58	(3) A state highway shall:
59	(a) serve a statewide purpose by accommodating interstate movement of traffic or
60	interregion movement of traffic within the state;
61	(b) primarily move higher traffic volumes over longer distances than highways under
62	local jurisdiction;
63	(c) connect major population centers;
64	(d) be spaced so that:
65	(i) all developed areas in the state are within a reasonable distance of a state highway;
66	and
67	(ii) duplicative state routes are avoided;
68	(e) provide state highway system continuity and efficiency of state highway system
69	operation and maintenance activities;
70	(f) include all interstate routes, all expressways, and all highways on the National
71	Highway System as designated by the Federal Highway Administration under 23 C.F.R.
72	Section 470, Subpart A, as of January 1, 2005; and
73	(g) exclude parking lots, driving ranges, and campus roads.
74	(4) [In addition to] Consistent with the provisions of Subsection (3), in rural areas a
75	state highway [shall] may:
76	(a) include all minor arterial highways;
77	(b) include a major collector highway that:
78	(i) serves a county seat;
79	(ii) serves a municipality with a population of 1,000 or more;
80	(iii) serves a major industrial, commercial, or recreation areas that generate traffic
81	volumes equivalent to a population of 1,000 or more;
82	(iv) provides continuity for the state highway system by providing major connections
83	between other state highways;
84	(v) provides service between two or more counties; or
85	(vi) serves a compelling statewide public safety interest; and

86	(c) exclude all minor collector streets and local roads.
87	(5) [In addition to] Consistent with the provisions of Subsection (3), in urban areas a
88	state highway [shall] may:
89	(a) include all principal arterial highways;
90	(b) include a minor arterial highway that:
91	(i) provides continuity for the state highway system by providing major connections
92	between other state highways;
93	(ii) is a route that is expected to be a principal arterial highway within 10 years; or
94	(iii) is needed to provide access to state highways; and
95	(c) exclude all collector highways and local roads.
96	(6) In addition to the provisions of Subsections (3) and (4), in tourist areas, a state
97	highway:
98	(a) shall include a highway that:
99	(i) serves a national park or a national recreational area; or
100	(ii) serves a national monument with visitation greater than 100,000 per year; or
101	(b) may include a highway that:
102	(i) serves a state park with visitation greater than 100,000 per year; or
103	(ii) serves a recreation site with visitation greater than 100,000 per year.
104	(7) (a) In accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act,
105	the department shall make rules:
106	(i) establishing and defining a functional classification of highways for the purpose of
107	implementing this section;
108	(ii) defining and designating regionally significant arterial highways; and
109	(iii) establishing an access management policy consistent with the functional
110	classification of roadways.
111	(b) The definitions under Subsection (7)(a) shall provide a separate functional
112	classification system for urban and rural highways recognizing the unique differences in the
113	character of services provided by urban and rural highways.

	Enrolled Copy	S.l
114	(c) The rules under Subsection (7)(a):	
115	(i) shall conform as nearly as practical to the Federal Highway Administration	
116	Functional Classification Guidelines; and	
117	(ii) may incorporate by reference, in whole or in part, the federal guidelines und	ler
118	Subsection (7)(c)(i).
