine institutions of higher education. The criteria shall include a combination of enrollment funding and incentives tied to key performance indicators and accountability measures. All funding criteria shall be submitted to the Higher Education Appropriations Subcommittee and the Executive Appropriations Committee for discussion and review. It is also the intent of the Legislature that these performance indicators shall be used by the Utah System of Higher Education when they report to the Legislature prior to the beginning of each Legislative General Session on the quality of instruction, enhanced productivity and efficiency.

The allocation of funds will be based on each institution's demonstration of improved quality of instruction, and enhanced productivity and efficiency. After the total amount is determined for each institution and approved by the Executive Appropriations Committee, the funds will be allocated to the appropriate line items of each institution to provide the flexibility for each president to manage the fiscal resources of their institution. Failure to meet their established performance objectives may

1995 result in the Executive Appropriations Committee determining an amount of
 1996 funds to lapse back to the State General Fund or Uniform School Fund. The
 1997 Board of Regents and the Council of Presidents shall supply a written report
 1998 to the Higher Education Appropriations Subcommittee and Executive
 1999 Appropriations Committee by December 1 of the allocation year with an
 2000 accounting of how the funds were spent and the benefits derived from
 2001 those funds.

2002 It is the intent of the Legislature that the State Board of Regents are
 2003 directed to closely supervise the fuel and power budgets. If surplus fuel and
 2004 power funds appear likely in FY 2000, the Regents may authorize
 2005 expenditures in excess of 10 percent of the projected surplus for energy
 2006 efficiency projects.

2007 It is the intent of the Legislature that the USHE complete and submit all
 2008 financial reports (i.e. A-1's, R-1's, S-10's, and S-12's, etc.) to the Office of
 2009 the Legislative Fiscal Analyst by October 1 of each fiscal year.

2010 It is the intent of the Legislature that the USHE establish a single
 2011 balanced funding formula that encompasses both growth and existing costs.
 2012 The formula should reduce dependence on growth funding while still
 2013 providing for appropriate levels of enrollment growth, and should foster
 2014 quality and equity within the USHE.

2015 It is the intent of the Legislature that the programmatic funding for the
 2016 Utah Electronic College be designated for distance learning program
 2017 development by the nine USHE institutions. The Regents are also directed
 2018 to establish accountability measures and a master plan for the operation of
 2019 the item in consultation with the nine institutions and the Legislative Fiscal

 2559 quality and equity within the USHE.

2560 It is the intent of the Legislature that the programmatic funding for the
 2561 Utah Electronic College be designated for distance learning program

It is the intent of the Legislature that the USHE fully utilize the Division of Fleet Operations Computerized Automobile Reservation System (CARS) to obtain at least six calendar months of fleet cost data by May of 2000.

It is the intent of the Legislature that the Council of Presidents and a representative of the Board of Regents working in conjunction with the Legislative Fiscal Analyst and a representative of the Governor's Office, shall recommend during the 2000 Interim Session key performance indicators with appropriate baseline and comparison information that will be used to determine the criteria for allocating productivity funds to the nine institutions of higher education. The criteria shall include a combination of enrollment funding and incentives tied to key performance indicators and accountability measures. All funding criteria shall be submitted to the Higher Education Appropriations Subcommittee and the Executive Appropriations Committee for discussion and review. It is also the intent of the Legislature that these performance indicators shall be used by the Utah System of Higher Education when they report to the Legislature prior to the beginning of each Legislative General Session on the quality of instruction, enhanced productivity and efficiency. The allocation of funds will be based on each institution's demonstration of improved quality of instruction, and enhanced productivity and efficiency. After the total amount is determined for each institution and approved by the Executive Appropriations Committee, the funds will be allocated to the appropriate line items of each institution to provide the flexibility for each president to manage the fiscal resources of their institution. Failure to meet their established performance objectives may result in the Executive Appropriations Committee determining an amount of funds to lapse back to the State General Fund or Uniform School Fund. The Board of Regents and the Council of Presidents shall supply a written report to the Higher Education Appropriations Subcommittee and Executive Appropriations Committee by December 1 of the allocation year with an accounting of how the funds were spent and the

Children with Special Health Care Needs

7283 Note: The schedule of charges for Children with Special Health
 7284 Care Needs services provided by the Division of Community
 7285 and Family Health Services represents commonly performed
 7286 procedures by CPT code and is consistent with charges by the
 7287 private sector. The list is not intended to be comprehensive as
 7288 the Division is mandated to assign a charge for all services
 7289 performed and there is potentially an unlimited number of
 7290 procedures that could be provided. If unlisted services are
 7291 performed, charges consistent with the private sector will be
 7292 assigned. For FY 2001, the Utah Department of Health,
 7293 Division of Health Care Financing (Medicaid) is not
 7294 increasing rates based on the projected Medical inflation
 7295 rate for physician services. Accordingly, CFHS proposed
 7296 rates are increased by 0%.
