
FY 2009 Issue Brief – HED – Tuition

NUMBER USHE-17

SUMMARY

Tuition is becoming a more significant portion of higher education funding each year. Tuition is used to pay for a portion of any compensation increase approved by the Legislature. In addition, tuition may be used for specific institutional needs.

OBJECTIVE

To provide comparative information of tuition levels and historical tuition increases.

DISCUSSION AND ANALYSIS

With the exception of 1996-97, tuition rates have increased annually for the past 15 years. First-tier tuition is used for the institution's share of the cost of any compensation increases approved by the Legislature. The first-tier tuition rate increase is approved at the same level for all institutions following the final legislative budget approval. Several years ago, the State Board of Regents began approving second-Tier tuition, which is additional funding requests from each institutional President, with the approval of the institutional Board of Trustees to meet specific institutional needs. Second-tier tuition rate increases may apply to all programs equally or they may be different for specific programs. (R 510-3.2). The sum of the first-tier tuition increase and the second-tier tuition increase result in the total tuition increase paid by the students.

Since 1999-2000, annual first-tier tuition increases have been between 3 and 5.5 percent. Second-tier tuition increases vary from institution to institution and have been as low as no increase to as high as 27 percent.

The following tables show resident and non-resident tuition rates since FY 2000. The tables show when and by how much first and second-tier tuition increases were approved. The next series of tables show a comparison of tuition and fees charged by the USHE institutions with similar institutions in the WICHE states (Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, North Dakota, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington, and Wyoming). The tuition rates are further compared with just the Rocky Mountain states (Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming).

Tuition rates at the University of Utah and Utah State University are compared with other four-year doctorate degree-granting institutions. Rates at Weber State University and Southern Utah University are compared to other four-year institutions with Masters degree programs. Tuition rates for four-year bachelor degree programs include Dixie State College and Utah Valley State College. The tuition rates at Snow College, the College of Eastern Utah, and Salt Lake Community College are compared to other community colleges.

Tuition and fees at the **University of Utah** are at a level approximately 80 percent of the average of the WICHE states and at nearly 95 percent of the average of the Rocky Mountain states.

Tuition and fees at **Utah State University** are approximately 83 percent of the WICHE average and 95 percent of the Rocky Mountain states.

Weber State University's tuition levels are at 88 percent of the WICHE average of similar institutions and 86 percent of the Rocky Mountain average.

Tuition rates at **Southern Utah University** are nearly 90 percent of the WICHE average and 109 percent of the Rocky Mountain average.

Dixie State College's tuition rates are 65 percent of the WICHE average and 71 percent of the Rocky Mountain average.

The tuition rates at **Utah Valley State College** are 86 percent of the WICHE average and 95 percent of the Rocky Mountain average.

Tuition rates at the **College of Eastern Utah** are at 129 percent of the WICHE average and nearly 111 percent of the Rocky Mountain average. The rates at **Snow College** are at 134 percent of the WICHE average and 115 percent of the Rocky Mountain average. **Salt Lake Community College**'s tuition levels are at 149 percent of the WICHE average and 128 percent of the Rocky Mountain average.
