Section 6. Section 26-28-104 is enacted to read:

26-28-104. Who may make anatomical gift before donor's death.

Subject to Section 26-28-108, an anatomical gift of a donor's body or part may be made during the life of the donor for the purpose of transplantation, therapy, research, or education in the manner provided in Section 26-28-105 by:

(1) the donor, if the donor is an adult or if the donor is a minor and is:
   (a) emancipated; or
   (b) authorized under state law to apply for a driver license because the donor is at least 16 years of age;
(2) an agent of the donor, unless the power of attorney for health care or other record prohibits the agent from making an anatomical gift;
(3) a parent of the donor, if the donor is an unemancipated minor; or
(4) the donor's guardian.

Section 7. Section 26-28-105 is enacted to read:

If the donor or other person is physically
unable to sign a record, the record may be signed by another individual at the direction of the
donor or other person and must:

(a) be witnessed by at least two adults, at least one of whom is a disinterested witness,
who have signed at the request of the donor or the other person; and

(b) state that it has been signed and witnessed as provided in Subsection (2)(a).

Revocation, suspension, expiration, or cancellation of a driver license or
identification card upon which an anatomical gift is indicated does not invalidate the gift.

(b) An anatomical gift made by will takes effect upon the donor's death whether or not
the will is probated. Invalidation of the will after the donor's death does not invalidate the gift.

Section 8. Section 26-28-106 is enacted to read:

26-28-106. Amending or revoking anatomical gift before donor's death.

(1) Subject to Section 26-28-108, a donor or other person authorized to make an

(a) a record signed by:

(i) the donor;

(ii) the other person; or

(iii) subject to Subsection (2), another individual acting at the direction of the donor or
the other person if the donor or other person is physically unable to sign; or

(b) a later-executed document of gift that amends or revokes a previous anatomical gift
or portion of an anatomical gift, either expressly or by inconsistency.

(2) A record signed pursuant to Subsection (1)(a)(iii) must:

(a) be witnessed by at least two adults, at least one of whom is a disinterested witness,
who have signed at the request of the donor or the other person; and

(b) state that it has been signed and witnessed as provided in Subsection (1)(a).

(3) Subject to Section 26-28-108, a donor or other person authorized to make an
anatomical gift under Section 26-28-104 may revoke an anatomical gift by the destruction or
cancellation of the document of gift, or the portion of the document of gift used to make the
gift, with the intent to revoke the gift.

(4) A donor may amend or revoke an anatomical gift that was not made in a will by any
form of communication during a terminal illness or injury addressed to at least two adults, at
least one of whom is a disinterested witness.
Section 9. Section 26-28-107 is enacted to read:

(1) An individual may refuse to make an anatomical gift of the individual's body or part by:

(a) a record signed by:
   (i) the individual; or
   (ii) subject to Subsection (2), another individual acting at the direction of the individual if the individual is physically unable to sign;

(b) the individual's will, whether or not the will is admitted to probate or invalidated after the individual's death; or

(c) any form of communication made by the individual during the individual's terminal illness or injury addressed to at least two adults, at least one of whom is a disinterested witness.

(2) A record signed pursuant to Subsection (1)(a)(ii) must:

(a) be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the individual; and

(b) state that it has been signed and witnessed as provided in Subsection (1)(a).

(3) An individual who has made a refusal may amend or revoke the refusal:

(a) in the manner provided in Subsection (1) for making a refusal;

(b) by subsequently making an anatomical gift pursuant to Section 26-28-105 that is inconsistent with the refusal; or

(c) by destroying or canceling the record evidencing the refusal, or the portion of the record used to make the refusal, with the intent to revoke the refusal.

(4) Except as otherwise provided in Subsection 26-28-108(8), in the absence of an express, contrary indication by the individual set forth in the refusal, an individual's unrevoked refusal to make an anatomical gift of the individual's body or part bars all other persons from making an anatomical gift of the individual's body or part.

Section 10. Section 26-28-108 is enacted to read:

(1) Except as otherwise provided in Subsection (7) and subject to Subsection (6), in the
absence of an express, contrary indication by the donor, a person other than the donor is barred
from making, amending, or revoking an anatomical gift of a donor's body or part if the donor
made an anatomical gift of the donor's body or part under Section 26-28-105 or an amendment
to an anatomical gift of the donor's body or part under Section 26-28-106.

(2) A donor's revocation of an anatomical gift of the donor's body or part under Section
26-28-106 is not a refusal and does not bar another person specified in Section 26-28-104 or
26-28-109 from making an anatomical gift of the donor's body or part under Section 26-28-105
or 26-28-110.

(3) If a person other than the donor makes an unrevoked anatomical gift of the donor's
body or part under Section 26-28-105 or an amendment to an anatomical gift of the donor's
body or part under Section 26-28-106, another person may not make, amend, or revoke the gift
of the donor's body or part under Section 26-28-110.

(4) A revocation of an anatomical gift of a donor's body or part under Section
26-28-106 by a person other than the donor does not bar another person from making an
anatomical gift of the body or part under Section 26-28-105 or 26-28-110.

(5) In the absence of an express, contrary indication by the donor or other person
authorized to make an anatomical gift under Section 26-28-104, an anatomical gift of a part is
neither a refusal to give another part nor a limitation on the making of an anatomical gift of
another part at a later time by the donor or another person.

(6) In the absence of an express, contrary indication by the donor or other person
authorized to make an anatomical gift under Section 26-28-104, an anatomical gift of a part for
one or more of the purposes set forth in Section 26-28-104 is not a limitation on the making of
an anatomical gift of the part for any of the other purposes by the donor or any other person
under Section 26-28-105 or 26-28-110.

(7) If a donor who is an unemancipated minor dies, a parent of the donor who is
reasonably available may revoke or amend an anatomical gift of the donor's body or part.

(8) If an unemancipated minor who signed a refusal dies, a parent of the minor who is
reasonably available may revoke the minor's refusal.

Section 11. Section 26-28-109 is enacted to read:

26-28-109. Who may make anatomical gift of decedent's body or part.

(1) Subject to Subsections (2) and (3) and unless barred by Section 26-28-107 or
26-28-108, an anatomical gift of a decedent's body or part for purpose of transplantation, therapy, research, or education may be made by any member of the following classes of persons who is reasonably available, in the order of priority listed:

(a) an agent of the decedent at the time of death who could have made an anatomical gift under Subsection 26-28-104(2) immediately before the decedent's death;

(b) the spouse of the decedent;

(c) adult children of the decedent;

(d) parents of the decedent;

(e) adult siblings of the decedent;

(f) adult grandchildren of the decedent;

(g) grandparents of the decedent;

(h) the persons who were acting as the guardians of the person of the decedent at the time of death; and

(i) any other person having the authority to dispose of the decedent's body.

(2) If there is more than one member of a class listed in Subsection (1)(a), (c), (d), (e), (f), (g), or (i) entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass under Section 26-28-111 knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(3) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under Subsection (1) is reasonably available to make or to object to the making of an anatomical gift.

Section 12. Section 26-28-110 is enacted to read:

26-28-110. Manner of making, amending, or revoking anatomical gift of decedent's body or part.

(1) A person authorized to make an anatomical gift under Section 26-28-109 may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(2) Subject to Subsection (3), an anatomical gift by a person authorized under Section 26-28-109 may be amended or revoked orally or in a record by any member of a prior class.
who is reasonably available. If more than one member of the prior class is reasonably
available, the gift made by a person authorized under Section 26-28-109 may be:

(a) amended only if a majority of the reasonably available members agree to the
amending of the gift; or

(b) revoked only if a majority of the reasonably available members agree to the
revoking of the gift or if they are equally divided as to whether to revoke the gift.

(3) A revocation under Subsection (2) is effective only if, before an incision has been
made to remove a part from the donor's body or before invasive procedures have begun to
prepare the recipient, the procurement organization, transplant hospital, or physician or
technician knows of the revocation.

Section 13. Section 26-28-111 is enacted to read:

26-28-111. Persons that may receive anatomical gift -- Purpose of anatomical gift.

(1) An anatomical gift may be made to the following persons named in the document
of gift:

(a) a hospital, accredited medical school, dental school, college, university, organ
procurement organization, or other appropriate person, for research or education;

(b) subject to Subsection (2), an individual designated by the person making the
anatomical gift if the individual is the recipient of the part; or

(c) an eye bank or tissue bank.

(2) If an anatomical gift to an individual under Subsection (1)(b) cannot be
transplanted into the individual, the part passes in accordance with Subsection (7) in the
absence of an express, contrary indication by the person making the anatomical gift.

(3) If an anatomical gift of one or more specific parts or of all parts is made in a
document of gift that does not name a person described in Subsection (1) but identifies the
purpose for which an anatomical gift may be used, the following rules apply:

(a) If the part is an eye and the gift is for the purpose of transplantation or therapy, the
gift passes to the appropriate eye bank.

(b) If the part is tissue and the gift is for the purpose of transplantation or therapy, the
gift passes to the appropriate tissue bank.

(c) If the part is an organ and the gift is for the purpose of transplantation or therapy,
the gift passes to the appropriate organ procurement organization as custodian of the organ.
(d) If the part is an organ, an eye, or tissue and the gift is for the purpose of research or education, the gift passes to the appropriate procurement organization.

(4) For the purpose of Subsection (3), if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(5) If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in Subsection (1) and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with Subsection (7).

(6) If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with Subsection (7).

(7) For purposes of Subsections (2), (5), and (7) the following rules apply:

(a) If the part is an eye, the gift passes to the appropriate eye bank.

(b) If the part is tissue, the gift passes to the appropriate tissue bank.

(c) If the part is an organ, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(8) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under Subsection (1)(b), passes to the organ procurement organization as custodian of the organ.

(9) If an anatomical gift does not pass pursuant to Subsections (2) through (8) or the decedent's body or part is not used for transplantation, therapy, research, or education, custody of the body or part passes to the person under obligation to dispose of the body or part.

(10) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under Section 26-28-105 or 26-28-110 or if the person knows that the decedent made a refusal under Section 26-28-107 that was not revoked. For purposes of this Subsection (10), if a person knows that an anatomical gift was made on a document of gift, the person is considered to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.
Except as otherwise provided in Subsection (1)(b), nothing in this chapter affects the allocation of organs for transplantation or therapy.

Section 14. Section 26-28-112 is enacted to read:

### 26-28-112. Search and notification.

necessary to ensure the medical suitability of an organ for transplantation or therapy may not be
withdrawn or withheld from the prospective donor, unless the declaration expressly provides to
the contrary.

Section 24. Section 26-28-122 is enacted to read:

26-28-122. Cooperation between medical examiner and procurement
organization.

(1) A medical examiner shall cooperate with procurement organizations to maximize
the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research,
or education.

(2) If a medical examiner receives notice from a procurement organization that an
anatomical gift might be available or was made with respect to a decedent whose body is under
the jurisdiction of the medical examiner and a postmortem examination is going to be
performed, unless the medical examiner denies recovery in accordance with Section 26-28-123,
the medical examiner or designee shall conduct a postmortem examination of the body or the
part in a manner and within a period compatible with its preservation for the purposes of the
gift.

(3) A part may not be removed from the body of a decedent under the jurisdiction of a
medical examiner for transplantation, therapy, research, or education unless the part is the
subject of an anatomical gift. The body of a decedent under the jurisdiction of the medical
examiner may not be delivered to a person for research or education unless the body is the
subject of an anatomical gift. This Subsection (3) does not preclude a medical examiner from
performing the medicolegal investigation upon the body or parts of a decedent under the
jurisdiction of the medical examiner.

Section 25. Section 26-28-123 is enacted to read:

26-28-123. Facilitation of anatomical gift from decedent whose body is under
jurisdiction of medical examiner.

(1) Upon request of a procurement organization, a medical examiner shall release to
the procurement organization the name, contact information, and available medical and social
history of a decedent whose body is under the jurisdiction of the medical examiner. If the
decedent's body or part is medically suitable for transplantation, therapy, research, or education,
the medical examiner shall release postmortem examination results to the procurement
organization. The procurement organization may make a subsequent disclosure of the
postmortem examination results or other information received from the medical examiner only
if relevant to transplantation or therapy.

(2) The medical examiner may conduct a medicolegal examination by reviewing all
medical records, laboratory test results, x-rays, other diagnostic results, and other information
that any person possesses about a donor or prospective donor whose body is under the
jurisdiction of the medical examiner which the medical examiner determines may be relevant
to the investigation.

(3) A person that has any information requested by a medical examiner pursuant to
Subsection (2) shall provide that information as expeditiously as possible to allow the medical
examiner to conduct the medicolegal investigation within a period compatible with the
preservation of parts for the purpose of transplantation, therapy, research, or education.

(4) If an anatomical gift has been or might be made of a part of a decedent whose body
is under the jurisdiction of the medical examiner and a postmortem examination is not
required, or the medical examiner determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the medical examiner and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

(5) If an anatomical gift of a part from the decedent under the jurisdiction of the medical examiner has been or might be made, but the medical examiner initially believes that the recovery of the part could interfere with the postmortem investigation into the decedent’s cause or manner of death, the medical examiner shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the medical examiner may allow the recovery.

(6) Following the consultation under Subsection (5), in the absence of mutually agreed upon protocols to resolve conflict between the medical examiner and the procurement organization, if the medical examiner intends to deny recovery, the medical examiner or designee, at the request of the procurement organization, may attend the removal procedure for the part before making a final determination not to allow the procurement organization to recover the part. During the removal procedure, the medical examiner or designee may allow recovery by the procurement organization to proceed, or, if the medical examiner or designee reasonably believes that the part may be involved in determining the decedent's cause or manner of death, deny recovery by the procurement organization.

(7) If the medical examiner or designee denies recovery under Subsection (6), the medical examiner or designee shall:

(a) explain in a record the specific reasons for not allowing recovery of the part;
(b) include the specific reasons in the records of the medical examiner; and
(c) provide a record with the specific reasons to the procurement organization.

(8) If the medical examiner or designee allows recovery of a part under Subsection (4), (5), or (6), the procurement organization, upon request, shall cause the physician or technician who removes the part to provide the medical examiner with a record describing the condition of the part, a biopsy, a photograph, and any other information and observations that would assist in the postmortem examination.

(9) If a medical examiner or designee is required to be present at a removal procedure
under Subsection (6), upon request the procurement organization requesting the recovery of the
part shall reimburse the medical examiner or designee for the additional costs incurred in
complying with Subsection (6).
