882 requirements;
883 (b) consider monetary costs, including the present worth or equivalent annual value of all
884 capital costs and operation, maintenance, and replacement costs; and
885 (c) ensure that the alternative selected is the most economical means of meeting applicable
886 state and federal wastewater and water quality or public health requirements over the useful life
887 of the facility while recognizing environmental and other nonmonetary considerations.
888 (5) A loan may not be made for a wastewater project that is not in the public interest as
889 determined by the Water Quality Board.
