(b) The last day for filing specified in the notice may not be later than 18 months after the day on which the order of liquidation is entered unless the receivership court, for good cause shown, extends the time.

(c) Proof of a claim for the following does not need to be filed unless the liquidator expressly requires filing of proof:

- (i) cash surrender value in life insurance and annuities;
- (ii) investment value in life insurance and annuities other than cash surrender value; and
- (iii) any other policy insuring the life of a person.

(d) Only upon application of the liquidator, the receivership court may allow alternative procedures and requirements for the filing of proof of a claim or for allowing or proving a claim.

(e) Upon application, if the receivership court dispenses with the requirements of filing a proof of claim by a person, class, or group of persons, a proof of claim for that person, class, or group is considered as being filed for all purposes, except that the receivership court's waiver of proof of claim requirements may not impact guaranty association proof of claim filing requirements or coverage determinations to the extent that the guaranty association statute or filing requirements are inconsistent with the receivership court's waiver of proof.

(2) The liquidator may permit a claimant that makes a late filing to share ratably in distributions, whether past or future, as if the claim were not filed late, to the extent that the payment will not

prejudice the orderly administration of the liquidation, under the following circumstances:

(a) the eligibility to file a proof of claim was not known to the claimant, and the claimant files a proof of claim within 90 days after the day on which the claimant first learns of the eligibility;

(b) (i) a transfer to a creditor is:

(2) (a) A claim of an insured or third party may be allowed under Section 31A-27a-603, regardless of the fact that it is contingent or unliquidated if:

(i) any contingency is removed in accordance with Subsection (3); and

(ii) the value of the claim is determined in accordance with Subsection (4).

(b) A claim is contingent if:

(i) the accident, casualty, disaster, loss, event, or occurrence insured, reinsured, or bonded against occurs on or before the date fixed under Section ~~31A-27a-601~~ 31A-27a-401; and

(ii) the act or event triggering the insurer's obligation to pay has not occurred as of [the] that date [~~fixed under Section 31A-27a-401~~].

(c) A claim is unliquidated if the insurer's obligation to pay is established, but the amount of the claim has not been determined.

(3) (a) Unless the receivership court directs otherwise, a contingent claim may be allowed if:

(i) the claimant presents proof of the insurer's obligation to pay reasonably satisfactory to the liquidator; or

(ii) subject to Subsection (3)(b), the claim is based on a cause of action against an insured of the insurer, and:

(A) it may be reasonably inferred from proof presented upon the claim that the claimant would be able to obtain a judgment; and

(B) the person furnishes suitable proof.

(b) A contingent claim may not be allowed under Subsection (3)(a)(ii)(B) if the receivership court for good cause shown shall otherwise direct that no further valid claims can be made against the insurer arising out of the cause of action other than those already presented.

(4) (a) An unliquidated claim may be allowed if its amount has been determined.

(b) If the amount of an unliquidated claim filed pursuant to Section 31A-27a-601 remains undetermined, the valuation of the unliquidated claim may be made by estimate whenever the liquidator determines that:

(i) liquidation of the claim would unduly delay the administration of the liquidation proceeding; or

(ii) the administrative expense of processing and adjudicating the claim or group of claims of a similar type would be unduly excessive when compared with the property that is estimated to be available for distribution with respect to the claim.

(c) Any estimate shall be based on an accepted method of valuing a claim with reasonable certainty at the claim's net present value, such as an actuarial evaluation.

(5) (a) Notwithstanding the other provisions of this section, a claim for the value or breach of a life insurance policy, disability income insurance policy, long-term care insurance policy, or annuity may not result in or serve as the basis of any liability of a reinsurer of the insurer.

(b) A reinsurer's liability to the insurer shall be determined exclusively on the basis of its contracts of reinsurance and Section 31A-27a-513.

(6) (a) The liquidator may petition the receivership court to set a date certain before which all claims under this section shall be final.

(b) In addition to the notice requirements of Section 31A-27a-107, the liquidator shall give notice of the filing of the petition to all claimants

(6) In coordination with the procedures for recording overtime worked established in rule by the Department of Human Resource Management, the Division of Finance shall modify its payroll and human resource systems to accommodate those procedures.

Benefits Table or any accidental death benefits table adopted after 1980 by the National Association of Insurance Commissioners, that is approved by rule ~~[promulgated]~~ made by the commissioner for use in determining the minimum standard of valuation for such policies, for policies issued on or after January 1, 1961, and ~~[prior to]~~ before January 1, 1966, either such table or, at the option of the company, the Inter-Company Double Indemnity Mortality Table~~;~~, and for policies issued ~~[prior to]~~ before January 1, 1961, the Inter-Company Double Indemnity Mortality Table. Either table shall be combined with a mortality table for calculating the reserves for life insurance policies.

(7) For group life insurance, life insurance issued on the substandard basis and other special benefits: such tables as may be approved by the commissioner.

Section 6. Section 31A-17-505 is amended to read:

31A-17-505. Computation of minimum standard for annuities.

(1) Except as provided in Section 31A-17-506, the minimum standard ~~[for the]~~ of valuation ~~[of all]~~ for individual annuity and pure endowment contracts issued on or after the operative date of this section, as defined in Subsection (2), and for ~~[all]~~ annuities and pure endowments purchased on or after such operative date under group annuity and pure endowment contracts, shall be the commissioner's reserve valuation methods defined in Sections 31A-17-507 and 31A-17-508 and the following tables and interest rates:

(a) for individual annuity and pure endowment contracts issued ~~[prior to]~~ before April 2, 1980, excluding any accident and health and accidental death benefits in the contracts:

(i) (A) the 1971 Individual Annuity Mortality Table; or

(B) any modification of the 1971 Individual Annuity Mortality Table approved by the commissioner;

(ii) 6% interest for single premium immediate annuity contracts; and

(iii) 4% interest for all other individual annuity and pure endowment contracts;

(b) for individual single premium immediate annuity contracts issued on or after April 2, 1980, excluding any accident and health and accidental death benefits in the contracts:

(i) (A) any individual annuity mortality table that is approved by rule made by the commissioner for use in determining the minimum standard of valuation for such contracts; or

(B) any modification of a table described in Subsection (1)(b)(i)(A) approved by the commissioner; and

(ii) 7.5% interest;

(c) for individual annuity and pure endowment contracts issued on or after April 2, 1980, other than

single premium immediate annuity contracts, excluding any accident and health and accidental death benefits in the contracts:

(i) (A) any individual annuity mortality table that is approved by rule made by the commissioner for use in determining the minimum standard of valuation for such contracts; or

(B) any modification of a table described in Subsection (1)(c)(i)(A) approved by the commissioner;

(ii) 5.5% interest for single premium deferred annuity and pure endowment contracts; and

(iii) 4.5% interest for all other such individual annuity and pure endowment contracts;

(d) for ~~all~~ the annuities and pure endowments purchased ~~prior to~~ before April 2, 1980, under group annuity and pure endowment contracts, excluding any accident and health and accidental death benefits purchased under the contracts:

(i) (A) the 1971 Group Annuity Mortality Table; or

(B) any modification of the 1971 Group Annuity Mortality Table approved by the commissioner; and

(ii) 6.5% interest; and

(e) for ~~all~~ the annuities and pure endowments purchased on or after April 2, 1980, under group annuity and pure endowment contracts, excluding any accident and health and accidental death benefits purchased under the contracts:

(i) (A) any group annuity mortality table that is approved by rule made by the commissioner for use in determining the minimum standard of valuation for such annuities and pure endowments; or

(B) any modification of a table described in Subsection (1)(e)(i)(A) approved by the commissioner; and

(ii) 7.5% interest.

(2) (a) After June 1, 1973, any company may file with the commissioner a written notice of its election to comply with this section after a specified date before January 1, 1979, which shall be the operative date of this section for the company.

(b) If a company does not make an election under Subsection (2)(a), the operative date of this section for the company shall be January 1, 1979.

Section 7. Section 31A-17-506 is amended to read:

31A-17-506. Computation of minimum standard by calendar year of issue.

(1) ~~[Applicability of Section 31A-17-506:]~~ The interest rates used in determining the minimum standard for the valuation shall be the calendar year statutory valuation interest rates as defined in this section for:

(a) ~~all~~ life insurance policies issued in a particular calendar year, on or after the operative date of Subsection 31A-22-408(6)(d);

(b) ~~all~~ individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1982;

(c) ~~all~~ annuities and pure endowments purchased in a particular calendar year on or after January 1, 1982, under group annuity and pure endowment contracts; and

(d) the net increase, if any, in a particular calendar year after January 1, 1982, in amounts held under guaranteed interest contracts.

(2) Calendar year statutory valuation interest rates:

(a) The calendar year statutory valuation interest rates, "I," shall be determined as follows and the results rounded to the nearer 1/4 of 1%:

(i) for life insurance:

$$I = .03 + W(R1 - .03) + (W/2)(R2 - .09);$$

(ii) for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options:

$$I = .03 + W(R - .03),$$

where R1 is the lesser of R and .03,

R2 is the greater of R and .09,

R is the reference interest rate defined in Subsection (4), and

W is the weighting factor defined in this section;

(iii) for other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in Subsection (2)(a)(ii), the formula for life insurance stated in Subsection (2)(a)(i) shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of 10 years, and the formula for single premium immediate annuities stated in Subsection (2)(a)(ii) shall apply to annuities and guaranteed interest contracts with guarantee duration of 10 years or less;

(iv) for other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in Subsection (2)(a)(ii) shall apply; and

(v) for other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in Subsection (2)(a)(ii) shall apply.

(b) However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one-half of 1% the calendar year statutory valuation interest rate for such life insurance policies shall be equal to the corresponding actual

rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980, using the reference interest rate defined in 1979, and shall be determined for each subsequent calendar year regardless of when Subsection 31A-22-408(6)(d) becomes operative.

(3) Weighting factors:

(a) The weighting factors referred to in the formulas stated in Subsection (2) are given in the following tables:

(i) (A) Weighting factors for life insurance:

Guarantee Duration (Years)	Weighting Factors
10 or less:	.50
More than 10, but less than 20:	.45
More than 20:	.35

(B) For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy;

(ii) Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options: .80

(iii) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in Subsection (3)(a)(ii), shall be as specified in the tables in Subsections (3)(a)(iii)(A), (B), and (C), according to the rules and definitions in Subsection (3)(b):

(A) For annuities and guaranteed interest contracts valued on an issue year basis:

Guarantee Duration (Years)	Weighting Factors for Plan Type		
	A	B	C
5 or less:	.80	.60	.50
More than 5, but not more than 10:	.75	.60	.50
More than 10, but not more than 20:	.65	.50	.45
More than 20:	.45	.35	.35

(B) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in Subsection (3)(a)(iii)(A) increased by:

Plan Type	A	B	C
		.15	.25

Plan Type

A B C

(C) For annuities and guaranteed interest contracts valued on an issue year basis, other than those with no cash settlement options, which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than 12 months beyond the valuation date, the factors shown in Subsection (3)(a)(iii)(A) ordered in Subsection (3)(a)(iii)(B) increased by:

	.05	.05	.05
--	-----	-----	-----

(b) (i) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of 20 years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guaranteed duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

(ii) Plan type as used in the [above] tables in this Subsection (3) is defined as follows:

(A) Plan Type A: At any time policyholder may withdraw funds only:

(I) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company;

(II) without such adjustment but in installments over five years or more;

(III) as an immediate life annuity; or

(IV) no withdrawal permitted.

(B) (I) Plan Type B: Before expiration of the interest rate guarantee, policyholder withdraw funds only:

(Aa) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company;

(Bb) without such adjustment but in installments over five years or more; or

(Cc) no withdrawal permitted.

(II) At the end of interest rate guarantee, funds may be withdrawn without such adjustment in a single sum or installments over less than five years.

(C) Plan Type C: Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either:

(I) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or

(II) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

(iii) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options shall be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract, and the change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.

(4) Reference interest rate: "Reference interest rate" referred to in Subsection (2)(a) is defined as follows:

(a) For ~~all~~ life insurance, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year next preceding the year of issue, of the Monthly Average of the composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(b) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or year of purchase, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(c) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in Subsection (4)(b), with guarantee duration in excess of 10 years, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(d) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in Subsection (4)(b), with guarantee duration of 10 years or less, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Monthly Average of the Composite Yield on Seasoned

Corporate Bonds, as published by Moody's Investors Service, Inc.

(e) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(f) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in Subsection (4)(b), the average over a period of 12 months, ending on June 30 of the calendar year of the change in the fund, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(5) Alternative method for determining reference interest rates: In the event that the Monthly Average of the Composite Yield on Seasoned Corporate Bonds is no longer published by Moody's Investors Service, Inc. or in the event that the National Association of Insurance Commissioners determines that the Monthly Average of the Composite Yield on Seasoned Corporate Bonds as published by Moody's Investors Service, Inc. is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the National Association of Insurance Commissioners and approved by rule ~~promulgated~~ made by the commissioner, may be substituted.

Section 8. Section 31A-17-507 is amended to read:

31A-17-507. Reserve valuation method -- Life insurance and endowment benefits.

(1) Except as otherwise provided in Sections 31A-17-508, 31A-17-511, and 31A-17-513, reserves according to the commissioner's reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of Subsection (1)(a) over Subsection (1)(b), as follows:

(a) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a

premium falls due; provided, however, that such net level annual premium may not exceed the net level annual premium on the 19 year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(b) A net one year term premium for such benefits provided for in the first policy year.

(2) (a) Provided that for any life insurance policy issued on or after January 1, 1997, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined ~~herein~~ in this Subsection (2) as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium shall, except as otherwise provided in Section 31A-17-511, be the greater of the reserve as of such policy anniversary calculated as described in Subsection (1) and the reserve as of such policy anniversary calculated as described in that subsection, but with:

~~(a)~~ (i) the value defined in Subsection (1)(a) being reduced by 15% of the amount of such excess first year premium;

~~(b) all~~ (ii) the present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date;

~~(c)~~ (iii) the policy being assumed to mature on such date as an endowment; and

~~(d)~~ (iv) the cash surrender value provided on such date being considered as an endowment benefit.

(b) In making the ~~above~~ comparison described in Subsection (2)(a), the mortality and interest bases stated in Sections 31A-17-504 and 31A-17-506 shall be used.

(3) Reserves according to the commissioner's reserve valuation method for:

(a) life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums;

(b) group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408, Internal Revenue Code;

(c) accident and health and accidental death benefits in all policies and contracts; and

(d) ~~all~~ other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by ~~all~~ other annuity and pure endowment contracts, shall be calculated by a method consistent with the principles of Subsections (1) and (2).

Section 9. Section 31A-17-509 is amended to read:

31A-17-509. Minimum reserves.

(1) In no event shall a company's aggregate reserves for ~~all~~ life insurance policies, excluding accident and health and accidental death benefits, issued on or after January 1, 1994, be less than the aggregate reserves calculated in accordance with the methods set forth in Sections 31A-17-507, 31A-17-508, 31A-17-511, and 31A-17-512 and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(2) In no event shall the aggregate reserves for ~~all~~ policies, contracts, and benefits be less than the aggregate reserves determined by the ~~qualified~~ appointed actuary to be necessary to render the opinion required by Section 31A-17-503.

Section 10. Section 31A-17-510 is amended to read:

31A-17-510. Optional reserve calculation.

(1) Reserves for ~~all~~ policies and contracts issued ~~prior to~~ before January 1, 1994, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for ~~all~~ such policies and contracts than the minimum reserves required by the laws in effect immediately ~~prior to~~ before that date. Reserves for any category of policies, contracts, or benefits as established by the commissioner, issued on or after January 1, 1994, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard ~~herein~~ provided in this part, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, may not be ~~higher~~ greater than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided ~~therein~~ in the policy or contract.

(2) Any such company which at any time shall have adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard ~~herein~~ provided in this part may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum ~~herein~~ provided~~;~~ ~~provided, however,~~ in this part, except that, for the purposes of this section, the holding of additional reserves previously determined by ~~a~~ ~~qualified~~ the appointed actuary to be necessary to render the opinion required by Section ~~31A-17-502~~ 31A-17-503 may not be considered to be the adoption of a higher standard of valuation.

Section 11. Section 31A-17-511 is amended to read:

31A-17-511. Reserve calculation -- Valuation net premium exceeding the gross premium charged.

(1) If in any contract year the gross premium charged by any [~~life insurance~~] company on any policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve thereon but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for such policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for such policy or contract, or the reserve calculated by the method actually used for such policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in Sections 31A-17-504 and 31A-17-506.

(2) Provided that for any life insurance policy issued on or after January 1, 1997, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination [~~thereof~~] of an endowment benefit and cash surrender value in an amount greater than such excess premium, [the foregoing provisions of] this section shall be applied as if the method actually used in calculating the reserve for such policy were the method described in Section 31A-17-507, ignoring Subsection 31A-17-507(2). The minimum reserve at each policy anniversary of such a policy shall be the greater of the minimum reserve calculated in accordance with Section 31A-17-507, including Subsection 31A-17-507(2), and the minimum reserve calculated in accordance with this section.

Section 12. Section 31A-17-513 is repealed and reenacted to read:

31A-17-513. Minimum standards for accident and health insurance contracts.

(1) For an accident and health insurance contract issued before the operative date of the valuation manual, the minimum standard of valuation is the standard adopted by the commissioner by rule.

(2) For an accident and health insurance contract issued on or after the operative date of the valuation manual, the standard prescribed in the valuation manual is the minimum standard of valuation required under Subsection 31A-17-502(2).

Section 13. Section 31A-17-514 is enacted to read:

31A-17-514. Valuation manual for policies issued on or after the operative date of the valuation manual.

(ii) accident and health annual statements;

(iii) health annual statements; or

(iv) fraternal annual statements; and

(i) be consistent with the minimum standard of valuation before the operative date of the valuation manual; or

(ii) develop reserves that quantify the benefits and guarantees, and the funding, associated with the contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring;

(e) other requirements, including those relating to reserve methods, models for measuring risk, generation of economic scenarios, assumptions,

margins, use of company experience, risk measurement, disclosure, certifications, reports, actuarial opinions and memorandums, transition rules, and internal controls; and

(f) the data and form of the data required under Section 31A-17-516, with whom the data must be submitted, and may specify other requirements including data analyses and reporting of analyses.

(5) In the absence of a specific valuation requirement or if a specific valuation requirement in the valuation manual is not, in the opinion of the commissioner, in compliance with this part, then the company shall, with respect to the requirement, comply with minimum valuation standards prescribed by the commissioner by rule.

(6) The commissioner may engage a qualified actuary, at the expense of the company, to perform an actuarial examination of the company and opine on the appropriateness of any reserve assumption or method used by the company, or to review and opine on a company's compliance with any requirement set forth in this part. The commissioner may rely upon the opinion, regarding provisions contained within this part, of a qualified actuary engaged by the commissioner of another state, district, or territory of the United States. As used in this Subsection (6), "engage" includes employment and contracting.

(7) The commissioner may require a company to change any assumption or method that in the opinion of the commissioner is necessary in order to comply with the requirements of the valuation manual or this part, and the company shall adjust the reserves as required by the commissioner. The commissioner may take other disciplinary action as permitted pursuant to Section 31A-2-308 and Title 63G, Chapter 4, Administrative Procedures Act.

Section 14. Section 31A-17-515 is enacted to read:

(1) A company shall establish reserves using a principle-based valuation that meets the following conditions for a policy or contract as specified in the valuation manual:

(a) A company shall quantify the benefits and guarantees, and the funding, associated with the policy or contract and the policy's or contract's risks at a level of conservatism that reflects:

(i) conditions that include unfavorable events that have a reasonable probability of occurring during the lifetime of the policies or contracts; and

(ii) for policies or contracts with significant tail risk, conditions appropriately adverse to quantify the tail risk.

(b) The company shall incorporate assumptions, risk analysis methods, and financial models and management techniques that are consistent with, but not necessarily identical to, those used within the company's overall risk assessment process, while recognizing potential differences in financial

reporting structures and any prescribed assumptions or methods.

(c) The company shall incorporate assumptions that are derived in one of the following manners:

(i) the assumption is prescribed in the valuation manual; and

(ii) for assumptions that are not prescribed, the assumptions shall:

(A) be established using the company's available experience, to the extent it is relevant and statistically credible; or

(B) to the extent that company data is not available, relevant, or statistically credible, be established using other relevant, statistically credible experience.

(d) The company shall provide margins for uncertainty including adverse deviation and estimation error, such that the greater the uncertainty the larger the margin and resulting reserve.

(2) A company using a principle-based valuation for one or more policies or contracts subject to this section as specified in the valuation manual shall:

(a) establish procedures for corporate governance and oversight of the actuarial valuation function consistent with those described in the valuation manual;

(b) provide to the commissioner and the board of directors an annual certification of the effectiveness of the internal controls with respect to the principle-based valuation:

(i) which controls shall be designed to assure that all material risks inherent in the liabilities and associated assets subject to such valuation are included in the valuation, and that valuations are made in accordance with the valuation manual; and

(ii) the certification shall be based on the controls in place as of the end of the preceding calendar year; and

(c) develop, and file with the commissioner upon request, a principle-based valuation report that complies with standards prescribed in the valuation manual.

(3) A principle-based valuation may include a prescribed formulaic reserve component.

Section 15. Section 31A-17-516 is enacted to read:

(1) The commissioner may exempt specific product forms or product lines of a domestic company that is licensed and doing business only in Utah from the requirements of Section 31A-17-514 provided:

to the requirements of Subsection 31A-17-502(2), may hold reserves for life insurance policies based on the mortality tables and interest rates defined by the valuation manual for net premium reserves and using the methodology defined in Sections 31A-17-507 through 31A-17-512 as they apply to ordinary life insurance in lieu of the reserves required by Sections 31A-17-514 and 31A-17-515, provided that all of the following conditions have been met:

(a) the company has less than \$300,000,000 of ordinary life premium;

(b) if the company is a member of a group of life insurers, the group has combined ordinary life premiums of less than \$600,000,000;

(c) the company reported total adjusted capital of at least 450% of Authorized Control Level Risk Based Capital in the risk-based capital report for the prior calendar year;

(d) the appointed actuary has provided an unqualified opinion on the reserves in accordance with Subsection 31A-17-503(2) for the prior calendar year;

(e) the company has provided a certification by a qualified actuary that any universal life policy with a secondary guarantee issued after the operative date of the valuation manual meets the definition of a non-material secondary guarantee universal life product as defined in the valuation manual;

(f) the company has filed by July 1 of the calendar year for which valuation under Subsection 31A-17-502(2) is required a statement with its domiciliary commissioner certifying that these conditions are met and that the company intends to calculate reserves as described in this section; and

(g) the company's domiciliary commissioner has not informed the company in writing before September 1 of the calendar year for which valuation under Subsection 31A-17-502(2) is required that the company must comply with the valuation manual requirements for life insurance reserves.

(2) For purposes of Subsections (1)(a) and (b), ordinary life premiums are measured as direct premium plus reinsurance assumed from an unaffiliated company, as reported in the prior calendar year annual statement.

Section 19. Section 31A-22-408 is amended to read:

31A-22-408. Standard Nonforfeiture Law for Life Insurance.

(1) (a) This section is known as the "Standard Nonforfeiture Law for Life Insurance." [H]

(b) This section does not apply to group life insurance.

(c) As used in this section, "operative date of the valuation manual" means the same as that term is described in Subsection 31A-17-514(2).

(2) In the case of policies issued on or after July 1, 1961, no policy of life insurance, except as stated in Subsection (8), may be delivered or issued for delivery in this state unless it contains in substance the following provisions, or corresponding provisions which in the opinion of the commissioner are at least as favorable to the defaulting or surrendering policyholder as are the minimum requirements [hereinafter] specified in this section, and are essentially in compliance with Subsection (8):

(a) That, in the event of default in any premium payment, after premiums have been paid for at least one full year the company will grant, upon proper request not later than 60 days after the due date of the premium in default, a paid-up nonforfeiture benefit on a plan stipulated in the policy, effective as of such due date, of such amount as is specified in this section. In lieu of that stipulated paid-up nonforfeiture benefit, the company may substitute, upon proper request not later than 60 days after the due date of the premium in default, an actuarially equivalent alternative paid-up nonforfeiture benefit which provides a greater amount or longer period of death benefits or, if applicable, a greater amount or earlier payment of endowment benefits.

(b) That, upon surrender of the policy within 60 days after the due date of any premium payment in default after premiums have been paid for at least three full years in the case of ordinary insurance or five full years in the case of industrial insurance, the company will pay, in lieu of any paid-up nonforfeiture benefit, a cash surrender value of such amount as is specified in this section.

(c) That a specified paid-up nonforfeiture benefit shall become effective as specified in the policy unless the person entitled to make such election elects another available option not later than 60 days after the due date of the premium in default.

(d) That, if the policy shall have been paid by the completion of all premium payments or if it is continued under any paid-up nonforfeiture benefit which became effective on or after the third policy anniversary in the case of ordinary insurance or the fifth policy anniversary in the case of industrial insurance, the company will pay upon surrender of the policy within 30 days after any policy anniversary, a cash surrender value in the amount specified in this section.

(e) In the case of policies which cause, on a basis guaranteed in the policy, unscheduled changes in benefits or premiums, or which provide an option for changes in benefits or premiums other than a change to a new policy, a statement of the mortality table, interest rate, and method used in calculating cash surrender values and the paid-up nonforfeiture benefits available under the policy. In the case of [aH] other policies, a statement of the mortality table and interest rate used in calculating the cash surrender values and the paid-up nonforfeiture benefit, if any, available under the policy on each policy anniversary either during the first 20 policy years or during the term of the policy, whichever is shorter, such values and benefits to be

calculated upon the assumption that there are no dividends or paid-up additions credited to the policy and that there is no indebtedness to the company on the policy.

(f) A statement that the cash surrender values and the paid-up nonforfeiture benefits available under the policy are not less than the minimum values and benefits required by or pursuant to the insurance law of the state in which the policy is delivered; an explanation of the manner in which the cash surrender values and the paid-up nonforfeiture benefits are altered by the existence of any paid-up additions credited to the policy or any indebtedness to the company on the policy; if a detailed statement of the method of computation of the values and benefits shown in the policy is not stated [therein] in the policy, a statement that such method of computation has been filed with the insurance supervisory official of the state in which the policy is delivered; and a statement of the method to be used in calculating the cash surrender value and paid-up nonforfeiture benefit available under the policy on any policy anniversary beyond the last anniversary for which such values and benefits are consecutively shown in the policy.

(g) Any of the foregoing provisions or portions thereof not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the policy.

(h) The company shall reserve the right to defer the payment of any cash surrender value for a period of six months after demand therefor with surrender of the policy with the consent of the commissioner; provided, however, that the policy shall remain in full force and effect until the insurer has made the payment.

(3) (a) Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary, whether or not required by Subsection (2), shall be an amount not less than the excess, if any, of the present value, on such anniversary, of the future guaranteed benefits which would have been provided for by the policy, including any existing paid-up additions, if there had been no default, over the sum of:

(i) the then present value of the adjusted premiums as defined in Subsections (5) and (6), corresponding to premiums which would have fallen due on and after such anniversary; and

(ii) the amount of any indebtedness to the company on the policy.

(b) Provided, however, that for any policy issued on or after the operative date of Subsection (6)(d) as defined [therein] in Subsection (6)(d), which provides supplemental life insurance or annuity benefits at the option of the insured and for an identifiable additional premium by rider or supplemental policy provision, the cash surrender value referred to in Subsection (3)(a) shall be an amount not less than the sum of the cash surrender value as defined in Subsection (3)(a) for an otherwise similar policy issued at the same age without such rider or supplemental policy provision

and the cash surrender value as defined in Subsection (3)(a) for a policy which provides only the benefits otherwise provided by such rider or supplemental policy provision.

(c) Provided, further, that for any family policy issued on or after the operative date of Subsection (6)(d) as defined [therein] in Subsection (6)(d), which defines a primary insured and provides term insurance on the life of the spouse of the primary insured expiring before the spouse's age 71, the cash surrender value referred to in Subsection (3)(a) shall be an amount not less than the sum of the cash surrender value as defined in Subsection (3)(a) for an otherwise similar policy issued at the same age without such term insurance on the life of the spouse and the cash surrender value as defined in Subsection (3)(a) for a policy which provides only the benefits otherwise provided by such term insurance on the life of the spouse.

(d) Any cash surrender value available within 30 days after any policy anniversary under any policy paid-up by completion of all premium payments or any policy continued under any paid-up nonforfeiture benefit, whether or not required by Subsection (2) shall be an amount not less than the present value, on such anniversary, of the future guaranteed benefits provided for by the policy, including any existing paid-up additions, decreased by any indebtedness to the company on the policy.

(4) Any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment due on any policy anniversary shall be such that its present value as of such anniversary shall be at least equal to the cash surrender value then provided for by the policy or, if none is provided for, that cash surrender value which would have been required by this section in the absence of the condition that premiums shall have been paid for at least a specified period.

(5) (a) (i) This Subsection (5) does not apply to policies issued on or after the operative date of Subsection (6)(d) as defined [therein] in Subsection (6)(d).

(ii) Except as provided in Subsection (5)(c), the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding any extra premiums charged because of impairments or special hazards, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of:

(A) the then present value of the future guaranteed benefits provided for by the policy;

(B) 2% of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount if the amount of insurance varies with duration of the policy;

(C) 40% of the adjusted premium for the first policy year; and

(D) 25% of either the adjusted premium for the first policy year or the adjusted premium for a whole

life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less.

(iii) Provided, however, that in applying the percentages specified in Subsections (5)(a)(ii)(C) and (D), no adjusted premium shall be considered to exceed 4% of the amount of insurance or uniform amount equivalent thereto. The date of issue of a policy for the purpose of this Subsection (5) shall be the date as of which the rated age of the insured is determined.

(b) In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this Subsection (5) shall be considered to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy; provided, however, that in the case of a policy providing a varying amount of insurance issued on the life of a child under age 10, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy ~~prior to~~ before the attainment of age 10 were the amount provided by such policy at age 10.

(c) (i) The adjusted premiums for any policy providing term insurance benefits by rider or supplemental policy provision shall be equal to the sum of:

(A) the adjusted premiums for an otherwise similar policy issued at the same age without such term insurance benefits~~], increased~~; and

(B) during the period for which premiums for such term insurance benefits are payable, the adjusted premiums for such term insurance.

(ii) The foregoing items (A) and (B) of Subsection (5)(c)(i) being calculated separately and as specified in Subsections (5)(a) and (b) except that, for the purposes of (B), (C), and (D) of Subsection (5)(a)(ii), the amount of insurance or equivalent uniform amount of insurance used in calculation of the adjusted premiums referred to in (B) of Subsection (5)~~(c)(i)~~(a)(ii) shall be equal to the excess of the corresponding amount determined for the entire policy over the amount used in the calculation of the adjusted premiums in (A) of ~~this~~ Subsection (5)(c)(i).

(d) Except as otherwise provided in Subsection (6), all adjusted premiums and present values referred to in this section shall for all policies of ordinary insurance be calculated on the basis of the Commissioner's 1941 Standard Ordinary Mortality Table, provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured and such

calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding 3-1/2% per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits. Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than 130% of the rates of mortality according to such applicable table. Provided, further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

(6) (a) This Subsection (6)(a) does not apply to ordinary policies issued on or after the operative date of Subsection (6)(d) as defined ~~therein~~ in Subsection (6)(d). In the case of ordinary policies issued on or after the operative date of Subsection (6)(a) as defined in Subsection (6)(b), all adjusted premiums and present values referred to in this section shall be calculated on the basis of the Commissioner's 1958 Standard Ordinary Mortality Table and the rate of interest as specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits, provided that such rate of interest may not exceed 3-1/2% per annum for policies issued before June 1, 1973, 4% per annum for policies issued on or after May 31, 1973, and before April 2, 1980, and the rate of interest may not exceed 5-1/2% per annum for policies issued after April 2, 1980, except that for any single premium whole life or endowment insurance policy a rate of interest not exceeding 6-1/2% per annum may be used, and provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than six years younger than the actual age of the insured. Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioner's 1958 Extended Term Insurance Table. Provided, further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

(b) Any company may file with the commissioner a written notice of its election to comply with the provisions of Subsection (6)(a) after a specified date before January 1, 1966. After filing such notice, then upon such specified date, which is the operative date of Subsection (6)(a) for such company, this Subsection (6)(a) shall become operative with respect to the ordinary policies thereafter issued by such company. If a company makes no such election, the operative date of Subsection (6)(a) for such company is January 1, 1966.

(c) (i) This Subsection (6)(c) does not apply to industrial policies issued after the operative date of Subsection (6)(d) as defined ~~[therein]~~ in Subsection (6)(d). In the case of industrial policies issued on or after the operative date of this Subsection (6)(c) as defined ~~[herein]~~ in this Subsection (6)(c), all adjusted premiums and present values referred to in this section shall be calculated on the basis of the Commissioner's 1961 Standard Industrial Mortality Table and the rate of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits, provided that such rate of interest may not exceed 3-1/2% per annum for policies issued before June 1, 1973, 4% per annum for policies issued after May 31, 1973, and before April 2, 1980, and 5-1/2% per annum for policies issued after April 2, 1980, except that for any single premium whole life or endowment insurance policy issued after April 2, 1980, a rate of interest not exceeding 6-1/2% per annum may be used. Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioner's 1961 Industrial Extended Term Insurance Table. Provided, further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

(ii) Any company may file with the commissioner a written notice of its election to comply with the provisions of this Subsection (6)(c) after a specified date before January 1, 1968. After filing such notice, then upon that specified date, which is the operative date of this Subsection (6)(c) for such company, this Subsection (6)(c) shall become operative with respect to the industrial policies thereafter issued by such company. If a company makes no such election, the operative date of this Subsection (6)(c) for such company shall be January 1, 1968.

(d) (i) This Subsection (6)(d) applies to all policies issued on or after the operative date of this Subsection (6)(d) as defined ~~[herein]~~ in this Subsection (6)(d). Except as provided in Subsection (6)(d)(vii), the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments or special hazards and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the date of issue of policy, of all adjusted premiums shall be equal to the sum of:

(A) the then present value of the future guaranteed benefits provided for by the policy;

(B) 1% of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years; and

(C) 125% of the nonforfeiture net level premium as ~~[hereinafter]~~ defined ~~[- Provided, however,]~~ in Subsection (6)(d)(iii), except that in applying the percentage specified in this Subsection (6)(d)(i)(C), no nonforfeiture net level premium shall be considered to exceed 4% of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years.

(ii) The date of issue of a policy for the purpose of this Subsection (6)(d) shall be the date as of which the rated age of the insured is determined.

~~(iii)~~ (iii) The nonforfeiture net level premium shall be equal to the present value, at the date of issue of the policy, of the guaranteed benefits provided for by the policy divided by the present value, at the date of issue of the policy, of an annuity of one per annum payable on the date of issue of the policy and on each anniversary of such policy on which a premium falls due.

~~(iv)~~ (iv) In the case of policies which cause on a basis guaranteed in the policy unscheduled changes in benefits or premiums, or which provide an option for changes in benefits or premiums other than change to a new policy, the adjusted premiums and present values shall initially be calculated on the assumption that future benefits and premiums do not change from those stipulated at the date of issue of the policy. At the time of any such change in the benefits or premiums the future adjusted premiums, nonforfeiture net level premiums, and present values shall be recalculated on the assumption that future benefits and premiums do not change from those stipulated by the policy immediately after the change.

~~(v)~~ (v) Except as otherwise provided in Subsection (6)(d)~~(vii)~~(viii), the recalculated future adjusted premiums for any such policy shall be such uniform percentage of the respective future premiums specified in the policy for each policy year, excluding amounts specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments and special hazards, and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the time of change to the newly defined benefits or premiums, of all such future adjusted premiums shall be equal to the excess of:

(A) the sum of:

(I) the then present value of the then future guaranteed benefits provided for by the policy; and

(II) the additional expense allowance, if any; over

(B) the then cash surrender value, if any, or present value of any paid-up nonforfeiture benefit under the policy.

~~[(v)]~~ (vi) The additional expense allowance, at the time of the change to the newly defined benefits or premiums, shall be the sum of:

(A) 1% of the excess, if positive, of the average amount of insurance at the beginning of each of the first 10 policy years subsequent to the change over the average amount of insurance ~~[prior to]~~ before the change at the beginning of each of the first 10 policy years subsequent to the time of the most recent previous change, or, if there has been no previous change, the date of issue of the policy; and

(B) 125% of the increase, if positive, in the nonforfeiture net level premium.

~~[(vi)]~~ (vii) The recalculated nonforfeiture net level premium shall be equal to:

(A) the sum of:

(I) the nonforfeiture net level premium applicable ~~[prior to]~~ before the change times the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of the change on which a premium would have fallen due had the change not occurred; and

(II) the present value of the increase in future guaranteed benefits provided for by the policy; divided by

(B) the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of change on which a premium falls due.

~~[(vii)]~~ (viii) Notwithstanding any other provision of this Subsection (6)(d) to the contrary, in the case of a policy issued on a substandard basis which provides reduced graded amounts of insurance so that, in each policy year, such policy has the same tabular mortality cost as an otherwise similar policy issued on the standard basis which provides higher uniform amounts of insurance, adjusted premiums and present values for such substandard policy may be calculated as if it were issued to provide such higher uniform amounts of insurance on the standard basis.

~~[(viii)—All]~~ (ix) Any adjusted premiums and present values referred to in this section shall:

(A) for ~~[all]~~ policies of ordinary insurance be calculated on the basis of:

(I) the Commissioner's 1980 Standard Ordinary Mortality Table; or

(II) at the election of the company for any one or more specified plans of life insurance, the Commissioner's 1980 Standard Ordinary Mortality Table with Ten-Year Select Mortality Factors;

(B) for all policies of industrial insurance be calculated on the basis of the Commissioner's 1961 Standard Industrial Mortality Table; and

(C) for all policies issued in a particular calendar year be calculated on the basis of a rate of interest not exceeding the nonforfeiture interest rate as defined in Subsection (6)(d)~~[(x)]~~(xi), for policies issued in that calendar year.

~~[(ix)]~~ (x) Notwithstanding Subsection (6)(d)~~[(viii)]~~(ix):

(A) At the option of the company, calculations for all policies issued in a particular calendar year may be made on the basis of a rate of interest not exceeding the nonforfeiture interest rate, as defined in Subsection (6)(d)~~[(x)]~~(xi), for policies issued in the immediately preceding calendar year.

(B) Under any paid-up nonforfeiture benefit, including any paid-up dividend additions, any cash surrender value available, whether or not required by Subsection (2), shall be calculated on the basis of the mortality table and rate of interest used in determining the amount of such paid-up nonforfeiture benefit and paid-up dividend additions, if any.

(C) A company may calculate the amount of any guaranteed paid-up nonforfeiture benefit, including paid-up additions under the policy, on the basis of an interest rate no lower than that specified in the policy for calculating cash surrender values.

(D) In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioner's 1980 Extended Term Insurance Table for policies of ordinary insurance and not more than the Commissioner's 1961 Industrial Extended Term Insurance Table for policies of industrial insurance.

(E) For insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on appropriate modifications of the aforementioned tables.

(F) ~~[Any ordinary mortality tables]~~ For a policy issued before the operative date of the valuation manual, a Commissioner's Standard Ordinary Mortality Tables, adopted after 1980 by the National Association of Insurance Commissioners, that are approved by rules adopted by the commissioner for use in determining the minimum nonforfeiture standard, may be substituted for the Commissioner's 1980 Standard Ordinary Mortality Table with or without Ten-Year Select Mortality Factors or for the Commissioner's 1980 Extended Term Insurance Table. For a policy issued on or after the operative date of the valuation manual, the valuation manual shall provide the Commissioner's Standard Mortality Table for use in determining the minimum nonforfeiture standard that may be substituted for the Commissioner's 1980 Standard Ordinary Mortality Table with or without Ten-Year Select Mortality Factors or for the Commissioner's 1980 Extended Term Insurance Table. If the commissioner approves by rule any Commissioner's Standard Ordinary Mortality Table adopted by the National Association of Insurance Commissioners for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual, then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual.

(G) ~~[Any industrial mortality tables]~~ For a policy issued before the operative date of the valuation manual, any Commissioner's Standard Industrial Mortality Tables, adopted after 1980 by the National Association of Insurance Commissioners, that are approved by rules adopted by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the Commissioner's 1961 Industrial Extended Term Insurance Table. For a policy issued on or after the operative date of the valuation manual, the valuation manual shall provide the Commissioner's Standard Mortality Table for use in determining the minimum nonforfeiture standard that may be substituted for the Commissioner's 1961 Standard Industrial Mortality Table or the Commissioner's 1961 Industrial Extended Term Insurance Table. If the commissioner approves by rule any Commissioner's Standard Industrial Mortality Table adopted by the National Association of Insurance Commissioners for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual, then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual.

~~[(x)]~~ (xi) The nonforfeiture interest rate is defined in this Subsection (6)(d)(xi):

(A) for a policy issued before the operative date of the valuation manual, the nonforfeiture interest rate per annum for any policy issued in a particular calendar year shall be equal to 125% of the calendar year statutory valuation interest rate for such policy as defined in the Standard Valuation Law, rounded to the nearest one-fourth of 1%[-], except that the nonforfeiture interest rate may not be less than 4%; and

(B) for a policy issued on and after the operative date of the valuation manual, the nonforfeiture interest rate per annum for any policy issued in a particular calendar year shall be provided by the valuation manual.

~~[(xii)]~~ (xii) Notwithstanding any other provision in this title to the contrary, any refiling of nonforfeiture values or their methods of computation for any previously approved policy form which involves only a change in the interest rate or mortality table used to compute nonforfeiture values does not require refiling of any other provisions of that policy form.

~~[(xiii)]~~ (xiii) After the effective date of this Subsection (6)(d), any company may, at any time before January 1, 1989, file with the commissioner a written notice of its election to comply with the provisions of this subsection with regard to any number of plans of insurance after a specified date before January 1, 1989, which specified date shall be the operative date of this Subsection (6)(d) for the plan or plans, but if a company elects to make the provisions of this subsection operative before January 1, 1989, for fewer than all plans, the company shall comply with rules adopted by the commissioner. There is no limit to the number of times this election may be made. If the company makes no such election, the operative date of this

subsection for such company shall be January 1, 1989.

(7) In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on the estimates of future experience, or in the case of any plan of life insurance which is of such nature that minimum values cannot be determined by the methods described in Subsection (2), (3), (4), (5), (6)(a), (6)(b), (6)(c), or (6)(d) ~~[herein]~~, then:

(a) the insurer shall demonstrate to the satisfaction of the commissioner that the benefits provided under the plan are substantially as favorable to policyholders and insureds as the minimum benefits otherwise required by Subsection (2), (3), (4), (5), (6)(a), (6)(b), (6)(c), or (6)(d);

(b) the plan of life insurance shall satisfy the commissioner that the benefits and the pattern of premiums of that plan are not such as to mislead prospective policyholders or insureds; and

(c) the cash surrender values and paid-up nonforfeiture benefits provided by the plan may not be less than the minimum values and benefits required for the plan computed by a method consistent with the principles of this Standard Nonforfeiture Law for Life Insurance, as determined by rules adopted by the commissioner.

(8) (a) (i) Any cash surrender value and any paid-up nonforfeiture benefit, available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary, shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary.

(ii) All values referred to in Subsections (3), (4), (5), and (6) may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death.

(iii) The net value of any paid-up additions, other than paid-up term additions, may not be less than the amounts used to provide such additions.

(b) Notwithstanding the provisions of Subsection (3), additional benefits specified in Subsection (8)(c) and premiums for all such additional benefits shall be disregarded in ascertaining cash surrender values and nonforfeiture benefits required by this section, and no such additional benefits shall be required to be included in any paid-up nonforfeiture benefits.

(c) Additional benefits referred to in Subsection (8)(b) include benefits payable:

(i) in the event of death or dismemberment by accident or accidental means;

(ii) in the event of total and permanent disability;

(iii) as reversionary annuity or deferred reversionary annuity benefits;

(iv) as term insurance benefits provided by a rider or supplemental policy provision to which, if issued as a separate policy, this section would not apply;

(v) as term insurance on the life of a child or on the lives of children provided in a policy on the life of a parent of the child, if such term insurance expires before the child's age is 26, if uniform in amount after the child's age is one, and has not become paid-up by reason of the death of a parent of the child; and

(vi) as other policy benefits additional to life insurance endowment benefits.

(9) (a) This Subsection (9), in addition to all other applicable subsections of this section, applies to all policies issued on or after January 1, 1985. Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary shall be in an amount which does not differ by more than 2/10 of 1% of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years, from the sum of:

(i) the greater of zero and the basic cash value [hereinafter] specified in Subsection (9)(b); and

(ii) the present value of any existing paid-up additions less the amount of any indebtedness to the company under the policy.

(b) The basic cash value shall be equal to the present value, on such anniversary of the future guaranteed benefits which would have been provided for by the policy, excluding any existing paid-up additions and before deduction of any indebtedness to the company, if there had been no default, less the then present value of the nonforfeiture factors, as [hereinafter] defined in Subsection (9)(c), corresponding to premiums which would have fallen due on and after such anniversary. Provided, however, that the effects on the basic cash value of supplemental life insurance or annuity benefits or of family coverage, as described in Subsection (3) or (5), whichever is applicable, shall be the same as are the effects specified in Subsection (3) or (5), whichever is applicable, on the cash surrender values defined in that subsection.

(c) The nonforfeiture factor for each policy year shall be an amount equal to a percentage of the adjusted premium for the policy year, as defined in Subsection (5) or (6)(d), whichever is applicable. Except as is required by the next succeeding sentence of this paragraph, such percentage:

(i) shall be the same percentage for each policy year between the second policy anniversary and the later of:

(A) the fifth policy anniversary; and

(B) the first policy anniversary at which there is available under the policy a cash surrender value in an amount, before including any paid-up additions and before deducting any indebtedness, of at least 2/10 of 1% of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years; and

(ii) shall be such that no percentage after the later of the two policy anniversaries specified in Subsection (9)(a) may apply to fewer than five consecutive policy years.

(d) Provided, that no basic cash value may be less than the value which would be obtained if the adjusted premiums for the policy, as defined in Subsection (5) or Subsection (6)(d), whichever is applicable, were substituted for the nonforfeiture factors in the calculation of the basic value.

(e) All adjusted premiums and present values referred to in this Subsection (9) shall for a particular policy be calculated on the same mortality and interest bases as are used in demonstrating the policy's compliance with the other subsections of this nonforfeiture law. The cash surrender values referred to in this Subsection (9) shall include any endowment benefits provided for by the policy.

(f) Any cash surrender value available other than in the event of default in a premium payment due on a policy anniversary, and the amount of any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment shall be determined in manners consistent with the manners specified for determining the analogous minimum amounts in Subsections (2), (3), (4), (5), (6), and (8). The amounts of any cash surrender values and of any paid-up nonforfeiture benefits granted in connection with additional benefits such as those listed as Subsection (8)(c) shall conform with the principles of this Subsection (9).

(10) (a) This section does not apply to any of the following:

(i) reinsurance;

(ii) group insurance;

(iii) pure endowment;

(iv) an annuity or reversionary annuity contract;

(v) a term policy of uniform amount, which provides no guaranteed nonforfeiture or endowment benefits, or renewal thereof, of 20 years or less expiring before age 71, for which uniform premiums are payable during the entire term of the policy;

(vi) a term policy of decreasing amount, which provides no guaranteed nonforfeiture or endowment benefits, on which each adjusted premium, calculated as specified in Subsections (5) and (6), is less than the adjusted premium so calculated, on a term policy of uniform amount, or renewal thereof, which provides no guaranteed nonforfeiture or endowment benefits, issued at the same age and for the same initial amount of insurance, and for a term of 20 years or less expiring before age 71, for which uniform premiums are payable during the entire term of the policy;

(vii) a policy, which provides no guaranteed nonforfeiture or endowment benefits, for which no cash surrender value, if any, or present value of any paid-up nonforfeiture benefit, at the beginning of any policy year, calculated as specified in Subsections (3), (4), (5), and (6) exceeds 2-1/2% of

the amount of insurance at the beginning of the same policy year; or

(viii) a policy which shall be delivered outside this state through an agent or other representative of the company issuing the policy.

(b) For purposes of determining the applicability of this section, the age of expiry for a joint term insurance policy shall be the age of expiry of the oldest life.

(11) The commissioner may adopt rules interpreting, describing, and clarifying the application of this nonforfeiture law to any form of life insurance for which the interpretation, description, or clarification is considered necessary by the commissioner, including unusual and new forms of life insurance.
