(3) The allowance payable under Options Two, Three, Four, Five, and Six is calculated by reducing an Option One benefit based on actuarial computations to provide the following:

(d) Option Five is a modification of Option Three so that if the lawful spouse at the time of retirement predeceases the retiree, an allowance equivalent to
the amount payable at the time of initial retirement under Option One shall be paid to the retiree for the remainder of the retiree’s life, beginning on the first day of the month following the month in which the:

(e) Option Six is a modification of Option Four so that if the lawful spouse at the time of retirement predeceases the retiree, an allowance equivalent to the amount payable at the time of initial retirement under Option One shall be paid to the retiree for the remainder of the retiree’s life, beginning on the first day of the month following the month in which the:

(i) spouse died, if notification and supporting documentation for the death are received by the office within 90 days of the spouse’s death; or

(4) (a) If a retiree under Option One dies within 120 days after the retiree’s retirement date, the retirement is canceled and the death shall be considered as that of a member before retirement.

(b) Any payments made to the retiree shall be deducted from the amounts due to the beneficiary.

(5) (a) If a retiree retires under either Option Five or Six and subsequently divorces, the retiree may elect to convert the benefit to an Option One benefit at the time of divorce, if there is no court order filed in the matter.

(b) A conversion to an Option One benefit under this Subsection (5) begins on the first day of the month following the month in which the notification and supporting documentation for the divorce are received by the office.

(10) (a) A purchaser of tangible personal property, a product transferred electronically, or a service may file a claim for a refund with the marketplace facilitator if the purchaser overpaid sales and use taxes imposed under this chapter.

(b) No person may bring a class action against a marketplace facilitator in any court of the state on behalf of purchasers arising from or in any way related to an overpayment of sales and use taxes collected and remitted on sales made or facilitated by the marketplace facilitator on behalf of a marketplace seller, regardless of whether such claim is characterized as a tax refund claim.

(11) Nothing in this section affects the obligation of a purchaser to remit the use tax described in Subsection 59-12-107(2)(f) on any sale for which a marketplace facilitator or marketplace seller failed to collect and remit a tax imposed by this chapter.

22-3-203. Fiduciary's power to adjust.

(1) Except as otherwise provided in the terms of a trust or this section, a fiduciary, in a record, without court approval, may adjust between income and principal if the fiduciary determines the exercise of the power to adjust will assist the fiduciary to administer the trust or estate impartially.
(2) This section does not create a duty to exercise or consider the power to adjust under Subsection (1) or to inform a beneficiary about the applicability of this section.

(3) A fiduciary that in good faith exercises or fails to exercise the power to adjust under Subsection (1) is not liable to a person affected by the exercise or failure to exercise.

(4) In deciding whether and to what extent to exercise the power to adjust under Subsection (1), a fiduciary shall consider all factors the fiduciary considers relevant, including relevant factors in Subsection 22-3-201(5) and the application of Subsection 22-3-401(9), Section 22-3-408, and Section 22-3-413.

(5) A fiduciary may not exercise the power under Subsection (1) to make an adjustment or under Section 22-3-408 to make a determination that an allocation is insubstantial if:

(a) the adjustment or determination would reduce the amount payable to a current income beneficiary from a trust that qualifies for a special tax benefit, except to the extent the adjustment is made to provide for a reasonable apportionment of the total return of the trust between the current income beneficiary and successor beneficiaries;

(b) the adjustment or determination would change the amount payable to a beneficiary, as a fixed annuity or a fixed fraction of the value of the trust assets, under the terms of the trust;

(c) the adjustment or determination would reduce an amount that is permanently set aside for a charitable purpose under the terms of the trust, unless both income and principal are set aside for the charitable purpose;

(d) possessing or exercising the power would cause a person to be treated as the owner of all or part of the trust for federal income tax purposes;

(e) possessing or exercising the power would cause all or part of the value of the trust assets to be included in the gross estate of an individual for federal estate tax purposes;

(f) possessing or exercising the power would cause an individual to be treated as making a gift for federal gift tax purposes;

(g) the fiduciary is not an independent person;

(h) the trust is irrevocable and provides for income to be paid to the settlor and possessing or exercising the power would cause the adjusted principal or income to be considered an available resource or available income under a public-benefit program; or

(i) the trust is a unitrust under Part 3, Unitrust.

(6) If Subsection (5)(d), (e), (f), or (g) applies to a fiduciary:

(a) a co-fiduciary to which Subsections (5)(d) through (g) do not apply may exercise the power to adjust, unless the exercise of the power by the remaining co-fiduciary or co-fiduciaries is not permitted by the terms of the trust or law other than this chapter; or

(b) if there is no co-fiduciary to which Subsections (5)(d) through (g) do not apply, the fiduciary may appoint a co-fiduciary to which Subsections (5)(d) through (g) do not apply, which may be a special fiduciary with limited powers, and the appointed co-fiduciary may exercise the power to adjust under Subsection (1), unless the appointment of a co-fiduciary or the exercise of the power by a co-fiduciary is not permitted by the terms of the trust or law other than this chapter.

(7) A fiduciary may release or delegate to a co-fiduciary the power to adjust under Subsection (1) if the fiduciary determines that the fiduciary’s possession or exercise of the power will or may:

(a) cause a result described in Subsections (5)(a) through (f) or (h); or

(b) deprive the trust of a tax benefit or impose a tax burden not described in Subsections (5)(a) through (f).

(8) A fiduciary’s release or delegation to a co-fiduciary under Subsection (7) of the power to adjust under Subsection (1):

(a) must be in a record;

(b) applies to the entire power, unless the release or delegation provides a limitation, which may be a limitation to the power to adjust:

(i) from income to principal;

(ii) from principal to income;

(iii) for specified property; or

(iv) in specified circumstances;

(c) for a delegation, may be modified by a redelegation under this subsection by the co-fiduciary to which the delegation is made; and

(d) subject to Subsection (8)(c), is permanent, unless the release or delegation provides a specified period, including a period measured by the life of an individual or the lives of more than one individual.

(9) Terms of a trust which deny or limit the power to adjust between income and principal do not affect the application of this section, unless the terms of the trust expressly deny or limit the power to adjust under Subsection (1).

(10) The exercise of the power to adjust under Subsection (1) in any accounting period may apply to the current period, the immediately preceding period, and one or more subsequent periods.

(11) A description of the exercise of the power to adjust under Subsection (1) must be:

(a) included in a report, if any, sent to beneficiaries under Section 75-7-811(3); or

(b) communicated at least annually to the qualified beneficiaries determined under Section 75-7-103(1)(h).

(2) A fiduciary may presume an allocation is insubstantial under Subsection (1) if:

(a) the amount of the allocation would increase or decrease net income in an accounting period, as determined before the allocation, by less than 10%; and

(b) the asset producing the receipt to be allocated has a fair market value less than 10% of the total fair market value of the assets owned or held by the fiduciary at the beginning of the accounting period.

(3) another ordinary expense incurred in connection with administration, management, or preservation of property and distribution of income, including interest, an ordinary repair, regularly recurring tax assessed against principal, and an expense of an accounting, judicial or nonjudicial proceeding, or other matter that involves primarily an income interest, to the extent income is sufficient; and

(b) a disbursement made to prepare property for sale, including improvements and commissions; and

22-3-505. Reimbursement of principal from income.

(a) income and principal proportionately to the allocation between income and principal of receipts from the entity in the period; and

(b) principal to the extent the tax exceeds the receipts from the entity in the period.

(4) After applying Subsections (1) through (3), a fiduciary shall adjust income or principal receipts, to the extent the taxes the fiduciary pays are reduced because of a deduction for a payment made to a beneficiary.

Section 39. Section 22-3-507 is enacted to read:

22-3-507. Adjustment between income and principal because of taxes.

(1) A fiduciary may make an adjustment between income and principal to offset the shifting of economic interests or tax benefits between current income beneficiaries and successor beneficiaries that arises from:

(b) an income tax or other tax imposed on the fiduciary or a beneficiary as a result of a transaction involving the fiduciary or a distribution by the fiduciary; or

(c) ownership by the fiduciary of an interest in an entity a part of whose taxable income, whether or not distributed, is includable in the taxable income of the fiduciary or a beneficiary.

(2) (a) If the amount of an estate tax marital or charitable deduction is reduced because a fiduciary deducts an amount paid from principal for income tax purposes instead of deducting it for estate tax purposes and, as a result, estate taxes paid from principal are increased and income taxes paid by the fiduciary or a beneficiary are decreased, the fiduciary shall charge each beneficiary that benefits from the decrease in income tax to reimburse the principal from which the increase in estate tax is paid.

(b) The total reimbursement must equal the increase in the estate tax, to the extent the principal used to pay the increase would have qualified for a marital or charitable deduction but for the payment.

(c) The share of the reimbursement for each fiduciary or beneficiary whose income taxes are reduced must be the same as its share of the total decrease in income tax.

(3) A fiduciary that charges a beneficiary under Subsection (2) may offset the charge by obtaining payment from the beneficiary, withholding an amount from future distributions to the beneficiary, or adopting another method or combination of methods.

Section 40. Section 22-3-601 is repealed and reenacted to read:

Part 6. Death of Individual or Termination of Income Interest

22-3-601. Determination and distribution of net income.

(1) This section applies when:

(a) the death of an individual results in the creation of an estate or trust; or

(b) an income interest in a trust terminates, whether the trust continues or is distributed.

(2) A fiduciary of an estate or trust with an income interest that terminates shall:

(a) determine, under Subsection (7) and Part 4, Allocation of Receipts, Part 5, Allocation of Disbursements, and Part 7, Apportionment at Beginning and End of Income Interest, the amount of net income and net principal receipts received from property specifically given to a beneficiary; and

(b) distribute the net income and net principal receipts to the beneficiary that is to receive the specific property.

(3) A fiduciary shall determine the income and net income of an estate or income interest in a trust that terminates, other than the amount of net income determined under Subsection (2), under Part 4, Allocation of Receipts, Part 5, Allocation of Disbursements, and Part 7, Apportionment at Beginning and End of Income Interest, and by:

(a) including in net income all income from property used or sold to discharge liabilities;

(b) paying from income or principal, in the fiduciary’s discretion, fees of attorneys, accountants, and fiduciaries, court costs and other expenses of administration, and interest on estate and inheritance taxes and other taxes imposed because of the decedent’s death, but the fiduciary may pay the expenses from income of property passing to a trust for which the fiduciary claims a federal estate tax marital or charitable deduction only to the extent:

(i) the payment of the expenses from income will not cause the reduction or loss of the deduction; or

(ii) the fiduciary makes an adjustment under Subsection 22-3-507(2); and

(c) paying from principal other disbursements made or incurred in connection with the settlement of the estate or the winding up of an income interest that terminates, including:

(i) to the extent authorized by the decedent’s will, the terms of the trust, or applicable law, debts, funeral expenses, disposition of remains, family
allowances, estate and inheritance taxes, and other
taxes imposed because of the decedent's death; and

(ii) related penalties that are apportioned, by the
decedent's will, the terms of the trust, or applicable
law, to the estate or income interest that
terminates.

(4) If a decedent's will, the terms of a trust, or
applicable law provides for the payment of interest
or the equivalent of interest to a beneficiary that
receives a pecuniary amount outright, the fiduciary
shall make the payment from net income
determined under Subsection (3) or from principal
to the extent net income is insufficient.

(5) If a beneficiary is to receive a pecuniary
amount outright from a trust after an income
interest ends because of an income beneficiary's
death, and no payment of interest or the equivalent of
interest is provided for by the terms of the trust or
applicable law, the fiduciary shall pay the interest
or the equivalent of interest to which the
beneficiary would be entitled under applicable law
if the pecuniary amount were required to be paid
under a will.

(6) A fiduciary shall distribute net income
remaining after payments required by Subsections
(4) and (5) in the manner described in Section
22–3–602 to all other beneficiaries, including a
beneficiary that receives a pecuniary amount
in trust, even if the beneficiary holds an unqualified
power to withdraw assets from the trust or other
presently exercisable general power of
appointment over the trust.

(7) (a) A fiduciary may not reduce principal or
income receipts from property described in
Subsection (2) because of a payment described in
Section 22–3–501 or 22–3–502, to the extent the
decedent's will, the terms of the trust, or applicable
law requires the fiduciary to make the payment
from assets other than the property or to the extent
the fiduciary recovers or expects to recover the
payment from a third party.

(b) The net income and principal receipts from the
property must be determined by including the
amount the fiduciary receives or pays regarding the
property, whether the amount accrued or became
due before, on, or after the date of the decedent's
death or an income interest's terminating event,

\[ \text{Inflate}_{FY} = (121.9 + 123.7 + 124.4 + 125.9) / 4 \]

\[ \text{Sum Adj}_{FY} = \sum_{i=1}^{n} \left( \frac{\text{Adj}_{i}}{\text{Inflate}_{FY}} \right) \]

(vi) \( \text{GNPIndex}_{\text{avg.-1}} \) is the average of the quarterly values of the Gross National Product Implicit Price Deflator for a given fiscal year, as measured by the Gross National Product Implicit Price Deflator from the vintage series published by the United States Department of Commerce on January 26, 1990;

(viii) \( \text{PerCapitaBase}_{355} \) is the amount of real per capita state appropriations for fiscal year 1985; and

(ix) \( \text{Pop}_{-2} \) is:

(A) the population as of July 1 in the fiscal year two fiscal years before a given fiscal year, as estimated by the United States Census Bureau by January 31 of each year; or

UNITED STATES DRUG ENFORCEMENT
ADMINISTRATION TO APPROVE A
PHARMACEUTICAL DROP BOX
PILOT PROGRAM

Chief Sponsor: Brad M. Daw
Senate Sponsor: Evan J. Vickers

LONG TITLE
General Description:
This concurrent resolution highlights the
devastating impact of the opioid epidemic and urges
the United States Drug Enforcement
Administration to approve a pilot program for
pharmaceutical drop boxes.

Highlighted Provisions:
This resolution:
• highlights the impact of the opioid epidemic on
  the state of Utah;
• describes previous actions to place law
  enforcement–controlled pharmaceutical drop
  boxes in local pharmacies; and
• urges the United States Drug Enforcement
  Administration to approve a pilot program for
  pharmaceutical drop boxes that are controlled
  by local law enforcement agencies.

Special Clauses:
None

Be it resolved by the Legislature of the state of Utah,
the Governor concurring therein:

WHEREAS, the state of Utah is committed to
fostering a safe and drug-free environment for all of
its citizens;

WHEREAS, the United States Drug Enforcement
Administration designated the state of Utah as an
official DEA 360 strategy area in the fall of 2017 to
combat opioid addiction and overdose deaths in the
state;

WHEREAS, Utah ranks 4th highest in the nation
for drug overdose deaths, with 23 individuals dying
each month from a prescription opioid overdose in
2016;

WHEREAS, from 2000 to 2015, Utah experienced
a nearly 400% increase in deaths from the misuse
and abuse of opioids, and the problem is continuing
to grow;

WHEREAS, most individuals who misuse
prescription drugs have access to the drugs from a
friend or relative, not a local drug dealer;

WHEREAS, Utah currently has over 150 drop
boxes based in local law enforcement offices around
the state;

WHEREAS, Utahns have advised members of the
newly formed Attorney General’s Opioid Task
Force that people would be more likely to drop off
unused pharmaceutical drugs in a drop box if the
boxes are placed in local pharmacies;

WHEREAS, even though drop boxes are allowed
in pharmacies, Utah pharmacists have repeatedly
informed the Opioid Task Force that federal
regulations governing the placement and
maintenance of drop boxes are too onerous;

WHEREAS, Utah is a geographically large state
with a substantial portion of the population living in
rural areas, and some citizens must drive over 20
miles to place their unused drugs in a designated
drop box;

WHEREAS, in a letter sent to the United States
Drug Enforcement Administration on
May 31, 2017, the Utah Attorney General requested
a waiver from existing regulations to operate a
one-year pilot program that would allow law
enforcement agencies to place and operate
pharmaceutical drop boxes in local pharmacies;

WHEREAS, the United States Drug Enforcement
Administration’s response dated
September 6, 2017, to the Utah Attorney General’s
request merely reiterated existing regulations and
failed to address the pilot program;

WHEREAS, all of the pharmaceutical drop boxes
in the pilot program would be completely owned and
operated by a local law enforcement entity, and all
boxes would be installed in conjunction with
in–store security camera and facility alarm
systems;

WHEREAS, local law enforcement officers would
be solely responsible for emptying and securing the
disposed drugs until the drugs could be properly
destroyed;

WHEREAS, drugs placed in the secure drop boxes
would be considered abandoned property and would
be destroyed in accordance with applicable state
and federal law;

WHEREAS, drop boxes in the pilot program
would not be placed in pharmacies that are already
registered as Collectors with the United States
Drug Enforcement Administration; and

WHEREAS, the pilot program would allow the
Opioid Task Force to evaluate whether a significant
increase in the number of take–back locations could
reduce rates of prescription drug misuse, overdose,
and death:

NOW, THEREFORE, BE IT RESOLVED that the
Legislature of the state of Utah, the Governor
concurring therein, requests that the United States
Drug Enforcement Administration respond to the
Utah Attorney General’s request for a pilot
program to allow local law enforcement agencies
to place and operate pharmaceutical drop boxes in
local pharmacies.

BE IT FURTHER RESOLVED that the
Legislature and the Governor join the Utah
Attorney General to call on the United States Drug
Enforcement Administration to act quickly to
support the state of Utah in its efforts to address the
opioid epidemic by approving the pharmaceutical
drop box pilot program.
BE IT FURTHER RESOLVED that a copy of this resolution be delivered to the United States Attorney General, the United States Attorney for the District of Utah, and the Administrator of the United States Drug Enforcement Administration.

Highlighted Provisions:
This resolution:
▶ acknowledges the important role of rural communities in the development of energy resources;
▶ recognizes the economic and supply benefits that wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy development provide;
▶ recognizes the energy market opportunities available to those states that develop wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy;
▶ supports the development of wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy in rural areas of the state as a complement to Utah's diversified energy system; and
▶ supports the export of Utah-produced wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy to other states.

Special Clauses:
None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, Utah’s rural communities have long produced much of the energy necessary to drive Utah’s economy;

WHEREAS, some of these rural communities have not always enjoyed the prosperity that has come with Utah’s tremendous economic growth in recent decades;

WHEREAS, many of these rural communities are rich with the natural resources, including wind, solar, hydrogen, small conduit hydroelectric, and geothermal resources, necessary to provide energy for Utah and the nation;

WHEREAS, competitive energy markets in western states are providing new opportunities for the sale of energy across state lines;

CONCURRENT RESOLUTION CONCERNING SWITCHER LOCOMOTIVE EMISSION STANDARDS

Chief Sponsor: Stephen G. Handy
Senate Sponsor: Todd Weiler
**LONG TITLE**

**General Description:**
This concurrent resolution requests that Congress allow states to regulate certain switcher locomotive emission standards.

**Highlighted Provisions:**
This resolution:
- recognizes the railroad’s economic impact in Utah;
- describes the Environmental Protection Agency’s (EPA) emission standards for switcher locomotives;
- recognizes that more stringent emission standards for switcher locomotives would reduce harmful emissions in the state;
- acknowledges that federal law prohibits states from adopting more stringent emission standards for switcher locomotives; and
- requests that Congress allow states to regulate certain switcher locomotive emissions standards.

**Special Clauses:**
None

_Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:_

WHEREAS, railroads continue to play a vital role in Utah’s economy;

WHEREAS, there are approximately 63 switcher locomotives operating in Utah;

WHEREAS, the vast majority of the switcher locomotives operating in Utah are certified to the Environmental Protection Agency’s (EPA) Tier 0 or Tier 0+ emission standards;

WHEREAS, the Utah Division of Air Quality finds replacing and repowering switcher locomotives to be a cost-effective emission control strategy;

WHEREAS, replacing or repowering a switcher locomotive certified to the Tier 0+ emission standard to meet Tier 4 emission standards would result in an 89% reduction in nitrogen-oxide emissions and an 88.5% reduction in direct particulate-matter emissions;

WHEREAS, the Clean Air Act, 42 U.S.C. Sec. 7543(e) prohibits states from establishing emission standards for locomotives;

WHEREAS, current EPA emissions standards only require switcher locomotives certified to the Tier 0 emission standard to be remanufactured to meet the Tier 0+ emission standard and such remanufacturing may continue indefinitely; and

WHEREAS, the EPA has continued to tighten the National Ambient Air Quality Standards for fine particulate matter and ozone without providing improved locomotive remanufacturing emissions requirements to help meet said standards:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, hereby requests that Congress allow states to regulate switcher locomotive emissions standards so that a state can require that Tier 0 and 0+ locomotives be repowered to meet Tier 4 standards or otherwise be retired in a timely and cost-effective manner.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the President of the United States, the United States Environmental Protection Agency’s Office of the Administrator, and each member of Utah’s congressional delegation.

WHEREAS, the Wasatch Front is known to have some of the most challenging short-term air quality issues;

WHEREAS, in 2017 the Environmental Protection Agency (EPA) reclassified the Wasatch Front from a “moderate” to a “serious” nonattainment area, based on the Clean Air Act’s air quality health standards;

WHEREAS, although vehicle contribution to air pollution has decreased over time and will continue to decline with both the implementation of Tier III fuel and automobile standards and rapidly increasing fuel economy standards, fossil fuel combustion engines continue to account for approximately 48% of emissions that lead to poor air quality in Utah;

WHEREAS, Utah public schools have over 2,400 buses that transport 175,000 children every day;
WHEREAS, most of the school buses being used by school districts and charter schools burn diesel fuel;

WHEREAS, numerous studies have concluded that the younger a person is, the more susceptible that person is to the dangers of diesel exhaust fumes, resulting in increased health risks associated with lung disease, cancer, and heart disease;

General Description:
This concurrent resolution of the Legislature and the Governor urges refineries operating within Utah to utilize the state sales and use tax exemption provided by the state to make the investments necessary to manufacture lower-sulfur Tier 3 gasoline in Utah.

Highlighted Provisions:
This resolution:

- recognizes how vehicle emissions impact Utah’s air quality;
- recognizes that the lower-sulfur gasoline in the Environmental Protection Agency’s Tier 3 Gasoline Standards are crucial to improving Utah’s air quality; and
- recognizes that three out of the five Utah refineries have committed to manufacturing Tier 3 compliant lower-sulfur gasoline for sale in Utah.

WHEREAS, communities along the Wasatch Front and other areas in the state of Utah experience episodic and sustained periods of time where air pollutants are elevated to levels that are known to cause serious short and long-term health problems in humans;

WHEREAS, there are indications that air quality may impact the ability to recruit and retain
businesses and a high quality labor force, as well as the cost of negative health impacts and the loss of tourism and recreational revenue, air quality significantly impacts the economy of the state of Utah;

WHEREAS, burning lower-sulfur Tier 3 gasoline will significantly reduce vehicle emissions of nitrogen oxides (NOx) and volatile organic compounds (VOC) -- pollutants that are significant contributors to poor air quality in the state of Utah;

WHEREAS, combining Tier 3 lower-sulfur gasoline standards with Tier 3 emissions standards for new vehicles will reduce VOC and NOx emissions per vehicle–mile traveled by as much as 80% compared to previous Tier 2 standards, and result in significant reductions in ozone and secondary PM 2.5 -- pollutants of great concern in the state of Utah;

WHEREAS, use of lower-sulfur Tier 3 gasoline in Utah’s current pre-Tier 3 vehicle fleet will result in immediate tailpipe emissions reductions of approximately 9.5% in NOx and 3.7% in VOC;

WHEREAS, current federal provisions allow certain refineries to meet the standard by utilizing national averaging, trading, and banking, which applies to the five refineries located in Utah;

WHEREAS, in 2017, the Legislature of the state of Utah passed a state sales and use tax exemption to encourage and entice local refineries to manufacture and sell lower-sulfur gasoline in the state, rather than utilizing averaging, trading, and banking to meet the standard;

WHEREAS, a refiner that seeks to be eligible for a sales and use tax exemption under Utah Code, Subsection 59-12-104(86), beginning on July 1, 2021, shall annually report to the Office of Energy Development whether the refiner’s facility that is located within the state will have an average gasoline sulfur level of 10 parts per million or less, using formulas prescribed in 40 C.F.R. Highlighted Provisions:
This resolution:
> discusses the enactment of the Farmland Assessment Act of 1969;
> addresses issues raised by valuation of farmland;
> highlights the importance of agriculture to Utah;
> discusses 50 years of Utah Legislatures supporting farmland assessment;
> provides that the Legislature and the Governor recognizes the “Farmland Assessment Act of 1969” as landmark legislation that paves the way for Utah's farmers and ranchers to remain a strong steward of Utah's private lands and waters;
> provides that the Legislature and the Governor commend previous legislatures for their commitment to uphold the Farmland Assessment Act; and
> provides that the Legislature and the Governor unitedly express support for the continued use of the Farmland Assessment Act.

Special Clauses:
None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, 50 years ago in 1969 the 38th Legislature of the state of Utah passed landmark legislation, sponsored by Miles (Cap) Ferry, Merrill Jenkins, and Kendrick Harward, that permitted qualifying farms in Utah to be assessed for tax purposes at productive value rather than its speculative or market value;

WHEREAS, this legislation enacted the “Farmland Assessment Act of 1969,” and it has been commonly referred to as the “Greenbelt Amendment”;

WHEREAS, this unique method of assessment is vital to agriculture operations in close proximity to expanding urban areas, where taxing agricultural property at market value could make farming operations economically prohibitive;

WHEREAS, productive values are established by the Utah State Tax Commission with the assistance of a five-member Farmland Assessment Advisory Committee and Utah State University and county-wide productive values are based upon income and expense factors associated with agriculture activities;

WHEREAS, Utah’s agriculture receipts, or the market value of agricultural commodities, totaled $1.7 billion in 2017, reflecting a steady increase over decades and generations of farmers;

WHEREAS, Utah agriculture continues to be an important economic driver accounting for $2.5 billion in total economic output when including economic multiplier effects, and combining both agriculture production and processing produces nearly 80,000 Utah jobs and $3.5 billion in compensation;

WHEREAS, the number of Utah farms has increased in the last 10 years to 18,200 farms (#37 rank in the United States), 11 million acres (#25 rank in the United States) with an average size farm of 604 acres (#12 rank in the United States);

WHEREAS, Utah's top county for agriculture sales in 2017 was an urban county -- Utah County ($189 million), and other top counties for 2017 agricultural sales were Beaver County ($178 million), Millard County ($166 million), Sanpete County ($165 million), and Box Elder County ($149 million);

WHEREAS, Utah production agriculture is a vast undertaking, from producing a bounty of food for consumers, to growing the wood that frames our homes, the fiber in our clothes, and even the renewable fuel in our cars;

WHEREAS, Utah farmers and ranchers are dedicated to an important mission -- feeding Americans so we do not have to depend on other nations for our most basic need;

WHEREAS, Utah farmers and ranchers love the land and animals in which they are stewards and love helping Utah's rural and urban economies stay economically vibrant;

WHEREAS, Utah's farm and ranch families make up less than 1% of Utah’s population and receive only 16 cents (on average) out of every retail dollar spent on food that is eaten at home and away from home, down nearly 50% from 1980; and
WHEREAS, for 50 years Utah Legislatures have recognized the vital role the Farmland Assessment Act has had in maintaining and sustaining Utah family farms and ranches by repeatedly anchoring and upholding a productive value property tax for qualifying Utah farm and ranch landowners:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, recognizes the “Farmland Assessment Act of 1969” as landmark legislation that paves the way for Utah’s farmers and ranchers to remain strong stewards of Utah’s private lands and waters.

BE IT FURTHER RESOLVED that the Legislature and the Governor commend previous legislatures for their commitment to uphold the Farmland Assessment Act.

BE IT FURTHER RESOLVED that the Legislature and Governor unitedly express support for the continued use of the Farmland Assessment Act.

NOTES TO WATER RIGHTS
ADDENDUM TO LAND DEEDS

Please read the following notes carefully in order to avoid problems and the possible loss of the water rights being conveyed in connection with this transaction.

The mere purchase of a water right does not guarantee: (1) that the water right is in good standing with the Utah Division of Water Rights; (2) that the owner has clear title to the water right; (3) that the Division will recognize the ownership change; or (4) that the Division will approve any proposed changes or extensions regarding the water right. You are encouraged to conduct proper “due diligence” research into any water right before purchasing it.

N1 Once this Water Rights Addendum and deed has been recorded at the County Recorder’s Office, the county recorder shall transmit a paper or electronic copy of the deed and water rights addendum to the state engineer. Water right deeds and addendum submitted in conformance with statute which names as the grantor the person listed as owner on state engineer records – shall be processed as though it were a completed report of water right conveyance. If the state engineer does not update water right ownership on records of the Division upon submittal of a Water Right Addendum and deed, a water right owner must submit a report of water right conveyance (ROC) as directed in Utah Code Section 73-1-10(3). Filing an ROC is necessary in order to: (1) have the Division's records updated with current ownership and address information; (2) file any application on these water rights; and (3) receive notifications concerning deadlines and other essential information pertaining to these rights. Help with reviewing the water rights and the ROC can be obtained from the Utah Division of Water Rights and/or water professionals, such as attorneys, engineers, surveyors, and title professionals with experience in water rights and water law.

N2 A water right often has one or more applications on file with the Utah Division of Water Rights that affect that water right, such as change applications, extension requests, and non-use applications. All applications will be transferred with the water right. The Grantee should review the water right applications and other documents on file with the Utah Division of Water Rights.

N3 Water rights owned by the Grantor and used on Grantor’s Parcel may be “appurtenant” to Grantor’s Parcel. Not all appurtenant water rights have been assigned a water right number because not all water rights are “of record.” If Section A is being completed, this conveyance includes all appurtenant water rights, whether or not they are listed by water right number or are of record; only water right numbers listed on the addendum will be updated. Grantee should investigate each water right listed and determine if there are any water rights that are not of record. If there are water rights not of record, Grantee should seriously consider making them of record by filing the
appropriate forms with the Utah Division of Water Rights.

N4 100% of the water rights listed here are being conveyed to Grantee. The Water Rights listed in Section B may not provide sufficient water for all of the historical water uses.

N5 Less than 100% of the water right listed is being conveyed to Grantee. The exact portion to be conveyed, expressed in terms of the beneficial uses associated with this portion of the water right must be described. This description generally consists of:

1. The number of families for domestic (indoor culinary) uses (generally quantified as 0.45 acre-feet per family for a year round residence and 0.25 acre-feet per family for a seasonal residence);
2. The number of acres irrigated (this involves issues of “irrigation duty” [the number of acre-feet of water allowed per acre of irrigated land] and “sole supply/supplemental supply” [the amount of water allocated to each water right when more than one right is used on the same land or for the same livestock]; and
3. The number of livestock being watered (expressed in terms of equivalent livestock units or “ELUs” which are quantified at the rate of 0.028 acre-feet per ELU for full-year use. Any other uses being conveyed should be similarly described. Help with understanding the described uses of the water right can be obtained from the Utah Division of Water Rights and/or water professionals.

N6 Shares of stock in water companies (including irrigation, canal, and ditch companies) are generally not transferred by deed. Each company has procedures for transferring ownership. The company should be contacted to ascertain the appropriate procedures to follow. The most common procedure is for the Grantor to endorse and deliver the stock certificate to the Grantee, who then presents that certificate to company for issuance of a new certificate in the Grantee’s name. If another procedure is to be followed, that should be noted on the “Other water related disclosures” line in Section C of this form. Each company also defines how much water is associated with a particular share and what fees and assessments are charged. The Grantee should contact the company about all such issues.

N7 If culinary water service is currently being provided to the Grantor’s Parcel by a municipality, a water district, or a water company, that entity should be listed here and the Grantee should contact that entity to ascertain what is required to continue receiving such service.

N8 If outdoor/secondary/irrigation water service is currently being provided to the Grantor’s Parcel by a municipality, a water district, or a water company, that entity should be listed here and the Grantee should contact that entity to ascertain what is required to continue receiving such service.

N9 If this box is checked, the Grantee should investigate what water IF ANY is available for use on the Grantor’s Parcel.

N10 This space should be used for any other information that the Grantor has which is relevant to water issues associated with the Grantor’s Parcel.

WHEREAS, 27 states and the District of Columbia have active legislation to make changes to their observance of daylight saving time, which is a strong indicator that states are displeased with the practice;

WHEREAS, notwithstanding state-level interest on the subject, states have limited authority to change whether or how they observe daylight saving time;

WHEREAS, current federal law prohibits a state from electing to observe daylight saving time year-round;

WHEREAS, multiple states have enacted legislation to observe daylight saving time year-round, including Florida and California, but that legislation requires congressional action to take effect;

1. an increased risk of deadly cardiovascular conditions, as evidenced by one study that found a 24% increase in the number of heart attacks on the Monday following a daylight saving time change;

JOINT RESOLUTION DIRECTING A STUDY OF BLOCKCHAIN TECHNOLOGY

Chief Sponsor: Michael K. McKell
Senate Sponsor: Daniel Hemmert

LONG TITLE
General Description:
This resolution directs a legislative study of blockchain technology.

Highlighted Provisions:
This resolution:
- recognizes the potential benefits and applications of blockchain technology; and
- directs the Business and Labor Interim Committee to study and make legislative recommendations regarding the potential benefits and value of blockchain technology, including potential uses in state government.

Special Clauses:
None

WHEREAS, blockchain is a decentralized distributed ledger technology that allows creation, validation, and encrypted transaction of digital assets to happen and be recorded in an incorruptible way;

WHEREAS, blockchain allows peer-to-peer and business-to-business transactions to be completed without the need for a third party, which is often a bank, effectively reducing transaction costs;

WHEREAS, recording transactions through blockchain virtually eliminates human error and protects the data from possible tampering;

WHEREAS, the global blockchain market is expected to be worth $20 billion by 2024, and 90% of major North American and European banks are exploring blockchain solutions;

WHEREAS, a hyperconnected government enables unprecedented transparency and efficiency where services are tailored to an individual's needs; and

WHEREAS, instead of using blockchain technology only for currency, new blockchain systems could focus on other types of transactions, such as exchanging titles for houses or cars, essentially decentralizing the infrastructure for these sales and making them faster and cheaper compared to what would normally be a slow complicated trudge through bureaucracy:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah directs that, before the 2020 Annual General Session, the Business and Labor Interim Committee study the potential benefits and value of blockchain technology, including the potential benefits and value it could provide to state government administration and affairs.

BE IT FURTHER RESOLVED that the Business and Labor Interim Committee, based on its study of blockchain technology, prepare any legislation it finds appropriate for consideration by the Legislature during the 2020 Annual General Session.

LONG TITLE
General Description:
This concurrent resolution urges Congress to extend Medicaid coverage beyond 15 days for services provided in certain settings to adults with serious mental illness.

Highlighted Provisions:
This resolution:
- urges Congress to extend Medicaid coverage beyond 15 days for services provided in certain settings to adults with serious mental illness.

Special Clauses:
None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the scope of medical and behavioral health care services covered by Utah's Medicaid program is determined in large measure by federal law;

WHEREAS, for many years, federal law has prohibited coverage of services provided to adults with serious mental illness in an institution for mental disease (IMD), which is an inpatient residential facility having more than 16 beds;

WHEREAS, the federal prohibition long ago achieved its intended purpose of shifting treatment of mental illness from IMDs to outpatient and small residential inpatient settings;

WHEREAS, in 2016, federal regulators authorized coverage of services provided in IMDs for up to 15 days in a month under certain circumstances;

WHEREAS, in 2016, federal regulators authorized coverage of services provided in IMDs for up to 15 days in a month under certain circumstances;

WHEREAS, treatment for more than 15 days in the Utah State Hospital, specialty psychiatric hospitals, or other IMDs is still the most medically appropriate intervention for a small number of Utahns who do not respond to outpatient treatment, inpatient treatment in a small residential setting, or short-term treatment in an IMD;

WHEREAS, many of these individuals are ravaged by the recurring effects of serious mental illness because they are unable to receive appropriate treatment in an IMD, due to the federal coverage limit;

WHEREAS, the federal government and the state of Utah unnecessarily expend significant sums of public revenue by repeatedly arresting, incarcerating, treating, and housing a small number of individuals who fail to receive
appropriate treatment for a serious mental illness; and

WHEREAS, society suffers when those who could be restored to a stable, fulfilling life go untreated due to outdated policies:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, urges Congress to extend Medicaid coverage beyond 15 days for services provided in an IMD to adults with serious mental illness.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to Utah’s congressional delegation and the United States Secretary of Health and Human Services.

CONCURRENT RESOLUTION REGARDING THE PUBLIC EMPLOYEES’ HEALTH PLANS

Chief Sponsor: Daniel Hemmert
House Sponsor: Norman K. Thurston

LONG TITLE

General Description:
This concurrent resolution directs the Public Employees’ Benefit and Insurance Program to offer certain benefits with respect to employee health benefit packages.

Highlighted Provisions:
This resolution:
> describes the state’s philosophy on compensation and benefit design for state employees;
> emphasizes the need for greater flexibility with respect to overall compensation design, including health benefit plans, offered to state employees; and
> directs the Public Employees’ Benefit and Insurance Program to:
  • allow employees, under certain circumstances, to elect that up to half of the amount that would otherwise go to the employee’s HSA be forwarded to the employee as cash;
  • maintain plans, premiums, and premium share percentages for the 2019-2020 plan year;
  • changes the name of the “Utah Basic Plus” plan to “Consumer Plus”; and
  • cover certain preventative chronic disease medications before the deductible in certain plans.

Special Clauses:
None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the state offers a competitive compensation package for employees that generally provides higher benefits than salary compared to other employers in the market;

WHEREAS, while many state employees prefer a higher level of benefits compared to salary, others may prefer more compensation in cash and less in benefits;

WHEREAS, the state desires to provide flexibility for employee compensation preferences as long as it does not alter the overall structure of compensation or result in higher costs to the state;

WHEREAS, the state currently offers state employees three health plan options, two of which are qualified high-deductible health plans for which the state provides a Health Savings Account (HSA) contribution to the employee as part of the benefit design;

WHEREAS, the state’s HSA contribution to an employee is not subject to federal or state tax nor is it countable as income for retirement, workers’ compensation, long-term disability, or other benefits;

WHEREAS, the combined amount of an employer HSA contribution and premium savings as compared to other available plan options should not exceed an employee’s deductible from an actuarial standpoint;

WHEREAS, the state’s HSA contribution and premium savings compared to the Traditional Plan exceed an employee’s deductible on the STAR Plan, which has resulted in a cap on the state’s HSA contribution and a reduction in the comparative value of the STAR Plan benefit; and

WHEREAS, data from the Public Employees’ Benefit and Insurance Program (PEHP) supports cost offsets in medical complications from increased medication adherence by covering certain preventative chronic medications before the deductible:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, directs PEHP to:

(1) create a flexible spending account to allow a state employee participating in a qualified high-deductible health plan to elect up to half of the allocation sent to PEHP as an HSA contribution to be forwarded to the employee rather than deposited into the employee’s HSA;

(2) require a state employee who requests any part of an HSA contribution in cash to agree as a condition of receiving the sum that:
  (a) the sum shall be treated as an employer benefit and thus not be counted toward retirement, workers’ compensation, long-term disability, or any other benefit; and
(b) the employee will be responsible for all taxes related to that sum, including any employer-related taxes; and

(3) distribute any cash-elected sum to state employees at the same time that HSA contributions are dispersed.

BE IT FURTHER RESOLVED that the Legislature and Governor direct PEHP to change the name of the plan currently known as “Utah Basic Plus” to “Consumer Plus.”

BE IT FURTHER RESOLVED that PEHP shall maintain the same plans, benefits, and employee premium share percentages for the 2019–2020 plan year that were available during the 2018–2019 plan year, except that PEHP shall identify and cover certain preventative chronic disease medications before the deductible for HSA STAR Plan members, subject to applicable cost sharing requirements that would otherwise apply.

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, most healthcare in Utah is paid for on a fee-for-service basis by which providers are paid for each activity they perform;

WHEREAS, fee-for-service rewards a provider for performing more services and discourages a provider from performing services not recognized as compensable by insurance;

WHEREAS, there are various potential approaches for value-based payment arrangements and some providers may prefer one approach to another; and

NOW, THEREFORE, BE IT RESOLVED that the Legislature, the Governor concurring therein, directs PEHP to:

(1) issue an RFP by July 1, 2019, for health care services using a value-based payment methodology;

(2) determine whether an RFP response:

(a) clearly and adequately defines the scope of proposed services and the intended population for those services;

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports market access to energy derived from advanced nuclear reactor facilities.

BE IT FURTHER RESOLVED that the Legislature and the Governor support the development of advanced nuclear facilities within the state, and when it serves Utah’s interests, within other states, as a means of ensuring that Utah has access to abundant, affordable, resilient, flexible, and clean energy that supports the state’s growing economy.
Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, in 2018, the Legislature enacted H.B. 3001, Utah Medical Cannabis Act, which provides for the cultivation, processing, medical recommendation, and patient use of medical cannabis;

WHEREAS, despite the legalization of medical cannabis under the Utah Medical Cannabis Act, cannabis plant extracts such as cannabidiol (CBD) and tetrahydrocannabinol (THC) are classified by federal law as Schedule I controlled substances;

WHEREAS, the classification of CBD and THC as Schedule I controlled substances makes using, prescribing, and dispensing these substances illegal under federal law;

WHEREAS, the illegality of cannabis under federal law further restricts the ability for a cannabis business operating legally under state law to access banking services from United States or state-chartered financial institutions;

WHEREAS, in July 2015, the United States Federal Reserve System denied a Colorado credit union access to its payment systems, sparking a lawsuit in which the court upheld the Federal Reserve’s claim that, given the illegality of cannabis at the federal level, the credit union did not have the right to insert state cannabis money into the federal banking system;

WHEREAS, the outcome of this case indicates that:

• courts will defer to the Federal Reserve’s significant control over access to its payment systems; and

• states are not able to circumvent federal statutes in order to solve the problem of cannabis banking simply by chartering and endorsing special financial institutions;

WHEREAS, any industry conducting its business entirely in cash cannot be fairly taxed or regulated, and has historically been associated with unlawful activity, such as money laundering and increased threats to the security of the business and its patrons;

WHEREAS, the Utah Medical Cannabis Act will inevitably involve financial transactions between cultivators, producers, medical cannabis pharmacies, and users of medical cannabis, and the ensuing medical cannabis industry in Utah will require access to financial services;

WHEREAS, while some financial institutions may be willing to risk breaking federal law in order to provide much-needed banking services to medical cannabis businesses, many remain reluctant to take such a risk; and

WHEREAS, it is in the best interest of all Utahns that Utah’s financial institutions provide banking services to support the medical cannabis industry and patients under the Utah Medical Cannabis Act:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, strongly encourage the President of the United States and Congress to remove the barriers that prohibit the medical cannabis industry from legally accessing banking services.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the President of the United States, each member of Utah’s congressional delegation, the National Conference of State Legislatures, and the Governors’ Association.

This concurrent resolution supports the export of liquefied natural gas (LNG) as an opportunity to realize economic development in rural communities and tribal nations and to promote Utah’s natural gas production as a key contributing resource for economic growth, national security, and as a cost-effective, reliable, and safe energy source.

Highlighted Provisions:
This resolution:

• recognizes the potential for natural gas production increasing in the United States;
• recognizes the role that Utah can play in growing the economy and protecting our national security through energy supplies;
• recognizes that natural gas is produced in an environmentally safe way and is an efficient use of energy;
• recognizes the strategic role of rural communities and the Ute and Navajo Tribal Nations in the development and production of energy resources in Utah;
• recognizes the benefits additional natural gas production in Utah will create;
• recognizes various LNG export terminals, such as the Jordan Cove LNG export terminal;
• supports the export of LNG and petroleum products as a way to provide economic development opportunities to rural Utah; and
• supports LNG export terminals to export Utah natural gas to international markets.

Special Clauses:
None
Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the State of Utah supports an “all of the above” energy policy and the responsible development and marketing of its abundant energy and mineral resources, including natural gas, petroleum, and coal;

WHEREAS, the potential for natural gas production in the United States has increased substantially due to technological advancements in oil and natural gas extraction methods;

WHEREAS, abundant associated gas from oil production and increasing natural gas production in Utah and throughout the United States continue to keep natural gas prices low and oversupply and low pricing are creating an increased demand for United States natural gas in Asia and other international markets for export as LNG;

WHEREAS, due to the demand for LNG globally, Utah has an opportunity to maintain its position as a net exporter of energy and a leader in energy production and innovation in the region;

WHEREAS, Utah can play a key role in growing the American economy and in securing our national security through energy exports, infrastructure development, stakeholder engagement and outreach;

WHEREAS, natural gas is produced in an environmentally safe and friendly way and is an efficient use of energy, and ample supplies of natural gas are available from domestic resources, such as in Utah;

WHEREAS, Utah’s rural communities have long produced the energy necessary to drive Utah’s fast and diverse growing urban economy, Utah can now provide the energy necessary for developing nations in Asia and India to the largest emerging middle class for its residential, commercial, manufacturing, and medical advancements;

WHEREAS, many of these energy-producing rural communities in Utah have not always enjoyed the same shared prosperity that has come with Utah’s tremendous economic growth in recent decades due to “stranded resource assets” or a lack of access to United States and international markets due to the lack of railway, highway, and pipeline infrastructure directly connected to west coast and gulf coast markets;

WHEREAS, additional natural gas production in Utah will create high paying jobs, attract capital investment, provide federal, state, and local revenues derived from federal mineral royalties and state severance taxes collected on natural gas production and royalties for Utah School Trust Lands Administration, whose major beneficiaries include Utah’s school children;

WHEREAS, Utah has an interest in collaborating with the Ute and Navajo Tribal Nations on initiatives, such as the Western States and Tribal Nations Rural Natural Gas Initiative, that advance the shared interests of the state of Utah and the Ute and Navajo Tribal Nations in the responsible development and marketing of their respective natural resources; and

WHEREAS, a west coast LNG export terminal, such as Oregon’s proposed Jordan Cove LNG export terminal would directly connect Utah’s resources to new energy markets through the Ruby Pipeline, LNG terminals in Mexico could directly connect Utah natural gas to new markets through the Kern River Pipeline, and LNG terminals in the gulf coast of Texas and Louisiana will continue to alleviate negative pricing pressure for natural gas in the Rocky Mountains and reduce oversupply into this region:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports LNG exports as a way to increase oil production and natural gas production in Utah, so that Utah’s rural communities can take an active part in, and receive the benefits of Utah’s global economic development.

BE IT FURTHER RESOLVED that the Legislature and the Governor support LNG export terminals to export Utah natural gas to international markets.
right claims for the portion of the Navajo Nation located in southeastern Utah;

WHEREAS, representatives of the state of Utah, the Navajo Nation, and the United States have negotiated a proposed settlement agreement in good faith;

WHEREAS, the proposed settlement agreement creates a water development fund that will finance future projects that will supply drinking water to those portions of the Navajo Nation located within Utah;

WHEREAS, the proposed settlement agreement involves an amount of water and other provisions to minimize the impact of the settlement agreement on Utah water rights, particularly municipal rights, and to assure that the water needed for the settlement agreement fits within Utah’s allocation from the Colorado River;

WHEREAS, in exchange for providing most of the funds for construction of the drinking water projects that the settlement agreement contemplates, the United States receives a valuable waiver of claims related to water and lands located within Utah;

WHEREAS, when the settlement agreement is ratified by the Legislature, the Navajo Nation, and the United States Congress, it will have the effect of law to resolve all controversies with regard to water right claims by the Navajo Nation and its members in Utah;

WHEREAS, this resolution does not constitute the Legislature’s ratification of the settlement agreement;

WHEREAS, in consideration of the promises made in and the value received from the settlement agreement, the state of Utah will be required to contribute to the water development fund identified in the settlement agreement;

WHEREAS, the amount of the state of Utah’s contribution is currently projected to be approximately $8 million;

WHEREAS, the state of Utah has established a Navajo Water Rights Negotiation Account, into which money has been deposited in anticipation of the settlement agreement’s ratification;

WHEREAS, at the present time, the Legislature prefers not to encumber additional funds for the settlement agreement, recognizing these funds will likely not be expended during the upcoming fiscal year;

WHEREAS, the state of Utah maintains a rainy day fund that contains sufficient money that could be used to fulfill its settlement agreement obligations, if necessary; and

WHEREAS, in the 116th Congress, Congressman Rob Bishop has introduced H.R. 644 “Navajo Utah Water Rights Settlement Act of 2019” to ratify the settlement agreement on behalf of the United States Congress:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, declares support for the negotiated settlement agreement of federal reserved water rights claims, particularly the state of Utah/Navajo Nation Reserved Water Rights Settlement Agreement proposed by a negotiating committee composed of representatives of the Navajo Nation, the state of Utah, and the United States.

WHEREAS, the state of Utah is a public lands state and is committed to perpetually remaining a public lands state;

WHEREAS, Utah’s public lands are unparalleled in their beauty, solitude, ecosystems, abundant natural resources, and productivity;

WHEREAS, Utah’s public lands are for all those who visit and recreate in the state, but the decisions made regarding public lands management and use directly impact the people of Utah;

WHEREAS, the Recommended State Water Strategy found that water banks could facilitate voluntary temporary transfers and provide increased transparency regarding the nature and costs of such transactions;

WHEREAS, a water bank facilitates the temporary transfer of water by allowing water users to “deposit” unused water into the bank in years when they do not need it so that other users in the region can lease the water for lawful purposes;

WHEREAS, the Recommended State Water Strategy recommended the establishment of “water banking procedures through legislative action that could allow flexibility in the availability of water for various uses in a particular drainage system depending on needs and availability”;

(v) include the dates, deadlines, and other requirements described in Subsection (3)(a)(i) through (iv) in the proclamation described in Subsection (1)(a); and

(vi) establish a deadline that is not fewer than seven days after the day on which the vacancy occurs by which a new political party is required to submit signatures under Section 20A-8-103 to participate in an election to fill the vacancy.

(b) When setting the dates of the primary and general elections under Subsection (3)(a)(i), the governor shall give priority to holding the elections on the dates of other regularly scheduled primary or general elections.

(c) The candidate who wins the general election described in Subsection (3)(a)(i) shall fill the vacancy for the remainder of the term.

(4) If, for any reason, a candidate vacancy occurs in a special congressional election at least one day before the day on which the lieutenant governor certifies the names to be included on the special congressional election ballot, the registered political party of the candidate shall certify a replacement candidate to the lieutenant governor before a deadline established by the lieutenant governor.

(5) A vacancy in the office of United States representative does not occur unless the representative:

(a) has left the office; or

(b) submits an irrevocable letter of resignation to the governor or to the speaker of the United States House of Representatives.
Dear President Adams and Speaker Wilson,

I have vetoed SB 123, Election Process Amendments. Compared to how candidates are selected in our regular Congressional elections, this bill significantly limits participation and choice in elections to fill vacancies in the United States House of Representatives and therefore limits the ability of Utah voters to choose their Congressional representatives. I am also concerned that the replacement process for the United States Senate identified in SB123 creates ambiguities by failing to explain how the entire Legislature will forward three names to the Governor.

Utah law provides multiple paths to the ballot for partisan elections: a political party convention and signature gathering being the most common. These options have been embraced by the majority of Utah voters as providing reasonable alternatives to access the ballot.

Although most general election candidates are chosen through the party convention process, recent election results demonstrate that Utah primary voters appreciate the choice afforded by both the political party convention method and the signature gathering method for candidate selection. For example, John Curtis, who ultimately won the Republican primary for the special election in Utah’s third congressional district, got his name onto the Republican Party primary ballot because he gathered signatures.

The caucus system has been preserved in Utah law and remains a strong, critical component of Utah elections. Recent changes in Utah law add to that foundation and give candidates the choice to pursue one or more options. That system is working well for both candidates and voters. SB123 establishes a different system that removes choices from candidates and from the voters.

For these reasons, I have vetoed SB123. I look forward to working with the Legislature on a Congressional vacancy replacement procedure that reflects our general election process.

Sincerely,

Gary R. Herbert

Dear President Adams and Speaker Wilson:

This letter serves to inform you that on April 3, 2019, I signed SB 3, Appropriations Adjustments with the following vetoes.

- Item 98, lines 884-890. This is an appropriation for a bill that did not pass.
- Item 136, lines 1148-52. This intent language is for a sound barrier at an address that does not exist along Mountain View Corridor.

Dear Speaker Wilson and President Adams,

I have allowed HB 220, Radioactive Waste Amendments to become law without my signature.

I have had reservations about how this legislation came forward. Nonetheless, I recognize the need to address challenges of dealing with modifying standards at the federal Nuclear Regulatory Commission by creating a robust site-based performance assessment standard for Utah. This bill does that.

Most importantly, before depleted uranium can be accepted and stored in Utah, this bill requires the federal government to accept long-term care and maintenance of the waste.

Public safety is my primary concern with the issue of radioactive waste. With the modifications that have been made to this bill, I believe public safety is protected and it will be more difficult for depleted uranium to come into Utah than under current law.

Sincerely,

Gary R. Herbert
Governor
Dear President Adams  
President of the Senate  
and  
The Honorable Brad Wilson  
Speaker of the House  

Dear President Adams and Speaker Wilson:

I have allowed SB154, Utah Communications Authority Amendments, to become law without my signature.

SB154 helps Utah take an important step toward implementation of Next Generation 911. This will provide first responders with better information about the location of 911 callers. In turn, that will help first responders locate and provide life-saving services to injured people.

Public safety is, and has always been, a focus of my administration. Government must make appropriate investments to keep residents safe and to respond when emergencies do occur. Because the stakes are so high with Next Generation 911 and because our 911 systems need critical upgrades, I agree that SB154 should become law.

However, the Utah Communications Authority should do more in coming months to articulate a clear business case including performance measures, the need for a 178% increase in the statewide 911 emergency service charge, and a plan to incorporate improvements resulting from this bill into the overall 911 structure.

I look forward to working with the Utah Communications Authority and other stakeholders on these critical issues.

Sincerely,

Gary R. Herbert

Dear President Adams and Speaker Wilson:

I have allowed SB187, County Planning and Services Amendments, to become law without my signature.

What was originally intended to be a one-year project will now extend to a total of six years.

I strongly encourage the Mountain Planning District to complete its work in as timely a manner as possible.

Sincerely,
