## Outline

State level public education governance (Tracy)

Local level education governance (Nathan)

Public education funding (Allyson)

## **Constitutional Components**

Legislature

Public Education System

**Education Fund** 

Legislature

#### **Constitutional Powers**

 Establish and maintain the Public Education System

Designate additional schools and programs to be part of the Public Education System

Legislature

 Works under the umbrella of the Utah Constitution

 Passes bills that become Utah statutes

Statutes often direct State
Board of Education to fill in
the details of legislation
through administrative rule

## State Board of Education

#### **Constitutional Powers**

Created in the Constitution

 Has general control and supervision over the public education system

State Board of Education

 Works within the framework of Utah statutes

Makes administrative rules to generally control and supervise the Public Education System

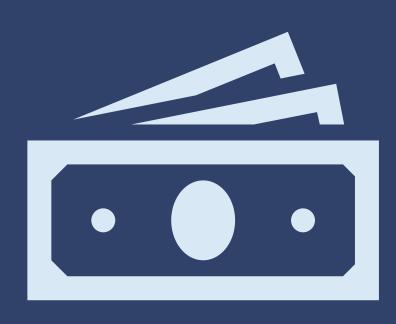

## Public Education System

- Open to all children of the state
- Encompasses all public elementary and secondary schools, plus other schools and programs as designated by the Legislature
- Qualifies for use of Education Fund money

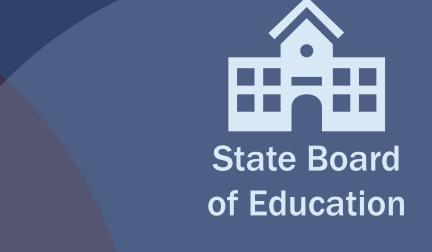

## Education Fund

Education Fund consists of tax revenue gained from intangible property tax and personal and corporate income tax

Education Fund money is limited in use to support only the systems of public education and higher education

Establish and Maintain

**General Control and Supervision**

# Local Governance

### Legislature (104 elected members)

State Board of Education (15 elected members)

Local School Boards (5 or 7 elected members)

**Charter School Governing Boards** 

## Legislature (104 elected members)

State Board of Education (15 elected members)

Local School Boards

**Charter School Governing Boards** 

## **Local Education Agencies**

- K-12 Public education in Utah is broken into administrative units: school districts and charter schools (Local Education Agencies or LEAs)
- The local education agencies can:
  - Set curriculum
  - Hire employees
  - Manage their budgets
- Subject to specified reporting requirements
  - Annual financial audit
  - Monthly budget report
  - Statewide testing

## **School Districts**

- Each local school district is governed by a locally elected school board that is independent of the State Board of Education.
  - School districts are tasked with operating the schools within its district in compliance with the laws and rules created by the Legislature and the State Board of Education.
  - Local school districts set curriculum and school boundaries, conduct hiring, and maintain facilities.
  - Local school districts have the power to purchase property and raise money through local property tax and bonds.

## **E** Charter Schools

- Charter schools are tuition-free, public schools that are open to any state resident.
- Charter schools have a governing board (membership is determined by the written charter)
- Charters schools are treated like an individual school district.
- Except where specifically exempted, charter schools are subject to all of the same laws and rules including:
  - Student assessments
  - Accountability
  - Open and Public Meetings Act
  - Government Records Access and Management Act

# Public Education Funding

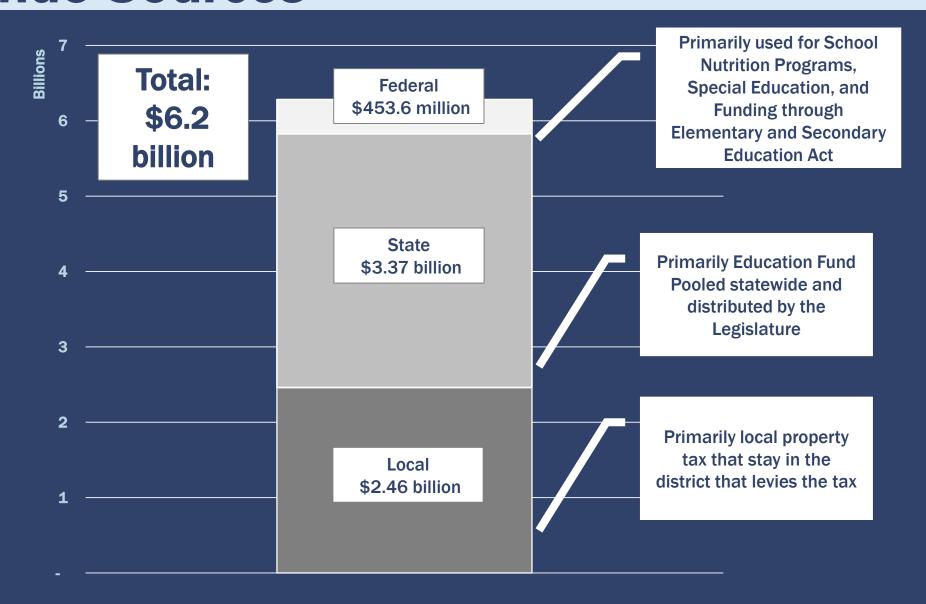

## **Components of Public Education Funding**

## Fiscal Year 2018 Public Education Revenue Sources

## Statutory Basis - Section 53F-2-103

 "All children of the state are entitled to reasonably equal educational opportunities regardless of their place of residence in the state and of the economic situation of their respective school districts"

• "Establishment of an educational system is primarily a state function, school districts should be required to participate on a partnership basis in the payment of a reasonable portion of the cost of a minimum program"

 "Each locality should be empowered to provide educational facilities and opportunities beyond the minimum program and accordingly provide a method whereby that latitude of action is permitted and encouraged"

- Utah's Foundation Program
- Guarantees each district or charter school a level of funding based on:
  - number of students
  - characteristics of the students and the LEA
  - value of the Weighted Pupil Unit (WPU)
- WPU Value
  - \$3,395 in FY 2019

## Determination of the Cost of an LEA's Basic School Program

Determination of the value of Weighted Pupil Unit (WPU)

**Determination of number of WPUs in an LEA** 

**Determination of number of WPUs in an LEA:** 

- # of students in grades 1-12
- # of kindergarten students
- Special education add-on
- Career and technical education add-on
- Other unrestricted and restricted programs

Determination of cost of the basic program in LEA

Value of the WPU X Number of WPUs = LEA Cost of the Basic Program

State guarantees a district will receive this amount, through a combination of property tax and income tax.

#### **Determination of State Contribution to an LEA**

#### **Hypothetical School District**

FY 2019 value of the WPU: \$3,395

**Total Assessed Value:** 

\$4,000,000,000

Basic Rate: .00169

WPUs: **10,000** 

# Guaranteed Basic Program Revenue for District Value of the WPU X Number of WPUs \$3,395 X 10,000 = \$33,950,000 Locally Funded Amount Basic Rate X Total Assessed Value .00169 X \$4,000,000,000 = \$6,760,000

#### **State Income Tax Funded Amount**

Guaranteed Revenue for Basic Program

- Revenue Received from Basic Rate

\$33,950,000 - \$6,760,000 = \$27,190,000

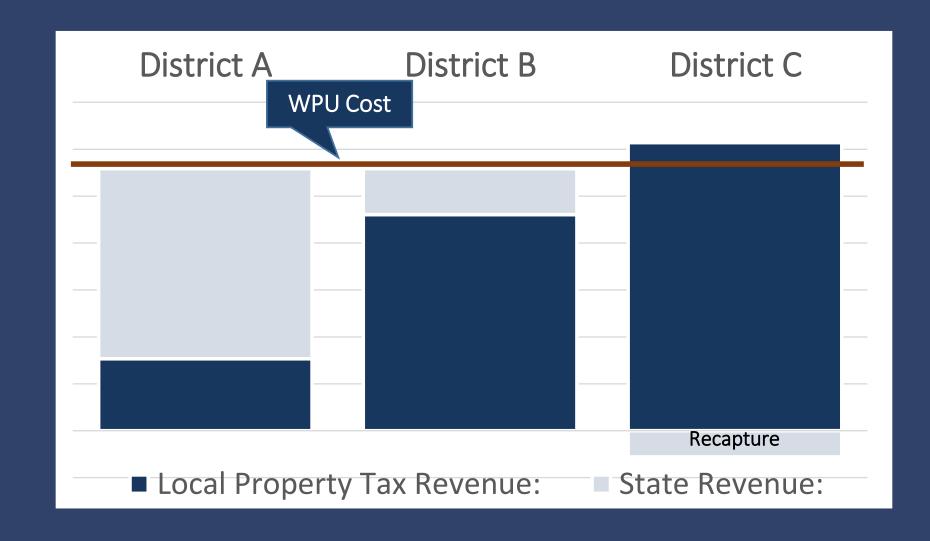

#### Distribution - the Basic Program

## Example: 3 Hypothetical School Districts

- Same Number of WPUs
- Same WPU Value
- Same Basic Rate
- Different Taxable Value

## Sidenote: Property Tax Changes in 2018 H.B. 293

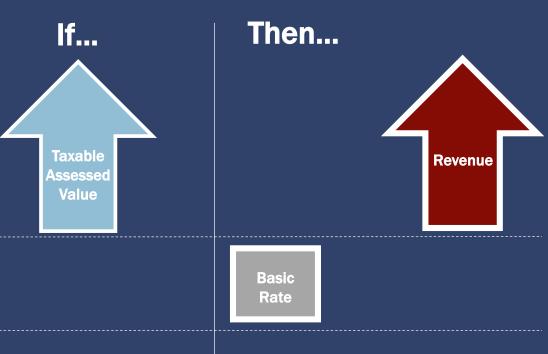

- Establishment of a "rate floor" of .0016, assuming the value of existing property continues to increase
  - Additional revenue dedicated to the voted and board local levy guarantee programs
- Establishment of a "weighted pupil unit value rate" or "WPU value rate"
  - Minimum basic rate generates additional revenue to partially fund the cost to increase the value of the weighted pupil unit

### **Rate Floor**

**Basic Rate - Prior to Setting a Rate Floor** 

Basic Rate - Rate Floor of .0016

#### **WPU Value Rate**

Legislature determines the percent increase in the value of the weighted pupil unit (WPU).

Based on the new WPU value and expected enrollment, Legislature determines the total cost to increase the value of the WPU.

The total cost to increase the value of the WPU is multiplied by the share of the basic program funded by the school districts in the prior year to determine the WPU value amount.

Prior year local school district property tax share of the cost of the basic program (15%)

**State Tax Commission determines** a tax rate that, when levied on the taxable assessed value statewide. will yield an amount of revenue equal to the WPU value amount.

**WPU Value Amount** 

Statewide taxable assessed value
