388 (b) For a patient to recover damages from a health care provider in an action based
389 upon the provider's failure to obtain informed consent, the patient must prove the following:

390 (i) that a provider-patient relationship existed between the patient and health care
391 provider;

392 (ii) the health care provider rendered health care to the patient;

393 (iii) the patient suffered personal injuries arising out of the health care rendered;

394 (iv) the health care rendered carried with it a substantial and significant risk of causing
395 the patient serious harm;

396 (v) the patient was not informed of the substantial and significant risk;

397 (vi) a reasonable, prudent person in the patient's position would not have consented to
398 the health care rendered after having been fully informed as to all facts relevant to the decision
399 to give consent; and

400 (vii) the unauthorized part of the health care rendered was the proximate cause of
401 personal injuries suffered by the patient.

402 (2) In determining what a reasonable, prudent person in the patient's position would do
403 under the circumstances, the finder of fact shall use the viewpoint of the patient before health
404 care was provided and before the occurrence of any personal injuries alleged to have arisen
405 from said health care.

406 (3) It shall be a defense to any malpractice action against a health care provider based
407 upon alleged failure to obtain informed consent if:

408 (a) the risk of the serious harm which the patient actually suffered was relatively
409 minor;

410 (b) the risk of serious harm to the patient from the health care provider was commonly
411 known to the public;

412 (c) the patient stated, prior to receiving the health care complained of, that he would
413 accept the health care involved regardless of the risk; or that he did not want to be informed of
414 the matters to which he would be entitled to be informed;

415 (d) the health care provider, after considering all of the attendant facts and
416 circumstances, used reasonable discretion as to the manner and extent to which risks were
417 disclosed, if the health care provider reasonably believed that additional disclosures could be
418 expected to have a substantial and adverse effect on the patient's condition; or

419 (e) the patient or the patient's representative executed a written consent which sets forth
420 the nature and purpose of the intended health care and which contains a declaration that the
421 patient accepts the risk of substantial and serious harm, if any, in hopes of obtaining desired
422 beneficial results of health care and which acknowledges that health care providers involved
423 have explained the patient's condition and the proposed health care in a satisfactory manner and
424 that all questions asked about the health care and its attendant risks have been answered in a
425 manner satisfactory to the patient or the patient's representative.

426 (4) The written consent shall be a defense to an action against a health care provider
427 based upon failure to obtain informed consent unless the patient proves that the person giving

428 the consent lacked capacity to consent or shows by clear and convincing evidence that the
429 execution of the written consent was induced by the defendant's affirmative acts of fraudulent
430 misrepresentation or fraudulent omission to state material facts.

431 (5) This act may not be construed to prevent any person 18 years of age or over from
432 refusing to consent to health care for the patient's own person upon personal or religious
433 grounds.

434 (6) Except as provided in Section 76-7-304.5, the following persons are authorized and
435 empowered to consent to any health care not prohibited by law:

436 (a) any parent, whether an adult or a minor, for the parent's minor child;

437 (b) any married person, for a spouse;

438 (c) any person temporarily standing in loco parentis, whether formally serving or not,
439 for the minor under that person's care and any guardian for the guardian's ward;

440 (d) any person 18 years of age or over for that person's parent who is unable by reason
441 of age, physical or mental condition, to provide such consent;

442 (e) any patient 18 years of age or over;

443 (f) any female regardless of age or marital status, when given in connection with her
444 pregnancy or childbirth;

445 (g) in the absence of a parent, any adult for the adult's minor brother or sister;

446 (h) in the absence of a parent, any grandparent for the grandparent's minor grandchild;

447 (i) an emancipated minor as provided in Section 78A-6-805;

448 (j) a minor who has contracted a lawful marriage; and

449 (k) an unaccompanied homeless minor, as that term is defined in the McKinney-Vento
450 Homeless Assistance Act of 1987, Pub. L. 100-77, as amended, who is 15 years of age or older.

451 (7) A person who in good faith consents or authorizes health care treatment or
452 procedures for another as provided by this act may not be subject to civil liability.

453 (8) Notwithstanding any other provision of this section, if a health care provider fails to
454 comply with the requirement in Section 58-1-509, the health care provider is presumed to have
455 lacked informed consent with respect to the patient examination, as defined in Section
456 58-1-509.

457 (9) (a) Notwithstanding any other provision of this section, if a health care provider
458 fails to comply with Subsection 76-7-305(2) before performing an abortion, the health care

459 provider is presumed to have lacked the informed consent of the pregnant woman to perform
460 an abortion.

461 (b) A health care provider may reverse the presumption described in Subsection (9)(a)
462 if the health care provider produces a signed copy of the certificate described in Subsection
463 76-7-305(3)(a)(ii)(A).
