REPEALS AND REENACTS:

53F-2-304, as last amended by Laws of Utah 2021, Chapter 439

Be it enacted by the Legislature of the state of Utah:

Section 1. Section 53F-2-304 is repealed and re-enacted to read:

53F-2-304. Weighted pupil units for students in rural school districts and necessarily existent small schools.

(1) As used in this section:

(a) "Necessarily existent small school" means a school that:

(i) is located in an area with a National Center for Education Statistics locale code of 33 or higher;

(ii) is located more than 10 miles from an area with a National Center for Education Statistics locale code of 21 or less;

(iii) is not an online school, specialty school, technical school, alternative school, or charter school; and

(iv) has an average daily membership less than or equal to:

(A) 27 in any individual grade band kindergarten through 6; or

(B) 125 in any individual grade band 7 through 12.

(b) "Scale of operations" means a cost function analysis conducted by the state board to determine the relative higher cost of providing educational services for students enrolled in smaller school districts when compared to larger school districts.

(2) (a) The state board shall adopt a formula to calculate additional weighted pupil units using a two-factor distribution described in Subsection (2)(b).

(b) The two-factor distribution shall be the sum of a scale of operations weighting and a rural-school weighting as follows:

(i) a scale of operations weighting that provides up to 1.5 weighted pupil units based on the cost function analysis the state board conducts and for each student enrolled in:

(A) a school district in a county of the fourth, fifth, or sixth class as described in Section 17-50-501; or

(B) a school district in a county of the third class as described in Section 17-50-501with fewer than 2,000 students; and

(ii) a rural-school weighting for each necessarily existent small school that provides weighted pupil units for each grade band from kindergarten to grade 6 offered:

(A) with five or fewer students, a base of nine weighted pupil units;

(B) for each student above five students but fewer than 12 students, one additional weighted pupil unit for each additional student above five; and

(C) for each student above 12 students, one less weighted pupil unit for each additional student; and

(iii) a rural-school weighting for each necessarily existent small school that provides weighted pupil units for each grade band from

grade 7 to grade 12 offered:

(A) with five or fewer students, a base of nine weighted pupil units;

(B) for each student above five students but fewer than 61 students, one additional weighted pupil unit for each additional student above five;

(C) for each student above 61 students, one less weighted pupil unit for each additional student; and

(D) for each necessarily existent small school with 15 or fewer students, the state board may provide the base level of nine weighted pupil units for each grade band offered.

(c) If any grade band under Subsection (2)(b) generates negative weighted pupil units, the weighted pupil units for that grade band shall be zero.

(d) The funding for a student who falls within the weighting factors described in Subsections (2)(b)(i) and (2)(b)(ii) shall be computed under both weighting factors.

(3) In accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, the state board shall make rules to:

(a) establish the formula described in Subsection (2) including the scale of weighted pupil units described in Subsection (2)(b)(i) by:

(i) conducting a cost function analysis measuring the scale of operations weighting including factors identified by the state board for each small and rural school district compared to all school districts;

(ii) determining a weighting relative to the cost function prediction for each school district that is above the minimum prediction for all school districts;

(iii) establishing a percentile cutoff for a full weighted pupil unit that:

(A) provides a full weighting for districts enrolling fewer than 1,100 students; and

(B) provides no scale of operations weighting described in Subsection (2)(b)(i) for school districts enrolling greater than seven times the full-weight cutoff; and

(iv) based on the cost function analysis, establishing a gradually reduced weighted pupil unit for each school district above the percentile cutoff established;

(b) establish a timeline for the distribution of funds to school districts provided under this section; and

(c) for fiscal year 2030 and subsequently each fifth fiscal year:

(i) revise the:

(A) scale of operations weightings;

(B) county classifications; and

(C) relevant National Center for Education Statistics locale codes; and

(ii) report the results to the Public Education Appropriations Subcommittee by October 1 of the relevant fiscal years including recommendations for any change to the scale of operations or rural-school weightings for each school district.

(4) A local school board shall use money distributed under this section to effectively operate schools in remote areas of the state and with low student populations.

(5) If an allocation under this section to a school district would be less than the allocation the school district received for necessarily existent small schools in the 2025 fiscal year, the Executive Appropriations Committee shall:

(a) include a one-time appropriation in the public education budget to provide the 2025 fiscal year amount to the school district in the 2026 fiscal year; and

(b) decrease the amount described in Subsection (5)(a) to zero in the 2027 fiscal year.

(6) During each five year review described in Subsection (3)(c):

(a) if a school or school district no longer qualifies under the criteria described in Subsection (2), the state board shall:

(i) review the conditions causing the school or school district to no longer qualify;

(ii) if the school or school district has an average daily membership increase of no more than 10% over the preceding five years, allow the school or school district to remain eligible for funding in an amount that is at least equivalent to the amount the school or school district received in the current fiscal year under this section; and

(iii) if the school or school district has an average daily membership increase of more than 10% but less than 30% over the preceding five years, make recommendations to the Public Education Appropriations Subcommittee regarding an extension of the funding received under this section; and

(b) if a school district is receiving an extension of funds as described in this Subsection (6), the state board shall:

(i) review the necessity and impacts of continued eligibility; and

(ii) make recommendations to the Public Education Appropriations Subcommittee regarding the renewal of eligibility.

(7) If, after the review described in Subsection (6), a school or school district no longer qualifies for funding under this section, the Executive Appropriations Committee shall:

(a) include a one-time appropriation in the public education budget to provide the same amount of funding the school district received in the preceding fiscal year; and

(b) decrease the amount to zero in the next fiscal year.

(8) (a) A school district that intends to split a school that qualifies as a necessarily existent small school or has qualified as a necessarily existent small school within the past five years shall submit a proposal to the state board for review and approval.

(b) The school district proposal shall include:

(i) the current enrollment and projected enrollment for the next five years for the existing school and the proposed new school;

(ii) a detailed explanation of the educational and operational reasons for the proposed split;

(iii) an analysis of the financial impact on the district and the state, including any changes in necessarily existent small school funding that would result from the split;

(iv) a plan for ensuring that educational quality will be maintained or improved in both the existing and new school; and

(v) any other information requested by the state board.

(c) The state board shall review the proposal and may:

(i) approve the proposal if the state board determines that the split is educationally and operationally necessary and not primarily motivated by financial considerations related to necessarily existent small school funding;

(ii) deny the proposal if the state board determines that the split is unnecessary or primarily motivated by financial considerations related to necessarily existent small school funding; or

(iii) request additional information or modifications to the proposal before making a final decision.

(d) If the state board approves the proposal, the state board shall submit a report to the Public Education Appropriations Subcommittee, which shall include:

(i) summary of the approved proposal;

(ii) the state board's rationale for approving the proposal; and

(iii) any recommended changes to necessarily existent small school funding allocations resulting from the approved split.

(e) The Public Education Appropriations Subcommittee shall review the state board's report and may:

(i) approve the funding changes recommended by the state board;

(ii) modify the funding changes; or

(iii) deny the funding changes and require the school district to maintain the current funding allocation.

(f) (i) Subject to Subsection (8)(f)(ii), a school district may split a school that qualifies as a necessarily existent small school or has qualified as a necessarily existent small school within the past five years without submitting a proposal as described in this Subsection (8).

(ii) If a school district proceeds with splitting a necessarily existent small school without applying for or receiving approval from both the state board and the Public Education Appropriations Subcommittee, the schools created from the split may not qualify as necessarily existent small schools.

(g) The state board shall make rules in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, to establish:

(i) the timeline and procedures for submitting and reviewing proposals;

(ii) criteria for evaluating the necessity and appropriateness of proposed school splits;

(iii) requirements for post-approval monitoring and reporting by a school district that has split a necessarily existent small school; and

(iv) any other provisions necessary to implement this subsection.

73-32-202, as enacted by Laws of Utah 2023, Chapter 205

Be it enacted by the Legislature of the state of Utah:

Section 1. Section 59-5-203 is amended to read:

59-5-203. Determining taxable value.

(1) Except as provided in Subsection (3), the basis for computing the gross proceeds, prior to those deductions or adjustments specified in this chapter, in determining the taxable value of the metals, metalliferous minerals, or metalliferous compounds, as defined in Subsection 59-5-202(5), sold or otherwise disposed of, in the order of priority, is as follows:

(a) If the metals, metalliferous mineral products, or metalliferous compounds are actually sold, the value of those metals, metalliferous mineral products, or metalliferous compounds shall be the gross amount the producer receives from that sale, provided that the metals, metalliferous mineral products, or metalliferous compounds are sold under a bona fide contract of sale between unaffiliated parties. In the case of a sale of uranium concentrates, gross proceeds shall be the gross amount the producer receives from the sale of processed uranium concentrate or "yellowcake," provided that the uranium concentrate is sold under a bona fide contract of sale between unaffiliated parties.

(b) (i) For purposes of a Great Salt Lake extraction operator, as defined in Section 59-5-202, if metals, metalliferous minerals, or metalliferous compounds are not sold, but are otherwise disposed of, the gross proceeds shall be the multiple of the recoverable units of finished or unfinished metals, or of the finished or unfinished metals contained in the metalliferous minerals or metalliferous compounds shipped, and the average daily price per unit of contained metals as quoted by an established authority for market prices of metals for the period during which the tax imposed by this chapter is due.

(ii) The established authority or authorities under this Subsection (1)(b) shall be designated by the commission by rule adopted in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act.

(c) (i) If the metals, metalliferous mineral products, or metalliferous compounds are not actually sold but are shipped, transported, or delivered out of state, the gross proceeds shall be the multiple of the recoverable units of finished metals, or of the finished metals contained in the metalliferous minerals or metalliferous compounds shipped, and the average daily price per unit of contained metals as quoted by an established authority for market prices of metals for the period during which the tax imposed by this chapter is due.

(ii) The established authority or authorities shall be designated by the commission by rule adopted in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act.

(d) In the case of metals, metalliferous minerals, or metalliferous compounds not sold, but otherwise disposed of, for which there is no established authority for market prices of metals for the period during which the tax imposed by this chapter is due, gross proceeds is determined by allocating to the state the same proportion of the producer's total sales of metals, metalliferous minerals, or metalliferous compounds sold or otherwise disposed of as the producer's total Utah costs bear to the total costs associated with sale or disposal of the metal [~~or~~], metalliferous mineral [-], or metalliferous compound.

(e) In the event of a sale of metals, metalliferous minerals, or metalliferous compounds between affiliated companies which is not a bona fide sale because the value received is not proportionate to the fair market value of the metals, metalliferous minerals, metalliferous compounds or in the event that Subsection (1)(a), (b), (c), or (d) are not applicable, the commission shall determine the value of such metals, metalliferous minerals, or metalliferous compounds in an equitable manner by reference to an objective standard as specified in a rule adopted in accordance with the provisions of Title 63G, Chapter 3, Utah Administrative Rulemaking Act.

(2) For all metals except beryllium, the taxable value of the metalliferous mineral sold or otherwise disposed of is 30% of the gross proceeds received for the metals sold or otherwise disposed of by the producer of the metal.

(3) Notwithstanding Subsection (1) or (4), the taxable value of beryllium sold or otherwise disposed of by the producer of the beryllium is equal to 125% of the direct mining costs incurred in mining the beryllium.

(4) Except as provided in Subsection (3), if the metalliferous mineral sold or otherwise disposed of is sold or shipped out of state in the form of ore, then the taxable value is 80% of the gross proceeds.

Section 2. Section 63G-6a-107.6 is amended to read:

63G-6a-107.6. Exemptions from chapter.

(2) (a) Mineral leases, including oil, gas, and hydrocarbon leases, may be issued for prospecting, exploring, developing, and producing minerals covering any portion of state lands or the reserved mineral interests of the state.

(b) (i) Leases may be issued for different types of minerals on the same land.

(ii) If leases are issued for different types of minerals on the same land, the leases shall include stipulations for simultaneous operations, except that for leases related to the Great Salt Lake the leases shall include stipulations for simultaneous operations that will not interfere with, impede, limit, or require changes to pre-existing rights.

(c) No more than one lease may be issued for the same resource on the same land.

(d) The division shall require a separate royalty agreement for extraction of Great Salt Lake elements or minerals from brines of the Great Salt Lake when:

(i) a mineral lease, a royalty agreement, or both that are in effect before the operator seeks to extract a particular Great Salt Lake element or mineral do not expressly include the right to extract the particular Great Salt Lake element or mineral; or

(ii) the proposed operation will use brines from the Great Salt Lake, but will not occupy sovereign lands for the direct production of Great Salt Lake elements or minerals other than for incidental structures such as pumps and intake and outflow pipelines.

(3) (a) Each mineral lease issued by the division shall provide for an annual rental of not less than $1 per acre per year, except that a mineral lease issued by the division involving the extraction of a Great Salt Lake element or mineral from brines in the Great Salt Lake shall provide for an annual rental of not less than $100 per acre per year.

(b) However, a lease may provide for a rental credit, minimum rental, or minimum royalty upon commencement of production, as prescribed by rule.

(4) The primary term of a mineral lease may not exceed:

(a) 20 years for oil shale and tar sands; and

(b) 10 years for oil and gas and any other mineral.

(5) (a) In addition to the requirements of Chapter 17, Part 3, Mineral or Element Extraction, and subject to the other provisions of this Subsection (5), for a mineral lease or royalty agreement involving the extraction of Great Salt Lake elements and minerals from brines in the Great Salt Lake, the division shall ensure that the following terms, as applicable, are included:

(i) an extraction operation or extraction method shall adhere to commercially viable technologies that minimize water depletion;

(ii) a provision authorizing the division to curtail or limit Great Salt Lake element or mineral production at any time the condition of the Great Salt Lake reaches the emergency trigger, as defined in Section 65A-17-101;

(iii) a provision authorizing the division to withdraw lands, operations, extraction methods, or technologies from Great Salt Lake element or mineral production or Great Salt Lake element or mineral operations;

(iv) a provision allowing the division to require an existing operator to use commercially viable, innovative technologies to minimize water depletions caused by the planned mineral extraction as a condition of continued operations if the technology:

(A) has been successfully implemented on a commercial scale in similar circumstances;

(B) has been shown to be economically viable; and

(C) is reasonably compatible with the operator's overall extraction process; and

(v) a provision that provides for the reductions of the following after the primary term of a mineral lease or royalty agreement:

(A) the acreage subject to the mineral lease by the acreage the operator does not use to extract a Great Salt Lake element or mineral during the primary term of the mineral lease under conditions that do not constitute waste, as defined in Section 65A-17-101; and

(B) the volume of water that the operator may divert from the Great Salt Lake, by the volume of water that the operator does not use during the longer of the primary term of the mineral lease or seven years if the operator fails to use the volume of water for a beneficial use, except if the failure to use the volume of water is as a result of a reduction of water usage under Section 73-33-201 or is excused under Section 73-1-4.

(b) If under Subsection (5)(a)(iv) the division requires an existing operator to use a commercially viable, innovative technology, the division may not require use of a technology not yet proven to be commercially viable on the Great Salt Lake and may not require implementation of the technology to begin until after a reasonable period determined by the division that is at least five years but does not exceed seven years.

(c) (i) If the volume of water that the operator may divert from the Great Salt Lake is reduced under Subsection (5)(a)(v), the division shall pursue a judicial action to declare all or a portion of the water right forfeited under Subsection 73-1-4(2).

(ii) If the division secures the reduction under this Subsection (5)(c), the division shall petition the state engineer to order a reversal of the application approval in accordance with the terms of the reduction or forfeiture of the water right.

(iii) Nothing in this Subsection (5) modifies or otherwise affects Section 73-1-4 or 73-3-30.

(6) (a) Before issuing a royalty agreement under Subsection (2)(d), the division may require an operator to engage in a feasibility assessment and may issue a royalty agreement without compliance of Subsection (5)(a) if the agreement:

(i) has a term of 12 months or less; and

(ii) [~~limits use of~~]requires a minimum use of five acre-feet of brines from the Great Salt Lake [~~to a maximum of five acre-feet~~] during the term of the agreement.

(b) Subsection (6)(a)(ii) requiring a minimum use of five acre-feet of brines from the Great Salt Lake does not apply to an operator who filed an application with the division for a feasibility assessment before January 1, 2025.

[~~(b)~~](c) The division may make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, for implementing this Subsection (6).

(7) (a) Upon nomination from a prospective operator, the division shall by rule, made in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, establish a royalty rate and calculation methodology for a Great Salt Lake element or mineral that:

(i) provides for a full and fair return to the state from the production of the Great Salt Lake element or mineral;

(ii) is consistent with market royalty rates applicable to the production of the Great Salt Lake element or mineral or of the production of oil and gas;

(iii) provides a base royalty rate;

(iv) provides a reduced royalty rate from the royalty rate under Subsection (7)(a)(iii) if the royalty agreement:

(A) relates to a non-evaporative method of producing the Great Salt Lake element or mineral; or

(B) provides an incentive to use commercially viable, innovative technology to minimize water depletion and evaporation as determined by the division;

(v) provides a reduced royalty rate from the royalty rate under Subsection (7)(a)(iii) if the prospective operator for the extraction of lithium demonstrates to the satisfaction of the division that the prospective operator has an agreement with a person who will process or manufacture a product in this state, exclusive of any primary or secondary lithium processing or manufacturing, using the lithium extracted by the prospective operator; and

(vi) subject to Subsection (7)(e), provides for a royalty rate that is based on the highest market value prevailing at the time of the sale or disposal of the following:

(A) the Great Salt Lake element or mineral; or

(B) a product the lessee produces from the Great Salt Lake element or mineral.

(b) Before entering into a royalty agreement permitting the extraction of Great Salt Lake elements or minerals, the operator shall:

(i) demonstrate the proposed operation's commercial viability;

(ii) certify before operation begins that the operator is not negatively impacting the biota or chemistry of the Great Salt Lake; and

(iii) obtain the approval of the division and the Department of Environmental Quality that the certification supports a finding that the operation will not negatively impact the biota or chemistry of the Great Salt Lake.

(c) A new mineral lease for a Great Salt Lake element or mineral in production in the Great Salt Lake as of May 3, 2023, is subject to new royalty rates due to emergent technologies.

(d) An operator who as of July 1, 2020, had a mineral lease with the division but not a royalty agreement and who is subject to a severance tax under Subsection 59-5-202(5) shall pay a royalty under this section in addition to the severance tax.

(e) The royalty rate described in Subsection (7)(a)(vi) may not be reassessed during the primary term of an initial royalty agreement issued under this section, but may be reassessed upon the conclusion of the primary term.

(8) (a) Except as provided in Subsection (8)(b), an operator who extracts a Great Salt Lake element or mineral from tailings from the production of Great Salt Lake elements or minerals from brines in the Great Salt Lake is subject to this section to the same extent as an operator producing a Great Salt Lake element or mineral from brines in the Great Salt Lake.

(b) An operator that, as of May 3, 2023, has an agreement to recover a Great Salt Lake element or mineral from existing tailings, discarded material, end-use products, or waste products produced from the evaporation and processing of Great Salt Lake brines is not subject to this section, except as to the payment of royalties set by the division under Subsection (7)(a). The division shall make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, regarding the issuance and termination of a royalty agreement for mineral extraction from tailings, discarded material, end-use products, or waste products produced from the evaporation and processing of Great Salt Lake brines.

(c) An operator that, as of May 3, 2023, has an underlying agreement to recover a Great Salt Lake element or mineral shall obtain an additional agreement for any additional Great Salt Lake element or mineral produced from the tailings, discarded material, end-use products, or waste products newly produced under the underlying agreement. The additional agreement is subject to this section.

(9) The division shall annually report to the Natural Resources, Agriculture, and Environmental Quality Appropriations Subcommittee regarding the amount of money collected under this section from royalties provided for in Subsection (7).

(10) (a) In the issuance of royalty agreements for the extraction of lithium from the Great Salt Lake, the division shall prioritize applicants that do not use evaporative concentration of Great Salt Lake brines in any stage of the extractive process.

(b) The division may make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, creating a process for implementing this Subsection (10).

(11) Except in relationship to mineral leases related to the Great Salt Lake, the division shall make rules regarding the continuation of a mineral lease after the primary term has expired, which shall provide that a mineral lease shall continue so long as:

(a) the mineral covered by the lease is being produced in paying quantities from:

(i) the leased premises;

(ii) lands pooled, communitized, or unitized with the leased premises; or

(iii) lands constituting an approved mining or drilling unit with respect to the leased premises; or

(b) (i) the lessee is engaged in diligent operations, exploration, research, or development which is reasonably calculated to advance development or production of the mineral covered by the lease from:

(A) the leased premises;

(B) lands pooled, communitized, or unitized with the leased premises; or

(C) lands constituting an approved mining or drilling unit with respect to the leased premises; and

(ii) the lessee pays a minimum royalty.

(12) For the purposes of Subsection (11), diligent operations with respect to oil, gas, and other hydrocarbon leases may include cessation of operations not in excess of 90 days in duration.

(13) (a) The division shall study and analyze each mineral lease and mineral royalty agreement issued on the Great Salt Lake and compare and evaluate whether the mineral leases and royalty agreements are representative of current market conditions. As part of this study, the division shall:

(i) make the following determinations for mineral leases:

(A) whether the entire surface area described within the mineral lease is being used; and

(B) whether the annual lease payments are representative of current market conditions; and

(ii) for royalty agreements, perform studies and comparative analyses to determine whether the state is receiving royalty rates consistent with current market conditions.

(b) By no later than the 2023 November interim meeting, the division shall report the division's findings of the study required by this Subsection (13) to the Natural Resources, Agriculture, and Environment Interim Committee.

(14) The division may make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, for implementing this section.

(15) The provisions in this section related to extraction of a Great Salt Lake element or mineral under a mineral lease or royalty agreement apply to a mineral lease or royalty agreement in effect on May 1, 2024, and any mineral lease or royalty agreement entered into after May 1, 2024.

Section 4. Section 65A-17-201 is amended to read:

65A-17-201. Great Salt Lake -- Management responsibilities of the division.

The division has the following powers and duties:

(1) The division shall make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, for the management of the Great Salt Lake that recognize the division's duty to manage public trust assets and balance the following public interest benefits and policies:

inspection of the brine mining operation at which the alleged violation is occurring, unless the information available to the division is a result of a previous inspection of the brine mining operation.

(b) (i) If, on the basis of an inspection, the division determines that a condition or practice exists, or that a permittee is in violation of this chapter, an order issued under this chapter, a rule made under this chapter, or a permit condition required by this chapter, and the condition, practice, or violation creates an imminent danger to the health or safety of the public, or is causing, or can reasonably be expected to cause significant, imminent environmental harm to land, air, or water resources, the division shall immediately order cessation of brine mining operations or the portion of brine mining operations relevant to the condition, practice, or violation.

(ii) The cessation order shall remain in effect until the division determines that the condition, practice, or violation is abated, or until the division modifies, vacates, or terminates the order.

(iii) If the division finds that the ordered cessation of brine mining operations, or a portion of the brine mining operations, does not completely abate the imminent danger to the health or safety of the public or the significant imminent environmental harm to land, air, or water resources, the division shall, in addition to the cessation order, impose affirmative obligations on the operator requiring the operator to take whatever steps the division considers necessary to abate the imminent danger or the significant environmental harm.

(c) (i) If, on the basis of an inspection, the division determines that a permittee is in violation of this chapter, an order issued under this chapter, a rule made under this chapter, or a permit condition required by this chapter, but the violation does not create an imminent danger to the health or safety of the public or cannot be reasonably expected to cause significant, imminent environmental harm to land, air, or water resources, the division shall issue a notice to the permittee or the permittee's agent specifying a reasonable time, but not more than 90 days, for the abatement of the violation and providing an opportunity for an informal conference with the division.

(ii) If, upon expiration of the period of time as originally fixed or subsequently extended, for good cause shown, and upon the written finding of the division, the division finds that the violation has not been abated, the division shall immediately order a cessation of brine mining operations or the portion of the brine mining operation relevant to the violation.

(iii) A cessation order issued under this Subsection (1)(c) remains in effect until the division determines that the violation is abated or until the division modifies, vacates, or terminates the order.

(ii) The board shall issue an order or decision granting or denying this relief expeditiously.

(d) (i) Following the issuance of an order to show cause as to why a permit should not be suspended or revoked pursuant to this section, the board shall hold a public hearing, after giving written notice of the time, place, and date of the hearing.

(ii) By no later than 60 days following the public hearing, the board shall issue and give the permittee and all other parties to the hearing, a written decision, and the reasons for the decision, regarding suspension or revocation of the permit.

(iii) If the board revokes a permit, the permittee shall immediately cease brine mining operations on the permit area and shall complete reclamation within a period specified by the board, or the board shall declare the surety forfeited for the brine mining operation.

(e) An action taken by the board under this section, or any other provision of this chapter, is subject to judicial review by a court with jurisdiction under Title 78A, Judiciary and Judicial Administration.

(4) (a) (i) The division may assess a permittee a civil penalty if the permittee violates a permit condition, this chapter, an order issued under this chapter, or a rule made under this chapter.

(ii) If a violation leads to the issuance of a cessation order under Subsection (1), the division shall assess a civil penalty.

(b) (i) A civil penalty under this Subsection (4) may not exceed $5,000 for each violation.

(ii) Each day of a continuing violation may be considered to be a separate violation for purposes of the civil penalty assessments.

(c) In determining the amount of the civil penalty, the division shall consider:

(i) the permittee's history of previous violations at the particular brine mining operation;

(ii) the seriousness of the violation, including any irreparable harm to the environment or hazard to the health or safety of the public;

(iii) whether the permittee was negligent; and

(iv) the demonstrated good faith of the permittee in attempting to achieve rapid compliance after notification of the violation.

(5) (a) By no later than 30 days after the issuance of a notice or order charging a violation has occurred, the division shall inform the permittee of a proposed assessment under Subsection (4).

(b) A person charged with the civil penalty has 30 days after issuance of a notice or order to:

(i) pay the proposed assessment in full; or

(ii) request an informal conference with the division.

(c) An informal conference held by the division may address either the amount of the proposed assessment, the fact of the violation, or both.

(d) If a permittee who requests an informal conference and participates in the proceedings is not in agreement with the results of the informal conference, the permittee may, within 30 days of receipt of the decision made by the division in the informal conference, request a hearing before the board.

(e) (i) Before review of the division's decision under Subsection (5)(d) by the board, and by no later than 30 days of receipt of the division's decision, the permittee shall forward to the division the amount of the proposed assessment for placement in an escrow account.

(ii) If the permittee fails to forward the amount of the civil penalty to the division by no later than 30 days of receipt of the results of the informal conference, the operator waives the opportunity for further review of the fact of the violation or to contest the amount of the civil penalty assessed for the violation.

(iii) If the board or a court determines that no violation occurred or that the amount of the civil penalty should be reduced, the division shall, within 30 days, remit the appropriate amount to the operator with interest accumulated.

(6) (a) A civil penalty assessed by the division is final only after the person charged with a violation described under Subsection (4) has been given an opportunity for a public hearing.

(b) If a public hearing is held, the board shall make findings of fact and shall issue a written decision as to the occurrence of the violation and the amount of the civil penalty which is warranted, incorporating, when appropriate, an order requiring that the civil penalty be paid.

(c) When appropriate, the board shall consolidate a hearing with other proceedings under Section 40-13-201.

(d) If a person charged with a violation does not attend the public hearing, the division may assess a civil penalty after the division:

(i) determines:

(A) that a violation occurred; and

(B) the amount of the civil penalty that is warranted; and

(ii) issues an order requiring that the civil penalty be paid.

(7) At the request of the board, the attorney general may bring a civil action in a court with jurisdiction under Title 78A, Judiciary and Judicial Administration, to recover a civil penalty owed under this chapter.

(8) (a) The division shall assess an operator who fails to correct a violation for which a notice or cessation order has been issued under Subsection (1)(b) within the period permitted for a correction of the violation a civil penalty of not less than $750 for each day during which the failure or violation continues.

(b) The period permitted for correction of a violation for which a notice of cessation order has been issued under Subsection (1)(b) may not end until:

(i) the entry of a final order by the board, in a review proceeding initiated by the operator, in which the board orders, after an expedited hearing, the suspension of the abatement requirements of the citation after determining that the operator will suffer irreparable loss or damage from the application of those requirements; or

(ii) the entry of an order of the court after a review proceeding initiated by the operator, in which the court orders the suspension of the abatement requirements of the citation.

(9) The division shall deposit money received by the state from civil penalties collected from actions resulting from this chapter into the Abandoned Mine Reclamation Fund established under Section 40-10-25.1 and shall use the money for the reclamation of mined land impacts not covered by reclamation surety.

(10) The division may not commence or maintain a suit, action, or other proceeding based upon a violation of this chapter, an order issued under this chapter, a rule made under this chapter, or a permit condition under this chapter, unless the suit, action, or proceeding is commenced within five years from the date of the alleged violation.

Section 6. Section 40-13-203 is enacted to read:

40-13-203. Criminal penalties.

(1) It is unlawful for a person to intentionally or knowingly:

(b) imprisonment for a term not to exceed six months as provided in Section 76-3-204; or

(c) both a fine and imprisonment.

(3) If a permittee violates Subsection (1), a director, officer, or agent of the permittee may be held criminally responsible in accordance with Section 76-2-205.

(4) A criminal proceeding for a violation described in Subsection (1) shall be commenced, as provided in Section 76-1-302, by no later than two years from the date of the alleged violation.

(5) The division or board may impose a civil penalty under Section 40-13-202 in addition to prosecution under this section.

Section 7. Section 40-13-204 is enacted to read:

40-13-204. Forfeiture of surety.

(1) Subsection (2) applies if the board determines that an operator has neglected, failed, or refused to:

(a) plug and abandon a brine well;

(b) close any surface impoundment;

(c) repair a brine well leaking or causing waste; or

(d) maintain and reclaim a site.

(2) A person who violates Subsection (1) shall forfeit from the person's surety or shall pay to this state a sum equal to the cost of:

Section 8. Section 40-13-205 is enacted to read:

40-13-205. Sale of equipment, installation, or material.

(1) After the board determines a brine well or facility is to be abandoned, as part of the plugging and reclamation process, the division may sell or dispose of in a manner the division sees fit the following found on the site or taken from the brine well or facility:

(a) drilling, producing, or operating equipment;

(b) installations; or

(c) material.

(2) A person to whom any equipment, installations, or material is sold under Subsection (1) receives the title to the equipment, installation, or material, free of any claim.

(3) When the division receives money on the sale or disposal of equipment, installation, or material under Subsection (1), the division shall:

(a) apply the money to the payment of any unpaid costs and civil penalty determined by the division; and

(b) if money remains after applying the money under Subsection (3)(a), the division shall return the unused money to the operator or a person who has established a legal right to the money.

Section 9. Section 40-13-301 is enacted to read:

PART 3. Brine Production Drilling Units, Pooling, or Fields

40-13-301. Establishment or modification of a brine production drilling unit.

(1) Upon the petition of an owner or operator of a brine well, the board may order the establishment of a brine production drilling unit.

(2) Within a brine production drilling unit, only one brine well may be drilled for production from the reservoir, except as provided in Subsections (6) and (7).

(3) A brine production drilling unit may not be smaller than the maximum area that can be efficiently and economically drained by one brine well.

(4) (a) Each brine production drilling unit within a reservoir shall be of uniform size and shape, unless the board finds that the board is required to make an exception due to geologic, geographic, or other factors.

(b) If the board finds it necessary to divide a reservoir into zones and establish a brine production drilling unit for each zone, brine production drilling units may differ in size and shape for each zone.

(5) An order of the board that establishes a brine production drilling unit for a reservoir shall:

(a) be made upon terms and conditions that are just and reasonable;

(b) include the lands determined by the board to overlay the reservoir;

(c) specify the acreage and shape of each brine production drilling unit as determined by the board; and

(d) specify the location of the brine well in terms of distance from brine production drilling unit boundaries and other brine wells.

(6) The board may establish a brine production drilling unit and concurrently authorize the drilling of more than one brine well in a

brine production drilling unit if the board finds that:

(a) engineering or geologic characteristics justify the drilling of more than one brine well in that brine production drilling unit; and

(b) the drilling of more than one brine well in the brine production drilling unit will not result in waste or unreasonably interfere with correlative rights.

(7) The board may modify an order that establishes a brine production drilling unit for a reservoir to provide for:

(a) an exception to the authorized location of a brine well;

(b) the inclusion of additional areas which the board determines overlays the reservoir;

(c) the increase or decrease of the size of the brine production drilling units; or

(d) the drilling of additional brine wells within brine production drilling units.

(8) After an order establishing a brine production drilling unit is entered by the board, the drilling of a brine well into the reservoir at a location other than that authorized by the order is prohibited.

Section 10. Section 40-13-302 is enacted to read:

40-13-302. Pooling of interests for the development and operation of a brine production drilling unit.

(1) Two or more owners within a brine production drilling unit may bring together their interests for the development and operation of the brine production drilling unit.

(2) (a) In the absence of a written agreement for pooling, including an operating agreement, the board may enter an order pooling all interests in the brine production drilling unit for the development and operation of the brine production drilling unit.

(b) The board shall make the order upon terms and conditions that are just and reasonable.

(c) The board may adopt terms appearing in an operating agreement:

(i) for the brine production drilling unit that is in effect between the consenting owners;

(ii) submitted by any party to the proceeding; or

(iii) submitted by the board's own motion.

(3) (a) Operations incident to the drilling of a brine well upon any portion of a brine production drilling unit covered by a pooling order are considered for all purposes to be the conduct of the brine mining operations upon each separately owned tract in the brine production drilling unit by the several owners.

(b) The portion of the production allocated or applicable to a separately owned tract included in a brine production drilling unit covered by a pooling order shall, when produced, be considered for all purposes to have been produced from that tract by a brine well drilled on the tract.

(4) (a) (i) A pooling order shall provide for the payment of just and reasonable costs incurred in the drilling and operating of the brine production drilling unit, including:

(A) the costs of drilling, completing, equipping, producing, gathering, transporting, processing, marketing, and storage facilities;

(B) reasonable charges for the administration and supervision of brine mining operations; and

(C) other costs customarily incurred in the industry.

(ii) An owner is not liable under a pooling order for costs or losses resulting from the gross negligence or willful misconduct of the operator.

(b) A pooling order shall provide for reimbursement to the consenting owners for any nonconsenting owner's share of the costs out of production from the brine production drilling unit attributable to the nonconsenting owner's tract.

(c) A pooling order shall provide that each consenting owner shall own and is entitled to receive, subject to royalty or similar obligations:

(i) the share of the production of the brine well applicable to the consenting owner's interest in the brine production drilling unit; and

(ii) unless the consenting owner has agreed otherwise, the consenting owner's proportionate part of the nonconsenting owner's share of the production until costs are recovered as provided in Subsection (4)(d).

(d) (i) A pooling order shall provide that each nonconsenting owner is entitled to receive, subject to royalty or similar obligations, the share of the production of the brine well applicable to the nonconsenting owner's interest in the brine production drilling unit after the consenting owners have recovered from the nonconsenting owner's share of production the following amounts less any cash contributions made by the nonconsenting owner:

(A) 100% of the nonconsenting owner's share of the cost of surface equipment beyond the wellhead connections, including stock tanks, separators, treaters, pumping equipment, and piping;

(B) 100% of the nonconsenting owner's share of the estimated cost to plug and abandon the brine well as determined by the board;

(C) 100% of the nonconsenting owner's share of the cost of brine mining operations of the brine well commencing with first production and continuing until the consenting owners have recovered all costs; and

(D) 300% on the first brine well and 150% for each subsequent brine well of the nonconsenting owner's share of the costs of staking the location, wellsite preparation, rights-of-way, rigging up, drilling, reworking, recompleting, deepening or plugging back, testing, and completing, and the cost of equipment in the brine well to and including the wellhead connections.

(ii) The nonconsenting owner's share of the costs specified in Subsection (4)(d)(i) is that interest that would have been chargeable to the nonconsenting owner had the nonconsenting owner initially agreed to pay the nonconsenting owner's share of the costs of the brine well from commencement of the brine mining operation.

(iii) A reasonable interest charge may be included if the board finds the interest charge appropriate.

(e) If there is a dispute about costs, the board shall determine the proper costs.

(5) If a nonconsenting owner's tract in the brine production drilling unit is subject to a lease, mining claim, or contract for the development of minerals within the brine, the pooling order shall provide that the consenting owners shall pay any royalty interest or other interest in the tract not subject to the deduction of the costs of production from the production attributable to that tract.

(6) (a) If a nonconsenting owner's tract in the brine production drilling unit is not subject to a lease, mining claim, or contract for the development of minerals within the brine production drilling unit, the pooling order shall provide that the nonconsenting owner shall receive as a royalty:

(i) the acreage weighted average royalty based on each leased fee and privately owned tract within the brine production drilling unit, proportionately reduced by the percentage of the nonconsenting owner's interest in the brine production drilling unit; or

(ii) if there is no leased fee or privately owned tract within the brine production drilling unit other than the one owned by the

nonconsenting owner, 7-1/2% proportionately reduced by the percentage of the nonconsenting owner's interest in the brine production drilling unit.

(b) The royalty shall be:

(i) determined as of the day drilling is commenced; and

(ii) paid from production attributable to each tract until the consenting owners have recovered the costs specified in Subsection (4)(d).

(7) Once the consenting owners have recovered the costs, as described in Subsection (6)(b)(ii), the royalty is merged back into the nonconsenting owner's working interest and is terminated.

(8) The operator of a brine well under a pooling order in which there is a nonconsenting owner shall furnish the nonconsenting owner with monthly statements specifying:

(a) costs incurred;

(b) the total volume of production of brine and the volumes extracted therefrom; and

(c) the amount of brine proceeds realized from the sale of the production during the preceding month.

(9) A pooling order shall provide that when the consenting owners recover from a nonconsenting owner's relinquished interest the amounts provided for in Subsection (4)(d):

(a) the relinquished interest of the nonconsenting owner shall automatically revert to the nonconsenting owner;

(b) the nonconsenting owner shall from that time:

(i) own the same interest in the brine well and the production from the brine well; and

(ii) be liable for the further costs of the brine mining operation as if the nonconsenting owner had participated in the initial drilling and operation; and

(c) costs are payable out of production unless otherwise agreed between the nonconsenting owner and the operator.

(10) A pooling order shall provide that in any circumstance where the nonconsenting owner has relinquished the nonconsenting owner's share of production to consenting owners or at any time fails to take the nonconsenting owner's share of production in-kind when the nonconsenting owner is entitled to do so, the nonconsenting owner is entitled to:

(a) an accounting of the brine proceeds applicable to the nonconsenting owner's relinquished share of production; and

(b) payment of the brine proceeds applicable to that share of production not taken in-kind, net of costs.

Section 11. Section 40-13-303 is enacted to read:

40-13-303. Order establishing brine field unit.

(1) (a) The board may hold a hearing to consider the need for the operation as a unit of one or more brine reservoirs or parts of brine reservoirs in a field.

(b) The board shall consider including any state lands within a brine field unit that would not otherwise be protected from drainage because of the inability to develop the state lands due to geography or other factors.

(2) The board shall make an order providing for the unit operation of a reservoir or part of a reservoir, if the board finds that:

(a) the operation is reasonably necessary for the purposes of this chapter; and

(b) the value of the estimated additional recovery of brine substantially exceeds the estimated additional cost incident to conducting the operations.

(3) (a) An order by the board establishing or modifying a brine field or brine field unit shall prescribe a plan for unit operations that shall include:

(i) a description of the lands and of the reservoir that is established as the brine field or brine field unit;

(ii) subject to Subsection (3)(b), an allocation of the brine produced in the brine field unit to the separately-owned tracts in the brine field or brine field unit;

(iii) the method for apportioning costs of development and operation between the separately owned tracts and how these costs are paid including a provision providing a procedure for the unit production allocated to an owner who does not pay the share of the cost of unit operations charged to such owner, or the interest of that owner, to be sold and the brine proceeds applied to the payment of the costs;

(iv) a provision, if necessary, for carrying or otherwise financing a person who elects to be carried or otherwise financed, allowing a reasonable interest charge for this service payable out of that person's share of the production;

(v) the method and circumstances under which brine or effluent from the brine field unit may be injected into the reservoir or other formations;

(vi) the time when the unit operations shall commence, and the manner in which and the circumstances under which, the unit operations shall terminate;

(vii) the additional provisions that the board finds appropriate for carrying out the unit operations, and for the protection of correlative rights; and

(viii) the designation of a unit operator.

(b) (i) The allocation under Subsection (3)(a)(ii) shall be in accord with the agreement, if any, of the interested parties.

(ii) If there is no agreement, the board shall determine the relative value, from evidence introduced at the hearing, of the separately owned tracts in the brine field unit area and the production allocated to each tract shall be the proportion that the relative value of each tract so determined bears to the relative value of all tracts in the brine field unit area.

(4) (a) An order of the board providing for unit operations of a reservoir may not become effective unless and until:

(i) the plan for unit operations prescribed by the order has been approved in writing by:

(A) those owners who, under the board's order, will be required to pay 70% of the costs of the unit operation; and

(B) the owners of 70% of the production or brine proceeds that will be credited to interests that are free of costs, such as royalties, overriding royalties, and production payments; and

(ii) the board makes a finding, either in the order providing for unit operations or in a supplemental order, that the plan for unit operations has been so approved.

(b) If the persons owning required percentage of interest in a brine field unit area do not approve the plan for unit operations within six months from the date on which the order providing for unit operations is made, the order is ineffective and the board shall revoke the

order unless good cause exists to extend the time.

(5) An order providing for unit operations may be amended by an order made by the board in the same manner and subject to the same conditions as an original order providing for unit operations.

(6) (a) Operations, including the commencement, drilling, or operation of a brine well upon any portion of the brine field unit area is considered for all purposes the conduct of operations upon each separately owned tract in the brine field unit area by the several owners.

(b) The portions of the unit production allocated to a separately owned tract in a brine field unit area shall, when produced, be considered, for all purposes, to have been actually produced from the tract by a brine well drilled.

(7) Operations carried on under the plan of unitization shall constitute a fulfillment of all of the provisions of the brine leases or other contracts upon lands included within the brine field unit area insofar as the leases or contracts may relate to the reservoir or portion of the reservoir included within the brine field unit.

Section 12. Section 40-13-401 is enacted to read:

PART 4. Brine Mining Operations

40-13-401. Permits required.

(1) A person may not engage in brine mining operations in the state without a permit.

(2) A person may only transfer a permit to another person with permission of the division.

(3) The division may issue a permit:

(a) authorizing construction, operation, maintenance, and cessation of processing and refining facilities and brine wells; and

(b) approving, as part of that permit, post-cessation reclamation of the site.

(4) As a condition for approval of a permit, the owner and operator shall furnish surety in an amount determined by the division to cover reclamation costs for the facility and any associated brine wells.

(5) Approval of a permit is conditioned upon compliance with the laws, rules, and orders of the board.

(6) The board may order the closure of a facility and any associated brine wells:

(a) if adequate surety is not posted;

(b) if a violation of the laws, rules, and orders of the board exists and is not abated; or

(c) for a significant violation of federal or state law not described in Subsection (6)(b) or substantial cause related to a natural disaster or imminent property destruction.

Section 13. Section 40-13-402 is enacted to read:

40-13-402. Payment of brine proceeds.

(1) (a) A payor shall pay the brine proceeds derived from the sale of the minerals extracted from the brine to persons legally entitled to payment of the brine proceeds not later than 180 days after the date of first sale, and thereafter not later than 60 days after the end of the calendar month within which brine proceeds are received for subsequent production.

(b) A payor shall make a payment directly to the person entitled to the payment by the payor.

(c) A payor shall include the following information with each payment made to a person entitled to payment of brine proceeds from the sale of the mined minerals:

(i) unit identification;

(ii) month and year of sales included in the payment;

(iii) total volume of production from the unit of brine and volumes of minerals extracted;

(iv) owner's interest, expressed as a decimal, in production from the unit;

(vii) owner's share of the total value of sales after any deductions; and

(viii) a detailed listing of the amount and purpose of any deductions.

(2) (a) A delay in determining whether a person is legally entitled to an interest in the brine proceeds does not affect payments to other persons entitled to payment.

(b) If accrued payments cannot be made within the time limits specified in Subsection (1), the payor shall deposit the brine proceeds credited to the eventual brine proceeds owner to an escrow account in a federally insured bank or savings and loan institution using a standard escrow document form.

(c) An escrow agent shall pay the principal and accrued interest from the escrow account to the person legally entitled to the principal and interest within 30 days from the date of receipt by the escrow agent of final legal determination of entitlement to the payment.

(8) A person who owns or operates a facility or site required to have an approved hazardous waste operation plan under this section and who has pending a permit application before the United States Environmental Protection Agency shall be treated as having an approved plan until final administrative disposition of the permit application is made under this section, unless the director determines that final administrative disposition of the application has not been made because of the failure of the owner or operator to furnish any information requested, or the facility's interim status has terminated under Section 3005 (e) of the Resource Conservation and Recovery Act, 42 U.S.C. Sec. 6925 (e).

(9) The director may not approve a proposed nonhazardous solid or hazardous waste operation plan unless the plan contains the information that the board requires, including:

(a) estimates of the composition, quantities, and concentrations of any hazardous waste identified under this part and the proposed treatment, storage, or disposal of the hazardous waste;

(b) evidence that the transfer, treatment, or disposal of nonhazardous solid waste or treatment, storage, or disposal of hazardous waste will not be done in a manner that may cause or significantly contribute to an increase in mortality, an increase in serious irreversible or incapacitating reversible illness, or pose a substantial present or potential hazard to human health or the environment;

(c) consistent with the degree and duration of risks associated with the transfer, treatment, or disposal of nonhazardous solid waste or treatment, storage, or disposal of specified hazardous waste, evidence of financial responsibility in whatever form and amount that the director determines is necessary to ensure continuity of operation and that upon abandonment, cessation, or interruption of the operation of the facility or site, the reasonable measures consistent with the available knowledge will be taken to ensure that the waste subsequent to being treated, stored, or disposed of at the site or facility will not present a hazard to the public or the environment;

(d) evidence that the personnel employed at the facility or site have education and training for the safe and adequate handling of nonhazardous solid or hazardous waste;

(e) plans, specifications, and other information that the director considers relevant to determine whether the proposed nonhazardous solid or hazardous waste operation plan will comply with this part and the rules of the board;

(f) compliance schedules, when applicable, including schedules for corrective action or other response measures for releases from a solid waste management unit at the facility, regardless of the time the waste was placed in the unit;

(g) for a proposed operation plan submitted on or after July 1, 2013, for a new solid or hazardous waste facility other than a water treatment facility that treats, stores, or disposes site-generated solid or hazardous waste onsite, a traffic impact study that:

(i) takes into consideration the safety, operation, and condition of roadways serving the proposed facility; and

(ii) is reviewed and approved by the Department of Transportation or a local highway authority, whichever has jurisdiction over each road serving the proposed facility, with the cost of the review paid by the person who submits the proposed operation plan; and

(h) for a proposed operation plan submitted on or after July 1, 2013, for a new nonhazardous solid waste facility owned or operated by a local government, financial information that discloses the costs of establishing and operating the facility, including:

(10) The director may not approve a commercial nonhazardous solid or hazardous waste operation plan that meets the requirements of Subsection (9) unless the operation plan contains the information required by the board, including:

(a) evidence that the proposed commercial facility has a proven market of nonhazardous solid or hazardous waste, including:

(i) information on the source, quantity, and price charged for treating, storing, and disposing of potential nonhazardous solid or hazardous waste in the state and regionally;

(ii) a market analysis of the need for a commercial facility given existing and potential generation of nonhazardous solid or hazardous waste in the state and regionally; and

(11) The director may not approve a commercial nonhazardous solid or hazardous waste facility operation plan unless based on the application, and in addition to the determination required in Subsections (9) and (10), the director determines that:

(a) the probable beneficial environmental effect of the facility to the state outweighs the probable adverse environmental effect; and

(b) there is a need for the facility to serve industry within the state.

(12) (a) The director may not approve an operation plan or permit for a nonhazardous solid waste class VII landfill facility unless, based on the application, the operation plan and permit contain engineering plans and specifications for cell design that includes:

(ii) a clay liner system equivalent to a liner system described in Subsection (12)(c)(i).

[~~(12)~~](13) Approval of a nonhazardous solid or hazardous waste operation plan may be revoked, in whole or in part, if the person to whom approval of the plan has been given fails to comply with that plan.

[~~(13)~~](14) The director shall review approved nonhazardous solid and hazardous waste operation plans at least once every five years.

[~~(14)~~](15) Subsections (10) and (11) do not apply to a hazardous waste facility in existence or to an application filed or pending in the department before April 24, 1989, that are determined by the executive secretary of the board on or before December 31, 1990, to be complete, in accordance with state and federal requirements applicable to operation plans for hazardous waste facilities.
