1   **Law Enforcement Artificial Intelligence Amendments**

2026 GENERAL SESSION

STATE OF UTAH

Chief Sponsor: Stephanie Pitcher

House Sponsor:

2

3   **LONG TITLE**

4   **General Description:**

5   This bill addresses law enforcement agency use of artificial intelligence.

6   **Highlighted Provisions:**

7   This bill:

8   ‣   defines terms;

9   ‣   amends provisions regarding law enforcement artificial intelligence policies;

10   ‣   requires a law enforcement agency to publicly post certain information, including:

11   •   the law enforcement agency's policies concerning the use of generative artificial

12   intelligence and artificial intelligence technology; and

13   •   how the law enforcement agency uses certain artificial intelligence technology

14   settings; and

15   ‣   makes technical and conforming changes.

16   **Money Appropriated in this Bill:**

17   None

18   **Other Special Clauses:**

19   None

20   **Utah Code Sections Affected:**

21   AMENDS:

22   **53-25-901**, as enacted by Laws of Utah 2025, Chapter 330

23   **53-25-902**, as enacted by Laws of Utah 2025, Chapter 330

24

25   *Be it enacted by the Legislature of the state of Utah:*

26   Section 1. Section **53-25-901** is amended to read:

27   **53-25-901 . Definitions.**

28   As used in this part:

29   (1) "Artificial intelligence" means a machine-based system that can, for a given set of

30   human-defined objectives, make predictions, recommendations, or decisions influencing

31   real or virtual environments.

32   (2) "Artificial intelligence technology" means a computer system, device, application,

33   software, hardware, algorithm, program, camera system, or similar product that uses

34   artificial intelligence or generative artificial intelligence.

35   [(2)] (3) "Generative artificial intelligence" means artificial intelligence technology that is

36   capable of creating content such as text, audio, image, or video based on patterns learned

37   from large volumes of data rather than being explicitly programmed with rules.

38   Section 2. Section **53-25-902** is amended to read:

39   **53-25-902 . Use of generative artificial intelligence by law enforcement -- Policy --**

40   **Requirements -- Artificial intelligence technology public posting.**

41   (1)(a) A law enforcement agency shall have a policy concerning the use of generative

42   artificial intelligence and artificial intelligence technology by employees of the law

43   enforcement agency in the course and scope of the law enforcement agency's work.

44   (b) The policy described in Subsection (1)(a) shall:

45   (i) include the requirements described in Subsection (2); and

46   (ii) provide employees of the law enforcement agency with information concerning

47   the use of generative artificial intelligence and artificial intelligence technology,

48   including:

49   (A) which generative artificial intelligence technologies the employees of the law

50   enforcement agency may use;

51   (B) which artificial intelligence technologies the employees of the law

52   enforcement agency may use, including which settings an employee may not

53   disable, bypass, or turn off;

54   [(B)] (C) the uses and tasks for which generative artificial intelligence [is] and

55   artificial intelligence technology are permitted;

56   [(C)] (D) the importance of reviewing content generated by generative artificial

57   intelligence and artificial intelligence technology; and

58   [(D)] (E) an acknowledgment that a violation of the policy described in Subsection

59   (1)(a) may result in administrative disciplinary action by the head of the law

60   enforcement agency.

61   (2) A written police report or other law enforcement record that was created wholly or

62   partially by using generative artificial intelligence or with an artificial intelligence

63   technology shall:

64   (a) contain within the report or record a disclaimer that the report or record contains

65   content generated by artificial intelligence or an artificial intelligence technology; and

66   (b) include a certification by the author of the report or record that the author has read

67   and reviewed the report or record for accuracy.

68   (3)(a) A law enforcement agency shall publicly post on the law enforcement agency's

69   website:

70   (i) the law enforcement agency's policy described in Subsection (1); and

71   (ii) the information described in Subsection (4).

72   (b) If a law enforcement agency does not have a public website, the law enforcement

73   agency shall post the information described in Subsection (3)(a) on the Utah Public

74   Notice Website created in Section 63A-16-601.

75   (c) A law enforcement agency shall update a public posting required under this section

76   no later than 30 days after the day on which any posted information has changed or is

77   otherwise not current.

78   (4) A law enforcement agency shall provide the following information under Subsection

79   (3)(a)(ii):

80   (a) subject to Subsection (5), the artificial intelligence technology that the law

81   enforcement agency uses;

82   (b) for each artificial intelligence technology described in Subsection (4)(a), the artificial

83   intelligence technology's available settings that address artificial intelligence

84   transparency, content safeguards, or human content oversight or verification, which

85   may include:

86   (i) a setting that requires a minimum level of human editing before a report or other

87   document can be marked as complete;

88   (ii) a setting that includes an acknowledgment on a report or other document that the

89   report or other document was drafted by artificial intelligence;

90   (iii) a setting that inserts obvious errors into a draft report or other document; and

91   (iv) a setting that limits the types of crimes for which the artificial intelligence

92   technology may be used;

93   (c) for each setting disclosed under Subsection (4)(b), whether the law enforcement

94   agency:

95   (i) requires the use of the setting;

96   (ii) does not use the setting; or

97   (iii) allows an employee to disable, bypass, or turn off the setting; and

98   (d) any other policies the law enforcement agency has that pertain to the use of an

99   artificial intelligence technology described in Subsection (4)(a), (b), or (c).

100   (5) For purposes of Subsection (4)(a), an artificial intelligence technology does not include

101   technology that uses artificial intelligence or generative artificial intelligence for an

102   administrative task that does not materially impact a law enforcement investigation, such

103   as a productivity or document management tool or a technology used to check spelling

104   or grammar.

105   Section 3. **Effective Date.**

106   This bill takes effect on May 6, 2026.
