**10-9a-509.5. Review for application completeness -- Substantive application review -- Reasonable diligence required for determination of whether improvements or warranty work meets standards -- Money damages claim prohibited.**

(1) (a) Each municipality shall, in a timely manner, determine whether an application is complete for the purposes of subsequent, substantive land use authority review.

(b) After a reasonable period of time to allow the municipality diligently to evaluate whether all objective ordinance-based application criteria have been met, if application fees have been paid, the applicant may in writing request that the municipality provide a written determination either that the application is:

(i) complete for the purposes of allowing subsequent, substantive land use authority review; or

(ii) deficient with respect to a specific, objective, ordinance-based application requirement.

(c) Within 30 days of receipt of an applicant's request under this section, the municipality shall either:

(i) mail a written notice to the applicant advising that the application is deficient with respect to a specified, objective, ordinance-based criterion, and stating that the application shall be supplemented by specific additional information identified in the notice; or

(ii) accept the application as complete for the purposes of further substantive processing by the land use authority.

(d) If the notice required by Subsection (1)(c)(i) is not timely mailed, the application shall be considered complete, for purposes of further substantive land use authority review.

(c) The land use authority shall take final action, approving or denying the application within 45 days of the written request.

(d) If the land use authority denies an application processed under the mandates of Subsection (2)(b), or if the applicant has requested a written decision in the application, the land use authority shall include its reasons for denial in writing, on the record, which may include the official minutes of the meeting in which the decision was rendered.

(e) If the land use authority fails to comply with Subsection (2)(c)[~~,~~] or (d):

(4) (a) Unless the municipality establishes, by ordinance, a uniform presumption of legal existence for nonconforming uses, the property owner shall have the burden of establishing the legal existence of a noncomplying structure or nonconforming use.

(b) Any party claiming that a nonconforming use has been abandoned shall have the burden of establishing the abandonment.

(c) Abandonment may be presumed to have occurred if:

(ii) maximum length - 60 feet; and

(iii) maximum height - 25 feet.

(b) No more than two facings visible and readable from the same direction on the main-traveled way may be erected on any one sign structure. Whenever two facings are so positioned, neither shall exceed the maximum allowed square footage.

(c) Two or more advertising messages on a sign face and double-faced, back-to-back, stacked, side-by-side, and V-type signs are permitted as a single sign or structure if both faces enjoy common ownership.

[~~(d) A changeable message sign is permitted if the interval between message changes is not more frequent than at least eight seconds and the actual message rotation process is~~

~~accomplished in three seconds or less.~~]

[~~(c) An illumination standard adopted by any jurisdiction shall be uniformly applied to all signs, public or private, on or off premise.~~]

(d) An existing conforming or nonconforming sign, a newly constructed conforming sign, or a relocated sign may be upgraded or constructed as an electronic changeable message sign so long as the interval between message changes is not more frequent than at least eight seconds and the actual message rotation process is accomplished in three seconds or less.

(e) The illumination of an electronic changeable message sign may not be limited, except to prevent an electronic sign face from increasing ambient lighting levels by more than 0.3 footcandles when measured:

(b) An outdoor sign structure located inside an incorporated municipality or urbanized county may have the maximum height allowed by the municipality or urbanized county for outdoor advertising structures in the commercial or industrial zone in which the sign is located. If no maximum height is provided for the location, the maximum sign height may be 65 feet

(B) Interchange and intersection distance limitations shall be measured separately for each direction of travel. A measurement for each direction of travel may not control or affect any other direction of travel.

(ii) A sign may be placed closer than 500 feet from the nearest point of the beginning or ending of pavement widening at the exit from or entrance to the main-traveled way, if:

(A) the sign is replacing an existing outdoor advertising use or structure which is being removed or displaced to accommodate the widening, construction, or reconstruction of an interstate, federal aid primary highway existing as of June 1, 1991, or national highway system highway; and

(B) it is located in a commercial or industrial zoned area inside an urbanized county or an incorporated municipality.

(d) The location of signs situated on nonlimited access primary highways in commercial, industrial, or H-1 zoned areas between streets, roads, or highways entering the primary highway shall not exceed the following minimum spacing criteria:
