57817 (1) An individual who is a taxpayer and resident of this state and who desires to

57845 Section 1132. Section **62A-4a-119** is amended to read:

57846 **62A-4a-119. Division required to produce "family impact statement" with regard**
57847 **to policies and rules.**

57848 Beginning May 1, 2000, whenever the division establishes a rule, in accordance with
57849 [~~Title 63, Chapter 46a~~] Title 63G, Chapter 3, Utah Administrative Rulemaking Act, or the

57850 board establishes any policy in accordance with its statutory authority, those processes shall
57851 include an assessment of the impact of that rule or policy on families. Those assessments shall
57852 determine the impact of the rule or policy on the authority of parents to oversee the care,
57853 supervision, upbringing, and education of children in the parents' custody. The division shall
57854 publish a family impact statement describing those assessments and determinations, within 90

57857 **62A-4a-120. Accommodation of moral and religious beliefs and culture.**

57858 (1) The division shall adopt rules in accordance with [~~Title 63, Chapter 46a~~] Title 63G,
57859 Chapter 3, Utah Administrative Rulemaking Act, and establish procedures to accommodate the
57860 moral and religious beliefs, and culture, of the minors and families it serves, including:

57861 (a) the immediate family and other relatives of a minor in any type of custody or
57862 otherwise under the jurisdiction of the court;

57863 (b) foster and other out-of-home placement families; and

57864 (c) adoptive families.

57865 (2) The accommodation under Subsection (1) applies to placements, treatment plans,
57866 services, and other activities of the division.

57867 Section 1134. Section **62A-4a-206** is amended to read:

57868 **62A-4a-206. Process for removal of a child from foster family -- Procedural due**
57869 **process.**

57870 (1) (a) The Legislature finds that, except with regard to a child's natural parent or legal
57871 guardian, a foster family has a very limited but recognized interest in its familial relationship
57872 with a foster child who has been in the care and custody of that family. In making
57873 determinations regarding removal of a child from a foster home, the division may not dismiss
57874 the foster family as a mere collection of unrelated individuals.

57875 (b) The Legislature finds that children in the temporary custody and custody of the
57876 division are experiencing multiple changes in foster care placements with little or no
57877 documentation, and that numerous studies of child growth and development emphasize the

57878 importance of stability in foster care living arrangements.

57879 (c) For the reasons described in Subsections (1)(a) and (b), the division shall provide
57880 procedural due process for a foster family prior to removal of a foster child from their home,
57881 regardless of the length of time the child has been in that home, unless removal is for the
57882 purpose of:

57883 (i) returning the child to the child's natural parent or legal guardian;

57884 (ii) immediately placing the child in an approved adoptive home;

57885 (iii) placing the child with a relative, as defined in Subsection 78-3a-307(5)(d), who
57886 obtained custody or asserted an interest in the child within the preference period described in
57887 Subsection 78-3a-307(8); or

57888 (iv) placing an Indian child in accordance with preplacement preferences and other
57889 requirements described in the Indian Child Welfare Act, 25 U.S.C. Sec. 1915.

57890 (2) (a) The division shall maintain and utilize due process procedures for removal of a
57891 foster child from a foster home, in accordance with the procedures and requirements of [~~Title~~
57892 ~~63, Chapter 46b]~~ Title 63G, Chapter 4, Administrative Procedures Act.

57893 (b) Those procedures shall include requirements for:

57894 (i) personal communication with and explanation to foster parents prior to removal of
57895 the child; and

57896 (ii) an opportunity for foster parents to present their information and concerns to the
57897 division and to request a review by a third party neutral fact finder prior to removal of the child.

57898 (c) If the division determines that there is a reasonable basis to believe that the child is
57899 in danger or that there is a substantial threat of danger to the health or welfare of the child, it
57900 shall place the child in emergency foster care during the pendency of the procedures described
57901 in this subsection, instead of making another foster care placement.

57902 (3) If the division removes a child from a foster home based upon the child's statement
57903 alone, the division shall initiate and expedite the processes described in Subsection (2). The
57904 division may take no formal action with regard to that foster parent's license until after those
57905 processes, in addition to any other procedure or hearing required by law, have been completed.

57906 (4) When a complaint is made to the division by a foster child against a foster parent,
57907 the division shall, within 30 business days, provide the foster parent with information regarding
57908 the specific nature of the complaint, the time and place of the alleged incident, and who was
57909 alleged to have been involved.

57910 (5) Whenever the division places a child in a foster home, it shall provide the foster
57911 parents with:

57912 (a) notification of the requirements of this section;

57913 (b) a written description of the procedures enacted by the division pursuant to
57914 Subsection (2) and how to access those processes; and

57915 (c) written notification of the foster parents' ability to petition the juvenile court directly
57916 for review of a decision to remove a foster child who has been in their custody for 12 months or
57917 longer, in accordance with the limitations and requirements of Section 78-3a-315.

57918 (6) The requirements of this section do not apply to the removal of a child based on a
57919 foster parent's request for that removal.

57920 Section 1135. Section **62A-4a-207** is amended to read:

57934 panel under Subsection (1) as the Senate chair of the panel. The speaker of the House of

57955 issues impacting the child welfare system; and

57956 (ii) recommend, as it considers advisable, budgetary proposals to the Health and Human
57957 Services Joint Appropriations Subcommittee, the Executive Offices and Criminal Justice

57979 (b) The panel may hold public hearings, as it considers advisable, in various locations

58424 (7) (a) Except as provided in Subsection (7)(b), an alleged perpetrator may not make a
58425 request under Subsection (4) to challenge a supported finding if a court of competent

58427 the alleged perpetrator is substantially responsible for the abuse, neglect, or dependency which
58428 was also the subject of the supported finding.

58429 (b) Subsection (7)(a) does not apply to pleas in abeyance or diversion agreements.

58430 (c) An adjudicative proceeding under Subsection (5) may be stayed during the time a

60632 prime contractor.

60633 (b) "Subcontractor" means any person or entity under contract with a contractor or
60634 another subcontractor to provide services or labor for the construction, installation, or repair of

60637 (d) "Subcontractor" does not include suppliers who provide only materials, equipment,
60638 or supplies to a contractor or subcontractor.

60639 (2) The director shall apply the provisions of this section to achieve fair and competitive
60640 bidding and to discourage bid-shopping by contractors.

60641 (3) (a) (i) (A) On each public construction project, the director shall require the
60642 apparent lowest three bidders to submit a list of their first-tier subcontractors indicating each
60643 subcontractor's name, bid amount, and other information required by rule.

60644 (B) Other bidders who are not one of the apparent lowest three bidders may also submit
60645 a list of their first-tier subcontractors containing the information required by this Subsection (3).

60646 (C) The director may not consider any bid submitted by a bidder if the bidder fails to
60647 submit a subcontractor list meeting the requirements of this section.

60648 (ii) On projects where the contractor's total bid is less than \$500,000, subcontractors
60649 whose bid is less than \$20,000 need not be listed.

60650 (iii) On projects where the contractor's total bid is \$500,000 or more, subcontractors
60651 whose bid is less than \$35,000 need not be listed.

60652 (b) (i) The bidders shall submit this list within 24 hours after the bid opening time, not
60653 including Saturdays, Sundays, and state holidays.

60654 (ii) This list does not limit the director's right to authorize a change in the listing of any
60655 subcontractor.

60656 (c) The bidders shall verify that all subcontractors listed as part of their bids are licensed
60657 as required by state law.

60658 (d) Twenty-four hours after the bid opening, the contractor may change [~~his~~] the
60659 contractor's subcontractors only after:

60663 (B) the contractor establishes reasons for the change that meet the standards established
60664 by the State Building Board.

60665 (e) If the director approves any changes in subcontractors that result in a net lower
60666 contract price for subcontracted work, the total of the prime contract may be reduced to reflect
60667 the changes.

60668 (4) (a) A bidder may list himself as a subcontractor when the bidder is currently licensed
60669 to perform the portion of the work for which the bidder lists himself as a subcontractor and:

60670 (i) the bidder intends to perform the work of a subcontractor himself; or

60671 (ii) the bidder intends to obtain a subcontractor to perform the work at a later date
60672 because the bidder was unable to:

60673 (A) obtain a bid from a qualified subcontractor; or

60674 (B) obtain a bid from a qualified subcontractor at a cost that the bidder considers to be
60675 reasonable.

60676 (b) (i) When the bidder intends to perform the work of a subcontractor himself, the
60677 director may, by written request, require that the bidder provide the director with information

60678 indicating the bidder's:

60679 (A) previous experience in the type of work to be performed; and

60680 (B) qualifications for performing the work.

60681 (ii) The bidder must respond in writing within five business days of receiving the

60682 director's written request.

60683 (iii) If the bidder's submitted information causes the director to reasonably believe that

60684 self-performance of the portion of the work by the bidder is likely to yield a substandard

60685 finished product, the director shall:

60686 (A) require the bidder to use a subcontractor for the portion of the work in question

60687 and obtain the subcontractor bid under the supervision of the director; or

60688 (B) reject the bidder's bid.

60689 (c) (i) When the bidder intends to obtain a subcontractor to perform the work at a later

60690 date, the bidder shall provide documentation with the subcontractor list describing:

60692 and

60693 (B) why the bidder was unable to obtain a qualified subcontractor bid.

60694 (ii) If the bidder who intends to obtain a subcontractor to perform the work at a later

60695 date is awarded a contract, the director shall supervise the bidder's efforts to obtain a qualified

60696 subcontractor bid.

60697 (iii) The director may not adjust the amount of the contract awarded in order to reflect

60698 the actual amount of the subcontractor's bid.

60699 (5) The division may not disclose any subcontractor bid amounts obtained under this

60700 section until the division has awarded the project to a contractor.

60701 (6) (a) The director shall, in consultation with the State Building Board, prepare draft

- 60719 (ix) provisions for the timely payment of claims after resolution of the dispute, including
60720 any appeals;
- 60721 (x) a requirement that the final determination resulting from the dispute resolution

60723 Sections [~~63-46b-14~~] 63G-4-401 and [~~63-46b-15~~] 63G-4-402;
- 60724 (xi) a requirement that a claim or dispute that does not include a monetary claim against
60725 the division or its agents is not limited to the dispute resolution process provided for in this
60726 Subsection (6);
- 60727 (xii) requirements for claims and disputes to be eligible for this dispute resolution
60728 process;
- 60729 (xiii) the use of an independent hearing officer, panel, arbitration, or mediation; and
- 60730 (xiv) the circumstances under which a subcontractor may file a claim directly with the
60731 division.
- 60732 (d) Persons pursuing claims under the process required by this Subsection (6):

60738 bids if none of the bidders whose bid is within the budget of the project submit a subcontractor
60739 list that meets the requirements of this section.

60740 (8) Any violation of this section, or any fraudulent misrepresentation by a contractor,

61981 (d) For purposes of this section, operations and maintenance costs:

61982 (i) are estimates only;

61983 (ii) may include any operations and maintenance costs already funded in existing agency
61984 budgets; and

61985 (iii) are not commitments by this Legislature or future Legislatures to fund those
61986 operations and maintenance costs.

61987 (3) (a) The amounts funded as listed in Subsection (2) are estimates only and do not
61988 constitute a limitation on the amount that may be expended for any project.

61989 (b) The board may revise these estimates and redistribute the amount estimated for a
61990 project among the projects authorized.

61991 (c) The commission, by resolution and in consultation with the board, may delete one or

62002 (5) (a) For those projects for which only partial funding is provided in Subsection (2), it
62003 is the intent of the Legislature that the balance necessary to complete the projects be addressed
62004 by future Legislatures, either through appropriations or through the issuance or sale of bonds.

62005 (b) For those phased projects, the division may enter into contracts for amounts not to
62006 exceed the anticipated full project funding but may not allow work to be performed on those
62007 contracts in excess of the funding already authorized by the Legislature.

62008 (c) Those contracts shall contain a provision for termination of the contract for the
62009 convenience of the state as required by Section ~~[63-56-601]~~ 63G-6-601.

62010 (d) It is also the intent of the Legislature that this authorization to the division does not
62011 bind future Legislatures to fund projects initiated from this authorization.

66890 (b) The adjudicative body hearing the appeal has the same authority when a fee waiver

66893 Subsection (3)(b) shall be retained by the governmental entity as a dedicated credit.

66913 **circumstances.**

66914 (1) A person making a request for a record shall furnish the governmental entity with a
66915 written request containing:

66916 (a) the person's name, mailing address, and daytime telephone number, if available; and

66918 specificity.

66919 (2) (a) Subject to Subsection (2)(b), a person making a request for a record shall submit
66920 the request to the governmental entity that prepares, owns, or retains the record.

66921 (b) In response to a request for a record, a governmental entity may not provide a

66922 record that it has received under Section [~~63-2-206~~] 63G-2-206 as a shared record if the record
66923 was shared for the purpose of auditing, if the governmental entity is authorized by state statute
66924 to conduct an audit.

66925 (c) If a governmental entity is prohibited from providing a record under Subsection
66926 (2)(b), it shall:

66927 (i) deny the records request; and

66933 (3) (a) As soon as reasonably possible, but no later than ten business days after
66934 receiving a written request, or five business days after receiving a written request if the
66935 requester demonstrates that expedited response to the record request benefits the public rather
66936 than the person, the governmental entity shall respond to the request by:

66937 (i) approving the request and providing the record;

66938 (ii) denying the request;

66939 (iii) notifying the requester that it does not maintain the record and providing, if known,
66940 the name and address of the governmental entity that does maintain the record; or

66942 in Subsection (4), it cannot immediately approve or deny the request.

66943 (b) The notice described in Subsection (3)(a)(iv) shall:

66947 publication or broadcast to the general public is presumed to be acting to benefit the public
66948 rather than a person.

66949 (4) The following circumstances constitute "extraordinary circumstances" that allow a

66950 governmental entity to delay approval or denial by an additional period of time as specified in
66951 Subsection (5) if the governmental entity determines that due to the extraordinary circumstances
66952 it cannot respond within the time limits provided in Subsection (3):

66953 (a) another governmental entity is using the record, in which case the originating
66954 governmental entity shall promptly request that the governmental entity currently in possession
66955 return the record;

66956 (b) another governmental entity is using the record as part of an audit, and returning the
66957 record before the completion of the audit would impair the conduct of the audit;

66958 (c) (i) the request is for a voluminous quantity of records or a record series containing a
66959 substantial number of records;

66960 (ii) the requester seeks a substantial number of records or records series in requests
66961 filed within five working days of each other;

66962 (d) the governmental entity is currently processing a large number of records requests;

66963 (e) the request requires the governmental entity to review a large number of records to
66964 locate the records requested;

66965 (f) the decision to release a record involves legal issues that require the governmental
66966 entity to seek legal counsel for the analysis of statutes, rules, ordinances, regulations, or case
66967 law;

66968 (g) segregating information that the requester is entitled to inspect from information
66969 that the requester is not entitled to inspect requires extensive editing; or

66970 (h) segregating information that the requester is entitled to inspect from information
66971 that the requester is not entitled to inspect requires computer programming.

66972 (5) If one of the extraordinary circumstances listed in Subsection (4) precludes approval
66973 or denial within the time specified in Subsection (3), the following time limits apply to the
66974 extraordinary circumstances:

66975 (a) for claims under Subsection (4)(a), the governmental entity currently in possession
66976 of the record shall return the record to the originating entity within five business days of the
66977 request for the return unless returning the record would impair the holder's work;

66978 (b) for claims under Subsection (4)(b), the originating governmental entity shall notify
66979 the requester when the record is available for inspection and copying;

66980 (c) for claims under Subsections (4)(c), (d), and (e), the governmental entity shall:
66981 (i) disclose the records that it has located which the requester is entitled to inspect;
66982 (ii) provide the requester with an estimate of the amount of time it will take to finish the
66983 work required to respond to the request;

66984 (iii) complete the work and disclose those records that the requester is entitled to
66985 inspect as soon as reasonably possible; and

66986 (iv) for any person that does not establish a right to an expedited response as authorized
66987 by Subsection (3)(a), a governmental entity may choose to:

66988 (A) require the person to provide for copying of the records as provided in Subsection
66989 [~~63-2-201~~] 63G-2-201(9); or

66990 (B) treat a request for multiple records as separate record requests, and respond
66991 sequentially to each request;

66992 (d) for claims under Subsection (4)(f), the governmental entity shall either approve or
66993 deny the request within five business days after the response time specified for the original
66994 request has expired;

66995 (e) for claims under Subsection (4)(g), the governmental entity shall fulfill the request
66996 within 15 business days from the date of the original request; or

66997 (f) for claims under Subsection (4)(h), the governmental entity shall complete its
66998 programming and disclose the requested records as soon as reasonably possible.

66999 (6) (a) If a request for access is submitted to an office of a governmental entity other
67000 than that specified by rule in accordance with Subsection (2), the office shall promptly forward
67001 the request to the appropriate office.

67002 (b) If the request is forwarded promptly, the time limit for response begins when the
67003 record is received by the office specified by rule.

67004 (7) If the governmental entity fails to provide the requested records or issue a denial
67005 within the specified time period, that failure is considered the equivalent of a determination

67006 denying access to the record.

67007 Section 1324. Section **63G-2-205**, which is renumbered from Section 63-2-205 is
67008 renumbered and amended to read:

67012 address.

67013 (2) The notice of denial shall contain the following information:

71344 available or the scope of the project or contract is adjusted to permit the degree of completion
71345 feasible within the total project or contract budget as it existed prior to the change order under

74999 (1) The state planning coordinator shall:

75000 (a) act as the governor's adviser on state, regional, metropolitan, and local
75001 governmental planning matters relating to public improvements and land use;

75002 (b) counsel with the authorized representatives of the Department of Transportation,
75003 the State Building Board, the Department of Health, the Department of Workforce Services, the
75004 Labor Commission, the Department of Natural Resources, the School and Institutional Trust

75006 (c) when designated to do so by the governor, receive funds made available to Utah by
75007 the federal government;

75008 (d) receive and review plans of the various state agencies and political subdivisions
75009 relating to public improvements and programs;

75010 (e) when conflicts occur between the plans and proposals of state agencies, prepare
75011 specific recommendations for the resolution of the conflicts and submit the recommendations to
75012 the governor for a decision resolving the conflict;

75013 (f) when conflicts occur between the plans and proposals of a state agency and a

75014 political subdivision or between two or more political subdivisions, advise these entities of the
75015 conflict and make specific recommendations for the resolution of the conflict;

75016 (g) act as the governor's planning agent in planning public improvements and land use
75017 and, in this capacity, undertake special studies and investigations;

75018 (h) provide information and cooperate with the Legislature or any of its committees in
75019 conducting planning studies;

75020 (i) cooperate and exchange information with federal agencies and local, metropolitan,
75021 or regional agencies as necessary to assist with federal, state, regional, metropolitan, and local
75022 programs; and

75023 (j) make recommendations to the governor that the planning coordinator considers
75024 advisable for the proper development and coordination of plans for state government and
75025 political subdivisions.

75026 (2) The state planning coordinator may:

75027 (a) perform regional and state planning and assist state government planning agencies in
75028 performing state planning;

75029 (b) provide planning assistance to Indian tribes regarding planning for Indian
75030 reservations; and

75031 (c) assist city, county, metropolitan, and regional planning agencies in performing local,
75032 metropolitan, and regional planning, provided that the state planning coordinator and ~~his~~ the
75033 state planning coordinator's agents and designees recognize and promote the plans, policies,
75034 programs, processes, and desired outcomes of each planning agency whenever possible.

75035 (3) When preparing or assisting in the preparation of plans, policies, programs, or
75036 processes related to the management or use of federal lands or natural resources on federal
75037 lands in Utah, the state planning coordinator shall:

75038 (a) incorporate the plans, policies, programs, processes, and desired outcomes of the
75039 counties where the federal lands or natural resources are located, to the maximum extent
75040 consistent with state and federal law, provided that this requirement shall not be interpreted to
75041 infringe upon the authority of the governor;

75042 (b) identify inconsistencies or conflicts between the plans, policies, programs,
75043 processes, and desired outcomes prepared under Subsection (3)(a) and the plans, programs,
75044 processes, and desired outcomes of local government as early in the preparation process as
75045 possible, and seek resolution of the inconsistencies through meetings or other conflict resolution
75046 mechanisms involving the necessary and immediate parties to the inconsistency or conflict;

75047 (c) present to the governor the nature and scope of any inconsistency or other conflict
75048 that is not resolved under the procedures in Subsection (3)(b) for the governor's decision about
75049 the position of the state concerning the inconsistency or conflict;

75050 (d) develop, research, and use factual information, legal analysis, and statements of
75051 desired future condition for the state, or subregion of the state, as necessary to support the
75052 plans, policies, programs, processes, and desired outcomes of the state and the counties where
75053 the federal lands or natural resources are located;

75054 (e) establish and coordinate agreements between the state and federal land management
75055 agencies, federal natural resource management agencies, and federal natural resource regulatory
75056 agencies to facilitate state and local participation in the development, revision, and
75057 implementation of land use plans, guidelines, regulations, other instructional memoranda, or
75058 similar documents proposed or promulgated for lands and natural resources administered by
75059 federal agencies; and

75060 (f) work in conjunction with political subdivisions to establish agreements with federal
75061 land management agencies, federal natural resource management agencies, and federal natural
75062 resource regulatory agencies to provide a process for state and local participation in the
75063 preparation of, or coordinated state and local response to, environmental impact analysis
75064 documents and similar documents prepared pursuant to law by state or federal agencies.

75065 (4) The state planning coordinator shall comply with the requirements of Subsection
75066 63C-4-102(7) before submitting any comments on a draft environmental impact statement or on
75067 an environmental assessment for a proposed land management plan.

75068 (5) The state planning coordinator shall cooperate with and work in conjunction with
75069 appropriate state agencies and political subdivisions to develop policies, plans, programs,

75070 processes, and desired outcomes authorized by this section by coordinating the development of
75071 positions:

75072 (a) through the Resource Development Coordinating Committee;

75073 (b) in conjunction with local government officials concerning general local government
75074 plans;

75075 (c) by soliciting public comment through the Resource Development Coordinating
75076 Committee; and

75077 (d) by working with the Public Lands Policy Coordinating Office.

75078 (6) The state planning coordinator shall recognize and promote the following principles
75079 when preparing any policies, plans, programs, processes, or desired outcomes relating to federal
75080 lands and natural resources on federal lands pursuant to this section:

75081 (a) (i) the citizens of the state are best served by applying multiple-use and
75082 sustained-yield principles in public land use planning and management; and

75083 (ii) multiple-use and sustained-yield management means that federal agencies should
75084 develop and implement management plans and make other resource-use decisions that:

75085 (A) achieve and maintain in perpetuity a high-level annual or regular periodic output of
75086 mineral and various renewable resources from public lands;

75087 (B) support valid existing transportation, mineral, and grazing privileges at the highest
75088 reasonably sustainable levels;

75089 (C) support the specific plans, programs, processes, and policies of state agencies and
75090 local governments;

75091 (D) are designed to produce and provide the desired vegetation for the watersheds,
75092 timber, food, fiber, livestock forage, and wildlife forage, and minerals that are necessary to meet
75093 present needs and future economic growth and community expansion without permanent
75094 impairment of the productivity of the land;

75095 (E) meet the recreational needs and the personal and business-related transportation
75096 needs of the citizens of the state by providing access throughout the state;

75097 (F) meet the recreational needs of the citizens of the state;

- 75098 (G) meet the needs of wildlife;
- 75099 (H) provide for the preservation of cultural resources, both historical and
- 75100 archaeological;
- 75101 (I) meet the needs of economic development;
- 75102 (J) meet the needs of community development; and
- 75103 (K) provide for the protection of water rights;
- 75104 (b) managing public lands for "wilderness characteristics" circumvents the statutory
- 75105 wilderness process and is inconsistent with the multiple-use and sustained-yield management
- 75106 standard that applies to all Bureau of Land Management and U.S. Forest Service lands that are
- 75107 not wilderness areas or wilderness study areas;
- 75108 (c) all waters of the state are:
- 75109 (i) owned exclusively by the state in trust for its citizens;
- 75110 (ii) are subject to appropriation for beneficial use; and
- 75111 (iii) are essential to the future prosperity of the state and the quality of life within the
- 75112 state;
- 75113 (d) the state has the right to develop and use its entitlement to interstate rivers;
- 75114 (e) all water rights desired by the federal government must be obtained through the
- 75115 state water appropriation system;
- 75116 (f) land management and resource-use decisions which affect federal lands should give
- 75117 priority to and support the purposes of the compact between the state and the United States
- 75118 related to school and institutional trust lands;
- 75119 (g) development of the solid, fluid, and gaseous mineral resources of the state is an
- 75120 important part of the economy of the state, and of local regions within the state;
- 75121 (h) the state should foster and support industries that take advantage of the state's
- 75122 outstanding opportunities for outdoor recreation;
- 75123 (i) wildlife constitutes an important resource and provides recreational and economic
- 75124 opportunities for the state's citizens;
- 75125 (j) proper stewardship of the land and natural resources is necessary to ensure the

75126 health of the watersheds, timber, forage, and wildlife resources to provide for a continuous
75127 supply of resources for the people of the state and the people of the local communities who
75128 depend on these resources for a sustainable economy;

75129 (k) forests, rangelands, timber, and other vegetative resources:

75130 (i) provide forage for livestock;

75131 (ii) provide forage and habitat for wildlife;

75132 (iii) provide resources for the state's timber and logging industries;

75133 (iv) contribute to the state's economic stability and growth; and

75134 (v) are important for a wide variety of recreational pursuits;

75135 (l) management programs and initiatives that improve watersheds, forests, and increase
75136 forage for the mutual benefit of wildlife species and livestock, logging, and other agricultural
75137 industries by utilizing proven techniques and tools are vital to the state's economy and the
75138 quality of life in Utah; and

75139 (m) (i) land management plans, programs, and initiatives should provide that the
75140 amount of domestic livestock forage, expressed in animal unit months, for permitted, active use
75141 as well as the wildlife forage included in that amount, be no less than the maximum number of
75142 animal unit months sustainable by range conditions in grazing allotments and districts, based on
75143 an on-the-ground and scientific analysis;

75144 (ii) the state opposes the relinquishment or retirement of grazing animal unit months in
75145 favor of conservation, wildlife, and other uses;

75146 (iii) (A) the state favors the best management practices that are jointly sponsored by
75147 cattlemen's, sportsmen's, and wildlife management groups such as chaining, logging, seeding,
75148 burning, and other direct soil and vegetation prescriptions that are demonstrated to restore
75149 forest and rangeland health, increase forage, and improve watersheds in grazing districts and
75150 allotments for the mutual benefit of domestic livestock and wildlife;

75151 (B) when practices described in Subsection (6)(m)(iii)(A) increase a grazing allotment's
75152 forage beyond the total permitted forage use that was allocated to that allotment in the last
75153 federal land use plan or allotment management plan still in existence as of January 1, 2005, a

75154 reasonable and fair portion of the increase in forage beyond the previously allocated total
75155 permitted use should be allocated to wildlife as recommended by a joint, evenly balanced
75156 committee of livestock and wildlife representatives that is appointed and constituted by the
75157 governor for that purpose;

75158 (C) the state favors quickly and effectively adjusting wildlife population goals and
75159 population census numbers in response to variations in the amount of available forage caused by
75160 drought or other climatic adjustments, and state agencies responsible for managing wildlife
75161 population goals and population census numbers will give due regard to both the needs of the
75162 livestock industry and the need to prevent the decline of species to a point where listing under
75163 the terms of the Endangered Species Act when making such adjustments;

75164 (iv) the state opposes the transfer of grazing animal unit months to wildlife for
75165 supposed reasons of rangeland health;

75166 (v) reductions in domestic livestock animal unit months must be temporary and
75167 scientifically based upon rangeland conditions;

75168 (vi) policies, plans, programs, initiatives, resource management plans, and forest plans
75169 may not allow the placement of grazing animal unit months in a suspended use category unless
75170 there is a rational and scientific determination that the condition of the rangeland allotment or
75171 district in question will not sustain the animal unit months sought to be placed in suspended use;

75172 (vii) any grazing animal unit months that are placed in a suspended use category should
75173 be returned to active use when range conditions improve;

75174 (viii) policies, plans, programs, and initiatives related to vegetation management should
75175 recognize and uphold the preference for domestic grazing over alternate forage uses in
75176 established grazing districts while upholding management practices that optimize and expand
75177 forage for grazing and wildlife in conjunction with state wildlife management plans and
75178 programs in order to provide maximum available forage for all uses; and

75179 (ix) in established grazing districts, animal unit months that have been reduced due to
75180 rangeland health concerns should be restored to livestock when rangeland conditions improve,
75181 and should not be converted to wildlife use.

75182 (7) The state planning coordinator shall recognize and promote the following findings in
75183 the preparation of any policies, plans, programs, processes, or desired outcomes relating to
75184 federal lands and natural resources on federal lands under this section:

75185 (a) as a coholder of R.S. 2477 rights-of-way with the counties, the state supports its
75186 recognition by the federal government and the public use of R.S. 2477 rights-of-way and urges
75187 the federal government to fully recognize the rights-of-way and their use by the public as
75188 expeditiously as possible;

75189 (b) it is the policy of the state to use reasonable administrative and legal measures to
75190 protect and preserve valid existing rights-of-way granted by Congress under R.S. 2477, and to
75191 support and work in conjunction with counties to redress cases where R.S. 2477 rights-of-way
75192 are not recognized or are impaired; and

75193 (c) transportation and access routes to and across federal lands, including all
75194 rights-of-way vested under R.S. 2477, are vital to the state's economy and to the quality of life
75195 in the state, and must provide, at a minimum, a network of roads throughout the resource
75196 planning area that provides for:

75197 (i) movement of people, goods, and services across public lands;

75198 (ii) reasonable access to a broad range of resources and opportunities throughout the
75199 resource planning area, including:

75200 (A) livestock operations and improvements;

75201 (B) solid, fluid, and gaseous mineral operations;

75202 (C) recreational opportunities and operations, including motorized and nonmotorized
75203 recreation;

75204 (D) search and rescue needs;

75205 (E) public safety needs; and

75206 (F) access for transportation of wood products to market;

75207 (iii) access to federal lands for people with disabilities and the elderly; and

75208 (iv) access to state lands and school and institutional trust lands to accomplish the
75209 purposes of those lands.

75210 (8) The state planning coordinator shall recognize and promote the following findings in
75211 the preparation of any plans, policies, programs, processes, or desired outcomes relating to
75212 federal lands and natural resources on federal lands pursuant to this section:

75213 (a) the state's support for the addition of a river segment to the National Wild and
75214 Scenic Rivers System, 16 U.S.C. Sec. 1271 et seq., will be withheld until:

75215 (i) it is clearly demonstrated that water is present and flowing at all times;

75216 (ii) it is clearly demonstrated that the required water-related value is considered
75217 outstandingly remarkable within a region of comparison consisting of one of the three
75218 physiographic provinces in the state, and that the rationale and justification for the conclusions
75219 are disclosed;

75220 (iii) it is clearly demonstrated that the inclusion of each river segment is consistent with
75221 the plans and policies of the state and the county or counties where the river segment is located
75222 as those plans and policies are developed according to Subsection (3);

75223 (iv) the effects of the addition upon the local and state economies, agricultural and
75224 industrial operations and interests, outdoor recreation, water rights, water quality, water
75225 resource planning, and access to and across river corridors in both upstream and downstream
75226 directions from the proposed river segment have been evaluated in detail by the relevant federal
75227 agency;

75228 (v) it is clearly demonstrated that the provisions and terms of the process for review of
75229 potential additions have been applied in a consistent manner by all federal agencies;

75230 (vi) the rationale and justification for the proposed addition, including a comparison
75231 with protections offered by other management tools, is clearly analyzed within the multiple-use
75232 mandate, and the results disclosed;

75233 (vii) it is clearly demonstrated that the federal agency with management authority over
75234 the river segment, and which is proposing the segment for inclusion in the National Wild and
75235 Scenic River System will not use the actual or proposed designation as a basis to impose
75236 management standards outside of the federal land management plan;

75237 (viii) it is clearly demonstrated that the terms and conditions of the federal land and

75238 resource management plan containing a recommendation for inclusion in the National Wild and
75239 Scenic River System:

75240 (A) evaluates all eligible river segments in the resource planning area completely and
75241 fully for suitability for inclusion in the National Wild and Scenic River System;

75242 (B) does not suspend or terminate any studies for inclusion in the National Wild and
75243 Scenic River System at the eligibility phase;

75244 (C) fully disclaims any interest in water rights for the recommended segment as a result
75245 of the adoption of the plan; and

75246 (D) fully disclaims the use of the recommendation for inclusion in the National Wild and
75247 Scenic River System as a reason or rationale for an evaluation of impacts by proposals for
75248 projects upstream, downstream, or within the recommended segment;

75249 (ix) it is clearly demonstrated that the agency with management authority over the river
75250 segment commits not to use an actual or proposed designation as a basis to impose Visual
75251 Resource Management Class I or II management prescriptions that do not comply with the
75252 provisions of Subsection (8)(t); and

75253 (x) it is clearly demonstrated that including the river segment and the terms and
75254 conditions for managing the river segment as part of the National Wild and Scenic River System
75255 will not prevent, reduce, impair, or otherwise interfere with:

75256 (A) the state and its citizens' enjoyment of complete and exclusive water rights in and to
75257 the rivers of the state as determined by the laws of the state; or

75258 (B) local, state, regional, or interstate water compacts to which the state or any county
75259 is a party;

75260 (b) the conclusions of all studies related to potential additions to the National Wild and
75261 Scenic River System, 16 U.S.C. Sec. 1271 et seq., are submitted to the state for review and
75262 action by the Legislature and governor, and the results, in support of or in opposition to, are
75263 included in any planning documents or other proposals for addition and are forwarded to the
75264 United States Congress;

75265 (c) the state's support for designation of an Area of Critical Environmental Concern

75266 (ACEC), as defined in 43 U.S.C. Sec. 1702, within federal land management plans will be
75267 withheld until:

75268 (i) it is clearly demonstrated that the proposed area satisfies all the definitional
75269 requirements of the Federal Land Policy and Management Act of 1976, 43 U.S.C. Sec. 1702(a);

75270 (ii) it is clearly demonstrated that the area proposed for designation as an ACEC is
75271 limited in geographic size and that the proposed management prescriptions are limited in scope
75272 to the minimum necessary to specifically protect and prevent irreparable damage to the relevant
75273 and important values identified, or limited in geographic size and management prescriptions to
75274 the minimum required to specifically protect human life or safety from natural hazards;

75275 (iii) it is clearly demonstrated that the proposed area is limited only to areas that are
75276 already developed or used or to areas where no development is required;

75277 (iv) it is clearly demonstrated that the proposed area contains relevant and important
75278 historic, cultural or scenic values, fish or wildlife resources, or natural processes which are
75279 unique or substantially significant on a regional basis, or contain natural hazards which
75280 significantly threaten human life or safety;

75281 (v) the federal agency has analyzed regional values, resources, processes, or hazards for
75282 irreparable damage and its potential causes resulting from potential actions which are consistent
75283 with the multiple-use, sustained-yield principles, and the analysis describes the rationale for any
75284 special management attention required to protect, or prevent irreparable damage to the values,
75285 resources, processes, or hazards;

75286 (vi) it is clearly demonstrated that the proposed designation is consistent with the plans
75287 and policies of the state and of the county where the proposed designation is located as those
75288 plans and policies are developed according to Subsection (3);

75289 (vii) it is clearly demonstrated that the proposed ACEC designation will not be applied
75290 redundantly over existing protections provided by other state and federal laws for federal lands
75291 or resources on federal lands, and that the federal statutory requirement for special management
75292 attention for a proposed ACEC will discuss and justify any management requirements needed in
75293 addition to those specified by the other state and federal laws;

75294 (viii) the difference between special management attention required for an ACEC and
75295 normal multiple-use management has been identified and justified, and that any determination of
75296 irreparable damage has been analyzed and justified for short and long-term horizons;

75297 (ix) it is clearly demonstrated that the proposed designation:

75298 (A) is not a substitute for a wilderness suitability recommendation;

75299 (B) is not a substitute for managing areas inventoried for wilderness characteristics after
75300 1993 under the BLM interim management plan for valid wilderness study areas; and

75301 (C) it is not an excuse or justification to apply de facto wilderness management
75302 standards; and

75303 (x) the conclusions of all studies are submitted to the state, as a cooperating agency, for
75304 review, and the results, in support of or in opposition to, are included in all planning documents;

75305 (d) sufficient federal lands are made available for government-to-government exchanges
75306 of school and institutional trust lands and federal lands without regard for a
75307 resource-to-resource correspondence between the surface or mineral characteristics of the
75308 offered trust lands and the offered federal lands;

75309 (e) federal agencies should support government-to-government exchanges of land with
75310 the state based on a fair process of valuation which meets the fiduciary obligations of both the
75311 state and federal governments toward trust lands management, and which assures that revenue
75312 authorized by federal statute to the state from mineral or timber production, present or future, is
75313 not diminished in any manner during valuation, negotiation, or implementation processes;

75314 (f) agricultural and grazing lands should continue to produce the food and fiber needed
75315 by the citizens of the state and the nation, and the rural character and open landscape of rural
75316 Utah should be preserved through a healthy and active agricultural and grazing industry,
75317 consistent with private property rights and state fiduciary duties;

75318 (g) the resources of the forests and rangelands of the state should be integrated as part
75319 of viable, robust, and sustainable state and local economies, and available forage should be

75340 (ii) lands in the vicinity of established roads are managed under the multiple-use,
75341 sustained-yield management standard; and

75343 those that were recognized or upheld in the forest service's second roadless area review
75344 evaluation;
75345 (j) the state's support for any recommendations made under the statutory requirement to
75346 examine the wilderness option during the revision of land and resource management plans by

75388 (I) considered and evaluated the mineral and energy potential in all areas of the planning
75389 area as if the areas were open to mineral development under standard lease agreements; and

75390 (II) evaluated any management plan prescription for its impact on the area's baseline
75391 mineral and energy potential;

75393 energy exploration and development;

75394 (C) that the authorized planning agency has supported any closure of additional areas to
75395 mineral leasing and development or any increase of acres subject to no surface occupancy

75411 occupancy restrictions, and that the analysis evaluated:

75412 (I) whether directional drilling is economically feasible and ecologically necessary for
75413 each proposed no surface occupancy area;

75414 (II) whether the directional drilling feasibility analysis, or analysis of other management
75415 prescriptions, demonstrates that the proposed no surface occupancy prescription, in effect,
75416 sterilizes the mineral and energy resources beneath the area; and

75417 (III) whether, if the minerals are effectively sterilized, the area must be reported as
75418 withdrawn under the provisions of the Federal Land Policy and Management Act; and

81051 Section 1918. Section **63M-3-101** is enacted to read:

81052 **CHAPTER 3. TAR SANDS PILOT PLANT ACT**

81053 **Part 1. General Provisions**

81054 **63M-3-101. Title.**

81055 This chapter is known as the "Tar Sands Pilot Plant Act."

81056 Section 1919. Section **63M-3-102**, which is renumbered from Section 63-45a-1 is

81057 renumbered and amended to read:

81058 **~~63-45a-1~~. 63M-3-102. Legislative findings -- Purpose of act.**

- 81059 (1) The Legislature finds that:
- 81060 (a) Substantial deposits of tar sands exist within lands located in various places within
- 81061 the state of Utah, but this is primarily a Utah phenomenon, there being no similar significant

81062 deposits within lands located elsewhere in the United States.

81063 (b) While large known deposits of tar sands exist outside the United States, primarily in
81064 South America and Canada, only those in Canada produce commercial quantities of
81065 hydrocarbons, this having come about only after years of research and experimentation and
81066 substantial private and public investment.

81067 (c) Significant laboratory research has been conducted, including research by the
81068 University of Utah, which demonstrates a potential for commercial production of the tar sands
81069 deposits located in the state of Utah, which potential remains to be established by the scale-up
81070 of laboratory research to a pilot plant development stage.

81071 (d) Successful demonstration of a hydrocarbon recovery process from Utah tar sands as
81072 commercially viable at the pilot plant level of production could form the basis for the
81073 development by private industry of commercial production of a substantial volume of
81074 hydrocarbon energy fuel, thereby commensurately reducing the amount of petroleum products
81075 which are required to be imported at exorbitant cost from foreign sources to meet the needs of
81076 the citizens of this state and the United States.

81077 (2) The purpose of this act is to stimulate and encourage the development and
81078 commercial production by private industry of hydrocarbons from the tar sands deposits lying
81079 within the state of Utah for the public good and economic well-being of the citizens of this state
81080 and the United States, and to so do by providing for the design, construction, and operation of a
81081 pilot plant to be employed for the purpose of demonstrating the commercial viability of
81082 processes for the recovery of hydrocarbons from the tar sands deposits of the state through
81083 certain funding by the state in conjunction with funding furnished from other sources, both
81084 public and private.

81085 Section 1920. Section **63M-3-103**, which is renumbered from Section 63-45a-2 is
81086 renumbered and amended to read:

81087 ~~[63-45a-2]~~. **63M-3-103. Definitions.**

81088 As used in this act:

81089 (1) "Contractor" means the parties from private industry who design, construct, or

81090 operate the pilot plant.

81091 (2) "Council" means the state advisory council on science and technology.

81092 (3) "Intellectual property" means the sum of knowledge contained in patents,
81093 know-how, copyrights, trade secrets, and technical information relating to the pilot plant and
81094 the research which has preceded it.

81095 (4) "Objective period" means that period of time required for the pilot plant to achieve
81096 its design objectives.

81097 (5) "Pilot plant" means the tar sands pilot plant which is the subject of this act.

81098 (6) "Station" means the Utah engineering experiment station, University of Utah.

81099 Section 1921. Section **63M-3-201**, which is renumbered from Section 63-45a-3 is
81100 renumbered and amended to read:

81101 **Part 2. Contracts and Intellectual Property**

81102 **~~[63-45a-3]~~. 63M-3-201. Contract for pilot plant -- Contents -- Financing --**

81103 **Termination of contract.**

81104 (1) The council is authorized to enter into contracts with contractors to provide for the
81105 design, construction, and operation of a pilot plant to fulfill the purposes of this act.

81106 (2) The contracts provided for in Subsection (1) shall provide, among other things, for
81107 the following:

81108 (a) The plans and specifications for and the processes to be used in the pilot plant must
81109 be approved by the council.

81110 (b) The station is to be the project engineer in respect to the pilot plant and is to
81111 represent the council in respect to it. As the project engineer the station has the responsibility of
81112 monitoring performance by the contractors, gathering data pertinent to the purpose for which
81113 the pilot plant is to be constructed and operated, and performing such administrative,
81114 accounting, and other duties assigned to it in respect to the pilot plant by the council. As
81115 compensation for its services the station is to receive its costs, direct and indirect, calculated in
81116 accordance with standard accounting procedures followed by the University of Utah in
81117 contracts with the United States government and its agencies; and the amount to be so paid to

81118 the station is to be considered part of the costs of design, construction, and operation of the
81119 pilot plant.

81120 (c) The contractor shall provide all funds necessary to the design, construction, and
81121 operation of the pilot plant for the objective period which are not provided by the appropriation
81122 made to the council for purposes of this act under Section 5. To provide its portion of these
81123 funds the contractor may use both private and public sources, but that from public sources can
81124 only be used with prior approval by the council.

81125 (d) The site for the pilot plant is subject to prior approval by the council.

81126 (e) The pilot plant and any production from it shall be owned by the state of Utah in the
81127 proportion that its appropriation for purposes of this act under Section 5 bears to the total cost
81128 of designing, constructing, and operating the pilot plant for the objective period. This total cost

86400 compensation for any longitudinal access granted under this section.

86401 (4) The department may not grant any longitudinal access under this section that results
86402 in a significant compromise of the safe, efficient, and convenient use of the interstate system for
86403 the traveling public.

86404 (5) The department may not pay any cost of relocation of a telecommunication facility
86405 granted longitudinal access to the right-of-way of a highway on the interstate system under this

86425 right-of-way segments.

86426 (8) (a) Except for a right-of-way of a highway on the interstate system, nothing in this

86429 under the highway authority's jurisdiction.

86430 (b) Nothing in this section shall affect the authority of a municipality under:

87090 **five years -- Extension of time.**

87091 (1) (a) In order to further the state policy of securing the maximum use and benefit of
87092 its scarce water resources, a person entitled to the use of water has a continuing obligation to
87093 place all of a water right to beneficial use.

87094 (b) The forfeiture of all or part of any right to use water for failure to place all or part of
87095 the water to beneficial use makes possible the allocation and use of water consistent with long
87096 established beneficial use concepts.

87097 (c) The provisions of Subsections (2) through (6) shall be construed to carry out the
87098 purposes and policies set forth in this Subsection (1).

87099 (2) As used in this section, "public water supply entity" means an entity that supplies
87100 water as a utility service or for irrigation purposes and is also:

87101 (a) a municipality, water conservancy district, metropolitan water district, irrigation
87102 district, or other public agency;

87103 (b) a water company regulated by the Public Service Commission; or

87104 (c) any other owner of a community water system.

87105 (3) (a) When an appropriator or the appropriator's successor in interest abandons or
87106 ceases to use all or a portion of a water right for a period of five years, the water right or the
87107 unused portion of that water right ceases and the water reverts to the public, unless, before the
87108 expiration of the five-year period, the appropriator or the appropriator's successor in interest
87109 files a verified nonuse application with the state engineer.

87110 (b) (i) A nonuse application may be filed on all or a portion of the water right, including
87111 water rights held by mutual irrigation companies.

87112 (ii) Public water supply entities that own stock in a mutual water company, after giving
87113 written notice to the water company, may file nonuse applications with the state engineer on the
87114 water represented by the stock.

87115 (c) (i) A water right or a portion of the water right may not be forfeited unless a judicial
87116 action to declare the right forfeited is commenced within 15 years from the end of the latest
87117 period of nonuse of at least five years.

87118 (ii) If forfeiture is asserted in an action for general determination of rights in
87119 conformance with the provisions of Chapter 4, Determination of Water Rights, the 15-year
87120 limitation period shall commence to run back in time from the date the state engineer's
87121 proposed determination of rights is served upon each claimant.

87122 (iii) A decree entered in an action for general determination of rights under Chapter 4,
87123 Determination of Water Rights, shall bar any claim of forfeiture for prior nonuse against any
87124 right determined to be valid in the decree, but shall not bar a claim for periods of nonuse that
87125 occur after the entry of the decree.

87126 (iv) A proposed determination by the state engineer in an action for general
87127 determination of rights under Chapter 4, Determination of Water Rights, shall bar any claim of
87128 forfeiture for prior nonuse against any right proposed to be valid, unless a timely objection has
87129 been filed within the time allowed in Chapter 4, Determination of Water Rights.

87130 (d) The extension of time to resume the use of that water may not exceed five years
87131 unless the time is further extended by the state engineer.

87132 (e) The provisions of this section are applicable whether the unused or abandoned water
87133 or a portion of the water is permitted to run to waste or is used by others without right with the
87134 knowledge of the water right holder, provided that the use of water pursuant to a lease or other
87135 agreement with the appropriator or the appropriator's successor shall be considered to
87136 constitute beneficial use.

87137 (f) The provisions of this section shall not apply:

87138 (i) to those periods of time when a surface water source fails to yield sufficient water to
87139 satisfy the water right, or when groundwater is not available because of a sustained drought;

87140 (ii) to water stored in reservoirs pursuant to an existing water right, where the stored
87141 water is being held in storage for present or future use; or

87142 (iii) when a water user has beneficially used substantially all of a water right within a
87143 five-year period, provided that this exemption shall not apply to the adjudication of a water right
87144 in a general determination of water rights under Chapter 4, Determination of Water Rights.

87145 (g) Groundwater rights used to supplement the quantity or quality of other water
87146 supplies may not be subject to loss or reduction under this section if not used during periods
87147 when the other water source delivers sufficient water so as to not require use of the
87148 supplemental groundwater.

87149 (4) (a) The state engineer shall furnish an application requiring the following
87150 information:

87151 (i) the name and address of the applicant;

87153 diversion, place of use, and priority;

87154 (iii) the date the water was last diverted and placed to beneficial use;

87155 (iv) the quantity of water;

87156 (v) the period of use;

87157 (vi) the extension of time applied for;

87158 (vii) a statement of the reason for the nonuse of the water; and

87159 (viii) any other information that the state engineer requires.

87160 (b) Filing the application extends the time during which nonuse may continue until the
87161 state engineer issues [~~his~~] the state engineer's order on the nonuse application.

87162 (c) (i) Upon receipt of the application, the state engineer shall publish a notice of the
87163 application once a week for two successive weeks in a newspaper of general circulation in the
87164 county in which the source of the water supply is located and where the water is to be used.

87165 (ii) The notice shall:

- 87166 (A) state that an application has been made; and
- 87167 (B) specify where the interested party may obtain additional information relating to the
87168 application.
- 87169 (d) Any interested person may file a written protest with the state engineer against the
87170 granting of the application:
- 87171 (i) within 20 days after the notice is published, if the adjudicative proceeding is
87172 informal; and
- 87173 (ii) within 30 days after the notice is published, if the adjudicative proceeding is formal.
- 87174 (e) In any proceedings to determine whether the application for extension should be
87175 approved or rejected, the state engineer shall follow the procedures and requirements of [~~Title~~
87176 ~~63, Chapter 46b~~] Title 63G, Chapter 4, Administrative Procedures Act.
- 87177 (f) After further investigation, the state engineer may approve or reject the application.
- 87178 (5) (a) Nonuse applications on all or a portion of a water right shall be granted by the
87179 state engineer for periods not exceeding five years each, upon a showing of reasonable cause for
87180 nonuse.
- 87181 (b) Reasonable causes for nonuse include:
- 87182 (i) demonstrable financial hardship or economic depression;
- 87183 (ii) the initiation of recognized water conservation or efficiency practices, or the
87184 operation of a groundwater recharge recovery program approved by the state engineer;
- 87185 (iii) operation of legal proceedings;
- 87186 (iv) the holding of a water right or stock in a mutual water company without use by any
87187 public water supply entity to meet the reasonable future requirements of the public;
- 87188 (v) situations where, in the opinion of the state engineer, the nonuse would assist in
87189 implementing an existing, approved water management plan;
- 87190 (vi) situations where all or part of the land on which water is used is contracted under
87191 an approved state agreement or federal conservation following program;
- 87192 (vii) the loss of capacity caused by deterioration of the water supply or delivery
87193 equipment if the applicant submits, with the application, a specific plan to resume full use of the

87194 water right by replacing, restoring, or improving the equipment; or

87195 (viii) any other reasonable cause.

87196 (6) (a) Sixty days before the expiration of any extension of time, the state engineer shall
87197 notify the applicant by mail or by any form of electronic communication through which receipt
87198 is verifiable, of the date when the extension period will expire.

87199 (b) Before the date of expiration, the applicant shall either:

87201 the water was resumed, and whatever additional information is required by the state engineer; or

87202 (ii) apply for a further extension of time in which to resume use of the water according
87203 to the procedures and requirements of this section.

87204 (c) Upon receipt of the applicant's properly completed, verified statement, the state
87205 engineer shall conduct investigations necessary to verify that beneficial use has resumed and, if
87206 so, shall issue a certificate of resumption of use of the water as evidenced by the resumed
87207 beneficial use.

87208 (7) The appropriator's water right or a portion of the water right ceases and the water

87210 (a) appropriator or the appropriator's successor in interest fails to apply for an
87211 extension of time;

87383 well construction according to the procedures and requirements of [~~Title 63, Chapter 46a~~] Title
87384 63G, Chapter 3, Utah Administrative Rulemaking Act.

87385 (2) (a) (i) A person who constructs a well in this state must first obtain a license as
87386 provided in this section.

87388 bond with the state engineer.

87389 (iii) The bond shall be made payable to the Office of the State Engineer.

87390 (iv) In accordance with [~~Title 63, Chapter 46a~~] Title 63G, Chapter 3, Utah

87393 provisions of this section and the rules enacted under the authority of this section are required
87394 to obtain or renew a license.

87395 (b) (i) Well drillers shall comply with the rules enacted by the state engineer under this
87396 chapter.

87397 (ii) If the state engineer determines, following an investigation, that the licensee has
87398 failed to comply with these rules, the state engineer may revoke or suspend the license, and
87399 exact the bond and deposit the money as a nonlapsing dedicated credit.

87400 (iii) The state engineer may expend the funds to investigate or correct any deficiencies
87401 which could adversely affect the public interest resulting from noncompliance with the rules
87402 promulgated under this chapter by any well driller.

87403 (iv) The state engineer may refuse to issue a license to a well driller if it appears that
87404 there has been a violation of the rules or a failure to comply with Section 73-3-22.

87405 Section 2145. Section **73-3-29** is amended to read:

87406 **73-3-29. Relocation of natural streams -- Written permit required -- Emergency**

87414 (b) If an emergency situation arises which involves immediate or actual flooding and
87415 threatens injury or damage to persons or property, steps reasonably necessary to alleviate or
87416 mitigate the threat may be taken before a written permit is issued subject to the requirements of
87417 this section.

87418 (c) (i) If the threat occurs during normal working hours, the state engineer or ~~his~~ the
87419 state engineer's representative must be notified immediately of the threat. After receiving

87445 be reasonably necessary to determine whether the proposed relocation or alteration will:

87446 (i) impair vested water rights;
87447 (ii) unreasonably or unnecessarily affect any recreational use or the natural stream
87448 environment;
87449 (iii) unreasonably or unnecessarily endanger aquatic wildlife; or
87450 (iv) unreasonably or unnecessarily diminish the natural channel's ability to conduct high
87451 flows.

87458 flows.

87459 (c) The state engineer may approve the application, in whole or in part, with any
87460 reasonable terms to protect vested water rights, any public recreational use, the natural stream
87461 environment, or aquatic wildlife.

87462 (5) No cost incurred by the applicant, including any cost incurred to comply with the
87463 terms imposed by the state engineer, is reimbursable by the Division of Water Rights.

87464 (6) Except as provided in Subsection (2), a person who knowingly or intentionally
87465 relocates any natural stream channel, or alters the bed or bank of any natural stream channel

87592 (d) Section 73-3-14.

87593 (5) In determining whether a proposed water reuse is consistent with the underlying
 87594 water right, the state engineer shall conclude that a proposed water reuse is consistent with the

87610 Section 2155. Section **73-5-15** is amended to read:

87611 **73-5-15. Groundwater management plan.**

87612 (1) As used in this section:

87613 (a) "Critical management area" means a groundwater basin in which the groundwater

87614 withdrawals consistently exceed the safe yield.

87615 (b) "Safe yield" means the amount of groundwater that can be withdrawn from a
87616 groundwater basin over a period of time without exceeding the long-term recharge of the basin
87617 or unreasonably affecting the basin's physical and chemical integrity.

87618 (2) (a) The state engineer may regulate groundwater withdrawals within a specific
87619 groundwater basin by adopting a groundwater management plan in accordance with this section
87620 for any groundwater basin or aquifer or combination of hydrologically connected groundwater
87621 basins or aquifers.

87622 (b) The objectives of a groundwater management plan are to:

- 87623 (i) limit groundwater withdrawals to safe yield;
87624 (ii) protect the physical integrity of the aquifer; and
87625 (iii) protect water quality.

87626 (c) The state engineer shall adopt a groundwater management plan for a groundwater
87627 basin if more than 1/3 of the water right owners in the groundwater basin request that the state
87628 engineer adopt a groundwater management plan.

87629 (3) (a) In developing a groundwater management plan, the state engineer may consider:

- 87630 (i) the hydrology of the groundwater basin;
87631 (ii) the physical characteristics of the groundwater basin;
87632 (iii) the relationship between surface water and groundwater, including whether the
87633 groundwater should be managed in conjunction with hydrologically connected surface waters;
87634 (iv) the geographic spacing and location of groundwater withdrawals;
87635 (v) water quality;
87636 (vi) local well interference; and
87637 (vii) other relevant factors.

87638 (b) The state engineer shall base the provisions of a groundwater management plan on
87639 the principles of prior appropriation.

87640 (c) (i) The state engineer shall use the best available scientific method to determine safe
87641 yield.

87642 (ii) As hydrologic conditions change or additional information becomes available, safe
87643 yield determinations made by the state engineer may be revised by following the procedures
87644 listed in Subsection (5).

87645 (4) (a) (i) Except as provided in Subsection (4)(b), the withdrawal of water from a
87646 groundwater basin shall be limited to the basin's safe yield.

87647 (ii) Before limiting withdrawals in a groundwater basin to safe yield, the state engineer
87648 shall:

87649 (A) determine the groundwater basin's safe yield; and

87650 (B) adopt a groundwater management plan for the groundwater basin.

87651 (iii) If the state engineer determines that groundwater withdrawals in a groundwater
87652 basin exceed the safe yield, the state engineer shall regulate groundwater rights in that
87653 groundwater basin based on the priority date of the water rights under the groundwater
87654 management plan, unless a voluntary arrangement exists under Subsection (4)(c) that requires a
87655 different distribution.

87656 (b) When adopting a groundwater management plan for a critical management area, the
87657 state engineer shall, based on economic and other impacts to an individual water user or a local
87658 community caused by the implementation of safe yield limits on withdrawals, allow gradual
87659 implementation of the groundwater management plan.

87660 (c) (i) In consultation with the state engineer, water users in a groundwater basin may
87661 agree to participate in a voluntary arrangement for managing withdrawals at any time, either
87662 before or after a determination that groundwater withdrawals exceed the groundwater basin's
87663 safe yield.

87664 (ii) A voluntary arrangement under Subsection (4)(c)(i) shall be consistent with other
87665 law.

87666 (iii) The adoption of a voluntary arrangement under this Subsection (4)(c) by less than
87667 all of the water users in a groundwater basin does not affect the rights of water users who do
87668 not agree to the voluntary arrangement.

87669 (5) To adopt a groundwater management plan, the state engineer shall:

- 87670 (a) give notice as specified in Subsection (7) at least 30 days before the first public
87671 meeting held in accordance with Subsection (5)(b):
- 87672 (i) that the state engineer proposes to adopt a groundwater management plan;
87673 (ii) describing generally the land area proposed to be included in the groundwater
87674 management plan; and
- 87675 (iii) stating the location, date, and time of each public meeting to be held in accordance
87676 with Subsection (5)(b);
- 87677 (b) hold one or more public meetings in the geographic area proposed to be included
87678 within the groundwater management plan to:
- 87679 (i) address the need for a groundwater management plan;
87680 (ii) present any data, studies, or reports that the state engineer intends to consider in
87681 preparing the groundwater management plan;
87682 (iii) address safe yield and any other subject that may be included in the groundwater
87683 management plan;
- 87684 (iv) outline the estimated administrative costs, if any, that groundwater users are likely
87685 to incur if the plan is adopted; and
- 87686 (v) receive any public comments and other information presented at the public meeting,
87687 including comments from any of the entities listed in Subsection (7)(a)(iii);
- 87688 (c) receive and consider written comments concerning the proposed groundwater
87689 management plan from any person for a period determined by the state engineer of not less than
87690 60 days after the day on which the notice required by Subsection (5)(a) is given;
- 87691 (d) (i) at least 60 days prior to final adoption of the groundwater management plan,
87692 publish notice:
- 87693 (A) that a draft of the groundwater management plan has been proposed; and
87694 (B) specifying where a copy of the draft plan may be reviewed; and
- 87695 (ii) promptly provide a copy of the draft plan in printed or electronic form to each of the
87696 entities listed in Subsection (7)(a)(iii) that makes written request for a copy; and
- 87697 (e) provide notice of the adoption of the groundwater management plan.

87698 (6) A groundwater management plan shall become effective on the date notice of
87699 adoption is completed under Subsection (7), or on a later date if specified in the plan.

87700 (7) (a) A notice required by this section shall be:

87701 (i) published once a week for two successive weeks in a newspaper of general
87702 circulation in each county that encompasses a portion of the land area proposed to be included
87703 within the groundwater management plan;

87704 (ii) published conspicuously on the state engineer's Internet website; and

87705 (iii) mailed to each of the following that has within its boundaries a portion of the land
87706 area to be included within the proposed groundwater management plan:

87707 (A) county;

87708 (B) incorporated city or town;

87721 (b) A notice required by this section is effective upon substantial compliance with
87722 Subsections (7)(a)(i) through (iii).

87723 (8) A groundwater management plan may be amended in the same manner as a
87724 groundwater management plan may be adopted under this section.

87725 (9) The existence of a groundwater management plan does not preclude any otherwise

87726 eligible person from filing any application or challenging any decision made by the state engineer
87727 within the affected groundwater basin.

87728 (10) (a) A person aggrieved by a groundwater management plan may challenge any
87729 aspect of the groundwater management plan by filing a complaint within 60 days after the
87730 adoption of the groundwater management plan in the district court for any county in which the
87731 groundwater basin is found.

87741 shall publish notice of the action in a newspaper of general circulation in the county in which the
87742 district court is located.

87775 Section 2156. Section **73-10-27** is amended to read:

87776 **73-10-27. Project priorities -- Considerations -- Determinations of feasibility --**
87777 **Bids and contracts -- Definitions -- Retainage.**

87778 (1) In considering the priorities for projects to be built with funds made available under
87779 Section 73-10-24, the board shall give preference to those projects which:

87780 (a) are sponsored by the state or a political subdivision of the state;

87781 (b) meet a critical local need;

87782 (c) have greater economic feasibility;

87784 rate of interest, based on financial feasibility; and

87785 (e) meet other considerations deemed necessary by the board, including, but not limited
87786 to, wildlife management and recreational needs.

87787 (2) In determining the economic feasibility the board shall establish a benefit-to-cost
87788 ratio for each project, using a uniform standard of procedure for all projects. In considering
87789 whether a project should be built, the benefit-to-cost ratio for each project shall be weighted
87790 based on the relative cost of the project. A project, when considered in total with all other
87791 projects constructed under this chapter and still the subject of a repayment contract, may not
87792 cause the accumulative benefit-to-cost ratio of the projects to be less than one to one.

87793 (3) Under no circumstances may a project be built that is not in the public interest as
87794 determined by the Board of Water Resources, and no project may be built which is not
87795 adequately designed based on sound engineering and geologic considerations.

87796 (4) The board in the preparation of a project for construction shall comply with the
87797 following:

87801 bid. Advertisement for competitive bids shall be published by the board at least once a week for
87802 three consecutive weeks in a newspaper with general circulation in the state. The advertisement
87803 shall indicate that the board will award the contract to the lowest responsible bidder but that it
87804 reserves to itself the right to reject any and all bids. The date of last publication shall appear at
87805 least five days before the scheduled bid opening.

87806 (b) If all initial bids on the project are rejected, the board shall readvertise the project in
87807 the manner specified in Subsection (4)(a). If no satisfactory bid is received by the board upon
87808 the readvertisement of the project, it may proceed to construct the project but only in
87809 accordance with the plans and specifications used to calculate the estimated cost of the project.

87810 (c) The board shall keep an accurate record of all facts and representations relied upon
87811 in preparing its estimated cost for any project which is subject to the competitive bidding
87812 requirements of this section.

87813 (d) For the purposes of this Subsection (4):

87814 (i) "Estimated cost" means the cost of all labor, material, and equipment necessary for
87815 construction of the contemplated project.

87816 (ii) "Lowest responsible bidder" means any licensed contractor who submits the lowest
87817 bid, whose bid is in compliance with the invitation for bids, whose bid meets the plans and
87818 specifications, and who furnishes bonds under Sections 14-1-18 and ~~[63-56-504]~~ 63G-6-505.

87819 (5) If any payment on a contract with a private contractor for construction of projects
87820 under this section is retained or withheld, it shall be retained or withheld and released as
87821 provided in Section 13-8-5.

87825 (1) The Water Quality Board shall review the plans and specifications for a wastewater
87826 project before approval of any loan and may condition approval on the availability of loan funds
87827 and on assurances that the Water Quality Board considers necessary to ensure that loan funds
87828 are used to pay the wastewater project costs and that the wastewater project is completed.

87829 (2) (a) Each loan shall specify the terms for repayment, with the term, interest rate or

89423 electronic recording device or to be given before any certified court reporter; and

89424 (iii) require the production of books, papers, documents, recordings, and any other
89425 items that constitute evidence or may be relevant to the investigation.

89426 (b) The prosecutor shall:

89427 (i) apply to the district court for each subpoena; and

89428 (ii) show that the requested information is reasonably related to the criminal
89429 investigation authorized by the court.

89430 (4) (a) The prosecutor shall state in each subpoena:

89431 (i) the time and place of the examination;

89432 (ii) that the subpoena is issued in aid of a criminal investigation; and

89433 (iii) the right of the person subpoenaed to have counsel present.

- 89434 (b) The examination may be conducted anywhere within the jurisdiction of the
89435 prosecutor issuing the subpoena.
- 89436 (c) The subpoena need not disclose the names of possible defendants.
- 89437 (d) Witness fees and expenses shall be paid as in a civil action.
- 89438 (5) (a) At the beginning of each compelled interrogation, the prosecutor shall personally
89439 inform each witness:
- 89440 (i) of the general subject matter of the investigation;
- 89441 (ii) of the privilege to, at any time during the proceeding, refuse to answer any question
89442 or produce any evidence of a communicative nature that may result in self-incrimination;
- 89443 (iii) that any information provided may be used against the witness in a subsequent
89444 criminal proceeding; and
- 89445 (iv) of the right to have counsel present.
- 89446 (b) If the prosecutor has substantial evidence that the subpoenaed witness has
89447 committed a crime that is under investigation, the prosecutor shall:
- 89448 (i) inform the witness in person before interrogation of that witness's target status; and
89449 (ii) inform the witness of the nature of the charges under consideration against the
89450 witness.
- 89451 (6) (a) (i) The prosecutor may make written application to any district court showing a
89452 reasonable likelihood that publicly releasing information about the identity of a witness or the
89453 substance of the evidence resulting from a subpoena or interrogation would pose a threat of
89454 harm to a person or otherwise impede the investigation.
- 89455 (ii) Upon a finding of reasonable likelihood, the court may order the:
- 89456 (A) interrogation of a witness be held in secret;
- 89457 (B) occurrence of the interrogation and other subpoenaing of evidence, the identity of
89458 the person subpoenaed, and the substance of the evidence obtained be kept secret; and
- 89459 (C) record of testimony and other subpoenaed evidence be kept secret unless the court
89460 for good cause otherwise orders.
- 89461 (b) After application, the court may by order exclude from any investigative hearing or

89462 proceeding any persons except:

89463 (i) the attorneys representing the state and members of their staffs;

89464 (ii) persons who, in the judgment of the attorneys representing the state, are reasonably
89465 necessary to assist in the investigative process;

89466 (iii) the court reporter or operator of the electronic recording device; and

89467 (iv) the attorney for the witness.

89468 (c) This chapter does not prevent attorneys representing the state or members of their
89469 staff from disclosing information obtained pursuant to this chapter for the purpose of furthering
89470 any official governmental investigation.

89471 (d) (i) If a secrecy order has been granted by the court regarding the interrogation or
89472 disclosure of evidence by a witness under this subsection, and if the court finds a further
89473 restriction on the witness is appropriate, the court may order the witness not to disclose the
89474 substance of the witness's testimony or evidence given by the witness to others.

89475 (ii) Any order to not disclose made under this subsection shall be served with the
89476 subpoena.

89477 (iii) In an appropriate circumstance the court may order that the witness not disclose the
89478 existence of the investigation to others.

89479 (iv) Any order under this Subsection (6)(d) must be based upon a finding by the court
89480 that one or more of the following risks exist:

89481 (A) disclosure by the witness would cause destruction of evidence;

89482 (B) disclosure by the witness would taint the evidence provided by other witnesses;

89483 (C) disclosure by the witness to a target of the investigation would result in flight or
89484 other conduct to avoid prosecution;

89485 (D) disclosure by the witness would damage a person's reputation; or

89486 (E) disclosure by the witness would cause a threat of harm to any person.

89487 (e) (i) If the court imposes an order under Subsection (6)(d) authorizing an instruction
89488 to a witness not to disclose the substance of testimony or evidence provided and the prosecuting
89489 agency proves by a preponderance of the evidence that a witness has violated that order, the

89490 court may hold the witness in contempt.

89491 (ii) An order of secrecy imposed on a witness under this Subsection (6)(e) may not
89492 infringe on the attorney-client relationship between the witness and [his] the witness's attorney
89493 or on any other legally recognized privileged relationship.

89494 (7) (a) (i) The prosecutor may submit to any district court a separate written request
89495 that the application, statement of good cause, and the court's order authorizing the investigation
89496 be kept secret.

89497 (ii) The request for secrecy is a public record under [~~Title 63, Chapter 2~~] Title 63G,
89498 Chapter 2, Government Records Access and Management Act, but need not contain any
89499 information that would compromise any of the interest listed in Subsection (7)(c).

89500 (b) With the court's permission, the prosecutor may submit to the court, in camera, any
89501 additional information to support the request for secrecy if necessary to avoid compromising the
89502 interests listed in Subsection (7)(c).

89503 (c) The court shall consider all information in the application and order authorizing the
89504 investigation and any information received in camera and shall order that all information be
89505 placed in the public file except information that, if disclosed, would pose:

- 89506 (i) a substantial risk of harm to a person's safety;
- 89507 (ii) a clearly unwarranted invasion of or harm to a person's reputation or privacy; or
- 89508 (iii) a serious impediment to the investigation.

89509 (d) Before granting an order keeping secret documents and other information received
89510 under this section, the court shall narrow the secrecy order as much as reasonably possible in
89511 order to preserve the openness of court records while protecting the interests listed in
89512 Subsection (7)(c).

90429 restriction shall be given temporary care in a shelter facility and may not be placed in a detention
90430 facility.

90431 (c) A child may not be placed or kept in a shelter facility pending court proceedings
90432 unless it is unsafe to leave the child with the child's parents, guardian, or custodian.

90433 (2) After admission of a child to a detention facility pursuant to the guidelines
90434 established by the Division of Juvenile Justice Services and immediate investigation by an
90435 authorized officer of the court, the judge or the officer shall order the release of the child to the
90436 child's parents, guardian, or custodian if it is found the child can be safely returned to their care,
90437 either upon written promise to bring the child to the court at a time set or without restriction.

90438 (a) If a child's parent, guardian, or custodian fails to retrieve the child from a facility
90439 within 24 hours after notification of release, the parent, guardian, or custodian is responsible for
90440 the cost of care for the time the child remains in the facility.

90441 (b) The facility shall determine the cost of care.

90442 (c) Any money collected under this Subsection (2) shall be retained by the Division of
90443 Juvenile Justice Services to recover the cost of care for the time the child remains in the facility.

90444 (3) (a) When a child is detained in a detention or shelter facility, the parents or guardian
90445 shall be informed by the person in charge of the facility that they have the right to a prompt
90446 hearing in court to determine whether the child is to be further detained or released.

90447 (b) When a minor is detained in a detention facility, the minor shall be informed by the
90448 person in charge of the facility that the minor has the right to a prompt hearing in court to
90449 determine whether the minor is to be further detained or released.

90450 (c) Detention hearings shall be held by the judge or by a commissioner.

90451 (d) The court may, at any time, order the release of the minor, whether a detention
90452 hearing is held or not.

90453 (e) If a child is released, and the child remains in the facility, because the parents,
90454 guardian, or custodian fails to retrieve the child, the parents, guardian, or custodian shall be
90455 responsible for the cost of care as provided in Subsections (2)(a), (b), and (c).

90456 (4) (a) A minor may not be held in a detention facility longer than 48 hours prior to a
90457 detention hearing, excluding weekends and holidays, unless the court has entered an order for
90458 continued detention.

90459 (b) A child may not be held in a shelter facility longer than 48 hours prior to a shelter
90460 hearing, excluding weekends and holidays, unless a court order for extended shelter has been
90461 entered by the court after notice to all parties described in Section 78-3a-306.

90462 (c) A hearing for detention or shelter may not be waived. Detention staff shall provide
90463 the court with all information received from the person who brought the minor to the detention
90464 facility.

90465 (d) If the court finds at a detention hearing that it is not safe to release the minor, the
90466 judge or commissioner may order the minor to be held in the facility or be placed in another
90467 appropriate facility, subject to further order of the court.

90468 (e) (i) After a detention hearing has been held, only the court may release a minor from
90469 detention. If a minor remains in a detention facility, periodic reviews shall be held pursuant to

90470 the Utah State Juvenile Court Rules of Practice and Procedure to ensure that continued
90471 detention is necessary.

90472 (ii) After a detention hearing for a violent felony, as defined in Section 76-3-203.5, or
90473 an offense in violation of Title 76, Chapter 10, Part 5, Weapons, the court shall direct that
90474 notice of its decision, including any disposition, order, or no contact orders, be provided to
90475 designated persons in the appropriate local law enforcement agency and district superintendent
90476 or the school or transferee school, if applicable, that the minor attends. The designated persons
90477 may receive the information for purposes of the minor's supervision and student safety.

90478 (iii) Any employee of the local law enforcement agency, school district, and the school
90479 that the minor attends who discloses the court's order of probation is not:

90480 (A) civilly liable except when the disclosure constitutes fraud or willful misconduct as
90481 provided in Section [~~63-30d-202~~] 63G-7-202; and

90482 (B) civilly or criminally liable except when disclosure constitutes a knowing violation of
90483 Section [~~63-2-801~~] 63G-2-801.

90484 (5) A minor may not be held in a detention facility, following a dispositional order of
90485 the court for nonsecure substitute care as defined in Section 62A-4a-101, or for
90486 community-based placement under Section 62A-7-101 for longer than 72 hours, excluding
90487 weekends and holidays. The period of detention may be extended by the court for one period of
90488 seven calendar days if:

90489 (a) the Division of Juvenile Justice Services or another agency responsible for
90490 placement files a written petition with the court requesting the extension and setting forth good
90491 cause; and

90492 (b) the court enters a written finding that it is in the best interests of both the minor and
90493 the community to extend the period of detention.

90494 (6) The agency requesting an extension shall promptly notify the detention facility that a
90495 written petition has been filed.

90496 (7) The court shall promptly notify the detention facility regarding its initial disposition
90497 and any ruling on a petition for an extension, whether granted or denied.

90498 (8) (a) A child under 16 years of age may not be held in a jail, lockup, or other place for
90499 adult detention except as provided by Section 62A-7-201 or unless certified as an adult
90500 pursuant to Section 78-3a-603. The provisions of Section 62A-7-201 regarding confinement
90501 facilities apply to this Subsection (8).

90502 (b) A child 16 years of age or older whose conduct or condition endangers the safety or
90503 welfare of others in the detention facility for children may, by court order that specifies the
90504 reasons, be detained in another place of confinement considered appropriate by the court,
90505 including a jail or other place of confinement for adults. However, a secure youth corrections
90506 facility is not an appropriate place of confinement for detention purposes under this section.

90507 (9) A sheriff, warden, or other official in charge of a jail or other facility for the
90508 detention of adult offenders or persons charged with crime shall immediately notify the juvenile
90509 court when a person who is or appears to be under 18 years of age is received at the facility and
90510 shall make arrangements for the transfer of the person to a detention facility, unless otherwise
90511 ordered by the juvenile court.

90512 (10) This section does not apply to a minor who is brought to the adult facility under
90513 charges pursuant to Section 78-3a-602 or by order of the juvenile court to be held for criminal
90514 proceedings in the district court under Section 78-3a-603.

90515 (11) A minor held for criminal proceedings under Section 78-3a-602 or 78-3a-603 may
90516 be detained in a jail or other place of detention used for adults charged with crime.

90517 (12) Provisions of law regarding bail are not applicable to minors detained or taken into
90518 custody under this chapter, except that bail may be allowed:

90519 (a) if a minor who need not be detained lives outside this state; or

90520 (b) when a minor who need not be detained comes within one of the classes in
90521 Subsection 78-3a-503(11).

90522 (13) Section 76-8-418 is applicable to a child who willfully and intentionally commits an
90523 act against a jail or other place of confinement, including a Division of Juvenile Justice Services
90524 detention, shelter, or secure confinement facility which would be a third degree felony if
90525 committed by an adult.

90526 Section 2217. Section **78-3a-116** is amended to read:

90527 **78-3a-116. Hearings -- Record -- County attorney or district attorney**
90528 **responsibilities -- Attorney general responsibilities -- Disclosure -- Admissibility of**
90529 **evidence.**

90530 (1) (a) A verbatim record of the proceedings shall be taken by an official court reporter
90531 or by means of a mechanical recording device in all cases that might result in deprivation of
90532 custody as defined in this chapter. In all other cases a verbatim record shall also be made unless
90533 dispensed with by the court.

90534 (b) (i) Notwithstanding any other provision, including [~~Title 63, Chapter 2~~] Title 63G,
90535 Chapter 2, Government Records Access and Management Act, a record of a proceeding made
90536 under Subsection (1)(a) shall be released by the court to any person upon a finding on the
90537 record for good cause.

90538 (ii) Following a petition for a record of a proceeding made under Subsection (1)(a), the
90539 court shall:

90540 (A) provide notice to all subjects of the record that a request for release of the record
90541 has been made; and

90542 (B) allow sufficient time for the subjects of the record to respond before making a
90543 finding on the petition.

90544 (iii) A record of a proceeding may not be released under this Subsection (1)(b) if the
90545 court's jurisdiction over the subjects of the proceeding ended more than 12 months prior to the
90546 request.

90547 (iv) For purposes of this Subsection (1)(b):

90548 (A) "record of a proceeding" does not include documentary materials of any type
90549 submitted to the court as part of the proceeding, including items submitted under Subsection
90550 (4)(a); and

90551 (B) "subjects of the record" includes the child's guardian ad litem, the child's legal
90552 guardian, the Division of Child and Family Services, and any other party to the proceeding.

90553 (v) This Subsection (1)(b) applies:

90554 (A) to records of proceedings made on or after November 1, 2003 in districts selected
90555 by the Judicial Council as pilot districts under Subsection 78-3-21(15)(a); and

90556 (B) to records of proceedings made on or after July 1, 2004 in all other districts.

90557 (2) (a) Except as provided in Subsection (2)(b), the county attorney or, if within a
90558 prosecution district, the district attorney shall represent the state in any proceeding in a minor's
90559 case.

90560 (b) The attorney general shall enforce all provisions of Title 62A, Chapter 4a, Child and
90561 Family Services, and Title 78, Chapter 3a, Juvenile Court Act of 1996, relating to:

90562 (i) protection or custody of an abused, neglected, or dependent child; and

90563 (ii) petitions for termination of parental rights.

90564 (c) The attorney general shall represent the Division of Child and Family Services in
90565 actions involving a minor who is not adjudicated as abused or neglected, but who is otherwise
90566 committed to the custody of that division by the juvenile court, and who is classified in the
90567 division's management information system as having been placed in custody primarily on the
90568 basis of delinquent behavior or a status offense. Nothing in this Subsection (2)(c) may be
90569 construed to affect the responsibility of the county attorney or district attorney to represent the
90570 state in those matters, in accordance with the provisions of Subsection (2)(a).

90571 (3) The board may adopt special rules of procedure to govern proceedings involving
90572 violations of traffic laws or ordinances, fish and game laws, and boating laws. However,
90573 proceedings involving offenses under Section 78-3a-506 are governed by that section regarding
90574 suspension of driving privileges.

90575 (4) (a) For the purposes of determining proper disposition of the minor in dispositional
90576 hearings and establishing the fact of abuse, neglect, or dependency in adjudication hearings and
90577 in hearings upon petitions for termination of parental rights, written reports and other material
90578 relating to the minor's mental, physical, and social history and condition may be received in
90579 evidence and may be considered by the court along with other evidence. The court may require
90580 that the person who wrote the report or prepared the material appear as a witness if the person
90581 is reasonably available.

90582 (b) For the purpose of determining proper disposition of a minor alleged to be or
90583 adjudicated as abused, neglected, or dependent, dispositional reports prepared by Foster Care
90584 Citizen Review Boards pursuant to Section 78-3g-103 may be received in evidence and may be
90585 considered by the court along with other evidence. The court may require any person who
90586 participated in preparing the dispositional report to appear as a witness, if the person is
90587 reasonably available.

90588 (5) (a) In an abuse, neglect, or dependency proceeding occurring after the
90589 commencement of a shelter hearing under Section 78-3a-306 or the filing of a petition under
90590 Section 78-3a-305, each party to the proceeding shall provide in writing to the other parties or
90591 their counsel any information which the party:

90592 (i) plans to report to the court at the proceeding; or

90593 (ii) could reasonably expect would be requested of the party by the court at the
90594 proceeding.

90595 (b) The disclosure required under Subsection (5)(a) shall be made:

90596 (i) for dispositional hearings under Sections 78-3a-310 and 78-3a-311, no less than five
90597 days before the proceeding;

90598 (ii) for proceedings under Title 78, Chapter 3a, Part 4, Termination of Parental Rights
90599 Act, in accordance with Utah Rules of Civil Procedure; and

90600 (iii) for all other proceedings, no less than five days before the proceeding.

90601 (c) If a party to a proceeding obtains information after the deadline in Subsection (5)(b),
90602 the information is exempt from the disclosure required under Subsection (5)(a) if the party
90603 certifies to the court that the information was obtained after the deadline.

90604 (d) Subsection (5)(a) does not apply to:

90605 (i) pretrial hearings; and

90606 (ii) the frequent, periodic review hearings held in a dependency drug court case to
90607 assess and promote the parent's progress in substance abuse treatment.

90608 (6) For the purpose of establishing the fact of abuse, neglect, or dependency, the court
90609 may, in its discretion, consider evidence of statements made by a child under eight years of age

90610 to a person in a trust relationship.

90611 Section 2218. Section **78-3a-118** is amended to read:

90612 **78-3a-118. Adjudication of jurisdiction of juvenile court -- Disposition of cases --**
90613 **Enumeration of possible court orders -- Considerations of court -- Obtaining DNA**
90614 **sample.**

90615 (1) (a) When a minor is found to come within the provisions of Section 78-3a-104, the
90616 court shall so adjudicate. The court shall make a finding of the facts upon which it bases its
90617 jurisdiction over the minor. However, in cases within the provisions of Subsection
90618 78-3a-104(1), findings of fact are not necessary.

90619 (b) If the court adjudicates a minor for a crime of violence or an offense in violation of
90620 Title 76, Chapter 10, Part 5, Weapons, it shall order that notice of the adjudication be provided
90621 to the school superintendent of the district in which the minor resides or attends school. Notice
90622 shall be made to the district superintendent within three days of the adjudication and shall
90623 include:

90624 (i) the specific offenses for which the minor was adjudicated; and

90625 (ii) if available, if the victim:

90626 (A) resides in the same school district as the minor; or

90627 (B) attends the same school as the minor.

90628 (2) Upon adjudication the court may make the following dispositions by court order:

90629 (a) (i) The court may place the minor on probation or under protective supervision in
90630 the minor's own home and upon conditions determined by the court, including compensatory
90631 service as provided in Section 78-11-20.7.

90632 (ii) The court may place the minor in state supervision with the probation department of
90633 the court, under the legal custody of:

90635 (B) the Division of Juvenile Justice Services; or

90636 (C) the Division of Child and Family Services.

90637 (iii) If the court orders probation or state supervision, the court shall direct that notice

90638 of its order be provided to designated persons in the local law enforcement agency and the
90639 school or transferee school, if applicable, that the minor attends. The designated persons may
90640 receive the information for purposes of the minor's supervision and student safety.

90641 (iv) Any employee of the local law enforcement agency and the school that the minor
90642 attends who discloses the court's order of probation is not:

90643 (A) civilly liable except when the disclosure constitutes fraud or willful misconduct as
90644 provided in Section [~~63-30d-202~~] 63G-7-202; and

90645 (B) civilly or criminally liable except when the disclosure constitutes a knowing
90646 violation of Section [~~63-2-801~~] 63G-2-801.

90647 (b) The court may place the minor in the legal custody of a relative or other suitable
90648 person, with or without probation or protective supervision, but the juvenile court may not
90649 assume the function of developing foster home services.

90650 (c) (i) The court may:

90651 (A) vest legal custody of the minor in the Division of Child and Family Services,
90652 Division of Juvenile Justice Services, or the Division of Substance Abuse and Mental Health;
90653 and

90654 (B) order the Department of Human Services to provide dispositional recommendations
90655 and services.

90656 (ii) For minors who may qualify for services from two or more divisions within the
90657 Department of Human Services, the court may vest legal custody with the department.

90658 (iii) (A) A minor who is committed to the custody of the Division of Child and Family
90659 Services on grounds other than abuse or neglect is subject to the provisions of Title 78, Chapter
90660 3a, Part 3A, Minors in Custody on Grounds Other Than Abuse or Neglect, and Title 62A,
90661 Chapter 4a, Part 2A, Minors in Custody on Grounds Other Than Abuse or Neglect.

90662 (B) Prior to the court entering an order to place a minor in the custody of the Division
90663 of Child and Family Services on grounds other than abuse or neglect, the court shall provide the
90664 division with notice of the hearing no later than five days before the time specified for the
90665 hearing so the division may attend the hearing.

90666 (C) Prior to committing a child to the custody of the Division of Child and Family
90667 Services, the court shall make a finding as to what reasonable efforts have been attempted to
90668 prevent the child's removal from the child's home.

90669 (d) (i) The court may commit a minor to the Division of Juvenile Justice Services for
90670 secure confinement.

90671 (ii) A minor under the jurisdiction of the court solely on the ground of abuse, neglect,
90672 or dependency under Subsection 78-3a-104(1)(c) may not be committed to the Division of
90673 Juvenile Justice Services.

90674 (e) The court may commit a minor, subject to the court retaining continuing jurisdiction
90675 over the minor, to the temporary custody of the Division of Juvenile Justice Services for
90676 observation and evaluation for a period not to exceed 45 days, which period may be extended
90677 up to 15 days at the request of the director of the Division of Juvenile Justice Services.

90678 (f) (i) The court may commit a minor to a place of detention or an alternative to
90679 detention for a period not to exceed 30 days subject to the court retaining continuing
90680 jurisdiction over the minor. This commitment may be stayed or suspended upon conditions
90681 ordered by the court.

90682 (ii) This Subsection (2)(f) applies only to a minor adjudicated for:

90683 (A) an act which if committed by an adult would be a criminal offense; or

90684 (B) contempt of court under Section 78-3a-901.

90685 (g) The court may vest legal custody of an abused, neglected, or dependent minor in the
90686 Division of Child and Family Services or any other appropriate person in accordance with the
90687 requirements and procedures of Title 78, Chapter 3a, Part 3, Abuse, Neglect, and Dependency
90688 Proceedings.

90689 (h) The court may place a minor on a ranch or forestry camp, or similar facility for care
90690 and also for work, if possible, if the person, agency, or association operating the facility has
90691 been approved or has otherwise complied with all applicable state and local laws. A minor
90692 placed in a forestry camp or similar facility may be required to work on fire prevention,
90693 forestation and reforestation, recreational works, forest roads, and on other works on or off the

90694 grounds of the facility and may be paid wages, subject to the approval of and under conditions
90695 set by the court.

90696 (i) (i) The court may order a minor to repair, replace, or otherwise make restitution for
90697 damage or loss caused by the minor's wrongful act, including costs of treatment as stated in
90698 Section 78-3a-318 and impose fines in limited amounts.

90699 (ii) The court may also require a minor to reimburse an individual, entity, or
90700 governmental agency who offered and paid a reward to a person or persons for providing
90701 information resulting in a court adjudication that the minor is within the jurisdiction of the
90702 juvenile court due to the commission of a criminal offense.

90703 (iii) If a minor is returned to this state under the Interstate Compact on Juveniles, the
90704 court may order the minor to make restitution for costs expended by any governmental entity
90705 for the return.

90706 (j) The court may issue orders necessary for the collection of restitution and fines
90707 ordered by the court, including garnishments, wage withholdings, and executions.

90708 (k) (i) The court may through its probation department encourage the development of
90709 employment or work programs to enable minors to fulfill their obligations under Subsection
90710 (2)(i) and for other purposes considered desirable by the court.

90711 (ii) Consistent with the order of the court, the probation officer may permit a minor
90712 found to be within the jurisdiction of the court to participate in a program of work restitution or
90713 compensatory service in lieu of paying part or all of the fine imposed by the court.

90714 (l) (i) In violations of traffic laws within the court's jurisdiction, the court may, in
90715 addition to any other disposition authorized by this section:

90716 (A) restrain the minor from driving for periods of time the court considers necessary;
90717 and

90718 (B) take possession of the minor's driver license.

90719 (ii) The court may enter any other disposition under Subsection (2)(l)(i); however, the
90720 suspension of driving privileges for an offense under Section 78-3a-506 are governed only by
90721 Section 78-3a-506.

90722 (m) (i) When a minor is found within the jurisdiction of the juvenile court under Section
90723 78-3a-104 because of violating Section 58-37-8, Title 58, Chapter 37a, Utah Drug
90724 Paraphernalia Act, or Title 58, Chapter 37b, Imitation Controlled Substances Act, the court
90725 shall, in addition to any fines or fees otherwise imposed, order that the minor perform a
90726 minimum of 20 hours, but no more than 100 hours, of compensatory service. Satisfactory
90727 completion of an approved substance abuse prevention or treatment program may be credited
90728 by the court as compensatory service hours.

90729 (ii) When a minor is found within the jurisdiction of the juvenile court under Section
90730 78-3a-104 because of a violation of Section 32A-12-209 or Subsection 76-9-701(1), the court
90731 may, upon the first adjudication, and shall, upon a second or subsequent adjudication, order that
90732 the minor perform a minimum of 20 hours, but no more than 100 hours of compensatory
90733 service, in addition to any fines or fees otherwise imposed. Satisfactory completion of an
90734 approved substance abuse prevention or treatment program may be credited by the court as
90735 compensatory service hours.

90736 (n) (i) Subject to Subsection (2)(n)(iii), the court may order that a minor:

90737 (A) be examined or treated by a physician, surgeon, psychiatrist, or psychologist; or

90738 (B) receive other special care.

90739 (ii) For purposes of receiving the examination, treatment, or care described in
90740 Subsection (2)(n)(i), the court may place the minor in a hospital or other suitable facility.

90741 (iii) In determining whether to order the examination, treatment, or care described in
90742 Subsection (2)(n)(i), the court shall consider:

90743 (A) the desires of the minor;

90744 (B) if the minor is under the age of 18, the desires of the parents or guardian of the
90745 minor; and

90746 (C) whether the potential benefits of the examination, treatment, or care outweigh the
90747 potential risks and side-effects, including behavioral disturbances, suicidal ideation, brain
90748 function impairment, or emotional or physical harm resulting from the compulsory nature of the
90749 examination, treatment, or care.

90750 (o) (i) The court may appoint a guardian for the minor if it appears necessary in the
90751 interest of the minor, and may appoint as guardian a public or private institution or agency in
90752 which legal custody of the minor is vested.

90753 (ii) In placing a minor under the guardianship or legal custody of an individual or of a
90754 private agency or institution, the court shall give primary consideration to the welfare of the
90755 minor. When practicable, the court may take into consideration the religious preferences of the
90756 minor and of a child's parents.

90757 (p) (i) In support of a decree under Section 78-3a-104, the court may order reasonable
90758 conditions to be complied with by a minor's parents or guardian, a minor, a minor's custodian,
90759 or any other person who has been made a party to the proceedings. Conditions may include:

90760 (A) parent-time by the parents or one parent;

90761 (B) restrictions on the minor's associates;
